MediLink
Integrated Healthcare System

User Manual for Doctors

medilink.oas.lguapp.com · Municipality of Oas, Albay

Prepared by iConcept IT Solutions

SECTION 1

Getting Started

This section explains what MediLink is, how a doctor signs in, and how the Doctor screen is laid out.

In this section

1.1 About MediLink
1.2 Signing in
1.3 The Doctor screen
1.4 Account menu and signing out

1.1 About MediLink

MediLink, the Integrated Healthcare System of the Municipality of Oas, connects patients with the Municipal Health Office. Residents book appointments online; doctors use MediLink to see their schedule, open each patient's record, and write findings, orders and prescriptions in one place.

As a **Doctor** you can:

- see your appointments in a calendar (month, week, day or agenda list);
- find a patient and open the patient's full record;
- record vital signs, medication, allergies, diagnosis, diet advice, pain areas, notes and treatment plans;
- write prescriptions, and request laboratory and imaging tests;
- view laboratory and imaging results and attachments;
- mark an appointment as complete;
- manage the list of services you offer and their fees; and
- view a report of your consultations.

> **IMPORTANT** **Sample data only.** All patients, doctors, appointments, results, prices and pharmacies shown in this manual are sample data used for training. They are not real records.

1.2 Signing in

1. Open a web browser and go to **medilink.oas.lguapp.com**.
2. The MediLink home page opens. Click **LOGIN** at the top right (Figure 1.1).
3. Sign in with the doctor account given to you by the system administrator.
4. After signing in, MediLink opens the **Appointment** calendar (see Section 2).

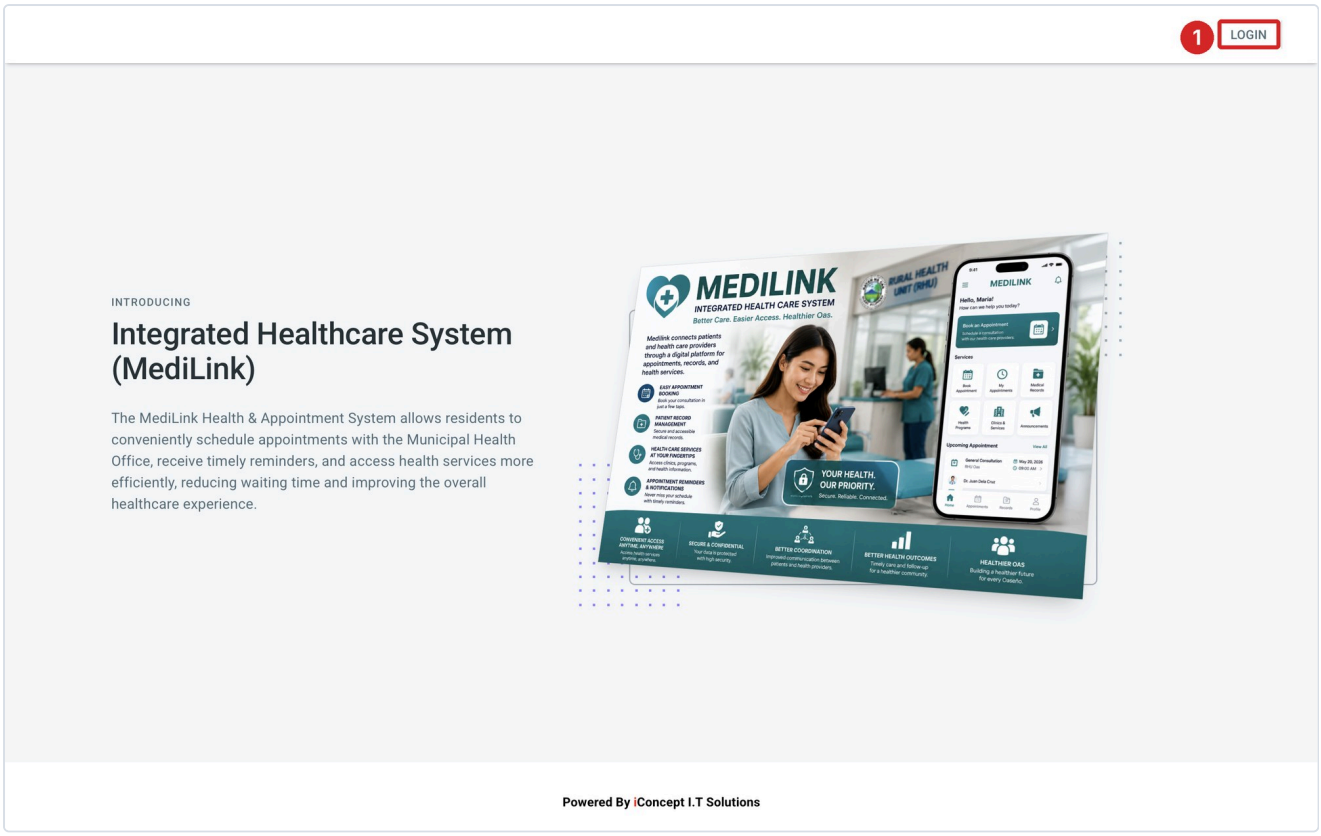

Figure 1.1. The MediLink home page.

1 LOGIN button

> **IMPORTANT** Keep your password private. Each doctor must sign in with his or her own account so that every record shows who entered it.

1.3 The Doctor screen

Every page for the doctor has the same frame (Figure 1.2).

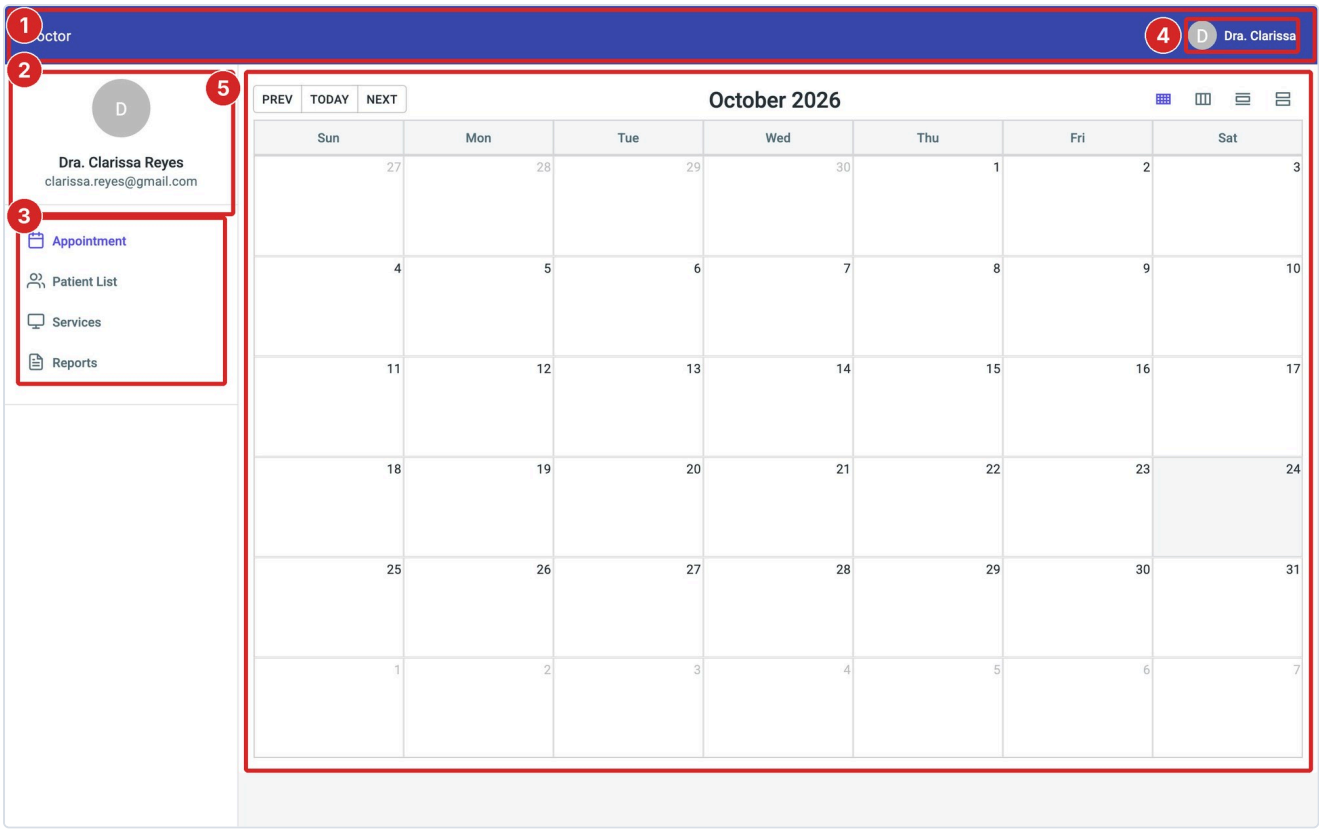

Figure 1.2. The Doctor screen, showing the Appointment calendar.

1 Top bar 2 Your profile (photo, name and email) 3 Main menu 4 Account menu 5 Work area

Part	What it does
1 Top bar	Shows that you are signed in with the **Doctor** role.
2 Your profile	Your photo, name and email. Click your photo or name to open your account settings (Section 9).
3 Main menu	**Appointment** (Section 2), **Patient List** (Section 3), **Services** (Section 7) and **Reports** (Section 8). The page you are on is shown in blue.
4 Account menu	Your name at the top right. Click it for **Account** and **Logout** (1.4).
5 Work area	The content of the page you opened.

1.4 Account menu and signing out

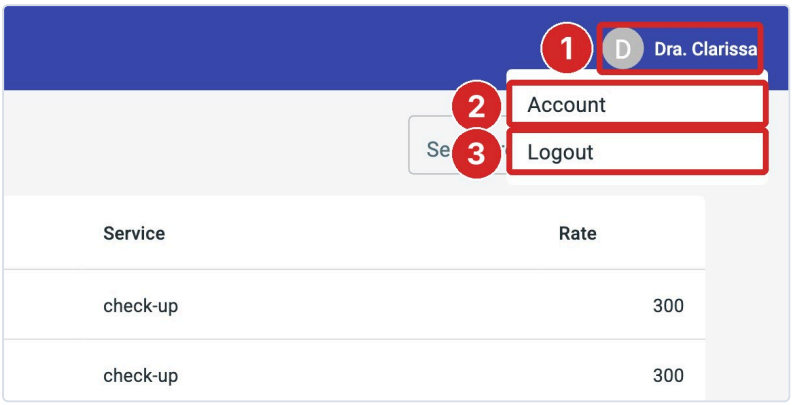

Figure 1.3. The account menu at the top right.

1 Your name (click to open the menu) 2 Account 3 Logout

- Click **Account** to change your profile, email or password (Section 9).
- Click **Logout** to sign out. Always sign out when you leave a shared computer.

SECTION 2

Appointments

The Appointment page is a calendar of the consultations booked with you. From an appointment you can open the patient's record.

In this section

2.1 The appointment calendar

2.2 Week, Day and Agenda views

2.3 Viewing an appointment

2.1 The appointment calendar

Click **Appointment** in the main menu. The calendar opens on the current month. Each appointment appears on its date as a blue bar with the time, the service and the patient's name.

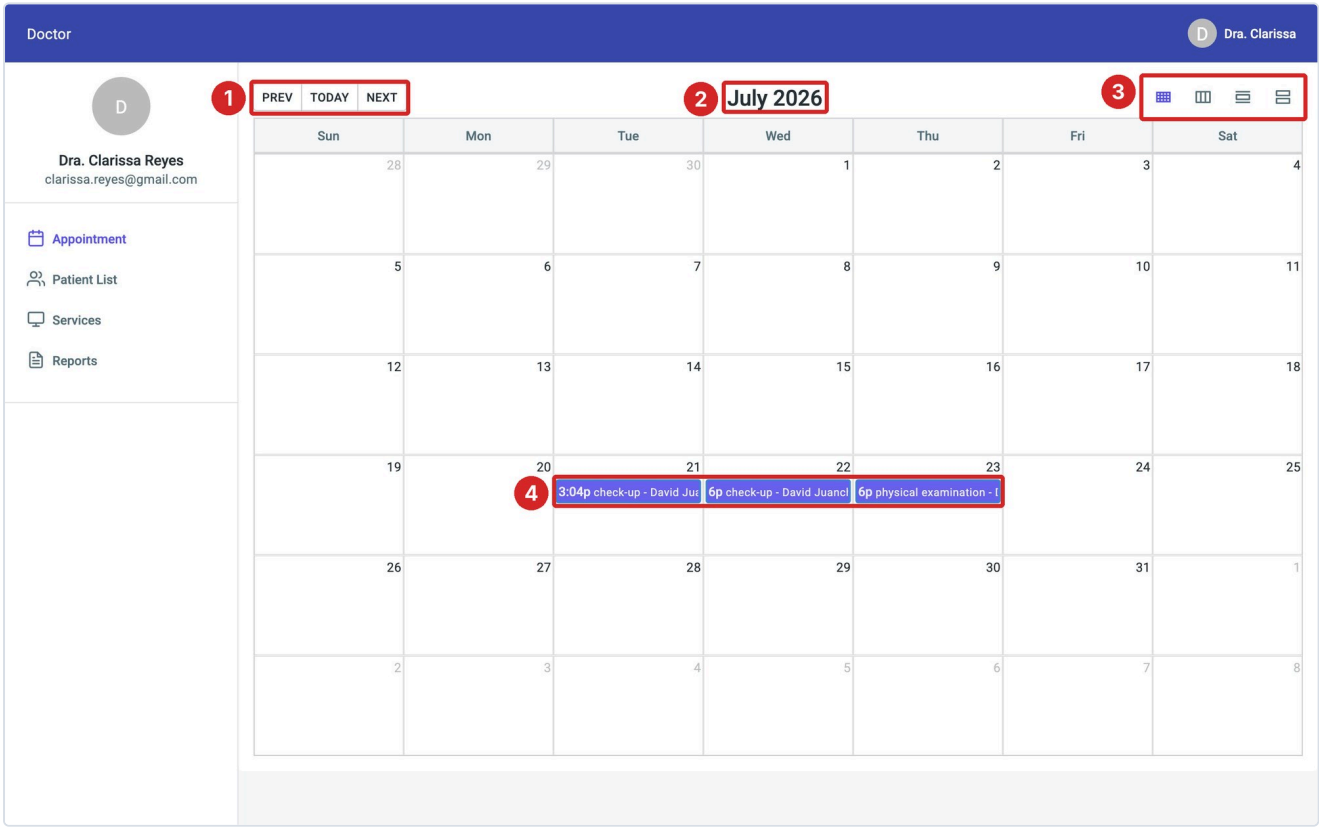

Figure 2.1. The calendar in Month view.

1 PREV, TODAY and NEXT buttons 2 Month shown 3 View buttons: Month, Week, Day, Agenda 4 Appointments

- Click **PREV** or **NEXT** to move to the previous or next month (or week or day, depending on the view).
- Click **TODAY** to return to the current date. Today is shaded in the calendar.
- Click an appointment to see its details (2.3).

2.2 Week, Day and Agenda views

Use the four buttons at the top right of the calendar to change the view.

Button	View	Use it to
First	Month	See the whole month at a glance (Figure 2.1).
Second	Week	See one week by hour, Sunday to Saturday (Figure 2.2).
Third	Day	See one day by hour (Figure 2.3).
Fourth	Agenda	See a list of the month's appointments grouped by date, with the time of each (Figure 2.4).

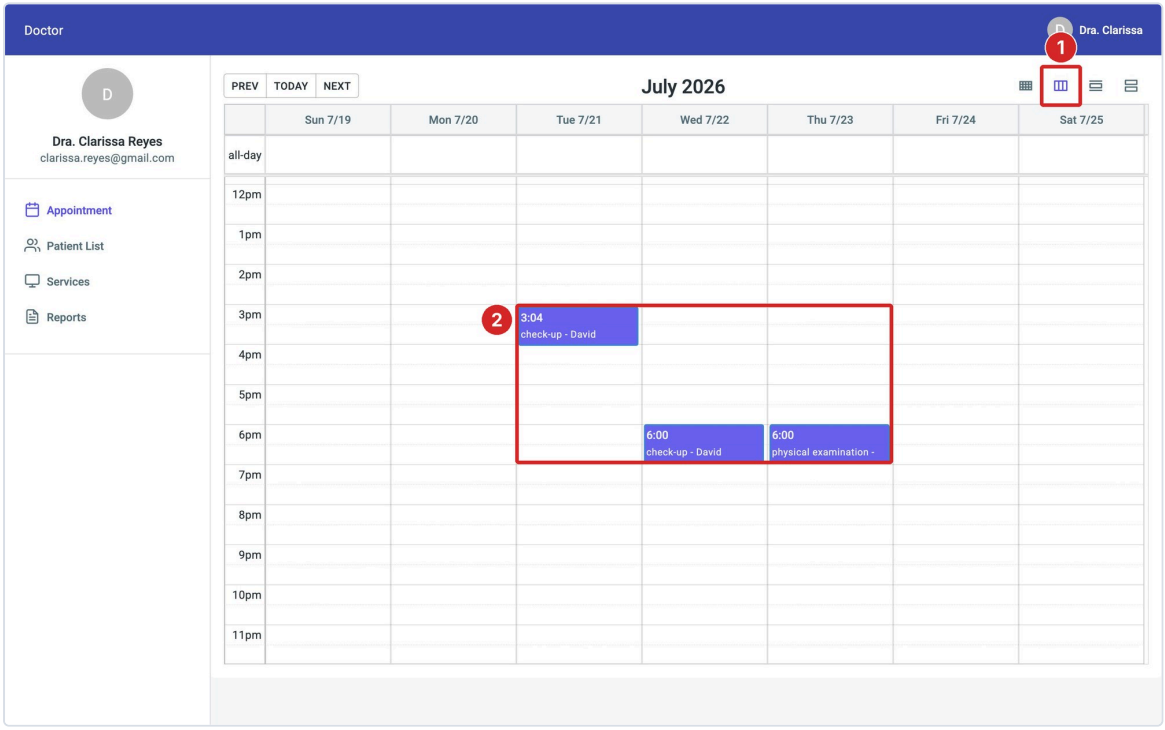

Figure 2.2. Week view.

1 Week button 2 Appointments placed at their time

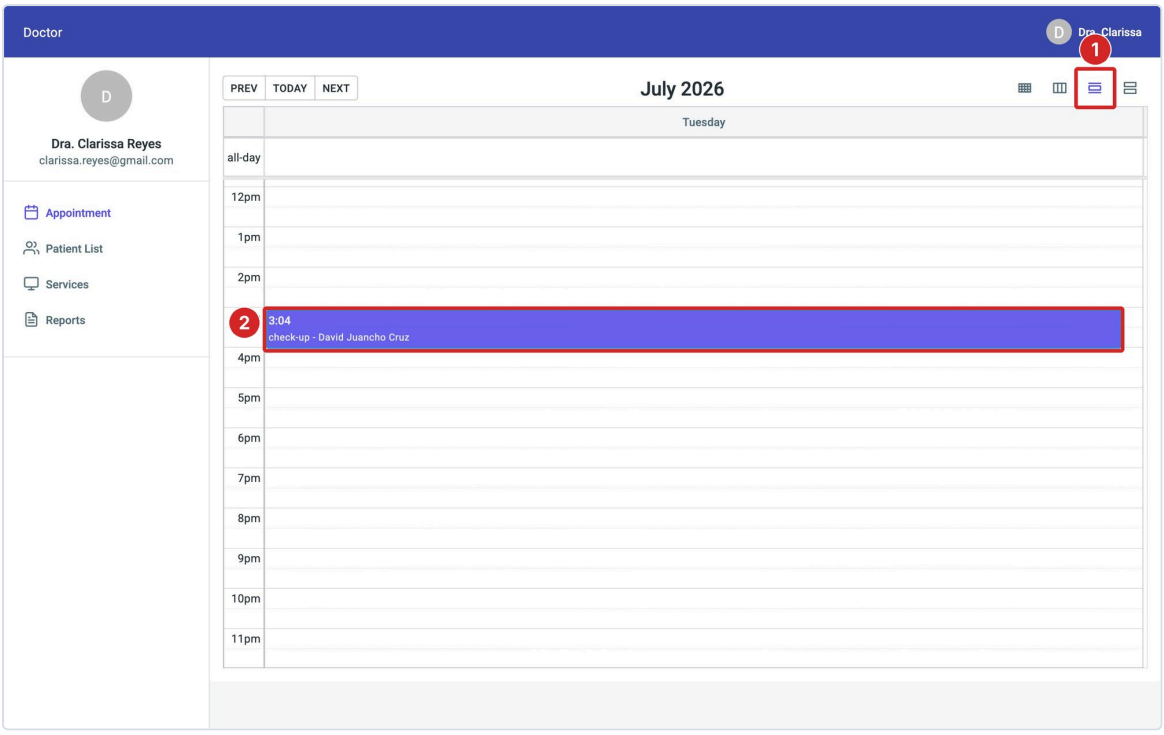

Figure 2.3. Day view.

1 Day button 2 Appointment

Figure 2.4. Agenda view.

1 Agenda button 2 Appointments listed by date

> **NOTE** In Week and Day views, scroll inside the calendar to see earlier or later hours.

2.3 Viewing an appointment

Click an appointment in any view. A **Details** panel opens on the right.

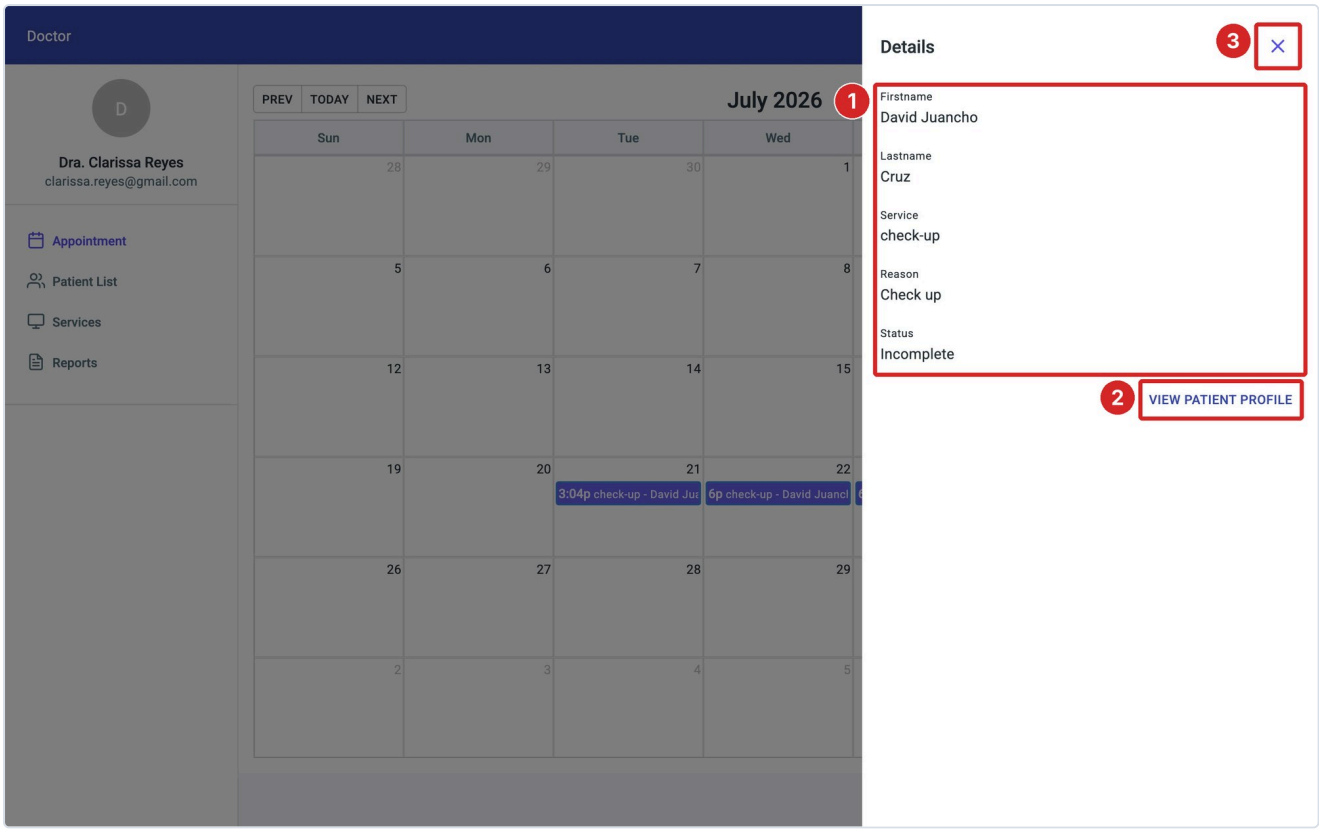

Figure 2.5. Appointment details.

1 Patient first and last name, service, reason and status 2 VIEW PATIENT PROFILE 3 Close (X)

Field	What it shows
Firstname / Lastname	The patient who booked the appointment.
Service	The service booked, for example *check-up*.
Reason	The reason the patient gave when booking.
Status	**Incomplete** until you mark the appointment complete (4.1).

1. Click **VIEW PATIENT PROFILE** to open the patient's record (3.2).
2. Or click **X** to close the panel.

SECTION 3

Patient List

The Patient List shows all of your patients. From here you open a patient's record.

In this section

3.1 Finding a patient
3.2 The patient record page

3.1 Finding a patient

Click **Patient List** in the main menu.

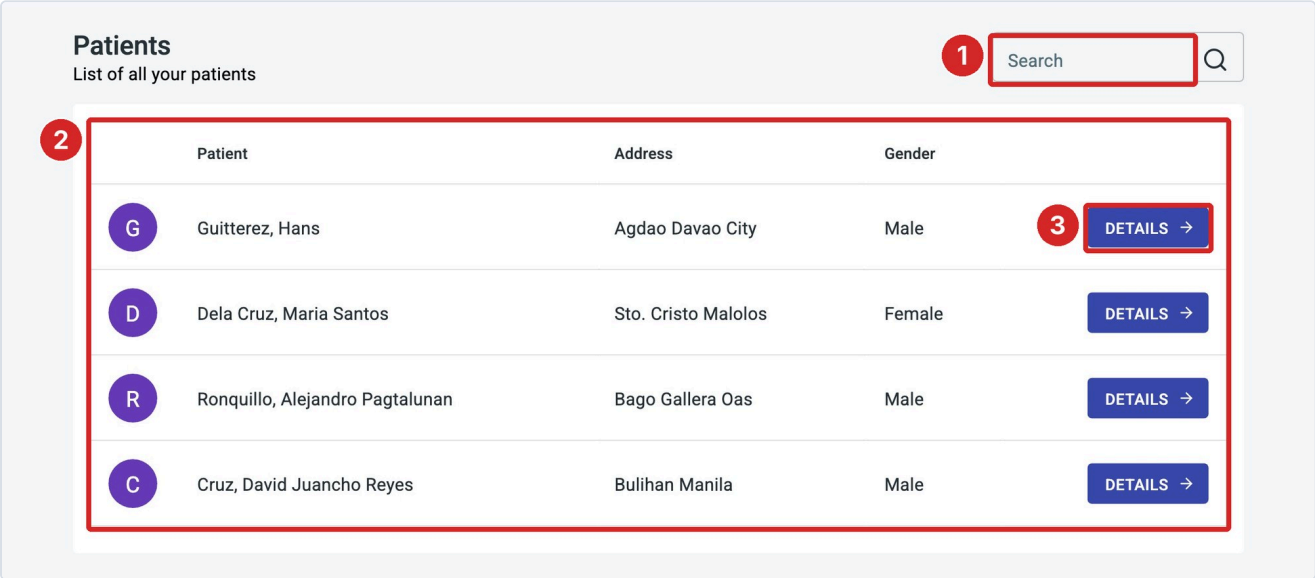

Figure 3.1. The Patients page.

1 Search box 2 Patient list (name, address, gender) 3 DETAILS button

1. To find a patient quickly, type part of the patient's name in the **Search** box. The list narrows as you type (Figure 3.2).
2. Click **DETAILS** on the patient's row to open the patient record.

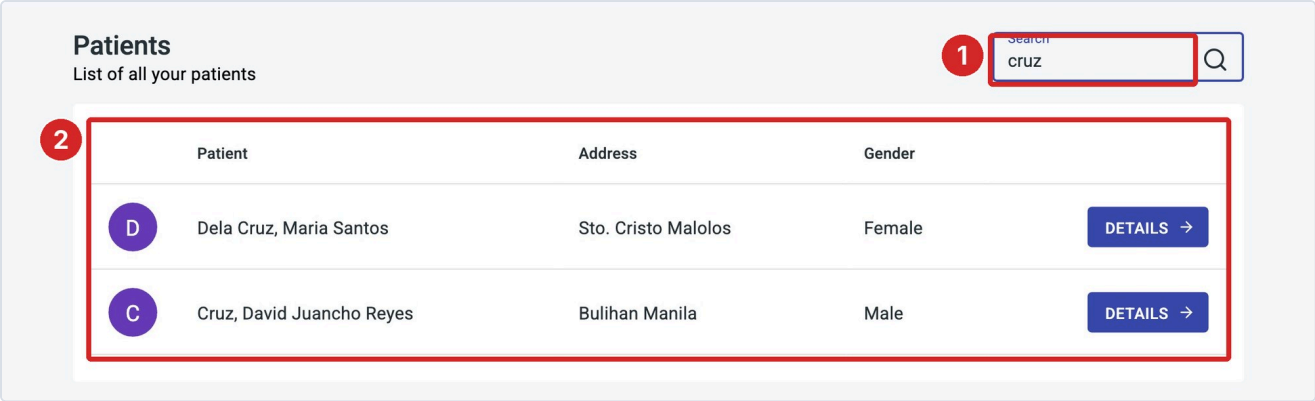

Figure 3.2. Searching for a patient by name.

1 Search text 2 Matching patients

3.2 The patient record page

The patient record page is where you do most of your work. It opens from **DETAILS** in the Patient List or from **VIEW PATIENT PROFILE** on an appointment.

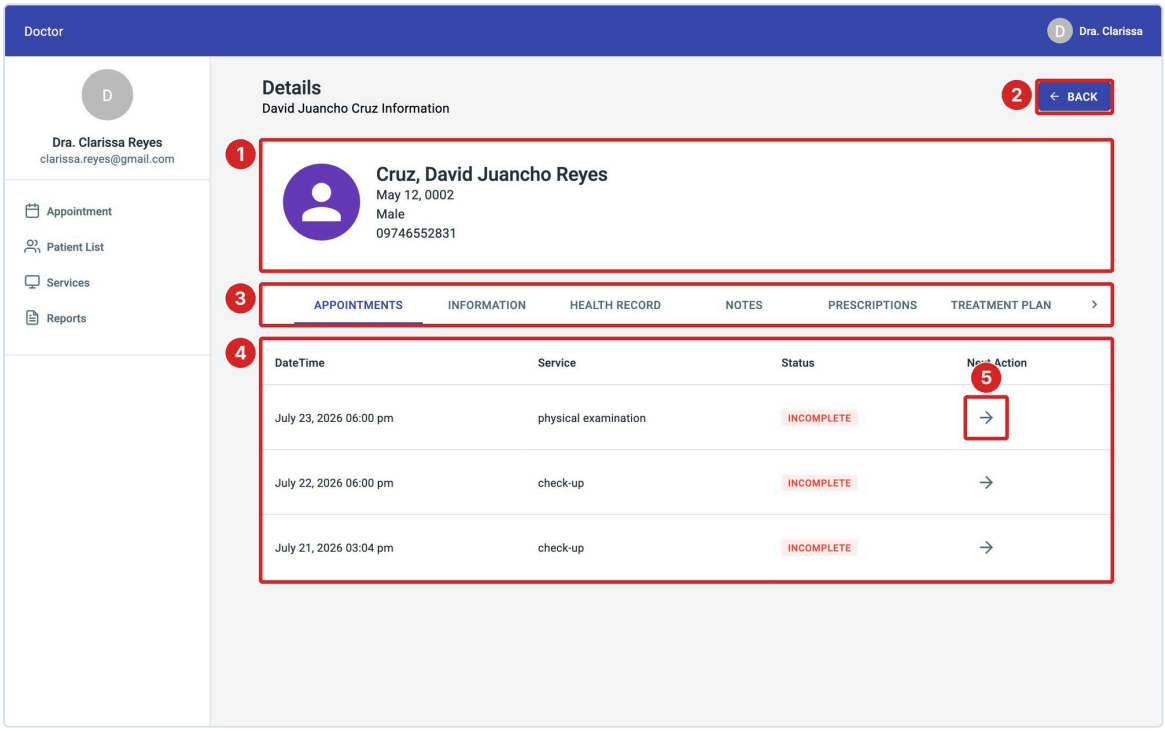

Figure 3.3. The patient record page.

1 Patient card: name, birth date, sex, contact number 2 BACK button 3 Record tabs 4 Contents of the open tab 5 Next Action button

The tabs across the page give you each part of the record. If not all tabs fit, click the arrow (›) at the end of the row to see the rest.

Tab	What it is for	See
Appointments	The patient's appointments with you, and marking them complete.	4.1

Tab	What it is for	See
Information	The patient's personal details.	4.2
Health Record	Vital signs, medication, allergies, diagnosis, diet, pain and vitals monitoring.	4.3 – 4.9
Notes	Consultation notes with the initial diagnosis.	5.1
Prescriptions	Writing and viewing prescriptions.	5.3
Treatment Plan	Scheduled treatment plans.	5.2
Laboratory	Laboratory requests and results.	Section 6
Imaging	Imaging requests (for example ECG, X-ray) and results.	Section 6

Click **BACK** to return to the previous page.

SECTION 4

Appointments, Information and Health Record

These tabs hold the patient's visits, personal details and health record.

In this section

4.1 Appointments tab and completing an appointment

4.2 Information tab

4.3 Health Record and Pre-Lab

4.4 Medication

4.5 Allergies

4.6 Diagnosis

4.7 Diet

4.8 Pain Monitoring

4.9 Vitals Monitoring

4.1 Appointments tab and completing an appointment

The **Appointments** tab lists the patient's appointments with the date and time, service and status (Figure 3.3). When you finish a consultation, mark it complete:

1. On the appointment row, click the arrow under **Next Action**.
2. A **Details** panel shows the service, its amount (fee) and the reason for the visit.
3. Click **SET COMPLETE** to mark the consultation as done.

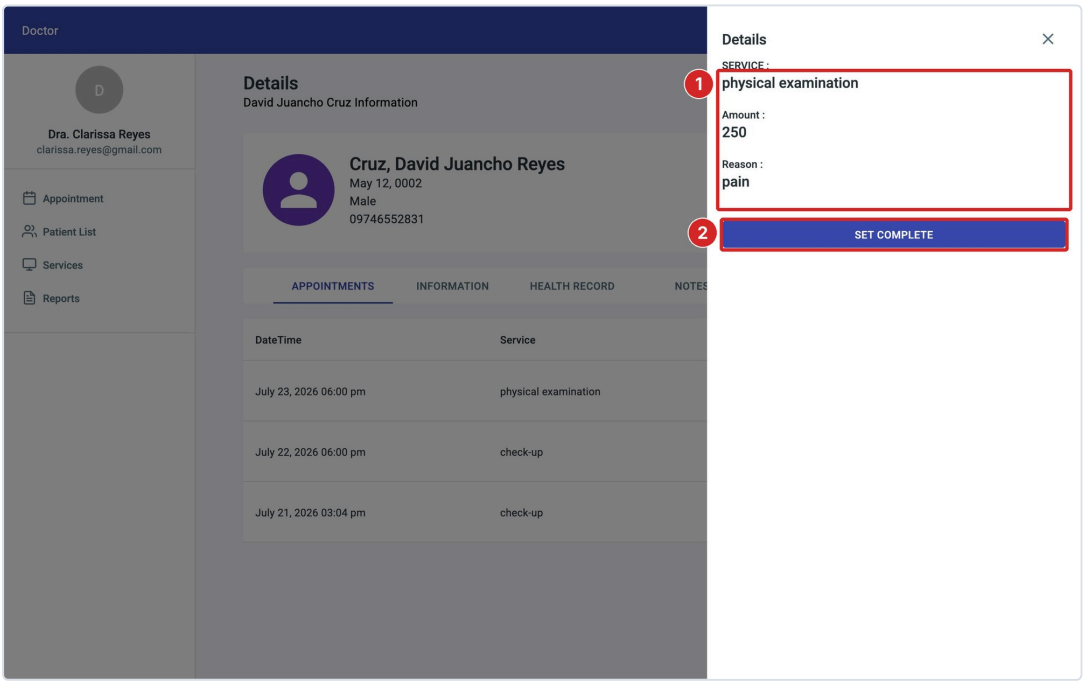

Figure 4.1. Completing an appointment.

1 Service, amount and reason 2 SET COMPLETE button

Clicking **SET COMPLETE** opens the **Set Complete** window. Choose whether the patient needs a follow-up in **Select Option** (required).

Figure 4.2. The Select Option list.

1 NO FOLLOW-UP or SET FOLLOW-UP

No follow-up needed:

1. Choose **NO FOLLOW-UP**.
2. Click **SET COMPLETE**.

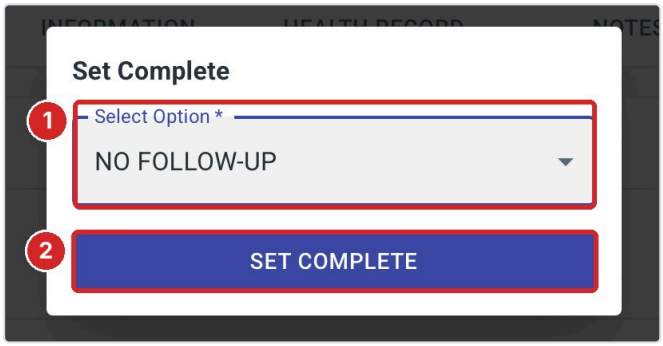

Figure 4.3. Completing without a follow-up.

1 Select Option: NO FOLLOW-UP 2 SET COMPLETE

Patient should come back:

1. Choose **SET FOLLOW-UP**. A **Description** box and a calendar appear.
2. Type the reason in **Description** (required), for example *New Prescription*.
3. Pick the follow-up date on the calendar. Use the arrows to change the month.
4. Click **SET COMPLETE**.

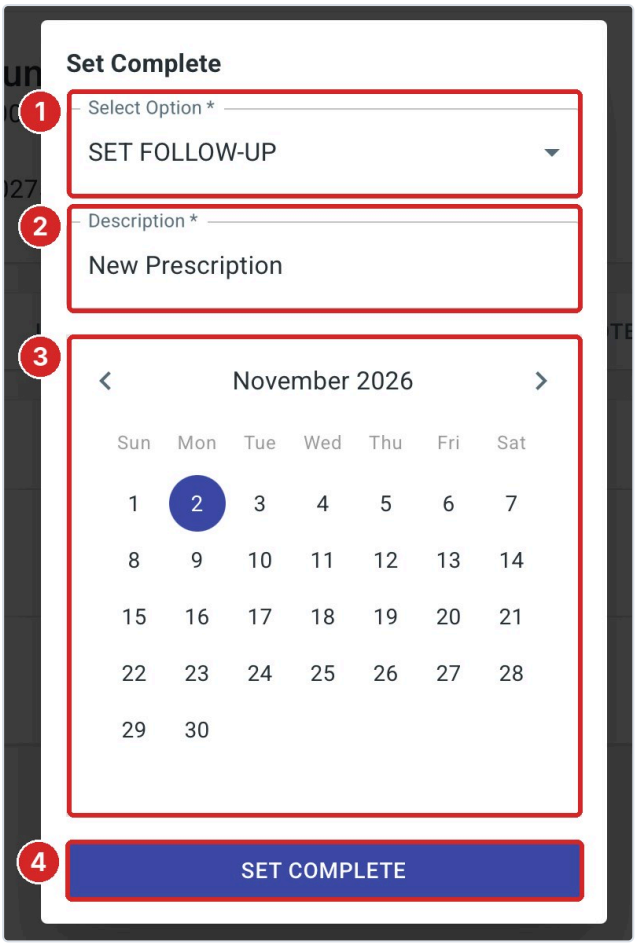

Figure 4.4. Completing with a follow-up.

1 Select Option: SET FOLLOW-UP 2 Description 3 Follow-up date 4 SET COMPLETE

A green message *Appointment successfully updated.* confirms it, and the appointment's status changes to **COMPLETED** on the Appointments tab.

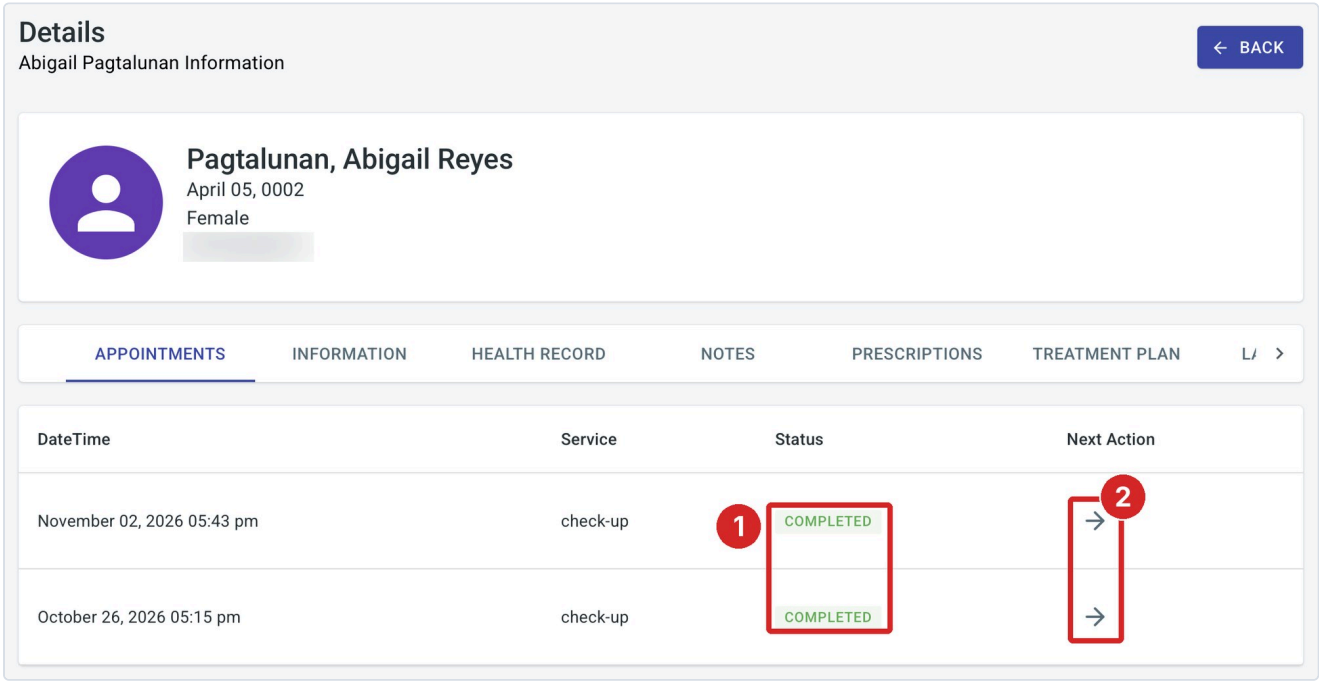

Figure 4.5. The completed appointments.

1 Status: COMPLETED 2 Next Action

> **WARNING** Click **SET COMPLETE** only after the consultation is finished.

4.2 Information tab

The **Information** tab shows the patient's personal details: first name, last name, middle name, civil status, street, barangay, city, contact number and religion. You can view these details but not change them here.

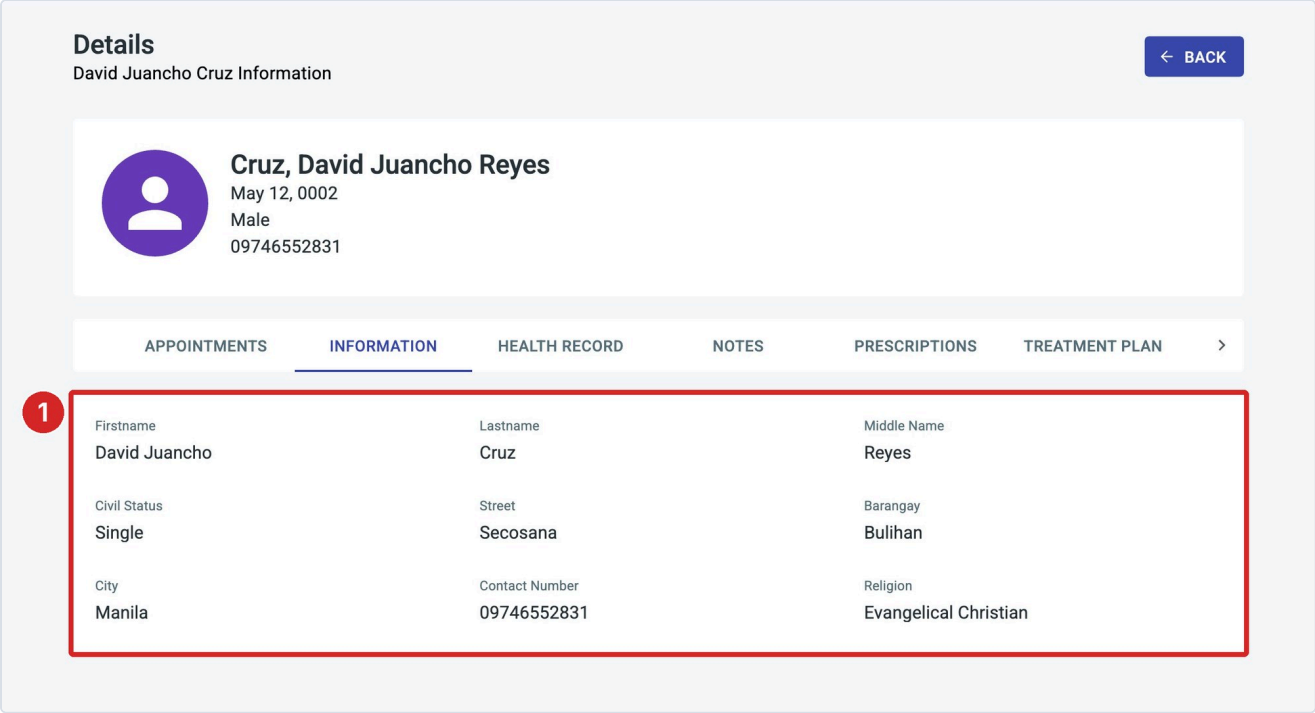

Figure 4.6. The Information tab.

1 Patient details

4.3 Health Record and Pre-Lab

The **Health Record** tab has its own menu on the left: **Pre-Lab**, **Medication**, **Allergies**, **Diagnosis**, **Diet**, **Pain Monitoring** and **Vitals Monitoring**. It opens on **Pre-Lab**, which shows the patient's current health record.

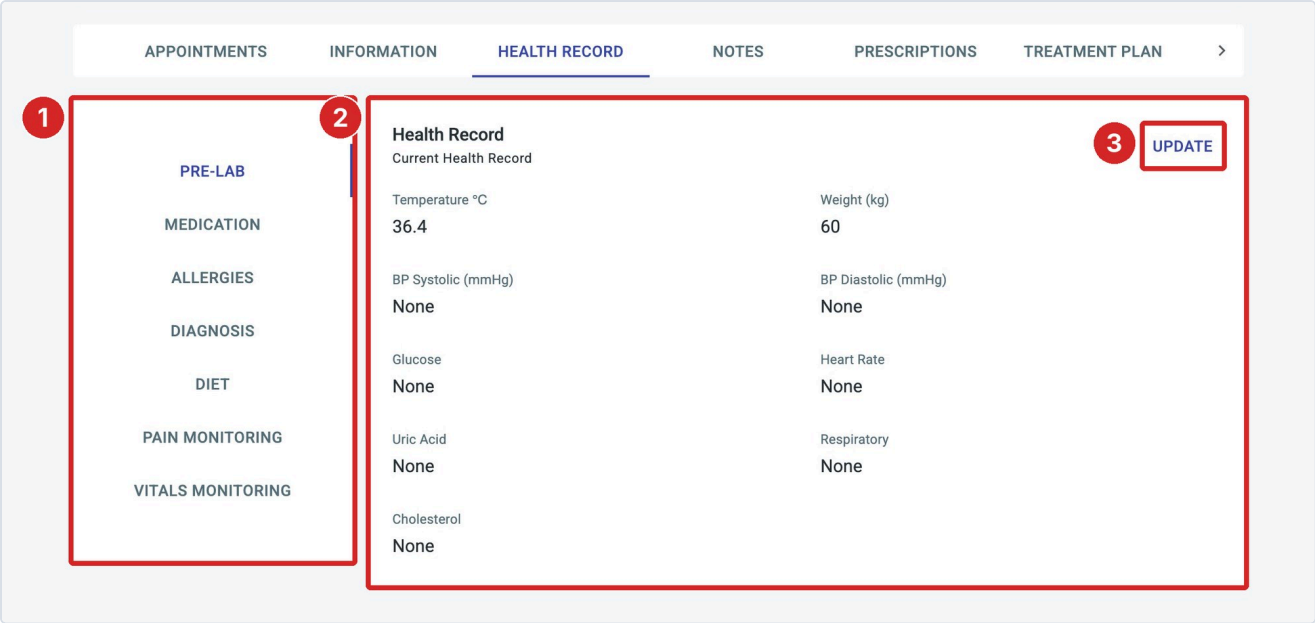

Figure 4.7. Health Record, Pre-Lab.

1 Health Record menu 2 Current health record 3 UPDATE button

The current health record shows temperature (°C), weight (kg), blood pressure systolic and diastolic (mmHg), glucose, heart rate, uric acid, respiratory rate and cholesterol. **None** means no value has been entered. To record new readings:

1. Click **UPDATE**. The **Update Health Records** panel opens with the current values.
2. Type the new readings in the fields you measured.
3. Click **UPDATE** to save, or **CLOSE** to leave without saving.

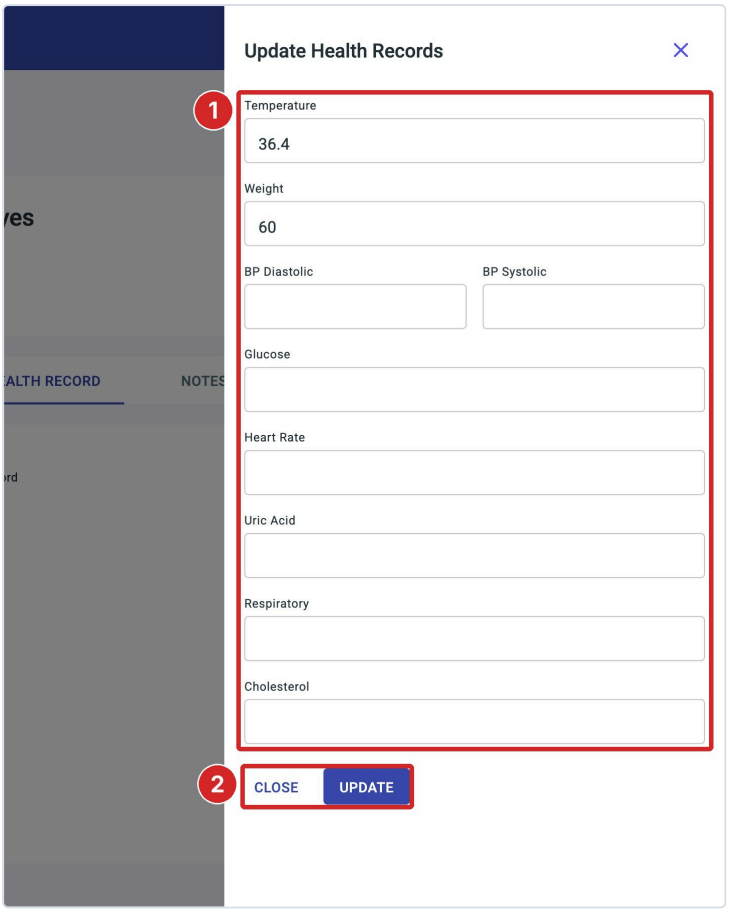

Figure 4.8. The Update Health Records panel.

1 Readings 2 CLOSE and UPDATE buttons

4.4 Medication

Medication lists the medicines the patient should take and when.

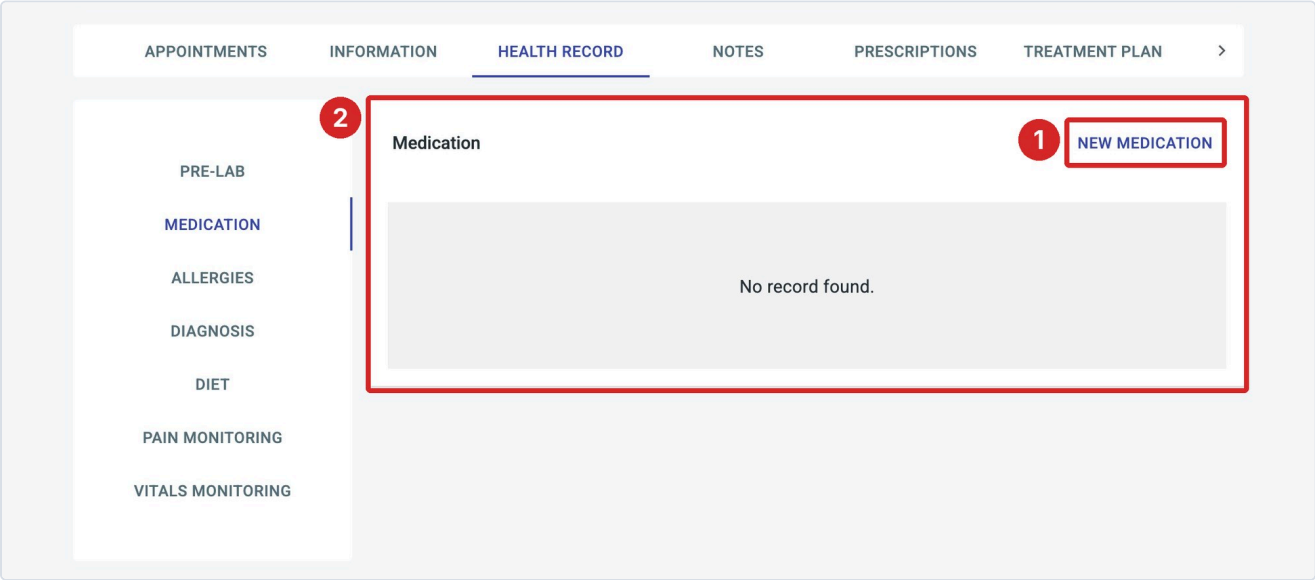

Figure 4.9. Medication.

1 NEW MEDICATION button 2 Medication list

1. Click **NEW MEDICATION**.

2. Under **Meals**, choose when the medicine is taken: Before or After Breakfast, Lunch or Dinner.
3. Under **Description**, type the medicine and dose. Use the toolbar for bold, italic, underline, links and lists.
4. Click **ADD**, or **CLOSE** to cancel.

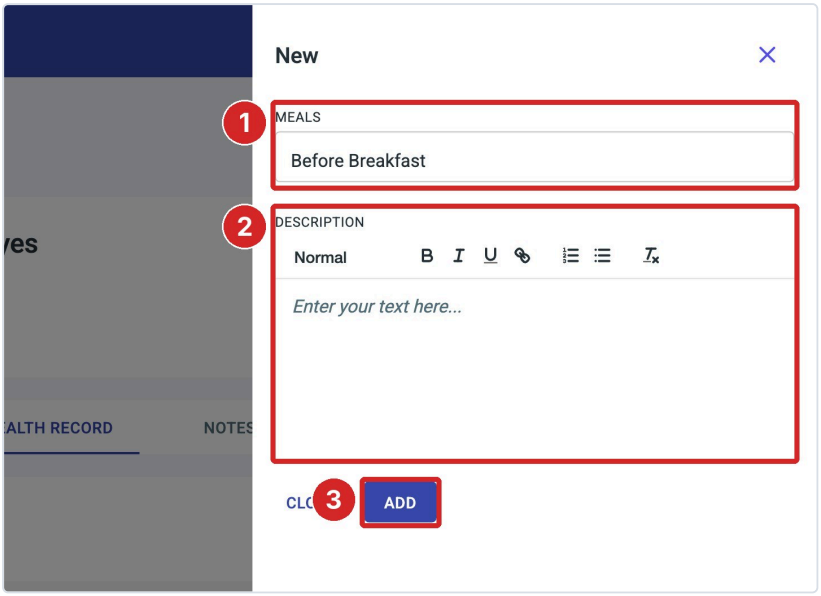

Figure 4.10. The New Medication panel.

1 Meals 2 Description 3 ADD button

4.5 Allergies

Allergies shows the patient's known allergies, for example *Penicillin*, in a text box with a formatting toolbar. Check this before prescribing.

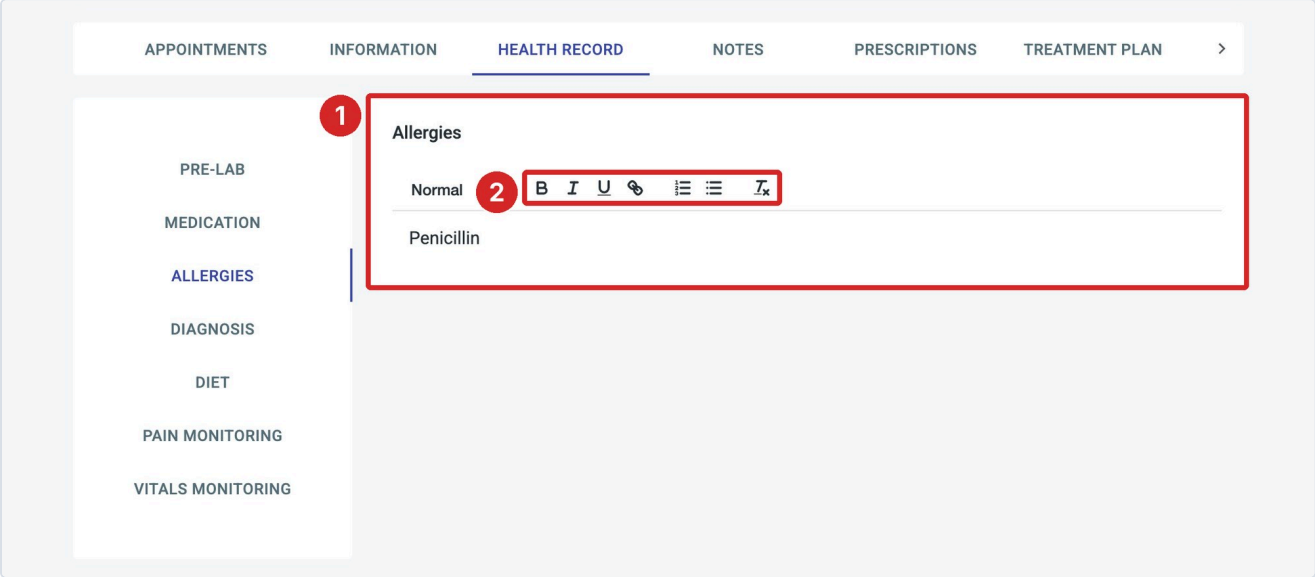

Figure 4.11. Allergies.

1 Allergies 2 Formatting toolbar

> **NOTE** No Save button was shown on the Allergies screen when this manual was prepared. Confirm with the administrator how changes to allergies are saved.

4.6 Diagnosis

Diagnosis lists the diagnoses recorded for the patient, for example *Urinary Tract Infection*.

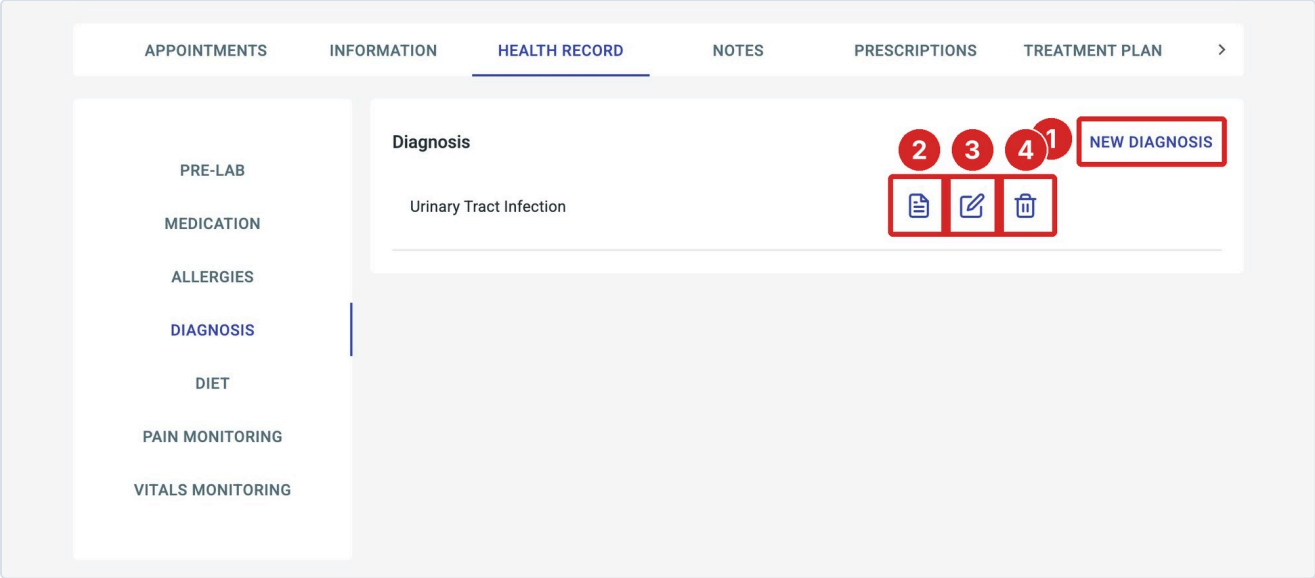

Figure 4.12. Diagnosis.

1 NEW DIAGNOSIS button 2 View 3 Edit 4 Delete

1. To add a diagnosis, click **NEW DIAGNOSIS**, type the **Diagnosis** and any **Remarks**, then click **ADD**.
2. To read a diagnosis in full, click the view icon (2).
3. To correct one, click the edit icon (3), change the text and click **SAVE**.
4. The bin icon (4) deletes the diagnosis.

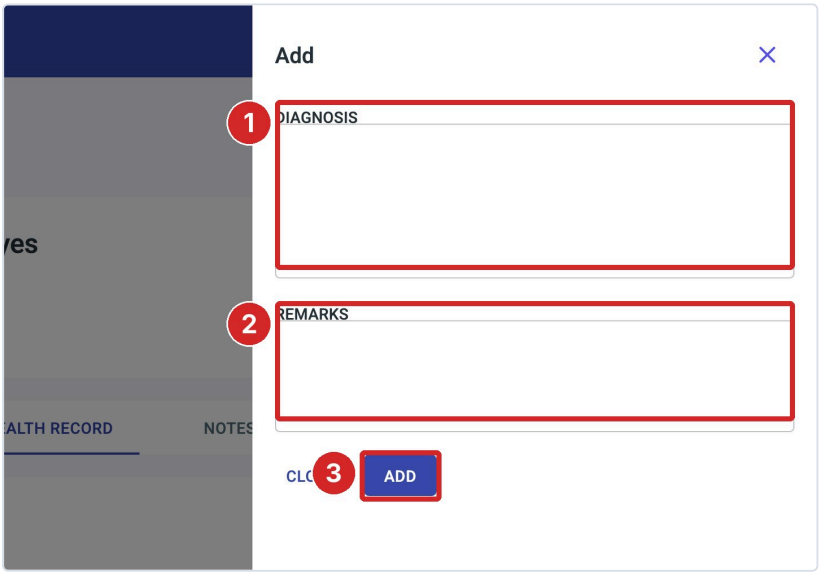

Figure 4.13. The Add diagnosis panel.

1 Diagnosis 2 Remarks 3 ADD button

> **WARNING** Deleting a diagnosis removes it from the patient's record. Delete only an entry made by mistake.

4.7 Diet

Diet holds the diet you suggest for the patient.

1. Click **NEW DIET**.
2. Under **Meals**, choose *Breakfast*, *Lunch*, *Dinner* or *Snacks*.
3. Type the advice under **Description**.
4. Click **ADD**, or **CLOSE** to cancel.

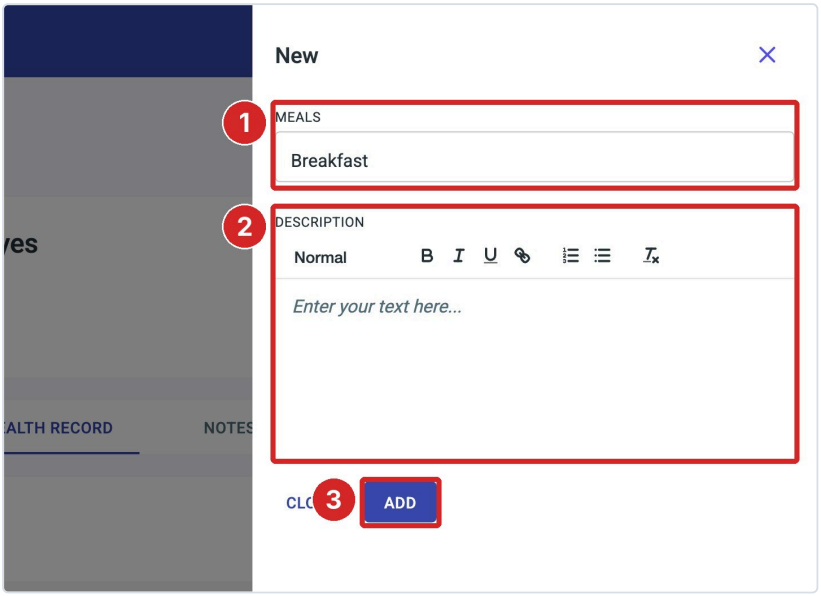

Figure 4.14. The New diet panel.

1 Meals 2 Description 3 ADD button

4.8 Pain Monitoring

Pain Monitoring shows a body chart and a list of the pain the patient reported, with the date, description, pain level and whether the area is on the front or back of the body.

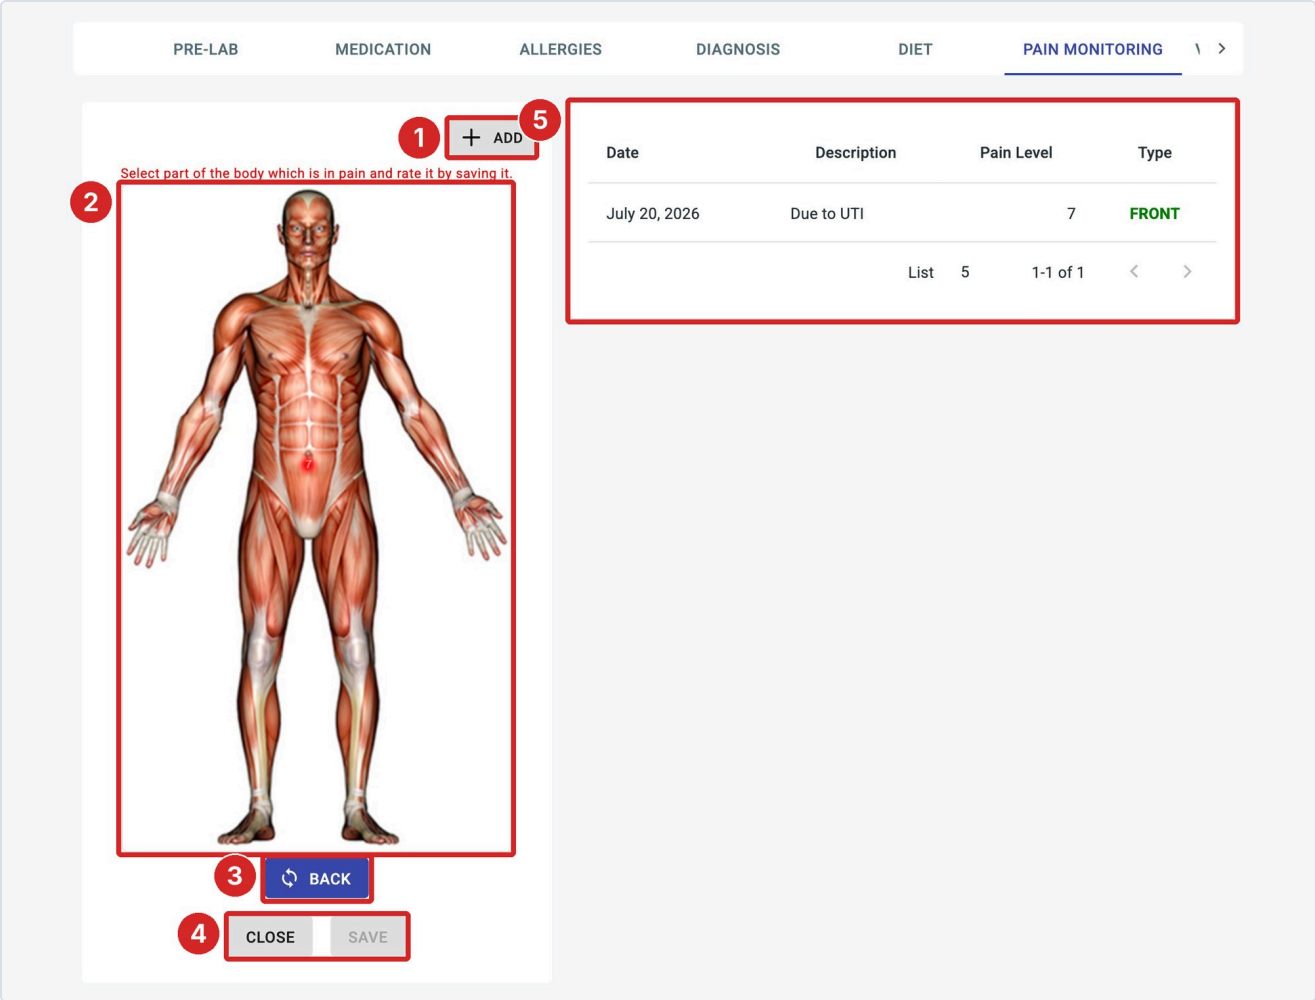

Figure 4.15. Pain Monitoring in add mode.

1 ADD button 2 Body chart 3 BACK / FRONT switch 4 CLOSE and SAVE buttons 5 Pain records

1. Click **ADD**. The message *Select part of the body which is in pain and rate it by saving it* appears above the chart.
2. Click **BACK** to show the back of the body, or **FRONT** to return to the front.
3. Click the part of the body where the patient feels pain and rate it.
4. Click **SAVE**, or **CLOSE** to cancel.

> **NOTE** The rating step after clicking the body was not tested for this manual, so the screen that asks for the pain level is not shown.

4.9 Vitals Monitoring

Vitals Monitoring charts the patient's readings over time. Choose a reading at the top: **BP**, **Temperature**, **Weight**, **Cholesterol**, **Glucose**, **Heart Pulse**, **Uric Acid** or **Respiratory**. The chart title shows how many tests are recorded.

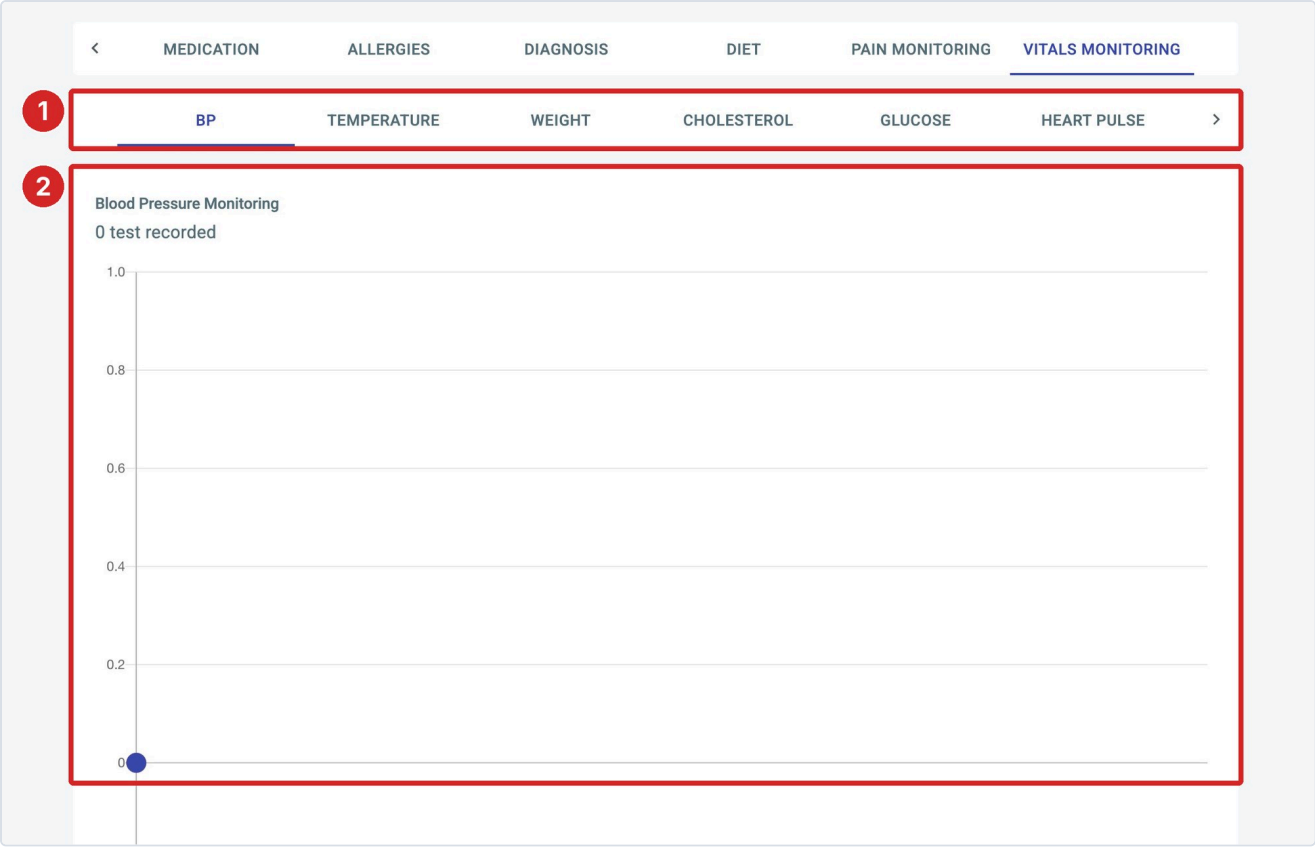

Figure 4.16. Vitals Monitoring.

1 Readings 2 Chart

SECTION 5

Notes, Treatment Plan and Prescriptions

Use these tabs to write consultation notes, plan treatment and prescribe medicines.

In this section

5.1 Notes

5.2 Treatment Plan

5.3 Prescriptions

5.1 Notes

The **Notes** tab lists your consultation notes by date with the initial diagnosis.

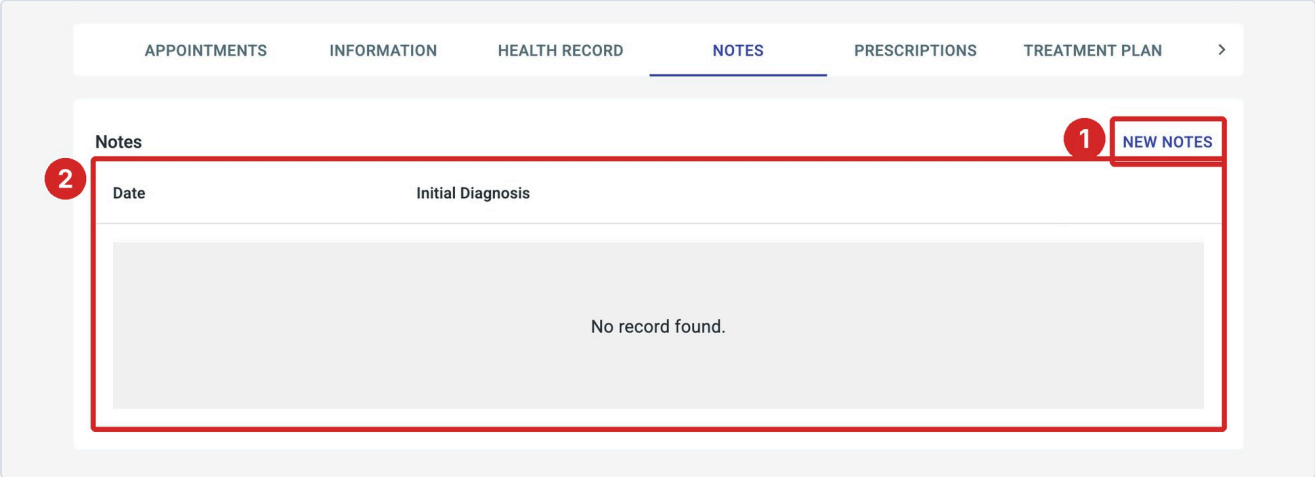

Figure 5.1. The Notes tab.

1 NEW NOTES button 2 Notes list

1. Click **NEW NOTES**.
2. Type the **Initial Diagnosis**.
3. Type your findings under **Notes**.
4. Click **SAVE**, or **CLOSE** to cancel.

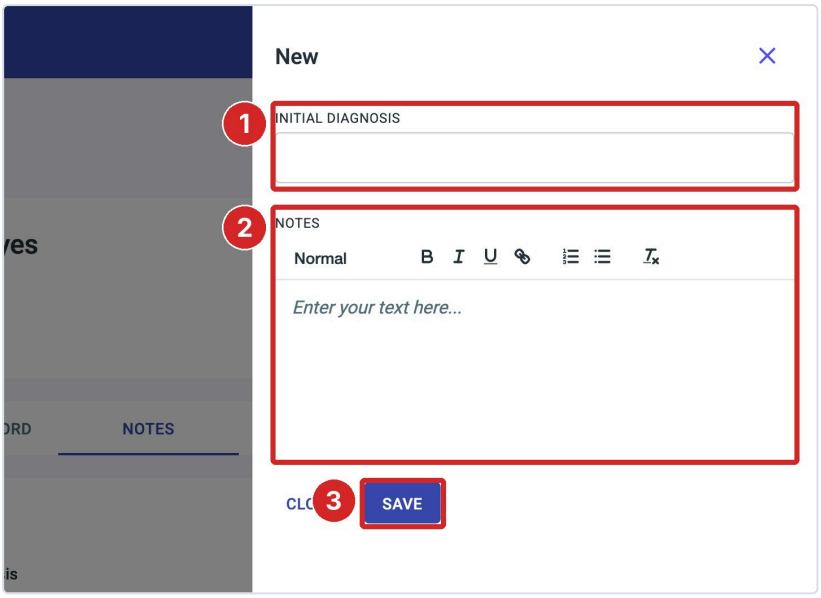

Figure 5.2. The New notes panel.

1 Initial Diagnosis 2 Notes 3 SAVE button

5.2 Treatment Plan

The **Treatment Plan** tab lists planned treatments with their schedule.

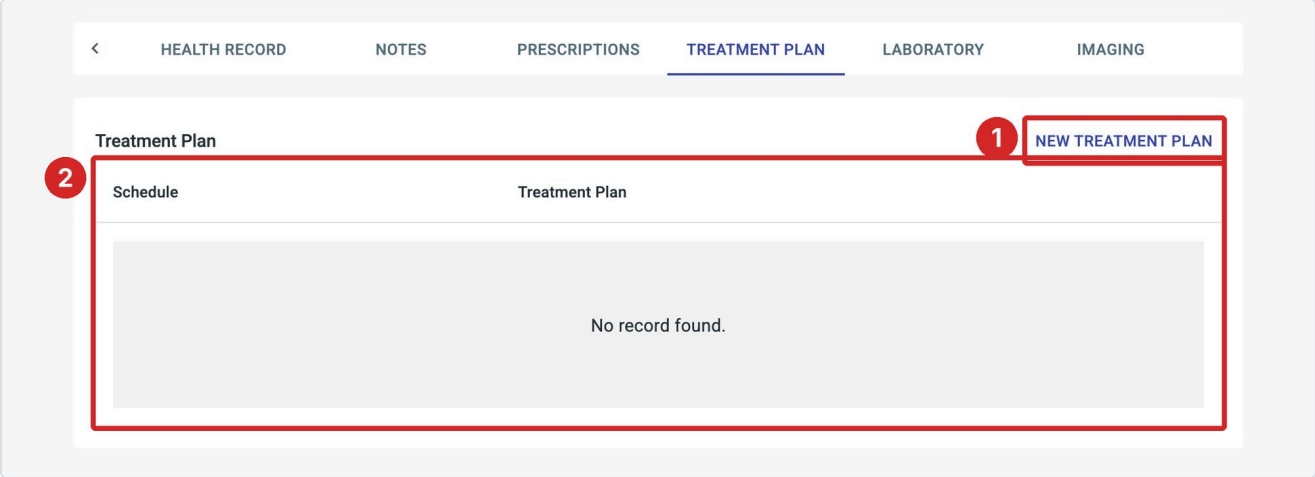

Figure 5.3. The Treatment Plan tab.

1 NEW TREATMENT PLAN button 2 Treatment plans

1. Click **NEW TREATMENT PLAN**.
2. Check the **Schedule Date**. It starts with the current date and time; change it to the planned date.
3. Type the plan under **Treatment Plan**.
4. Click **SAVE**, or **CLOSE** to cancel.

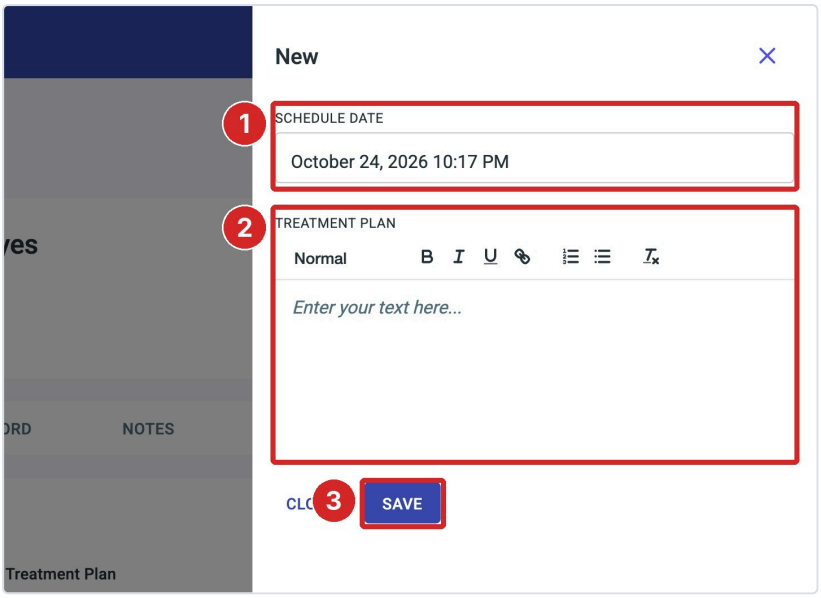

Figure 5.4. The New treatment plan panel.

1 Schedule Date 2 Treatment Plan 3 SAVE button

5.3 Prescriptions

The **Prescriptions** tab has three parts on the left:

Part	What it is for
LIST	Saved prescriptions, with date and prescription number.
CLINIC	A prescription for a pharmacy chosen from the list (for example TGP or Malolos Pharmacy).
UNSAVED	A prescription you are still building. Add products, then save it.

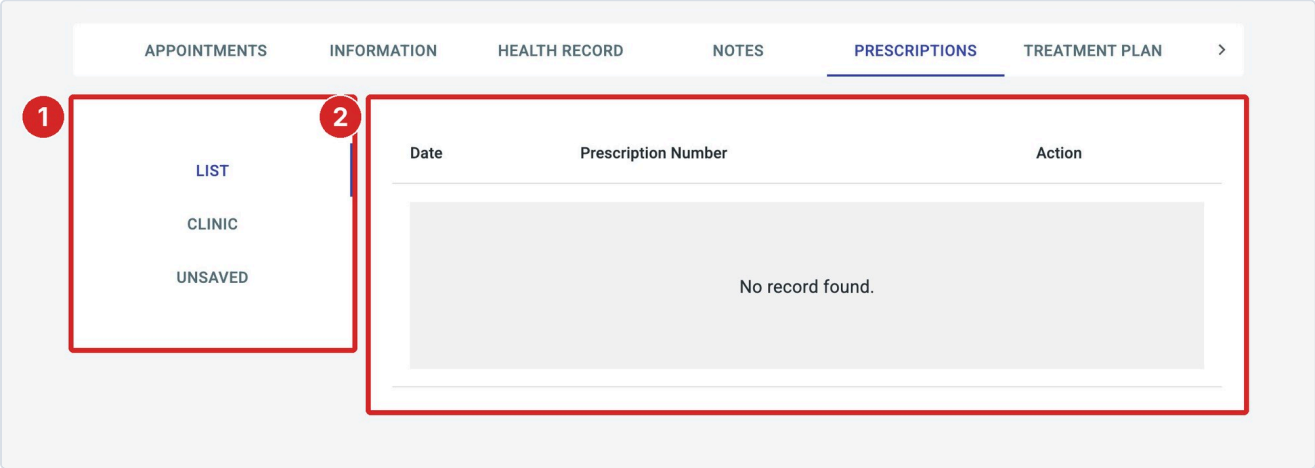

Figure 5.5. The Prescriptions tab, LIST.

1 LIST, CLINIC and UNSAVED 2 Saved prescriptions

To write a prescription:

1. Click **UNSAVED**.

2. Click **ADD PRODUCT**. Type the **Product Name**, choose the **Type** (Bottle, Box, Can, Capsule, Liniment, Sachet, Suspension, Powder or Tablet), type the **Quantity** and the **Instruction** (sig), then click **ADD TO UNSAVE**.
3. Repeat for each medicine. Each one appears in the list with its quantity, type and sig.
4. Click **SAVE PRESCRIPTION**. Saved prescriptions are listed under **LIST**.

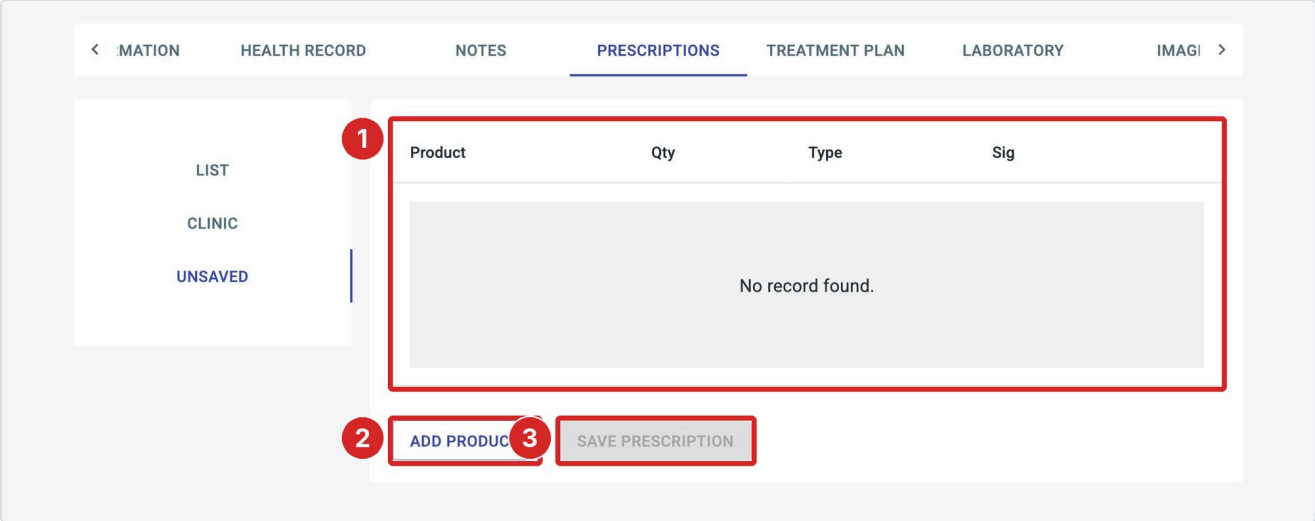

Figure 5.6. Building a prescription (UNSAVED).

1 Products added so far 2 ADD PRODUCT 3 SAVE PRESCRIPTION

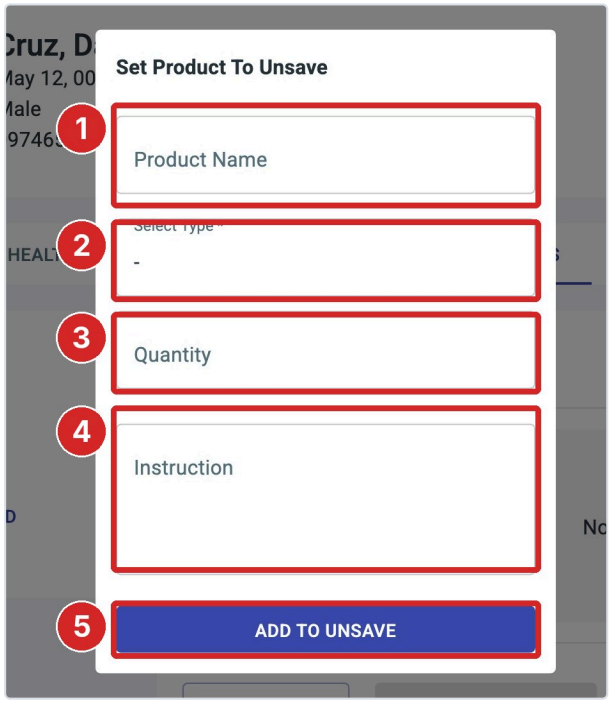

Figure 5.7. The Set Product To Unsave window.

1 Product Name 2 Type 3 Quantity 4 Instruction (sig) 5 ADD TO UNSAVE

For a pharmacy: click **CLINIC**, choose the pharmacy under **Select Pharmacy**, then add products and save the same way.

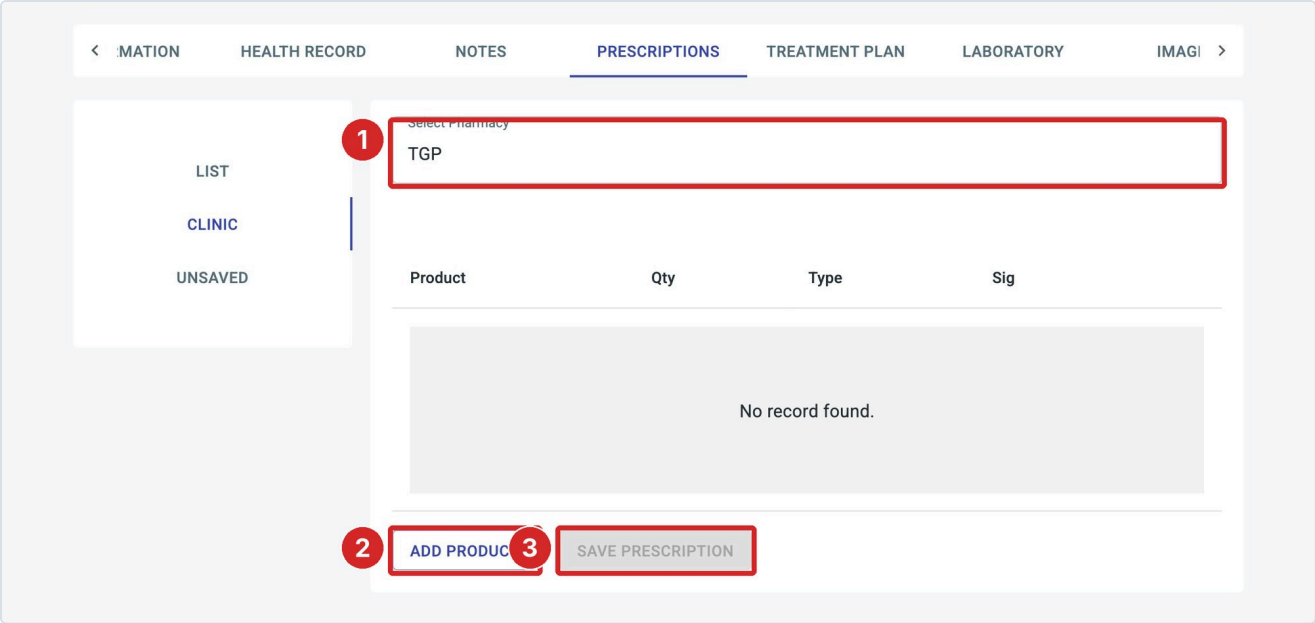

Figure 5.8. A prescription for a pharmacy (CLINIC).

1 Select Pharmacy 2 ADD PRODUCT 3 SAVE PRESCRIPTION

> **NOTE** **SAVE PRESCRIPTION** stays grey until at least one product has been added.

SECTION 6

Laboratory and Imaging

The Laboratory and Imaging tabs work the same way: request tests, then view the results and attached files.

In this section

6.1 Viewing results

6.2 Requesting tests

6.3 Attachments

6.1 Viewing results

Open the **Laboratory** or **Imaging** tab (use the › arrow on the tab row if needed). **LIST** shows each result with its date and ID.

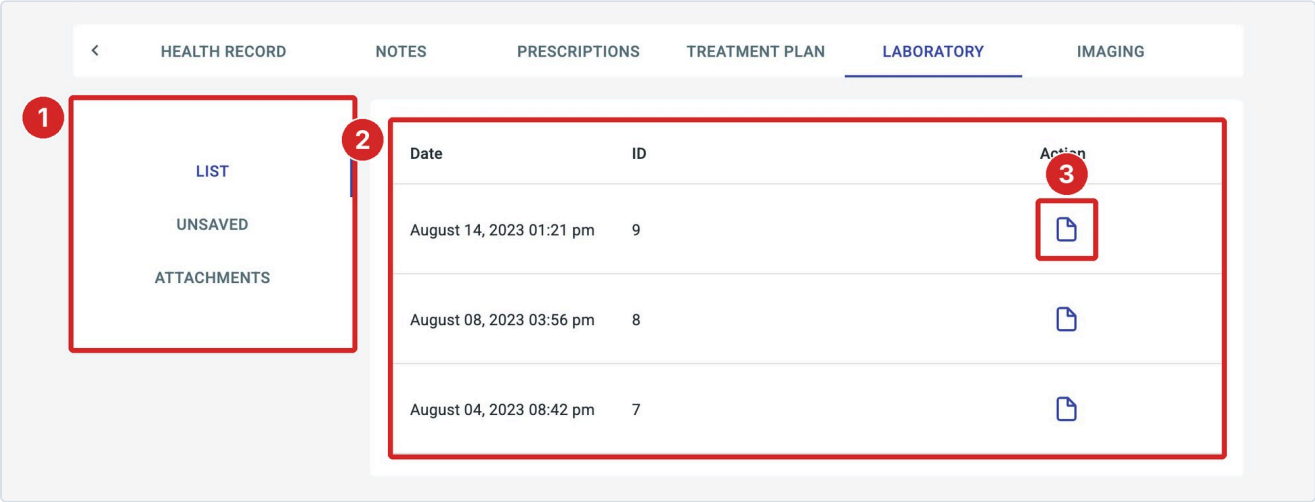

Figure 6.1. The Laboratory tab, LIST.

1 LIST, UNSAVED and ATTACHMENTS 2 Results 3 Open result

1. Click the document icon under **Action** on a row.
2. The result opens. Laboratory results show each test (for example Hematology or CBC) with its description, result and normal values. Imaging results (for example ECG) show the result and impression.
3. Click **DETAILS** to see the printable copy, then **PRINT** to print it.
4. Click outside the window to close it.

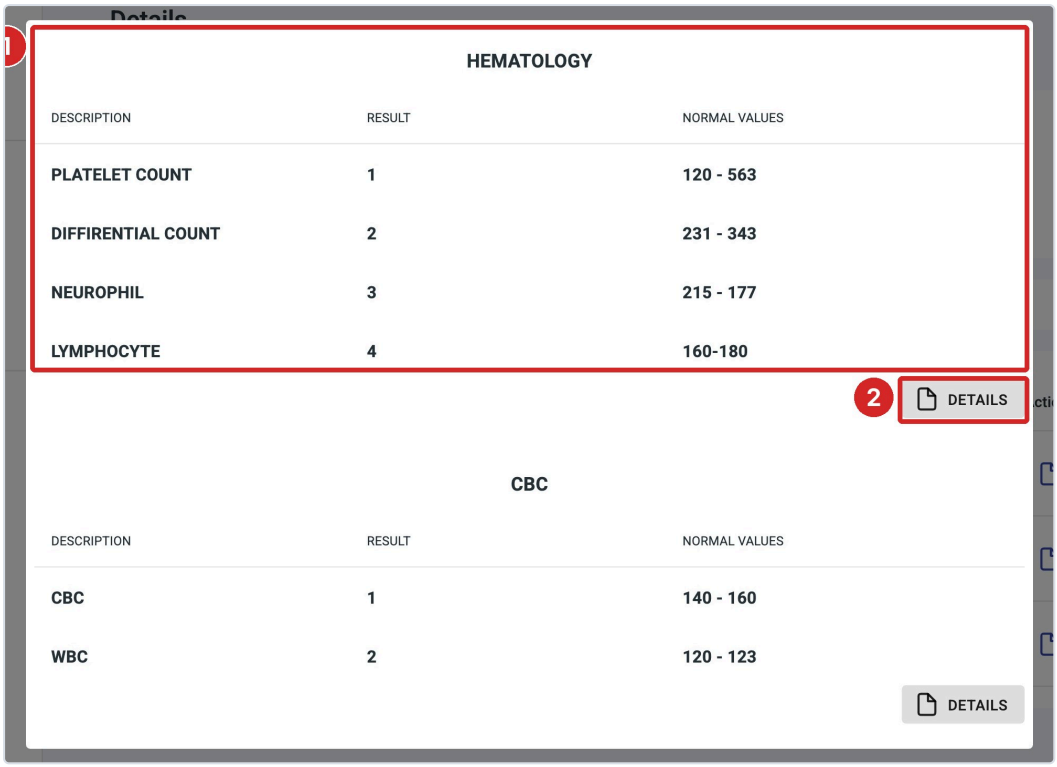

Figure 6.2. A laboratory result.

1 Test with result and normal values 2 DETAILS button

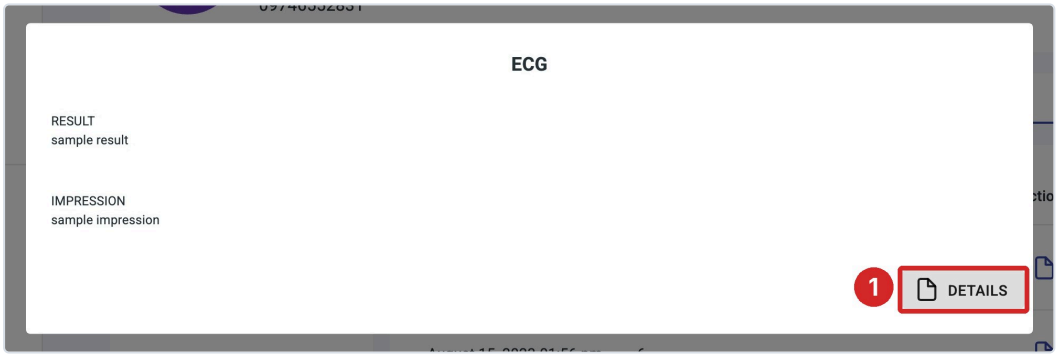

Figure 6.3. An imaging result (ECG).

1 DETAILS button

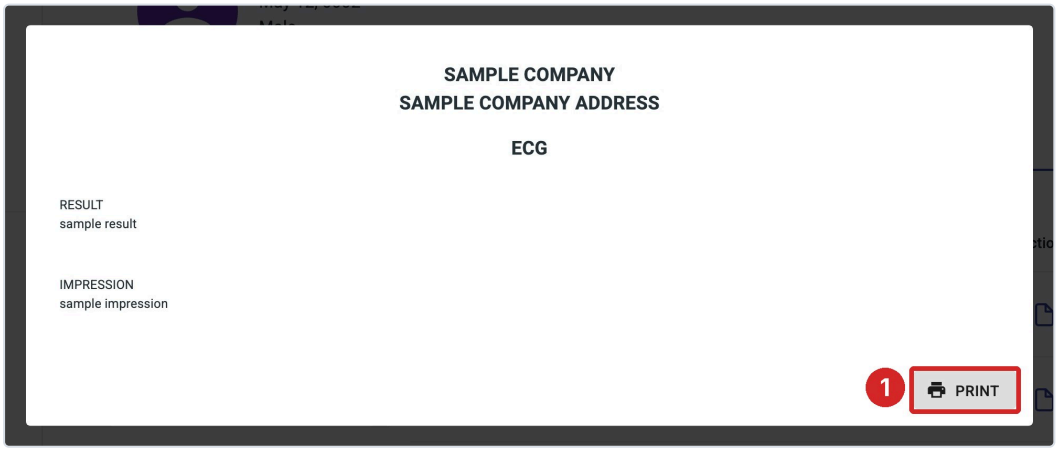

Figure 6.4. The printable result.

1 PRINT button

6.2 Requesting tests

1. In the Laboratory or Imaging tab, click **UNSAVED**.
2. Click **ADD TEST**.
3. Under **Select Test**, choose the test. Each test shows its rate, for example *CBC - 120* or *Hematology - 300* in Laboratory, and *ECG - 120* or *X-ray - 220* in Imaging.
4. Click **ADD TO UNSAVE**. The test appears in the list with its rate.
5. Add more tests if needed, then click **CONFIRM ALL** to confirm the requests.

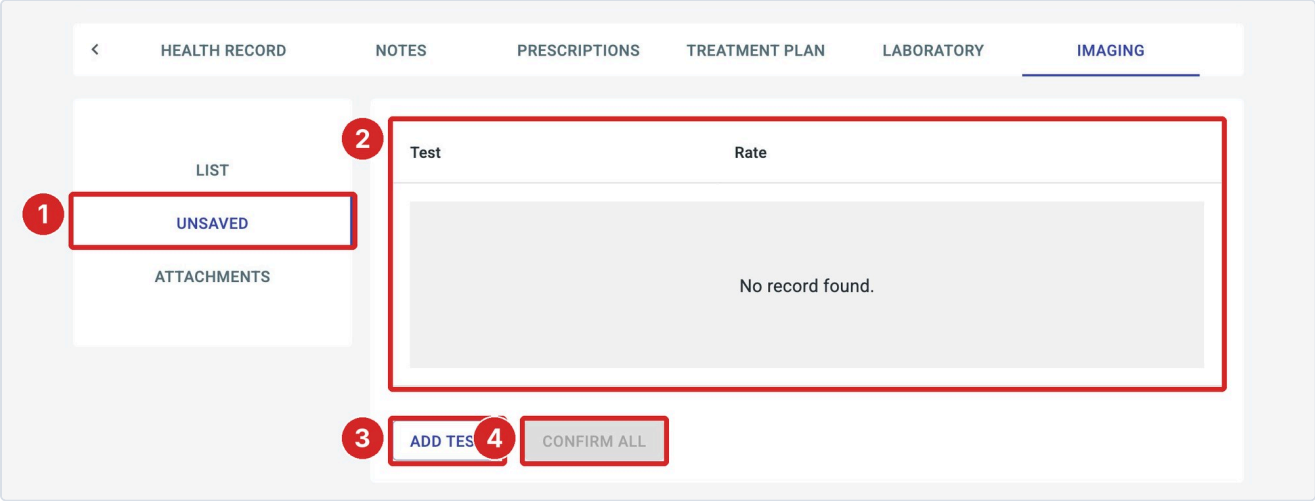

Figure 6.5. Requesting tests (UNSAVED).

1 UNSAVED 2 Tests added so far 3 ADD TEST 4 CONFIRM ALL

Figure 6.6. The Set Test To Unsave window.

1 Select Test 2 ADD TO UNSAVE

> **NOTE** **CONFIRM ALL** stays grey until at least one test has been added.

6.3 Attachments

ATTACHMENTS lists files attached to the patient's laboratory or imaging record, with the date and who added them (for example *patient*, *imaging* or *secretary*). Use the arrows at the bottom to page through the list and **List** to choose how many rows to show.

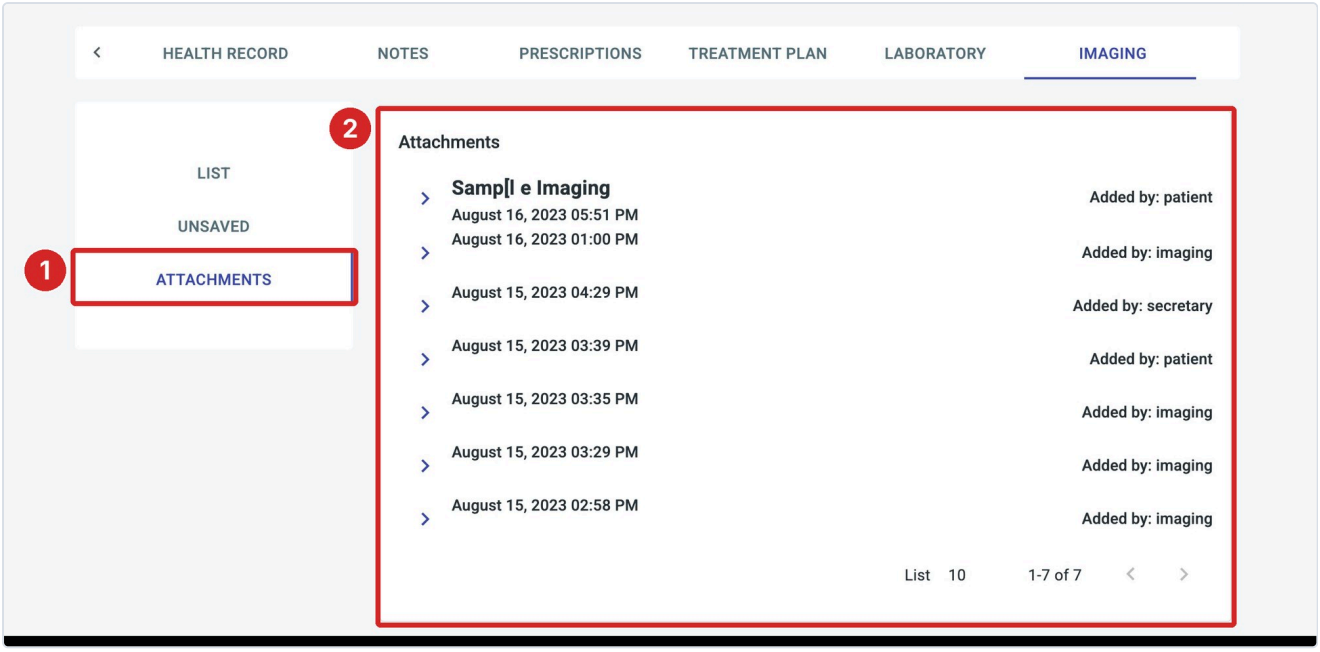

Figure 6.7. Imaging attachments.

1 ATTACHMENTS 2 Attached files

SECTION 7

Services

The Services page lists the services you offer to patients and their fees.

In this section

7.1 Viewing and searching services

7.2 Adding or changing a service

7.3 Removing a service

7.1 Viewing and searching services

Click **Services** in the main menu.

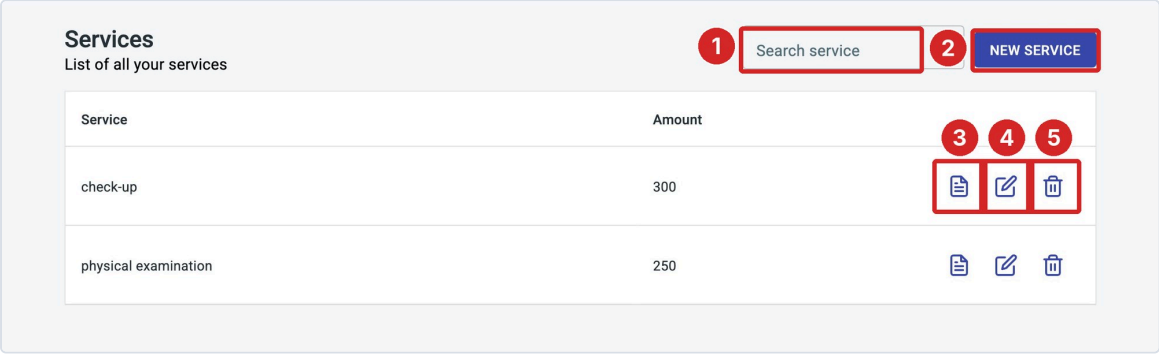

Figure 7.1. The Services page.

1 Search service 2 NEW SERVICE 3 View 4 Edit 5 Delete

- Type in **Search service** to find a service by name.
- Click the view icon (3) to see a service's name and amount. A **Details** panel opens on the right; click **X** to close it.

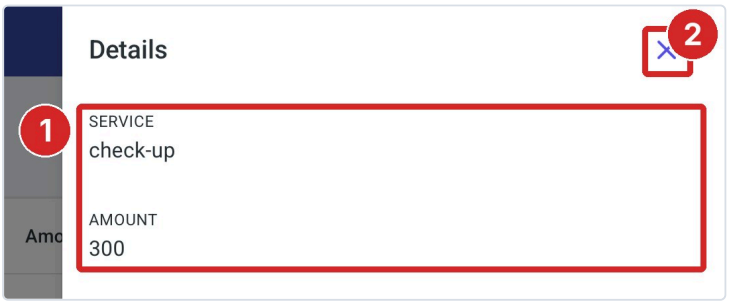

Figure 7.2. The service Details panel.

1 Service and Amount 2 Close (X)

7.2 Adding or changing a service

1. Click **NEW SERVICE**, or the edit icon (4) on a service.
2. Type the **Service** name and the **Amount** (fee).

3. Click **SAVE** (or **UPDATE SERVICE** when editing). Click **CLOSE** to cancel.

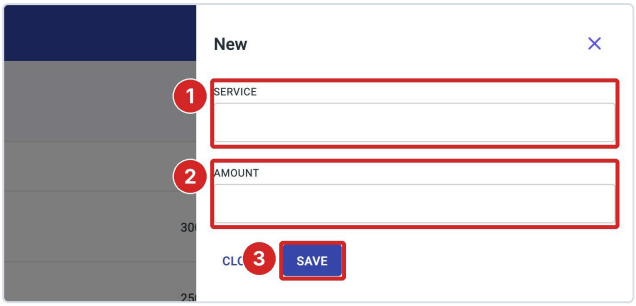

Figure 7.3. The New service panel.

1 Service 2 Amount 3 SAVE button

To change a service: click the edit icon (4). The **Edit** panel opens with the current name and amount. Change them and click **UPDATE SERVICE**, or **CLOSE** to cancel.

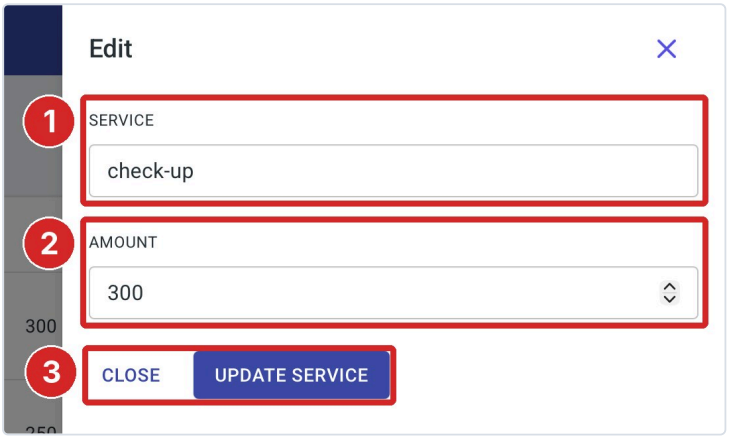

Figure 7.4. The Edit panel.

1 SERVICE 2 AMOUNT 3 CLOSE and UPDATE SERVICE

7.3 Removing a service

Click the bin icon (5) on the service. A green message *Service successfully removed.* confirms it, and the service is no longer listed. In the example below, *check-up* was removed and only *physical examination* is left.

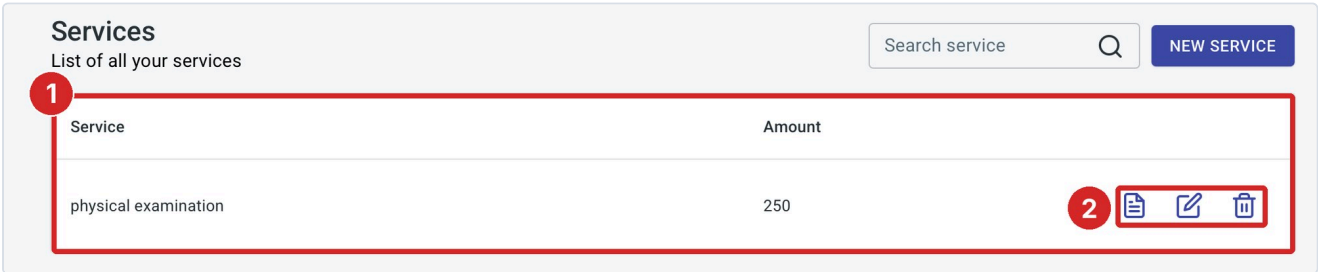

Figure 7.5. The Services list after removing a service.

1 Remaining services 2 View, Edit and Delete icons

> **WARNING** Delete only a service you no longer offer.

SECTION 8

Reports

The Reports page lists your consultations with the service and rate, so you can review your work.

In this section

8.1 Viewing the report

8.1 Viewing the report

Click **Reports** in the main menu. Each row shows the **Date**, **Patient**, **Service** and **Rate**.

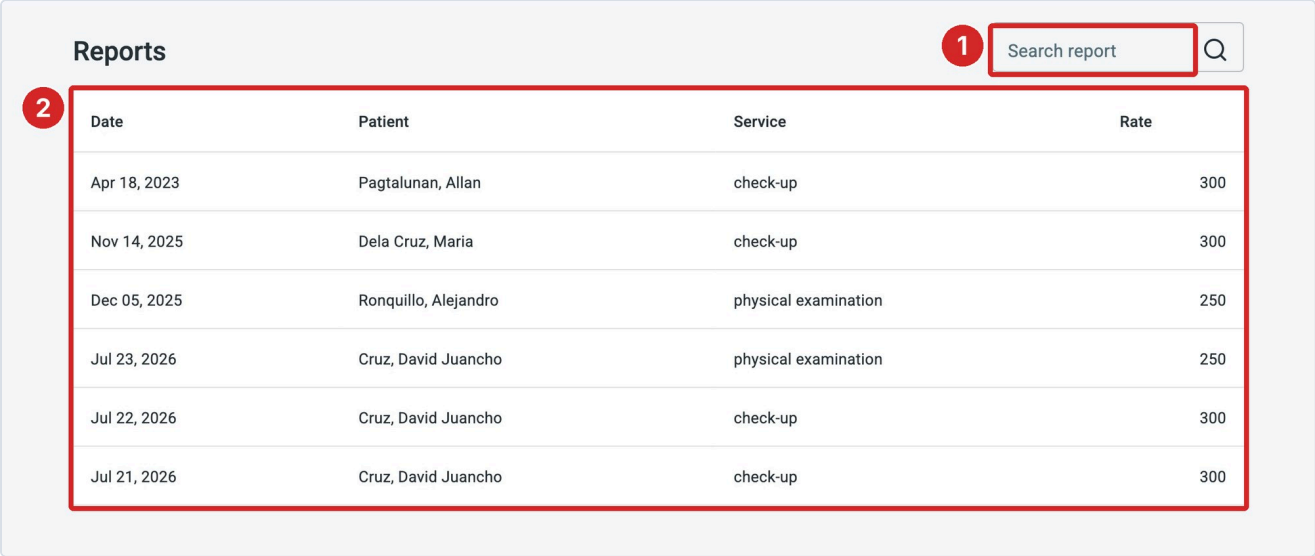

Figure 8.1. The Reports page.

1 Search report 2 Consultations

Type in **Search report** to filter the list. The search matches the patient's name or the service; for example, *physical* shows only physical examinations.

SECTION 9

Account Settings

Use Account settings to keep your profile, email and password up to date.

In this section

9.1 Profile

9.2 Changing your email

9.3 Changing your password

9.1 Profile

Open **Account** from the account menu (1.4), or click your photo or name in the profile area. The **Settings** page has three tabs: **General**, **Email** and **Security**.

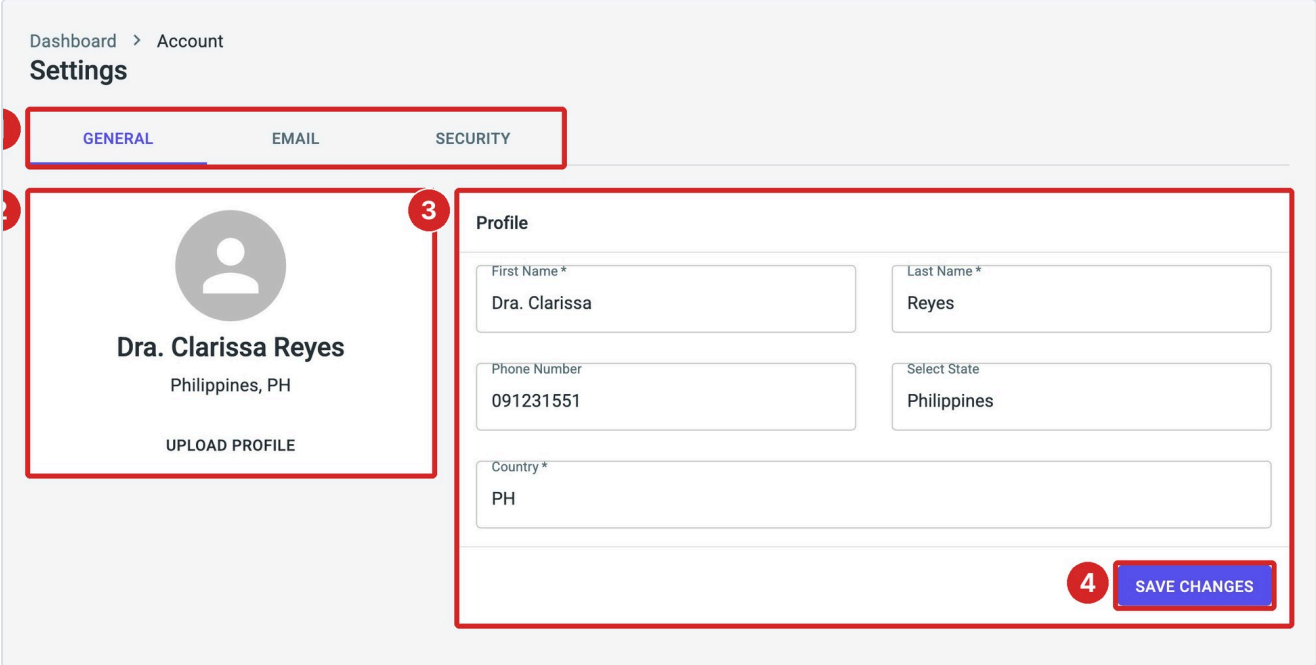

Figure 9.1. Account settings, General tab.

1 GENERAL, EMAIL and SECURITY tabs 2 Photo and UPLOAD PROFILE 3 Profile details 4 SAVE CHANGES

1. To change your photo, click **UPLOAD PROFILE** and choose an image.
2. Edit your **First Name**, **Last Name**, **Phone Number**, **State** and **Country**. Fields marked * are required.
3. Click **SAVE CHANGES**.

9.2 Changing your email

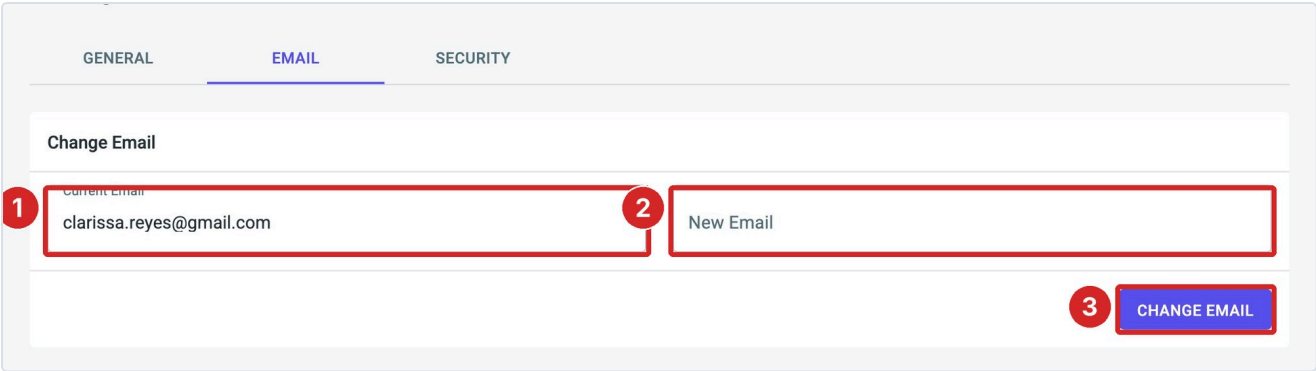

Figure 9.2. The Email tab.

1 Current Email 2 New Email 3 CHANGE EMAIL

1. Click the **EMAIL** tab. Your current email is shown.
2. Type your **New Email**.
3. Click **CHANGE EMAIL**.

9.3 Changing your password

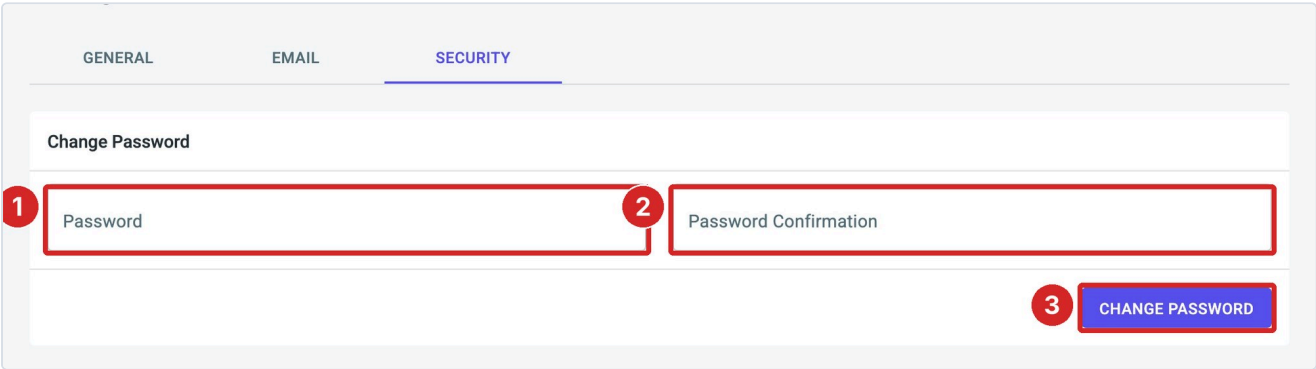

Figure 9.3. The Security tab.

1 Password 2 Password Confirmation 3 CHANGE PASSWORD

1. Click the **SECURITY** tab.
2. Type the new **Password**, and type it again in **Password Confirmation**.
3. Click **CHANGE PASSWORD**.

> **IMPORTANT** Use a password that others cannot guess, and change it right away if you think someone else knows it.

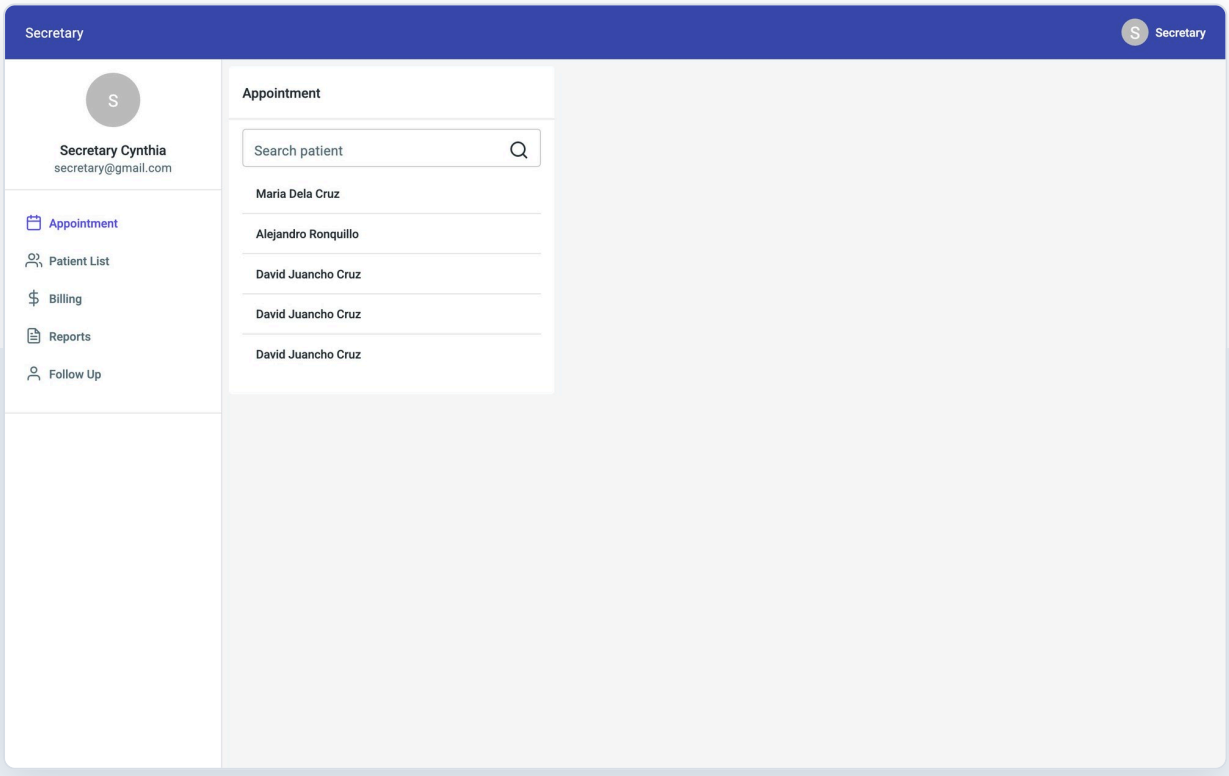
MediLink
Integrated Healthcare System

User Manual for Secretaries

medilink.oas.lguapp.com · Municipality of Oas, Albay



Prepared by iConcept IT Solutions

SECTION 1

Getting Started

This section explains what the Secretary does in MediLink, how to sign in, and how the Secretary screen is laid out.

In this section

1.1 About the Secretary role
1.2 Signing in
1.3 The Secretary screen
1.4 Account menu and signing out

1.1 About the Secretary role

MediLink, the Integrated Healthcare System of the Municipality of Oas, connects patients with the Municipal Health Office. The **Secretary** handles the front desk: patients, appointments, bills and follow-ups. As a Secretary you can:

- view upcoming appointments, and reschedule or cancel them;
- add new patients and update their profiles;
- book an appointment for a patient with a doctor;
- upload laboratory and imaging attachments to a patient's record;
- add bills, correct bill amounts and record payments;
- view, filter and print receipts; and
- keep track of patients who need a follow-up visit.

> **IMPORTANT** **Sample data only.** All patients, doctors, appointments, bills, receipts and contact details shown in this manual are sample data used for training. They are not real records.

1.2 Signing in

1. Open a web browser and go to **medilink.oas.lguapp.com**.
2. On the MediLink home page, click **LOGIN** at the top right (Figure 1.1).
3. Sign in with the secretary account given to you by the system administrator.
4. After signing in, MediLink opens the **Appointment** page (Section 2).

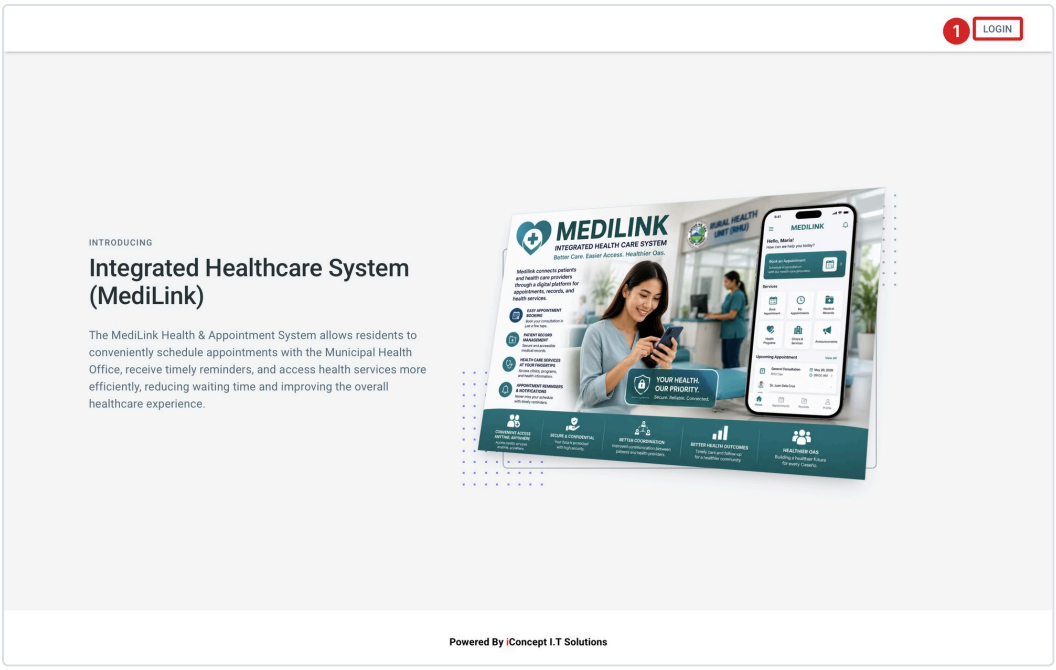


Figure 1.1. The MediLink home page.

1 LOGIN button

1.3 The Secretary screen

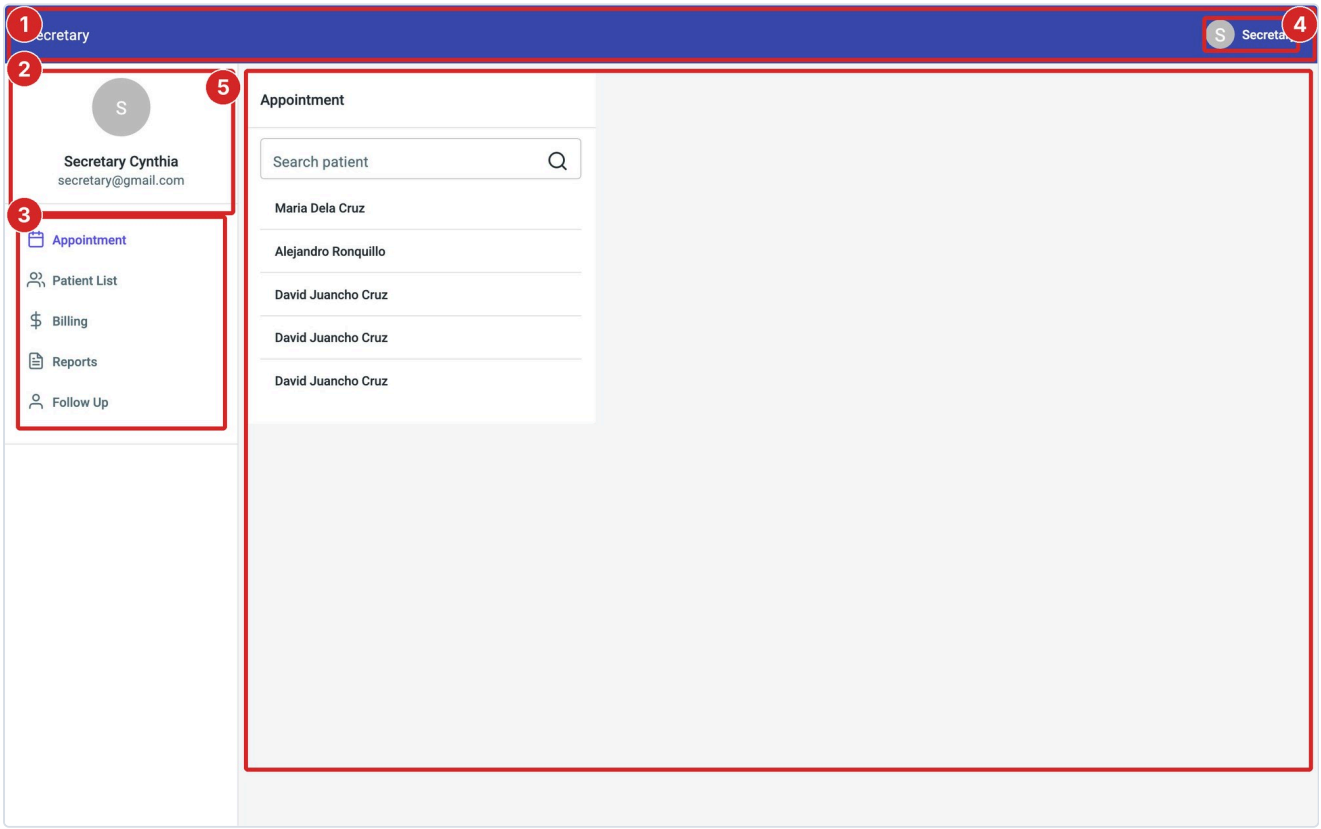

Figure 1.2. The Secretary screen.

1 Top bar 2 Your profile (photo, name and email) 3 Main menu 4 Account menu 5 Work area

Part	What it does
1 Top bar	Shows that you are signed in with the **Secretary** role.
2 Your profile	Your photo, name and email.
3 Main menu	**Appointment** (Section 2), **Patient List** (Section 3), **Billing** (Section 4), **Reports** (Section 5) and **Follow Up** (Section 6). The page you are on is shown in blue.
4 Account menu	Click it for **Account** and **Logout** (1.4).
5 Work area	The content of the page you opened. Most pages show a list on the left and the details of the selected item on the right.

1.4 Account menu and signing out

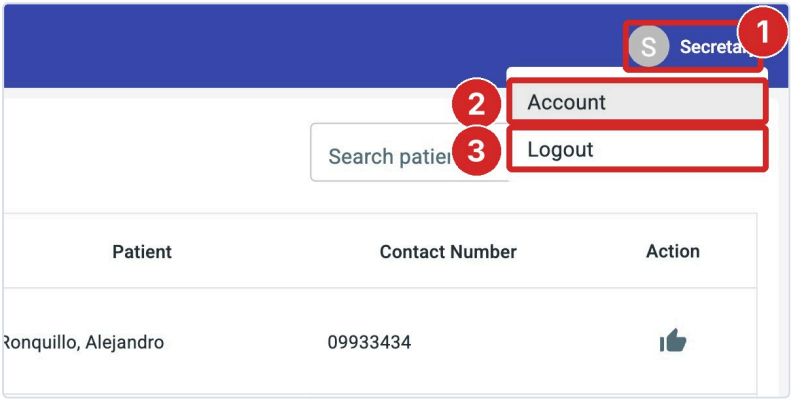

Figure 1.3. The account menu at the top right.

1 Account menu 2 Account 3 Logout

- Click **Account** to change your profile, email or password (Section 7).
- Click **Logout** to sign out. Always sign out when you leave a shared computer.

SECTION 2

Appointments

The Appointment page lists patients with booked appointments. From here you can see the details of an appointment, reschedule it or cancel it.

In this section

2.1 The appointment list

2.2 Viewing an appointment

2.3 Rescheduling an appointment

2.4 Cancelling an appointment

2.1 The appointment list

Click **Appointment** in the main menu. Each row is one appointment, shown by the patient's name. A patient with several appointments appears once for each.

Figure 2.1. The appointment list.

1 Search patient 2 Appointments

To find a patient's appointments, type the name in **Search patient**. The list narrows as you type (Figure 2.2).

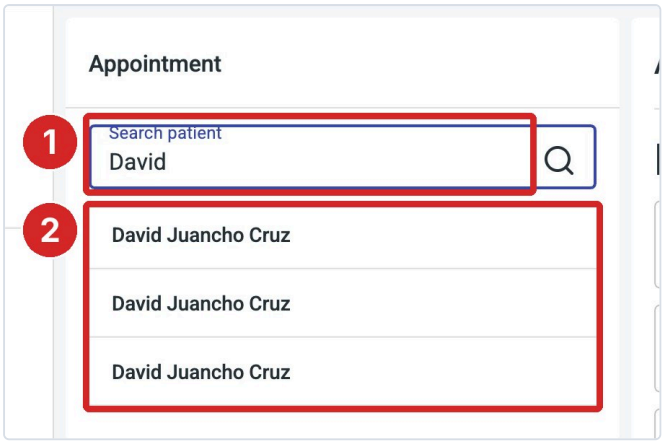

Figure 2.2. Searching the appointment list.

1 Search text 2 Matching appointments

> **NOTE** The search matches capital and small letters exactly. *David* or *Cruz* finds the patient, but *david* or *cruz* does not. Type names with a capital first letter.

2.2 Viewing an appointment

Click a patient in the list. The **Appointment Details** panel opens on the right.

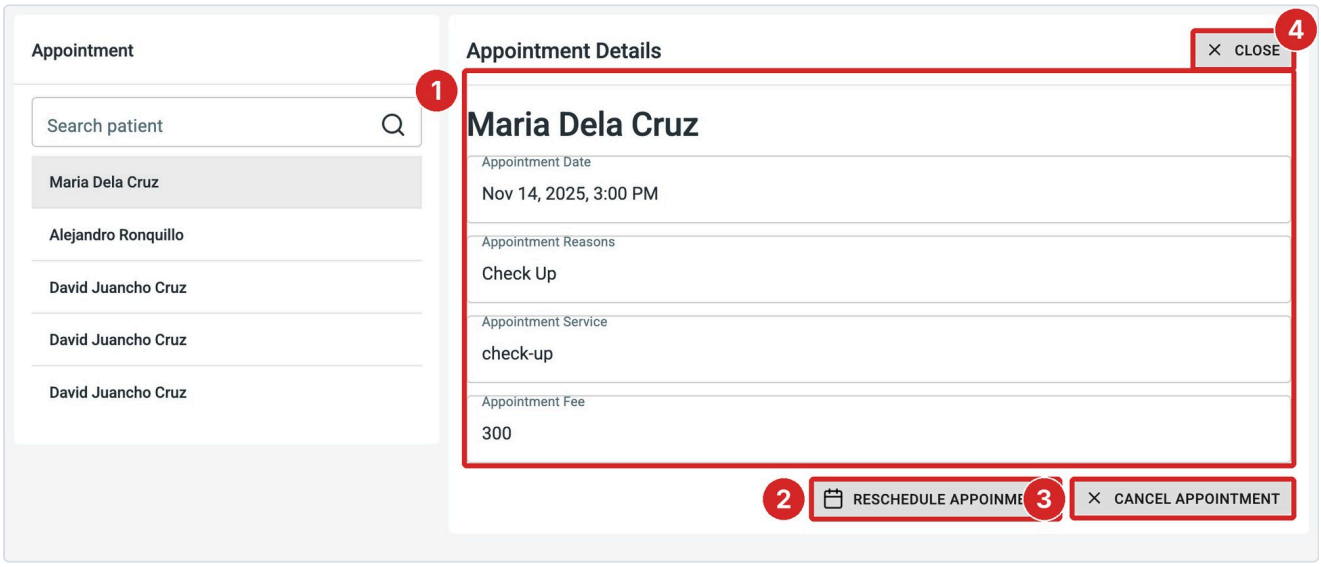

Figure 2.3. Appointment details.

1 Date and time, reason, service and fee 2 RESCHEDULE APPOINMENT 3 CANCEL APPOINTMENT 4 CLOSE

Field	What it shows
Appointment Date	The date and time of the appointment.
Appointment Reasons	The reason the patient gave when booking.
Appointment Service	The service booked, for example *check-up*.
Appointment Fee	The fee for the service, in pesos.

2.3 Rescheduling an appointment

1. Open the appointment (2.2) and click **RESCHEDULE APPOINMENT**.
2. In the **Reschedule Appointment** window, pick the new date under **Date Picker**.
3. Pick the new time under **Time Picker**.
4. Click **SAVE**, or **CLOSE** to keep the old schedule.

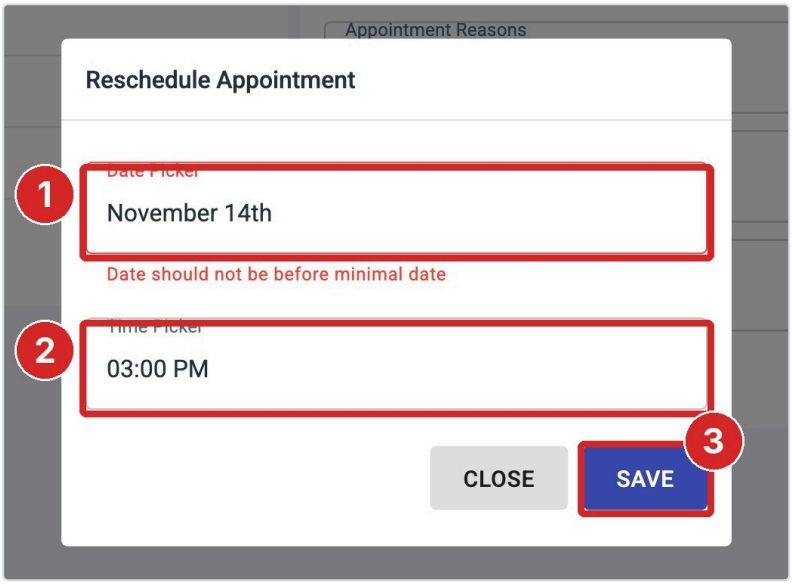

Figure 2.4. The Reschedule Appointment window.

1 Date Picker 2 Time Picker 3 SAVE

> **NOTE** The message *Date should not be before minimal date* means the date shown is already past. Choose today or a later date.

2.4 Cancelling an appointment

1. Open the appointment (2.2) and click **CANCEL APPOINTMENT**.
2. MediLink asks *Are you to remove this appointment?* Click **YES** to cancel the appointment, or **NO** to keep it.
3. After **YES**, a green message confirms the change and the appointment disappears from the list.

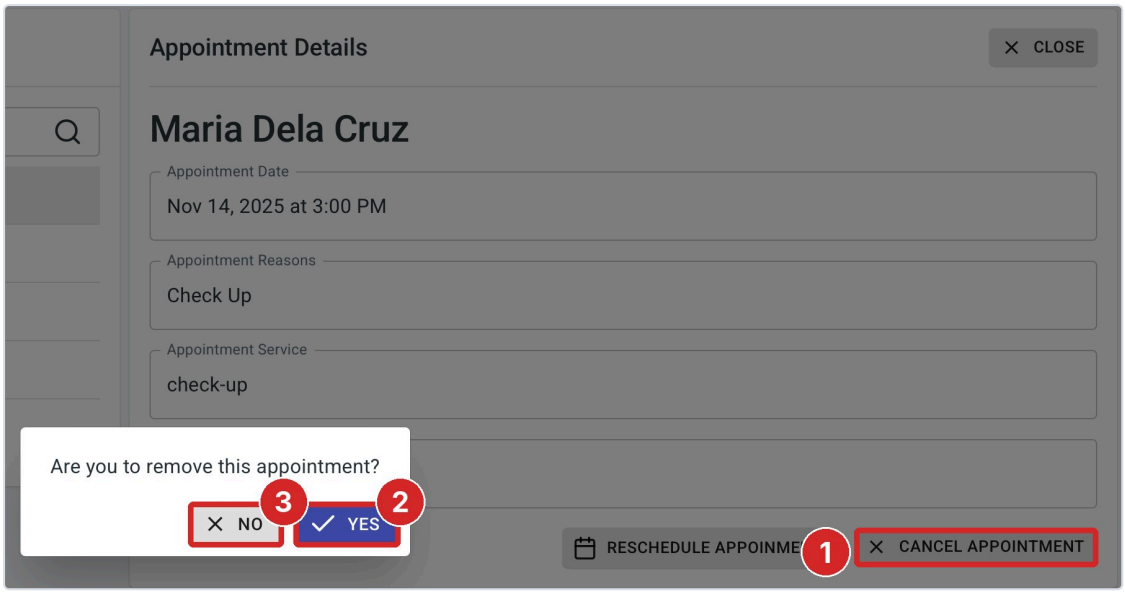

Figure 2.5. Confirming the cancellation.

1 CANCEL APPOINTMENT 2 YES (cancel the appointment) 3 NO (keep it)

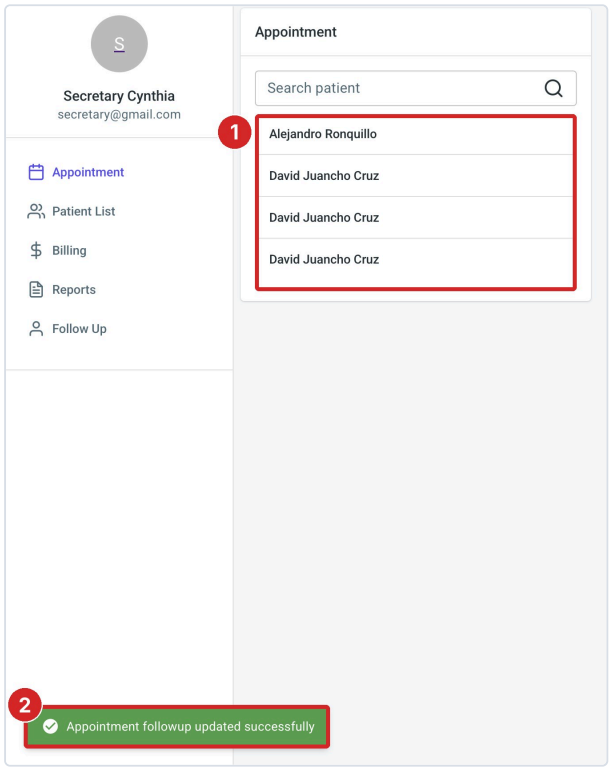

Figure 2.6. After cancelling: the appointment is no longer listed.

1 Appointment list without the cancelled appointment 2 Confirmation message

WARNING Cancel only when the patient asks to cancel. The appointment is removed from the Appointment list right away.

SECTION 3

Patient List

The Patient List is where you add patients, update their profiles, book appointments for them and upload their laboratory and imaging files.

In this section

3.1 Finding a patient

3.2 Adding a new patient

3.3 Patient details

3.4 Booking an appointment for a patient

3.5 Viewing and editing a profile

3.6 Laboratory and imaging attachments

3.1 Finding a patient

Click **Patient List** in the main menu. All patients are listed on the left in alphabetical order. Type in **Search patient** to narrow the list, then click the patient's name to open the details (3.3).

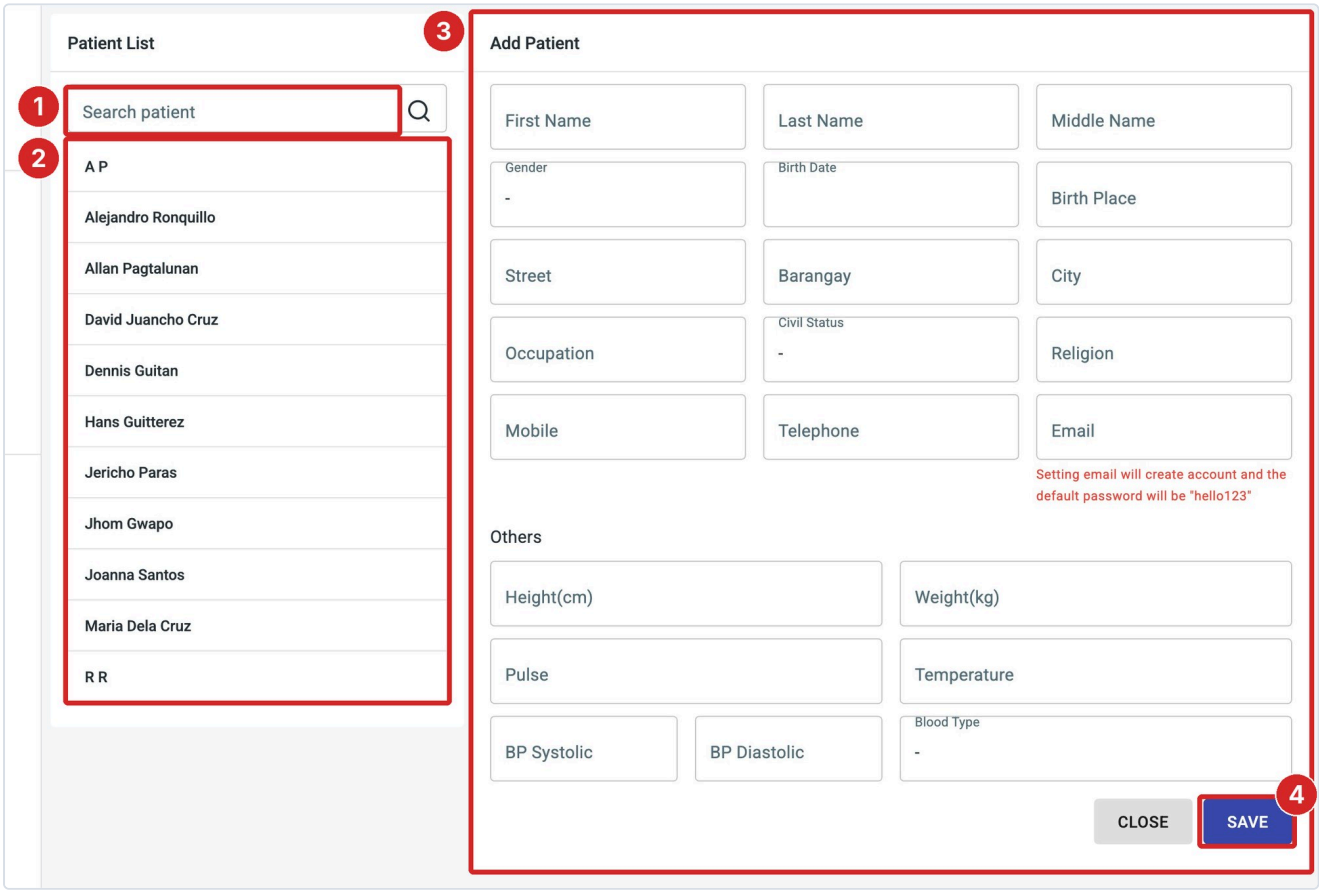

Figure 3.1. The Patient List page with the Add Patient form.

1 Search patient 2 Patients 3 Add Patient form 4 SAVE

3.2 Adding a new patient

When no patient is selected, the **Add Patient** form is shown on the right (Figure 3.1, box 3).

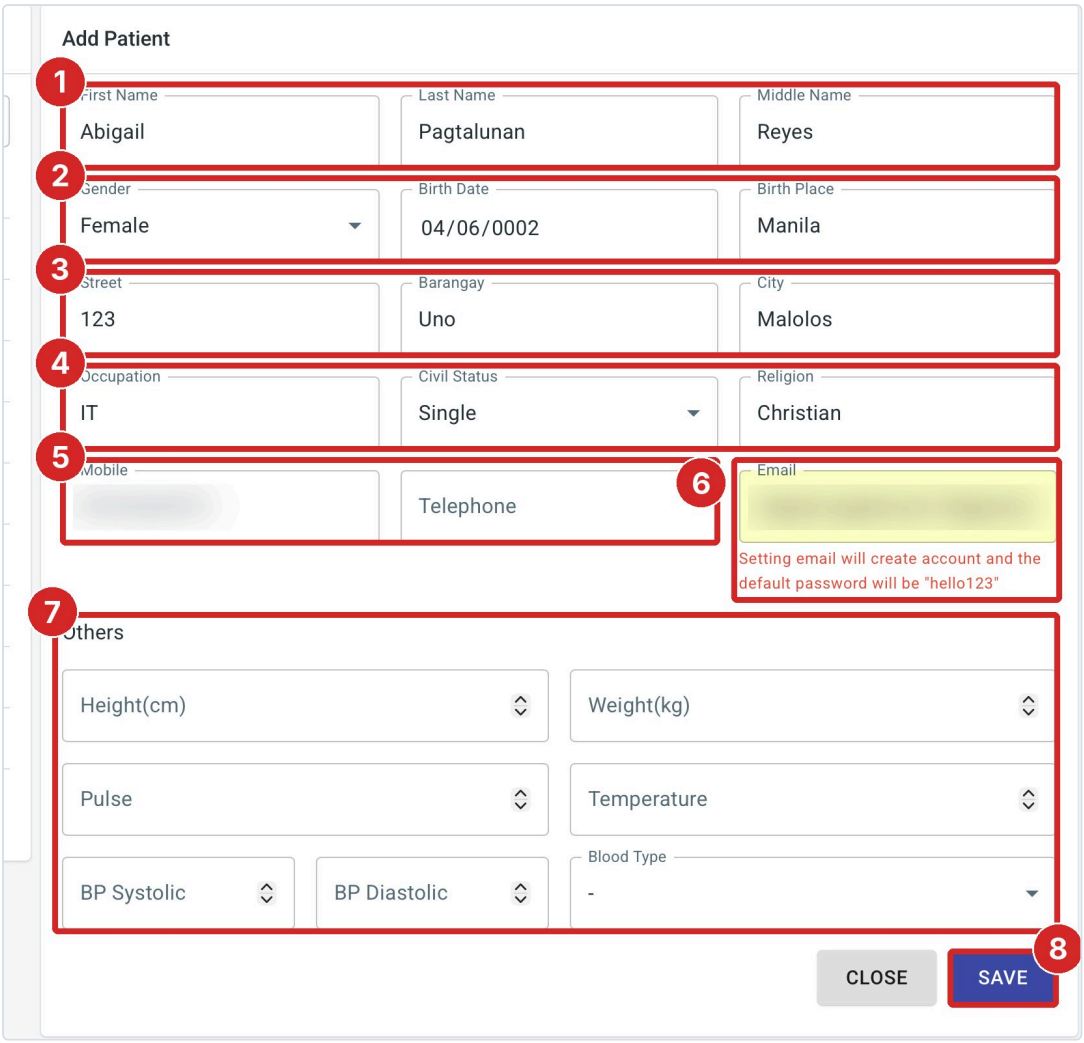

Figure 3.2. A completed Add Patient form.

1 Name 2 Gender, Birth Date and Birth Place 3 Address 4 Occupation, Civil Status and Religion
5 Mobile and Telephone 6 Email and the account message 7 Others (health measurements) 8 SAVE

1. Type the patient's **First Name**, **Last Name** and **Middle Name**.
2. Choose the **Gender**, then enter the **Birth Date** and **Birth Place**.
3. Type the address: **Street**, **Barangay** and **City**.
4. Type the **Occupation**, choose the **Civil Status** (Single, Married or Divorced), and type the **Religion**.
5. Type the **Mobile** number, and the **Telephone** and **Email** if the patient has them.
6. Under **Others**, enter the patient's height (cm), weight (kg), pulse, temperature, blood pressure (systolic and diastolic) and choose the **Blood Type**.
7. Click **SAVE**, or **CLOSE** to clear the form.

Email and the patient's account. The **Email** field is optional, but filling it in does more than record an address. MediLink shows the message *Setting email will create account and the default password will be "hello123"* under the field (Figure 3.3).

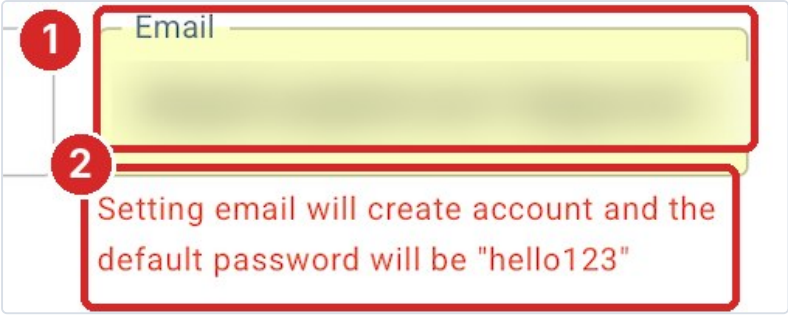

Figure 3.3. The Email field and its account message.

1 Email (becomes the patient's username) 2 Account message with the default password

- When you click **SAVE** with an email entered, MediLink creates a patient account. The email is the **username** and the password is the default **hello123**.
- Tell the patient their username and default password, and ask them to sign in and change the password right away (Patient manual, Account Settings).
- Check the email carefully before saving. It cannot be changed later, because it is the patient's username.
- Leave **Email** blank if the patient does not need to sign in to MediLink.

> **IMPORTANT** Every patient account created this way starts with the same password, **hello123**. Until the patient changes it, anyone who knows the patient's email can sign in as that patient.

3.3 Patient details

Click a patient's name. The **Patient Details** panel shows the patient's address, contact number, gender, birth date, birth place, religion and civil status. Below it are four tabs.

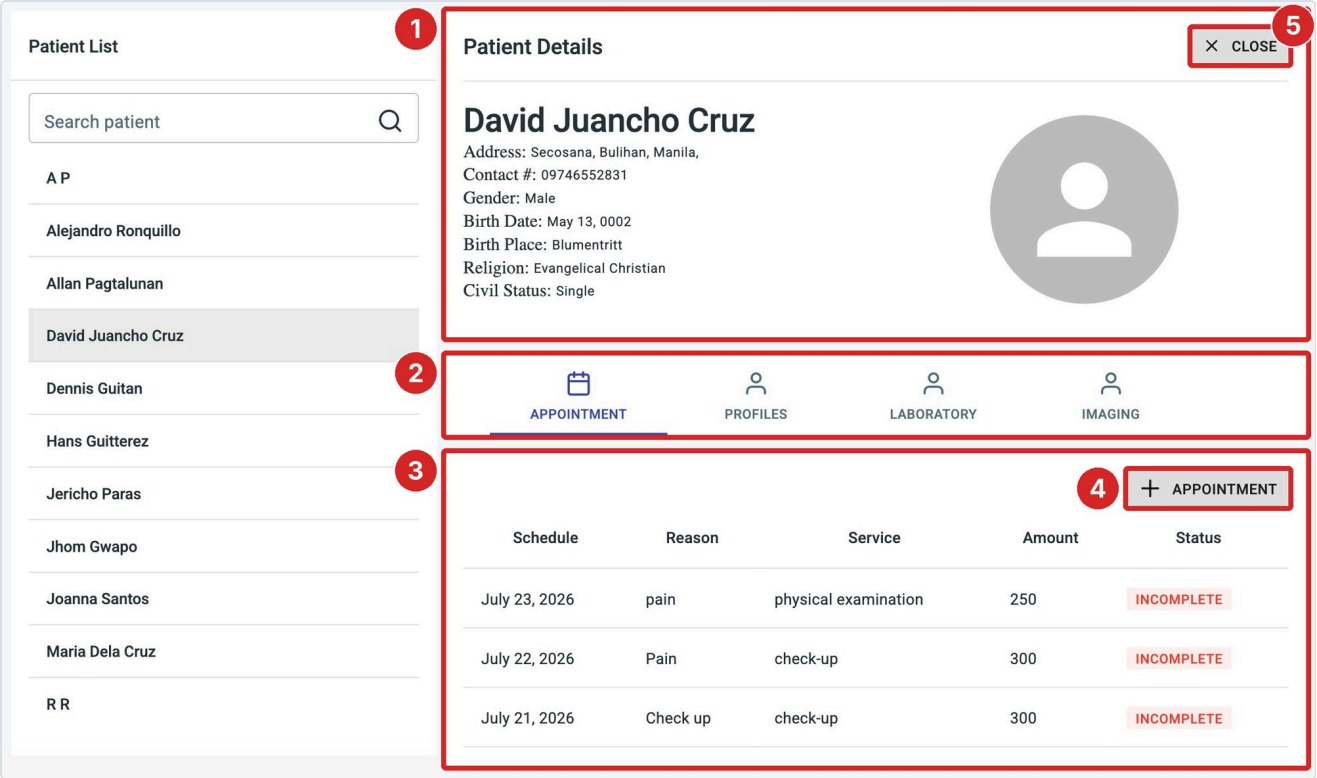

Figure 3.4. Patient details.

1 Patient information 2 Tabs: Appointment, Profiles, Laboratory, Imaging 3 The patient's appointments
4 APPOINTMENT button (book a new appointment) 5 CLOSE

Tab	What it shows	See
Appointment	The patient's appointments with schedule, reason, service, amount and status.	3.4
Profiles	The patient's full profile and health measurements.	3.5
Laboratory	Laboratory files attached to the patient's record.	3.6
Imaging	Imaging files attached to the patient's record.	3.6

3.4 Booking an appointment for a patient

1. Open the patient (3.3). On the **Appointment** tab, click **APPOINTMENT**.
2. In **Add Appointment**, pick the date (**Date Picker**) and time (**Time Picker**).
3. Type the **Reason of Appointment**.
4. Choose the **Doctor**. Each doctor is listed with his or her specialty.
5. Choose the **Service**. The services of the chosen doctor appear with their fees, for example *check-up - ₱300* (Figure 3.6).
6. Click **SAVE**, or **CLOSE** to cancel.

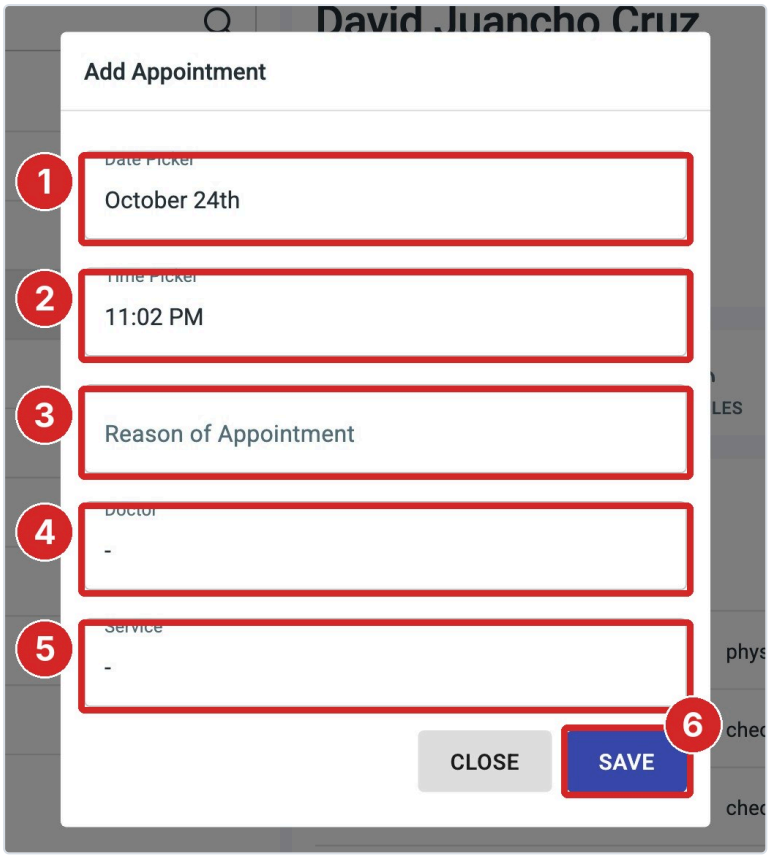

Figure 3.5. The Add Appointment window.

1 Date Picker 2 Time Picker 3 Reason of Appointment 4 Doctor 5 Service 6 SAVE

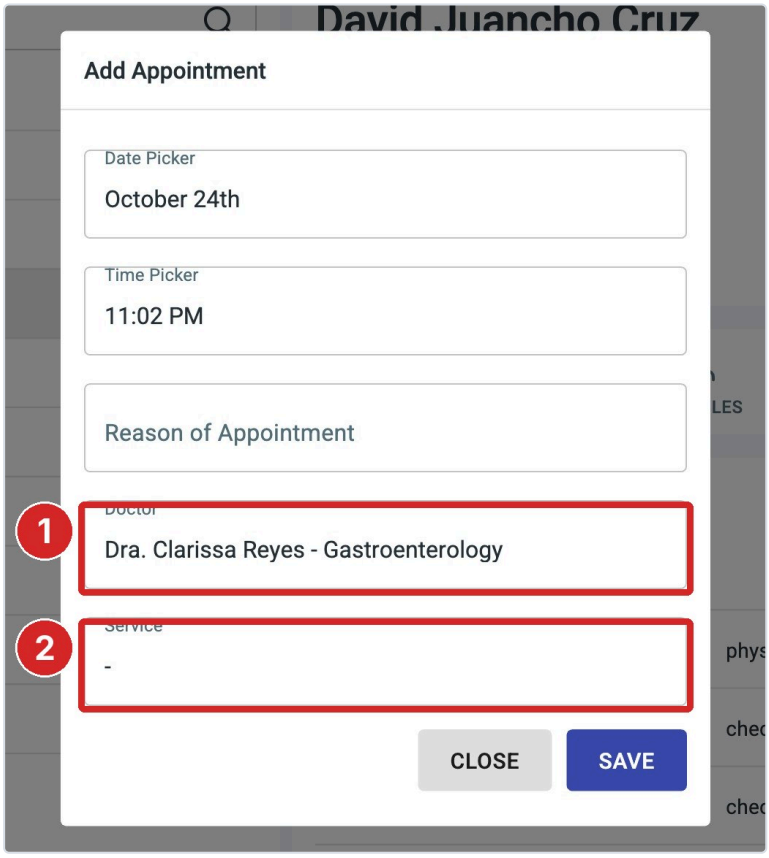

Figure 3.6. After choosing a doctor, the doctor's services can be chosen.

1 Doctor 2 Service

Required fields. Doctor and **Service** must be chosen before the appointment can be saved. If you click **SAVE** while either still shows **-**, the field turns red and **Required** appears under it, and the appointment is not saved (Figure 3.7). Choose a doctor and a service, then click **SAVE** again.

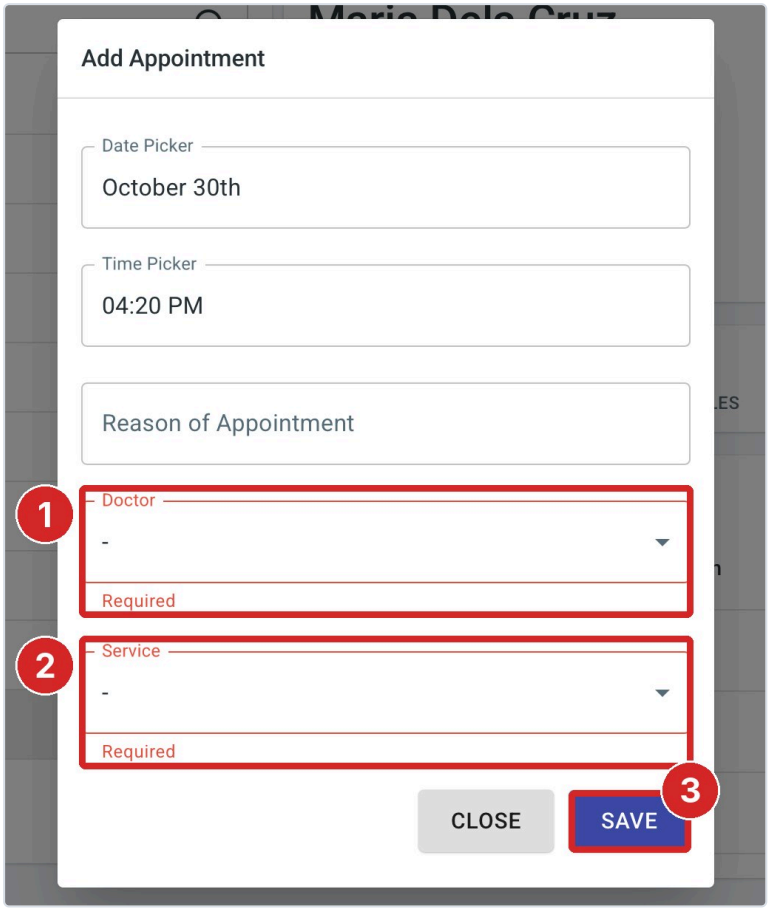

Figure 3.7. Saving without a doctor or service.

1 Doctor: Required 2 Service: Required 3 SAVE

The **Service** list depends on the doctor. Until a doctor is chosen it offers only *No service added* (Figure 3.8), so choose the **Doctor** first and then open **Service** again.

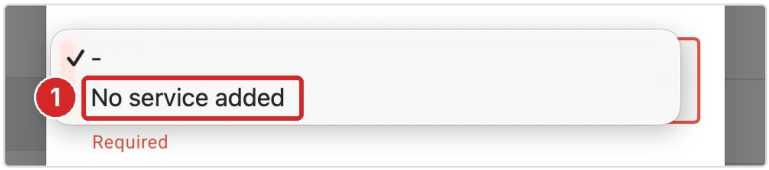

Figure 3.8. The Service list before a doctor is chosen.

1 No service added

3.5 Viewing and editing a profile

The **Profiles** tab shows the patient's personal details and **Health Records** (height, weight, pulse, temperature, blood pressure and blood type). Fields marked * are required.

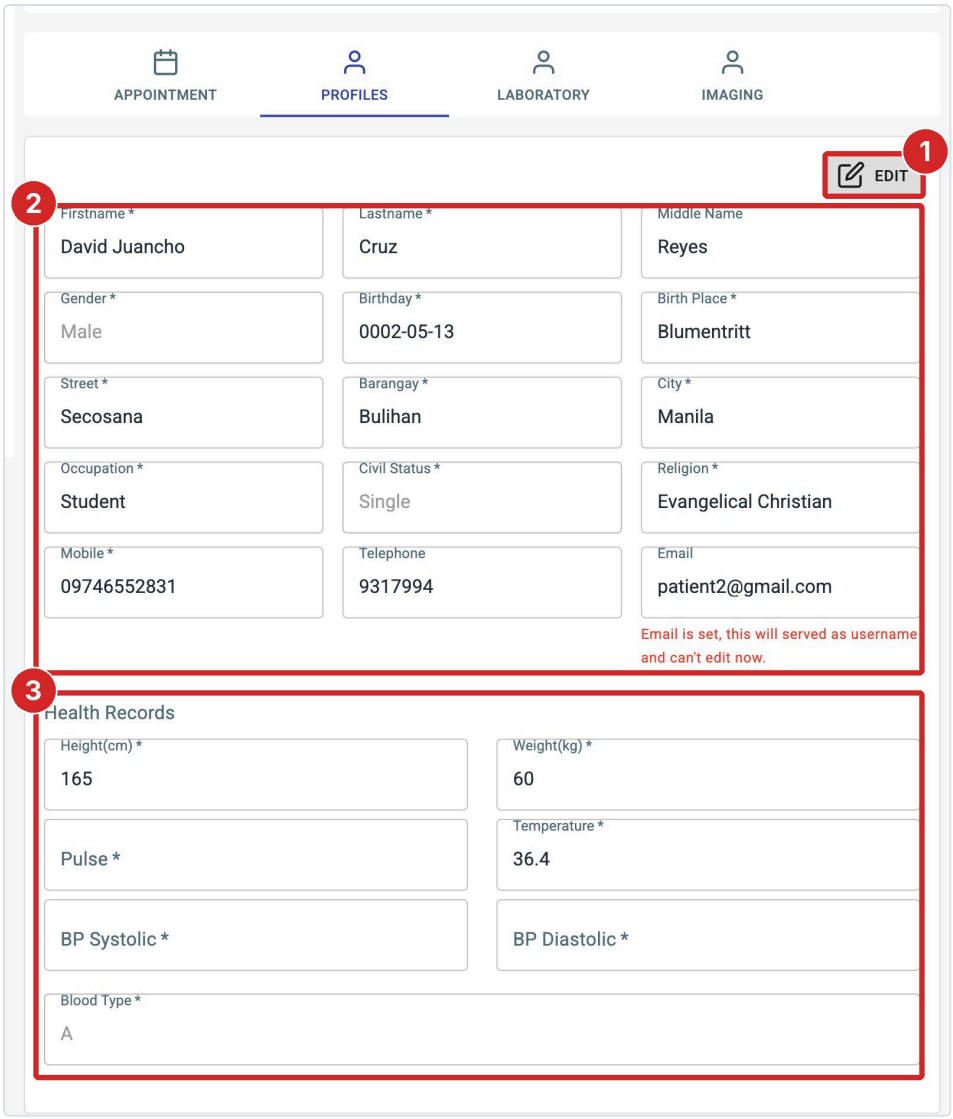

Figure 3.9. The Profiles tab.

1 EDIT 2 Personal details 3 Health Records

1. Click **EDIT**.
2. Change the details that need updating.
3. Click **SAVE**, or **CANCEL** to discard your changes.

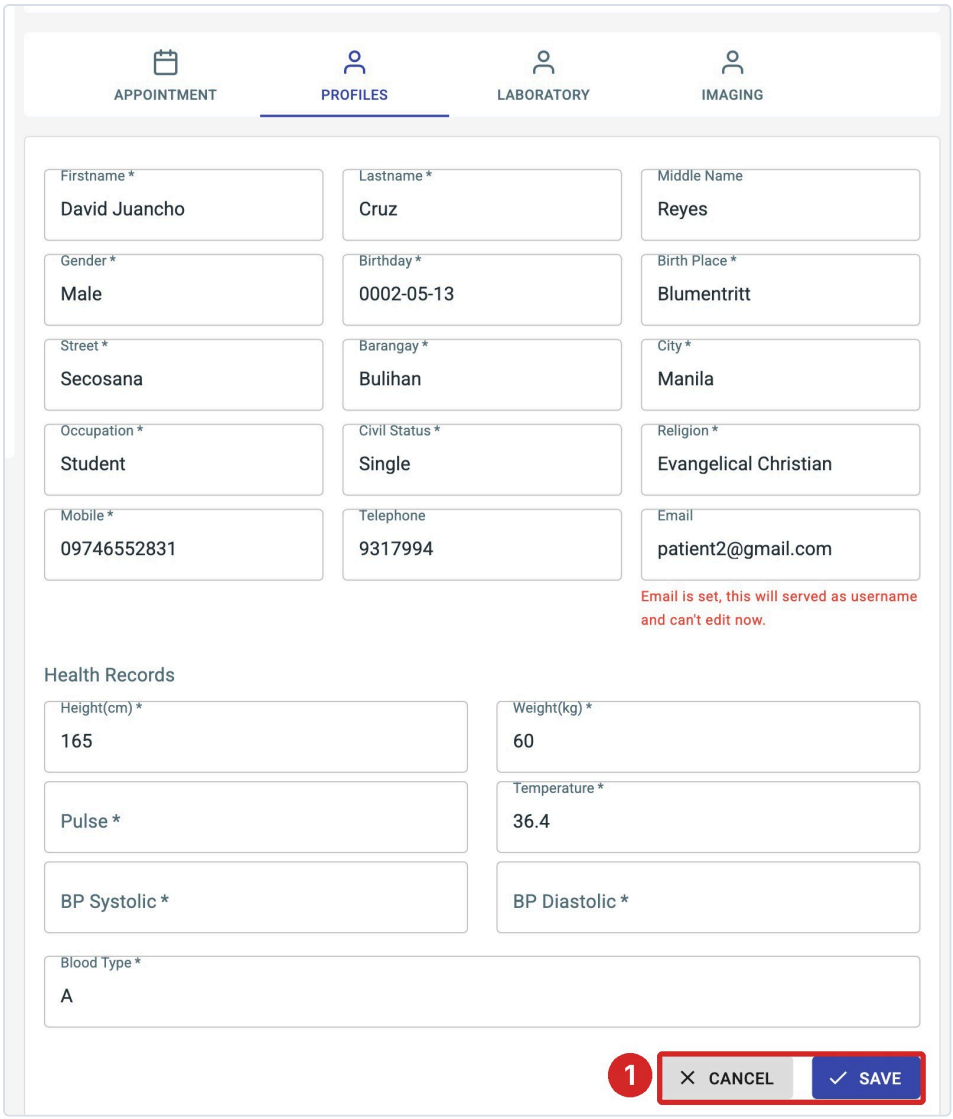

Figure 3.10. Editing a profile.

1 CANCEL and SAVE

> **NOTE** If the patient has an email, it serves as the patient's username and cannot be edited.

3.6 Laboratory and imaging attachments

The **Laboratory** and **Imaging** tabs hold result files attached to the patient's record, such as scanned laboratory results or X-ray images. Each attachment shows its description, the date and time it was added, and who added it (for example *secretary*). Click the arrow (›) on a row to show the attached images.

To attach a laboratory result:

1. Open the patient (3.3) and click the **LABORATORY** tab, then click **ADD**. The **Upload images** panel opens on the right.
2. Type a **Description**, for example *FBS CBC Results*.
3. Drag the file onto the box, or click **browse** and choose it from your computer. The chosen file is listed with its size; click the bin icon to remove it and choose another.
4. Click **UPLOAD**.

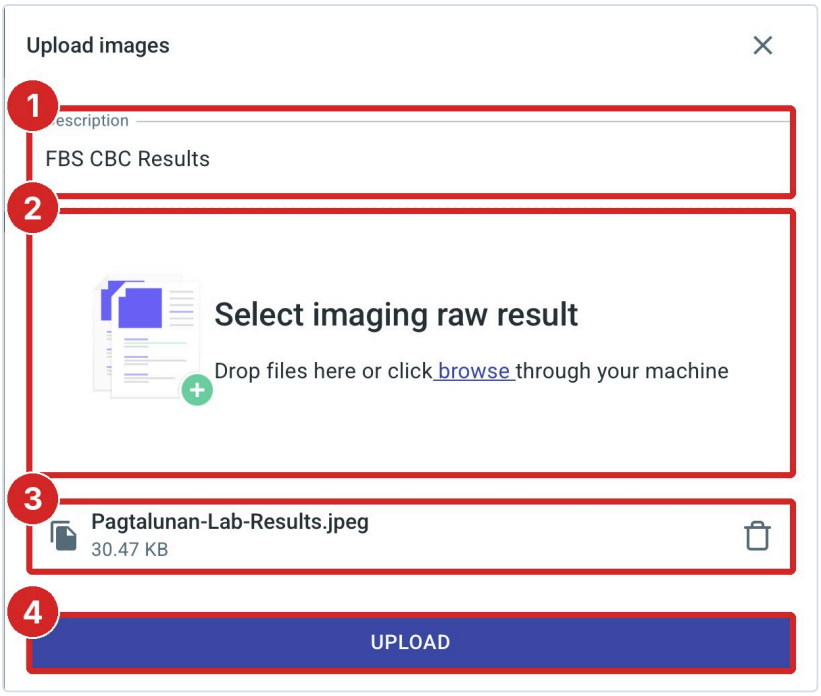

Figure 3.11. Uploading a laboratory result.

1 Description 2 File drop area 3 Chosen file (bin icon removes it) 4 UPLOAD

A green message confirms the upload, and the file appears under **Laboratory Attachments** with the date and *Added by: secretary*.

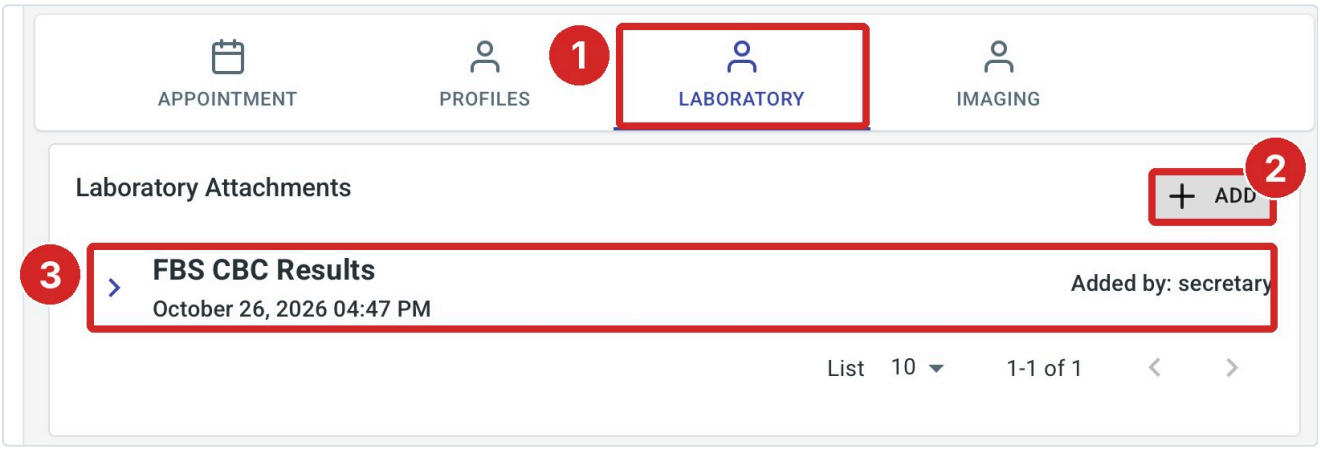

Figure 3.12. The uploaded result in Laboratory Attachments.

1 LABORATORY tab 2 ADD 3 New attachment (click › to show the images)

To attach an imaging result: click the **IMAGING** tab and follow the same steps, for example with the description *Xray*.

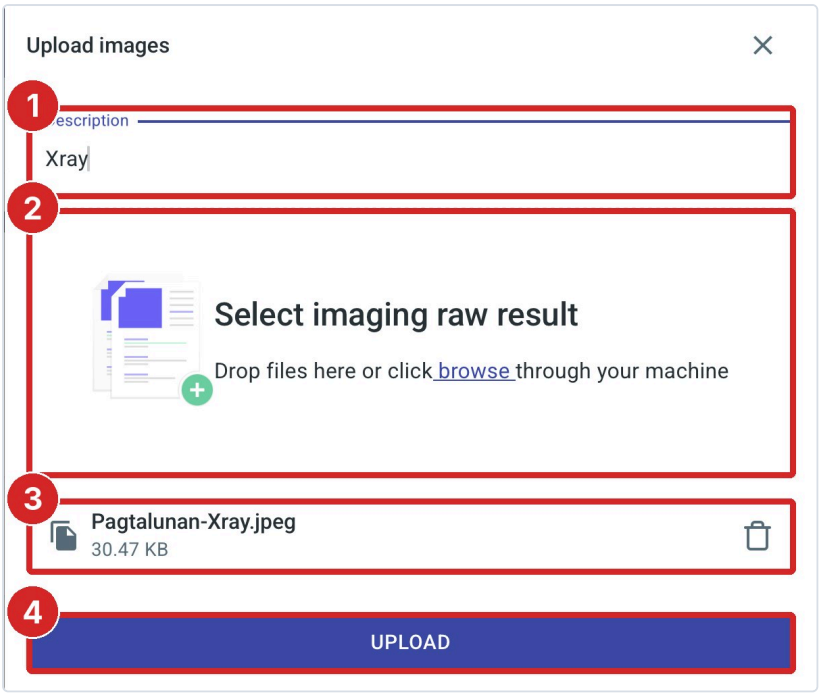

Figure 3.13. Uploading an imaging result.

1 Description 2 File drop area 3 Chosen file (bin icon removes it) 4 UPLOAD

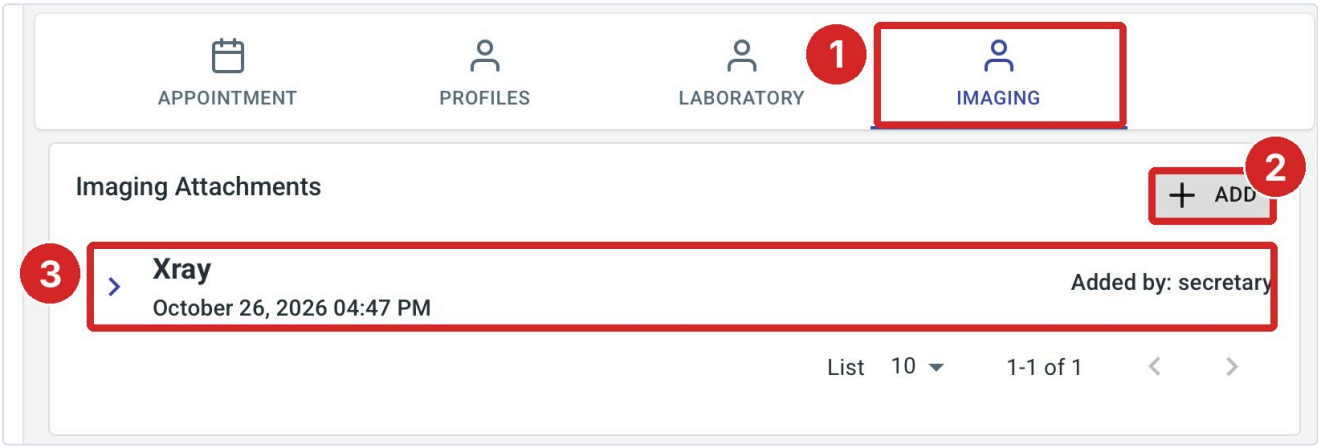

Figure 3.14. The uploaded result in Imaging Attachments.

1 IMAGING tab 2 ADD 3 New attachment (click › to show the images)

SECTION 4

Billing

The Billing page lists patients with unpaid bills. Here you review charges, add bills, correct amounts and record payments.

In this section

4.1 Unpaid bills

4.2 Correcting a bill amount

4.3 Adding a bill

4.4 Recording a payment

4.1 Unpaid bills

Click **Billing** in the main menu. The **Unpaid Bills** list shows each patient with a balance. Type in **Search patient** to find a patient, then click the name.

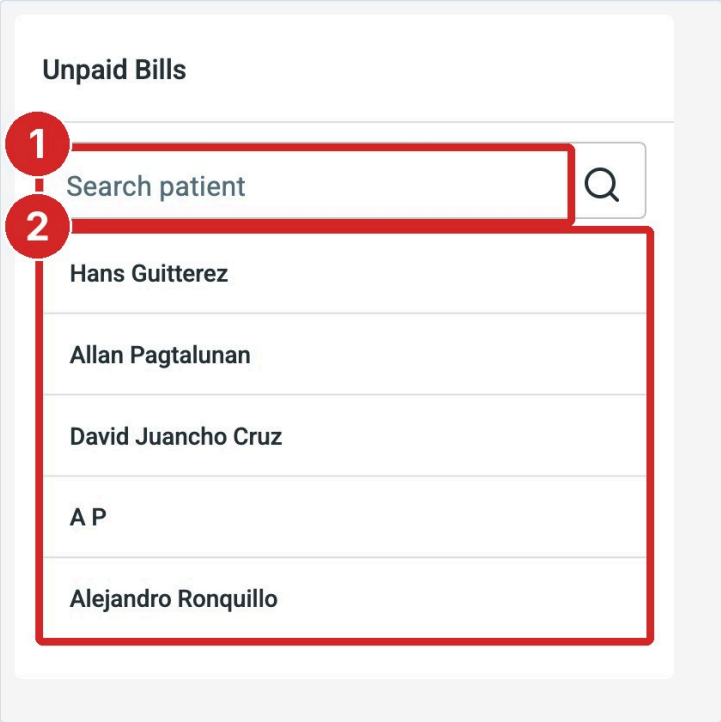

Figure 4.1. The Unpaid Bills list.

1 Search patient 2 Patients with unpaid bills

The **Unpaid Bill Details** panel lists each charge (order) and amount, and the **Total**.

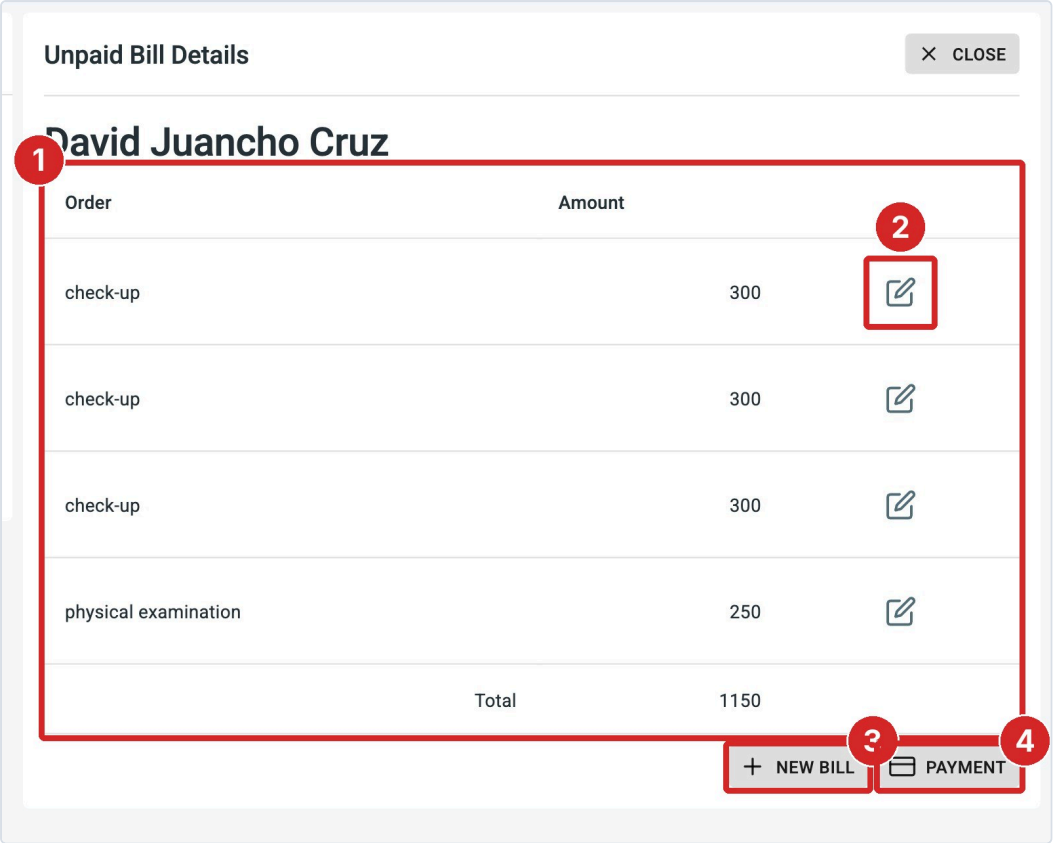

Figure 4.2. Unpaid bill details.

1 Charges and total 2 Edit Amount 3 NEW BILL 4 PAYMENT

4.2 Correcting a bill amount

1. Click the edit icon (Edit Amount) on the charge.
2. Type the correct **Amount**.
3. Type the **Reason for edit**.
4. Click **SAVE**, or **CLOSE** to cancel.

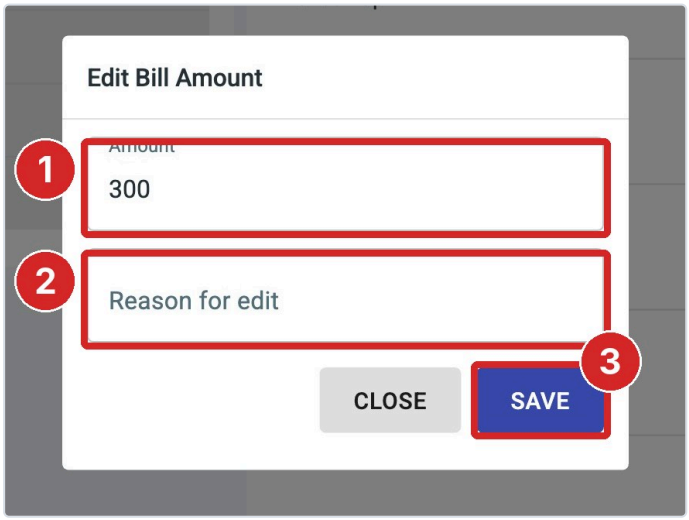

Figure 4.3. The Edit Bill Amount window.

1 Amount 2 Reason for edit 3 SAVE

IMPORTANT Always give a clear reason when changing an amount, for example a discount or a correction.

4.3 Adding a bill

1. Click **NEW BILL**.
2. Under **Category**, choose **service** to bill one of the clinic's services, or **others** for any other charge.
3. For **service**: choose the **Service**; its fee is shown in the list, for example *Vaccine - ₱700*.
4. For **others**: type what the charge is for (*If others, please specify*) and the **Amount**.
5. Click **SAVE**, or **CLOSE** to cancel.

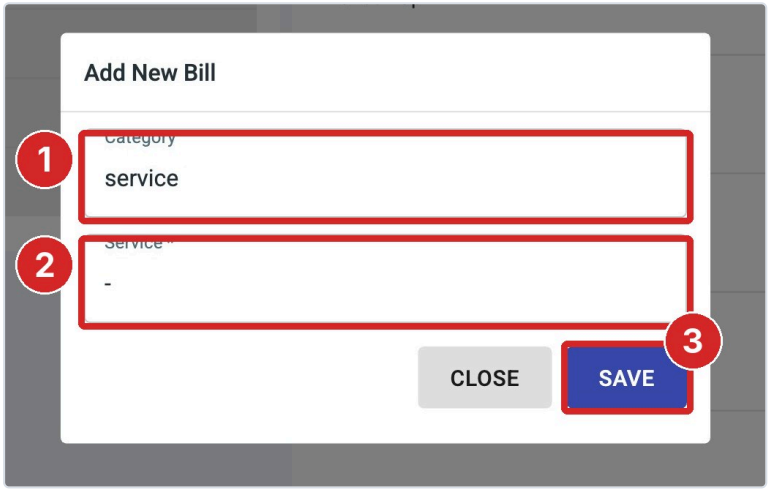

Figure 4.4. Adding a bill for a service.

1 Category: service 2 Service 3 SAVE

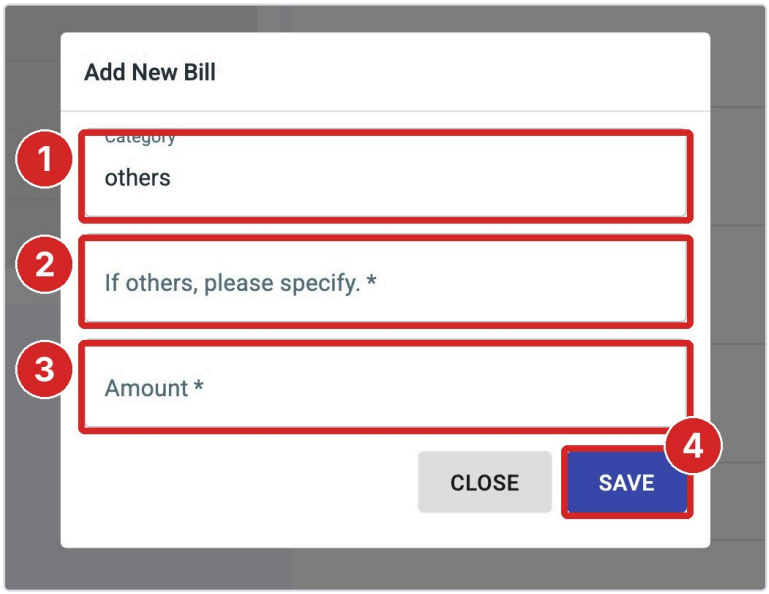

Figure 4.5. Adding another charge.

1 Category: others 2 Description of the charge 3 Amount 4 SAVE

4.4 Recording a payment

1. Click **PAYMENT**. The **Total Cost** of the unpaid bills is shown.

2. Type the **Amount** the patient paid.
3. Click **SAVE**, or **CLOSE** to cancel.

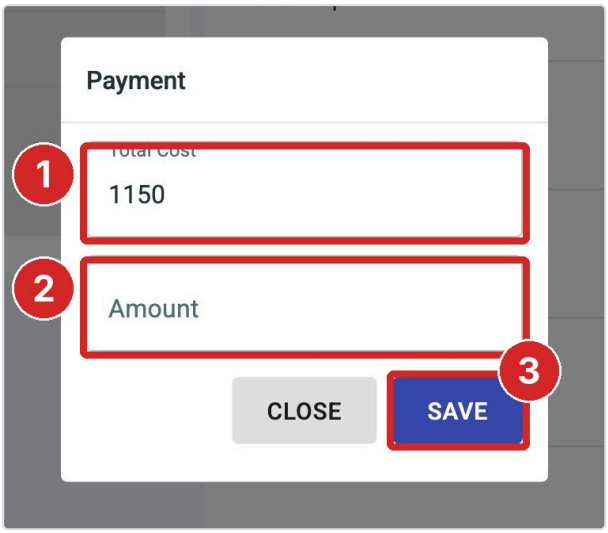

Figure 4.6. The Payment window.

1 Total Cost 2 Amount paid 3 SAVE

> **NOTE** Receipts, with the payment and change, are listed in **Reports** (Section 5). Saving a payment was not tested while preparing this manual.

SECTION 5

Reports

The Reports page lists receipts so you can review collections and reprint a receipt.

In this section

5.1 The receipts list

5.2 Filtering by date

5.3 Viewing and printing a receipt

5.1 The receipts list

Click **Reports** in the main menu. Each row shows the **Date**, **Receipt No.**, **Patient**, **Service** and **Rate**. The **Total** of the listed receipts is shown at the bottom.

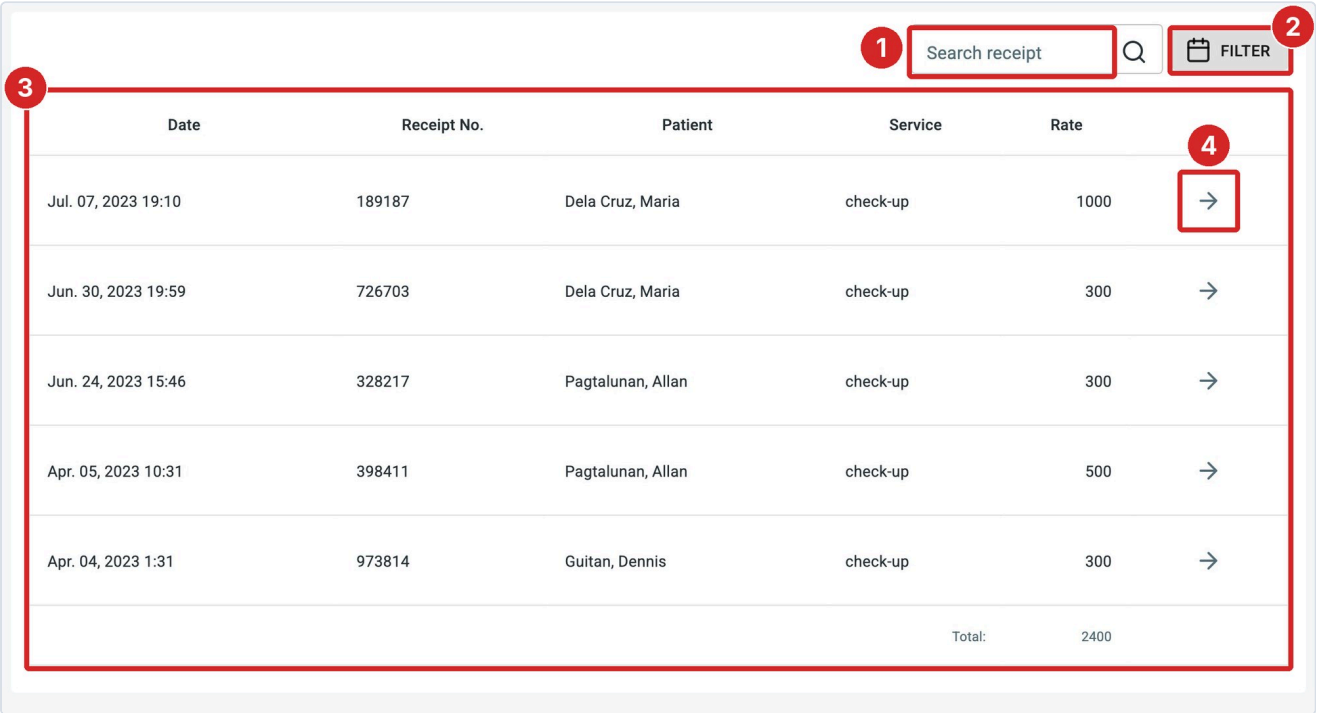

Figure 5.1. The Reports page.

1 Search receipt 2 FILTER 3 Receipts and total 4 Details

5.2 Filtering by date

1. Click **FILTER**.
2. Set **Date & Time From** and **Date & Time To**. Click the calendar icon to pick a date.
3. Click **FILTER** in the window. The list shows only receipts in that period.

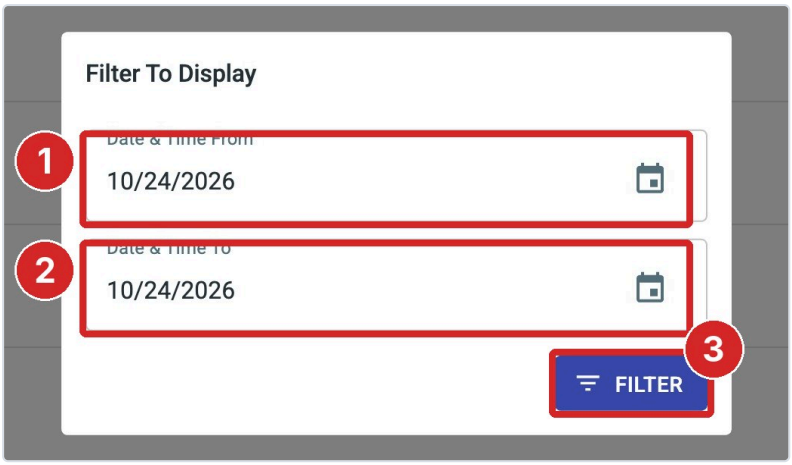

Figure 5.2. The Filter To Display window.

1 Date & Time From 2 Date & Time To 3 FILTER

5.3 Viewing and printing a receipt

1. Click the arrow (Details) at the end of a receipt row.
2. The receipt opens with the clinic's name, address, contact number and hours, and the patient's name, address and date.
3. Click **PRINT** to print it, or **CLOSE** to return to the list.

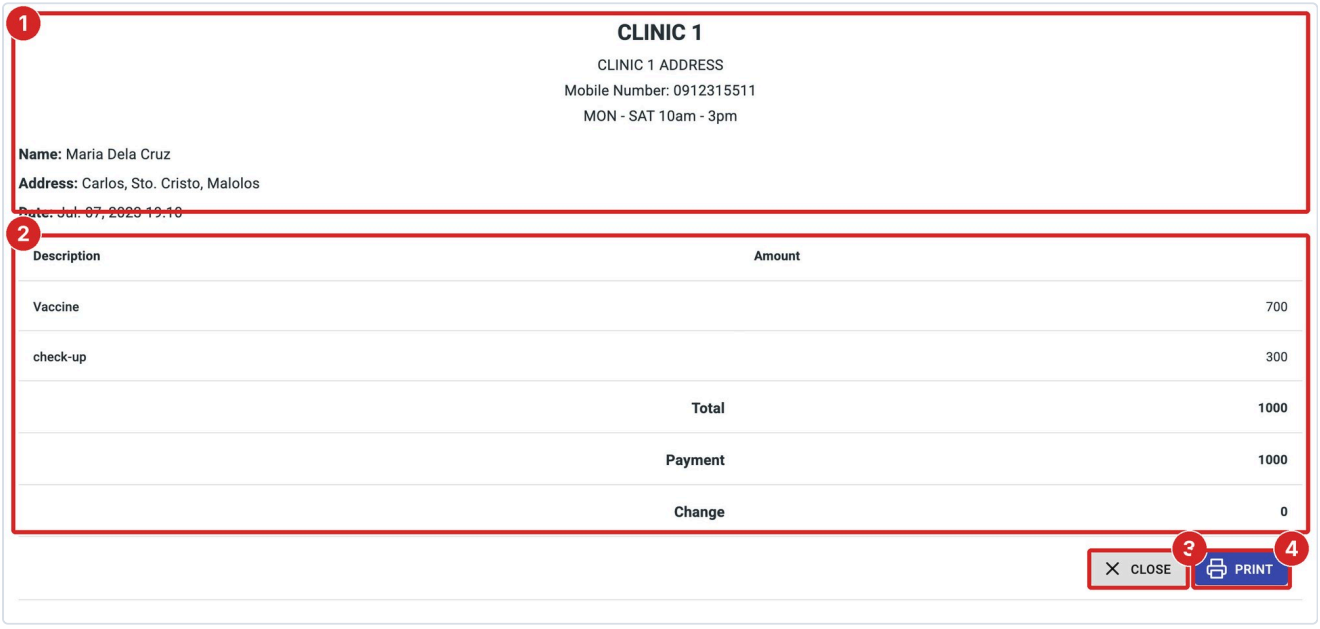

Figure 5.3. A receipt.

1 Clinic and patient details 2 Charges, total, payment and change 3 CLOSE 4 PRINT

SECTION 6

Follow Up

The Follow Up page lists patients whom a doctor asked to come back, so you can contact them.

In this section

6.1 Ongoing follow-ups
6.2 Done follow-ups

6.1 Ongoing follow-ups

Click **Follow Up** in the main menu. The list shows the **Date** of the follow-up, the doctor's **Description**, the **Patient** and the patient's **Contact Number**.

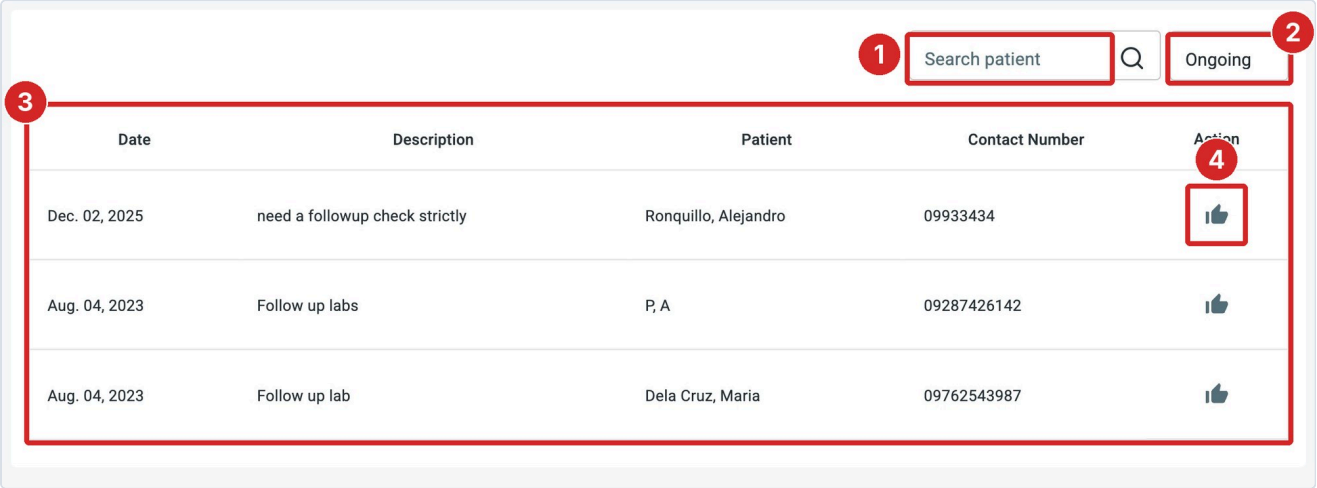

Figure 6.1. Ongoing follow-ups.

1 Search patient 2 Ongoing / Done 3 Follow-ups 4 Set As Done

1. Call or message the patient using the contact number.
2. When the follow-up is settled, click the thumbs-up icon (**Set As Done**) on the row.
3. A green message *Appointment followup updated successfully* confirms it. The follow-up leaves the **Ongoing** list and moves to **Done** (6.2).

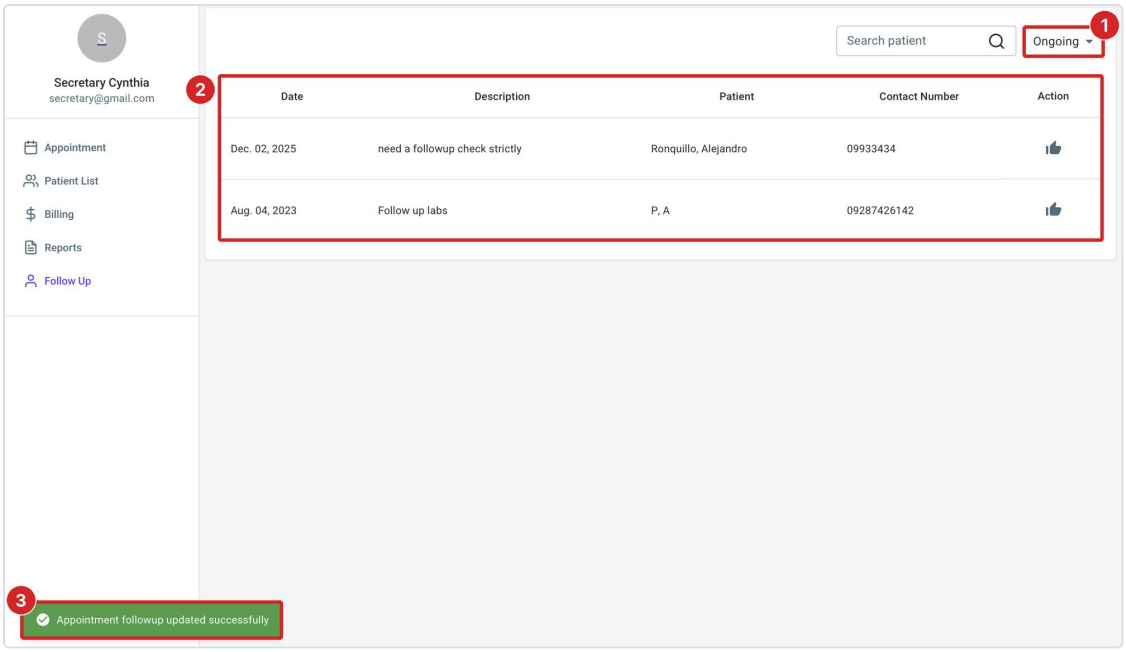

Figure 6.2. After Set As Done: the follow-up has left the Ongoing list.

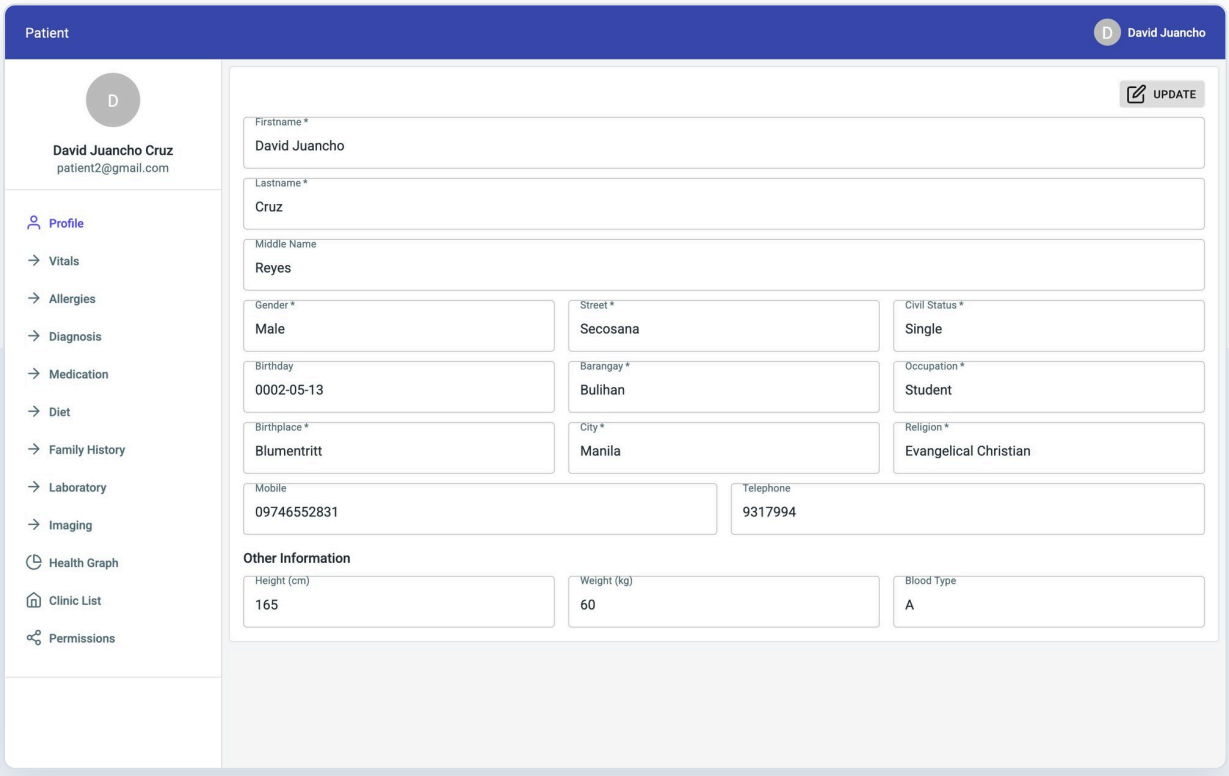
MediLink
Integrated Healthcare System

User Manual for Patients

medilink.oas.lguapp.com · Municipality of Oas, Albay



Prepared by iConcept IT Solutions

SECTION 1

Getting Started

This section explains what a patient can do in MediLink, how to sign in, and how the Patient screen is laid out.

In this section

1.1 About MediLink for patients
1.2 Signing in
1.3 The Patient screen
1.4 Account menu and signing out

1.1 About MediLink for patients

MediLink, the Integrated Healthcare System of the Municipality of Oas, keeps your health record in one place and connects you with the Municipal Health Office. As a **Patient** you can:

- keep your personal profile and vital signs up to date, and check your BMI;
- see the allergies, diagnoses, medication and diet advice your doctor recorded;
- add your own diet plan and family health history;
- view and upload your laboratory and imaging files;
- follow your readings over time in the Health Graph;
- find clinics, their schedules and their doctors; and
- see which doctors have permission to view your record.

> **IMPORTANT** **Sample data only.** All patients, doctors, clinics, results and contact details shown in this manual are sample data used for training. They are not real records.

> **NOTE** Screens in this manual were captured from the live system on 24 October 2026 with a patient account. The patient screens did not show an option to book an appointment; appointments are booked at the clinic by the Secretary.

1.2 Signing in

Your account is created when the clinic registers you with your email address. Your email is your username.

1. Open a web browser and go to **medilink.oas.lguapp.com**.
2. On the MediLink home page, click **LOGIN** at the top right (Figure 1.1).
3. Sign in with your email and password.
4. MediLink opens your **Profile** (Section 2).

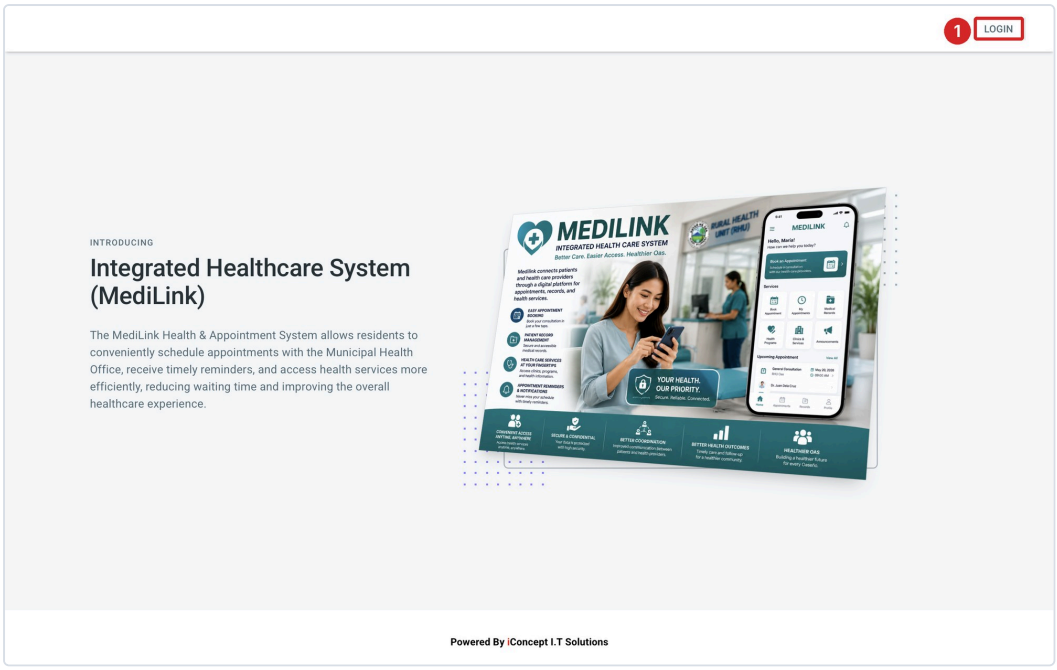


Figure 1.1. The MediLink home page.

1 LOGIN button

IMPORTANT If the clinic gave you a default password, change it the first time you sign in (Section 7.3).

1.3 The Patient screen

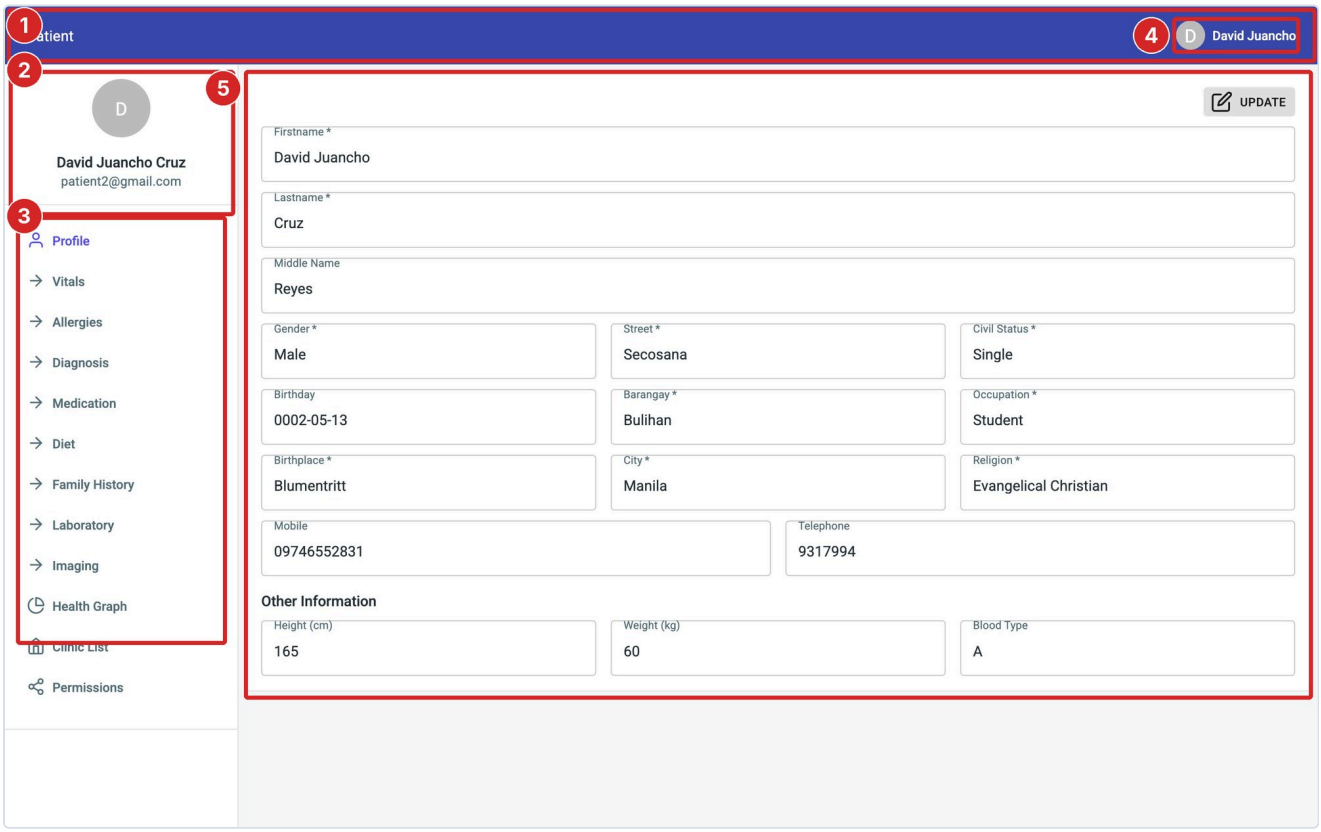

Figure 1.2. The Patient screen.

1 Top bar 2 Your photo, name and email 3 Main menu 4 Account menu 5 Work area

Menu	What you will find	See
Profile	Your personal details.	2.1
Vitals	Your vital signs and the BMI calculator.	2.2
Allergies, Diagnosis, Medication	Records from your doctor.	3.1 – 3.3
Diet	Diet advice from your doctor and your own diet plan.	3.4
Family History	Health history of your parents and children.	3.5
Laboratory, Imaging	Your test result files.	Section 4
Health Graph	Charts of your readings over time.	Section 5
Clinic List	Clinics, their schedule, location and doctors.	6.1
Permissions	Doctors with access to your record.	6.2

1.4 Account menu and signing out

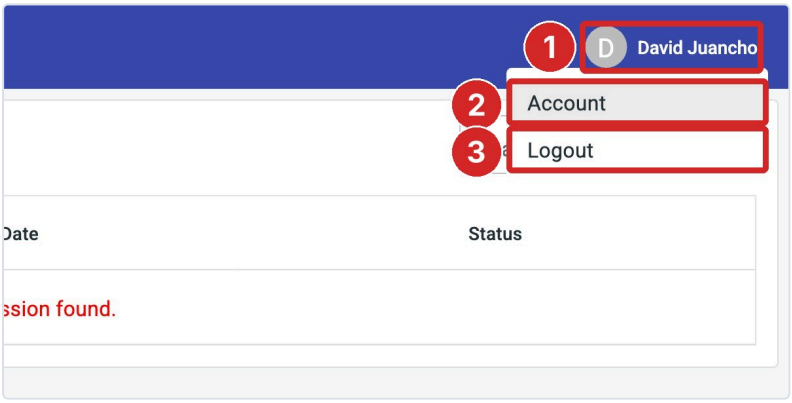

Figure 1.3. The account menu at the top right.

1 Account menu 2 Account 3 Logout

- Click **Account** to change your profile photo, email or password (Section 7).
- Click **Logout** to sign out. Always sign out on a shared computer or phone.

SECTION 2

Profile and Vitals

Keep your personal details and vital signs up to date so your doctor sees correct information.

In this section

2.1 Your profile

2.2 Vital signs

2.3 BMI calculator

2.1 Your profile

Click **Profile** in the main menu. Your profile shows your name, gender, birthday, birthplace, address, civil status, occupation, religion, mobile and telephone numbers, and under **Other Information** your height, weight and blood type.

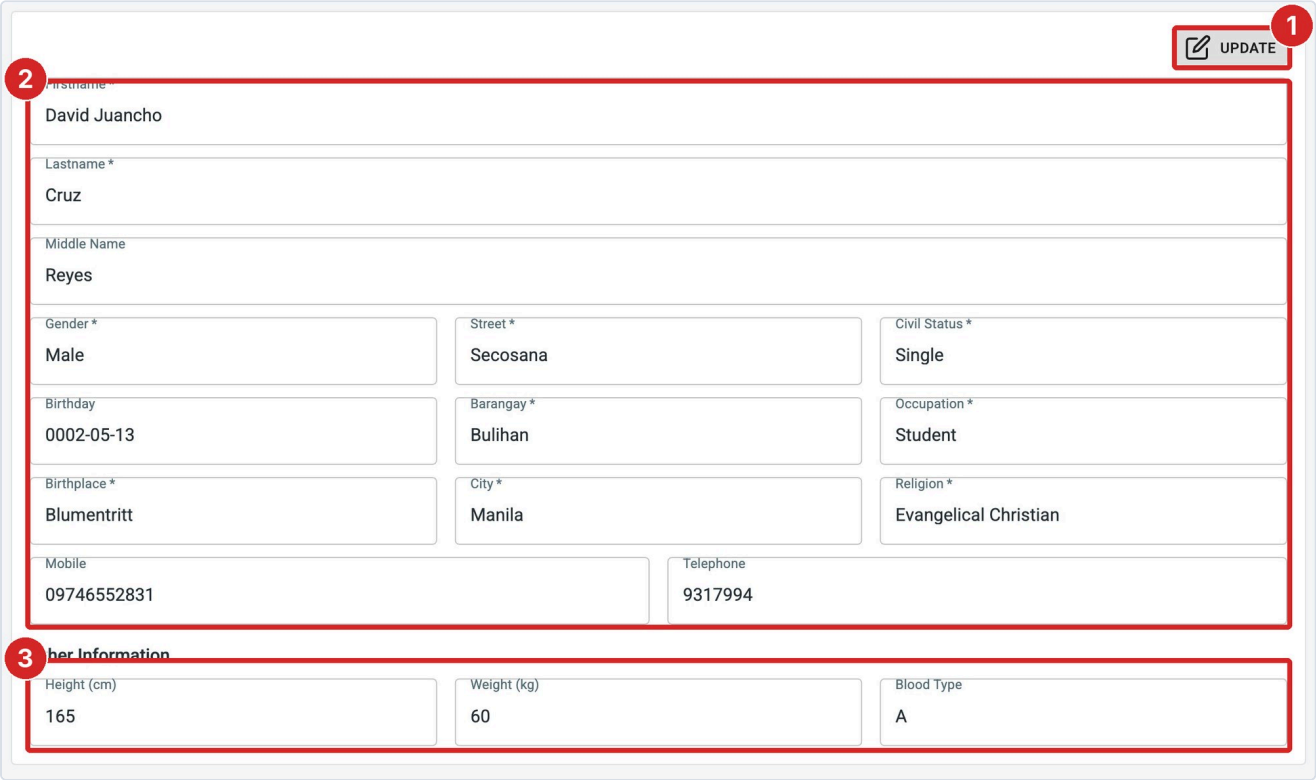

Figure 2.1. Your profile.

1 UPDATE 2 Personal details 3 Other Information

1. Click **UPDATE**. The fields can now be changed.
2. Correct the details that need updating. Fields marked * are required.
3. Click **SAVE**, or **NO** to discard your changes.

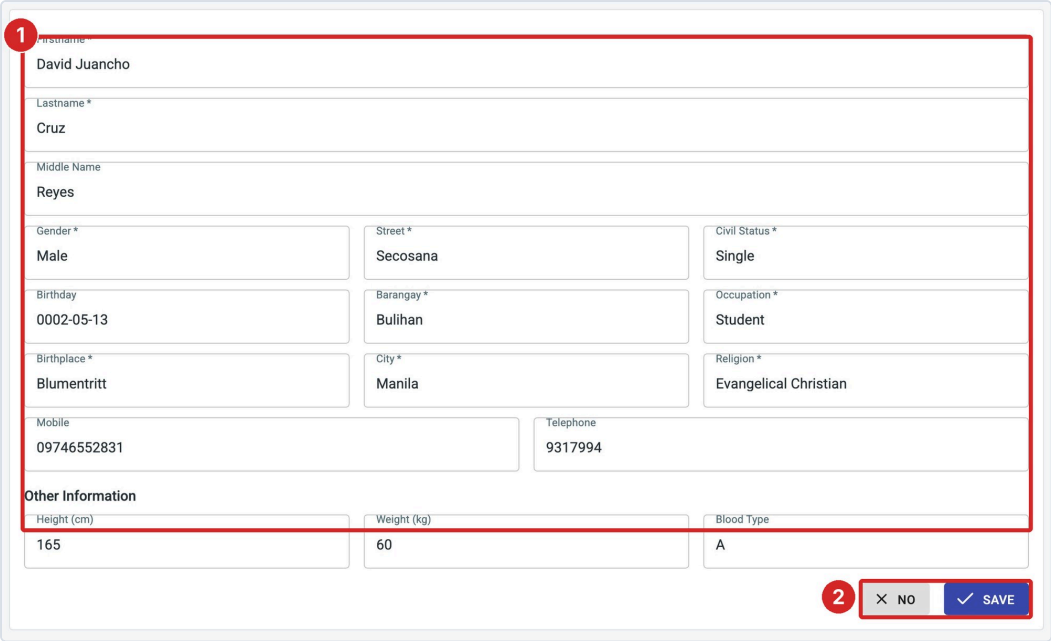

Figure 2.2. Updating your profile.

1 Editable details 2 NO and SAVE

2.2 Vital signs

Click **Vitals**. The page shows your latest temperature (°C), blood pressure (systolic and diastolic, mmHg), heart pulse, weight (kg), height (cm), glucose, uric acid, respiratory rate, cholesterol and hepatitis status.

1. Click **UPDATE**.
2. Type the readings you measured. For **Hepatitis**, choose Positive or Negative.
3. Click **SAVE**, or **CANCEL** to discard your changes.

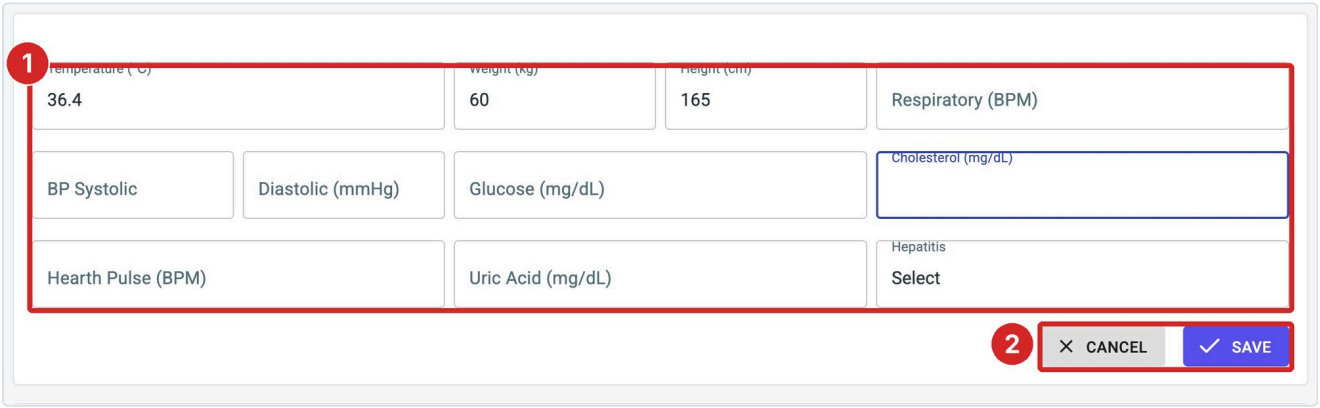

Figure 2.3. Updating your vital signs.

1 Readings 2 CANCEL and SAVE

2.3 BMI calculator

The **BMI Calculator** on the Vitals page uses your weight and height to work out your Body Mass Index.

1. Check or change your **Weight (kg)** and **Height (cm)**.
2. Click **CALCULATE**. Your BMI appears under **Result**, for example *22.04* for 60 kg and 165 cm.

3. Compare the result with the **BMI Assessment** table: below 18.5 underweight, 18.5 – 25 healthy, 25 – 30 overweight, 30 – 40 obese, 40+ morbidly obese.

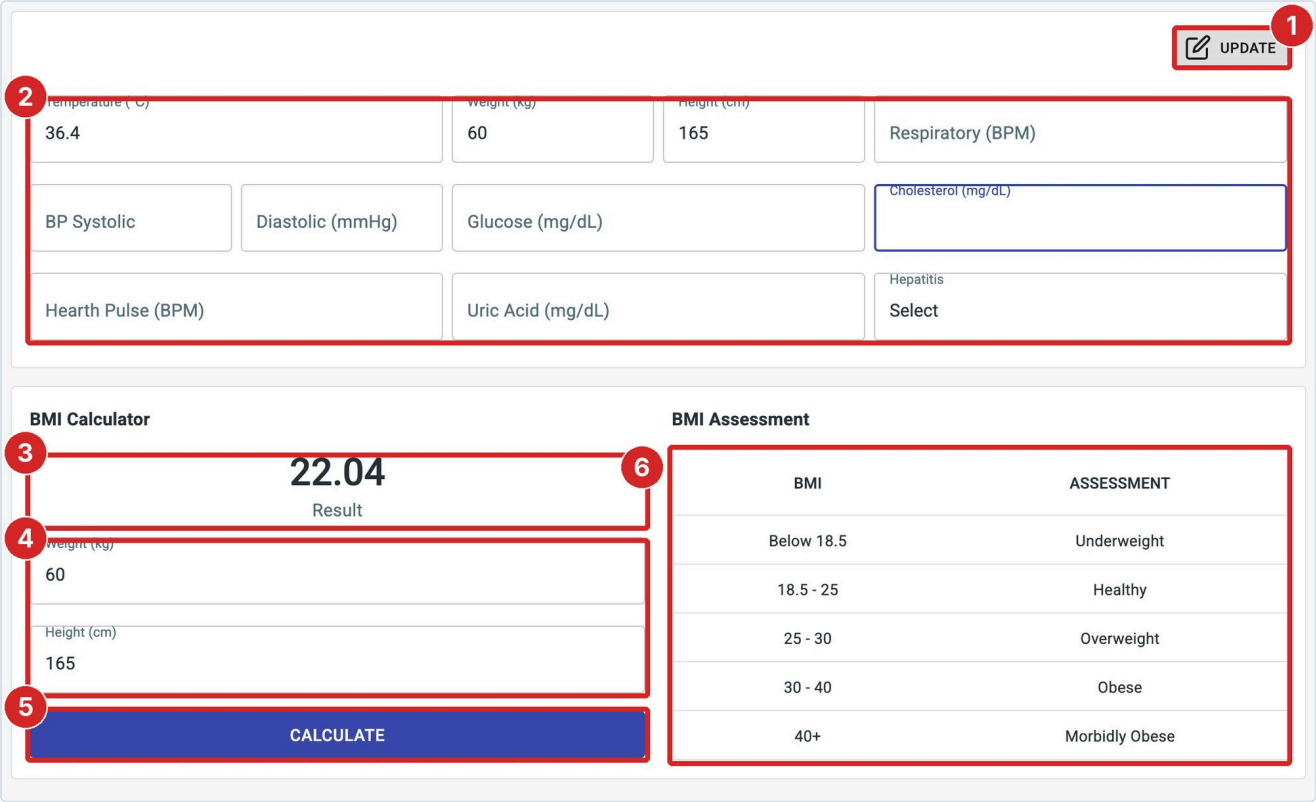

Figure 2.4. The Vitals page with the BMI calculator.

3.3 Medication

3.4 Diet

3.5 Family History

3.1 Allergies

Click **Allergies** to see your known allergies, for example *Penicillin*. Only your doctor can add allergies. Tell your doctor if an allergy is missing.

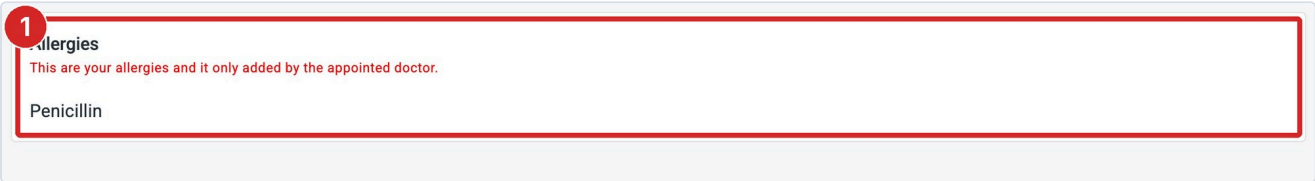

Figure 3.1. Allergies.

1 Your allergies

3.2 Diagnosis

Click **Diagnosis** to see your doctor's diagnoses with their dates. Click the arrow on a row to show or hide the full diagnosis. Only your doctor can add a diagnosis.

Figure 3.2. Diagnosis, with one row opened.

1 Show or hide the details

3.3 Medication

Click **Medication** to see the medicines your doctor listed for you. Use the arrows at the bottom to page through a long list.

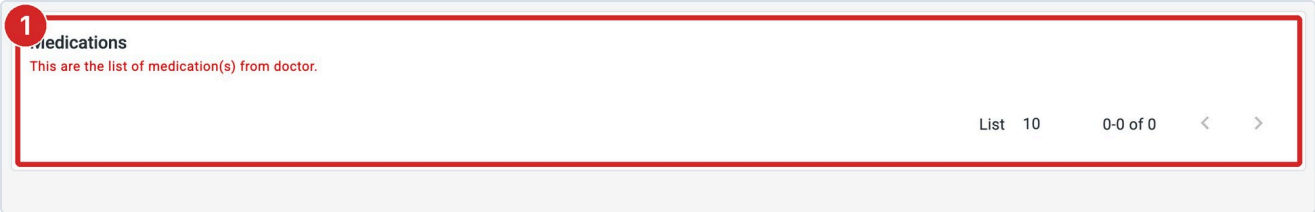

Figure 3.3. Medication.

1 Medications from your doctor

3.4 Diet

Click **Diet**. **Suggested Diet** on the left shows the diet advice from your doctor. **Personal Diet** on the right is your own plan.

Figure 3.4. Diet.

1 Suggested Diet (from your doctor) 2 Personal Diet (your own) 3 ADD

1. Click **ADD** under Personal Diet.
2. Choose the **Meals**: Breakfast, Lunch or Dinner.
3. Type what you eat under **Description** (required).
4. Click **SAVE**, or **CLOSE** to cancel.

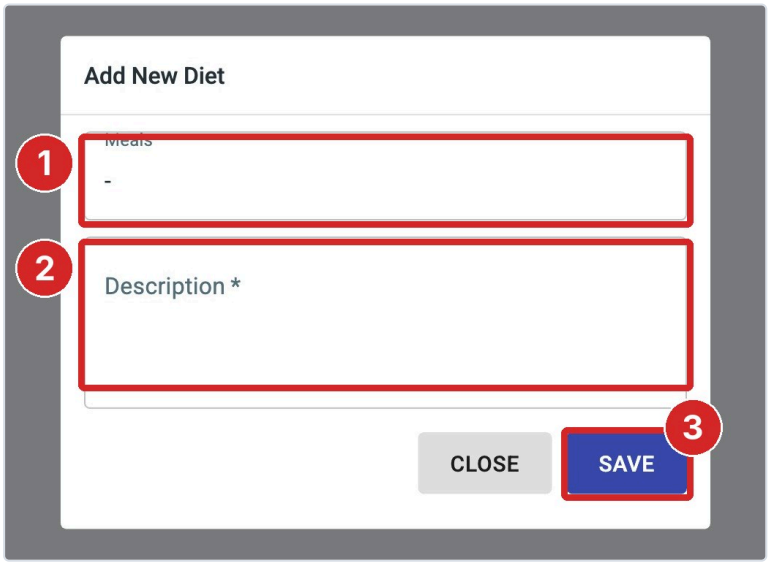

Figure 3.5. The Add New Diet window.

1 Meals 2 Description 3 SAVE

3.5 Family History

Click **Family History** to record the health of your family. This helps your doctor spot conditions that run in families.

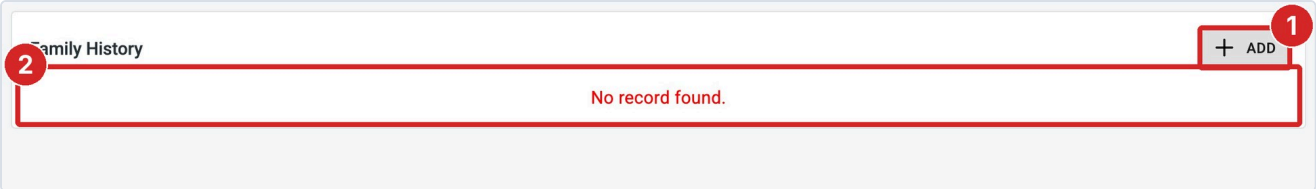

Figure 3.6. Family History.

1 ADD 2 Family members

1. Click **ADD**.
2. Choose the **Category**: Father, Mother or Children.
3. Type the family member's **Full name**, **Address**, **Birthday** and **Occupation**.
4. Describe his or her **Health Condition**, and choose the **Current Status**: Alive or Deceased.
5. Click **SAVE**, or **CLOSE** to cancel.

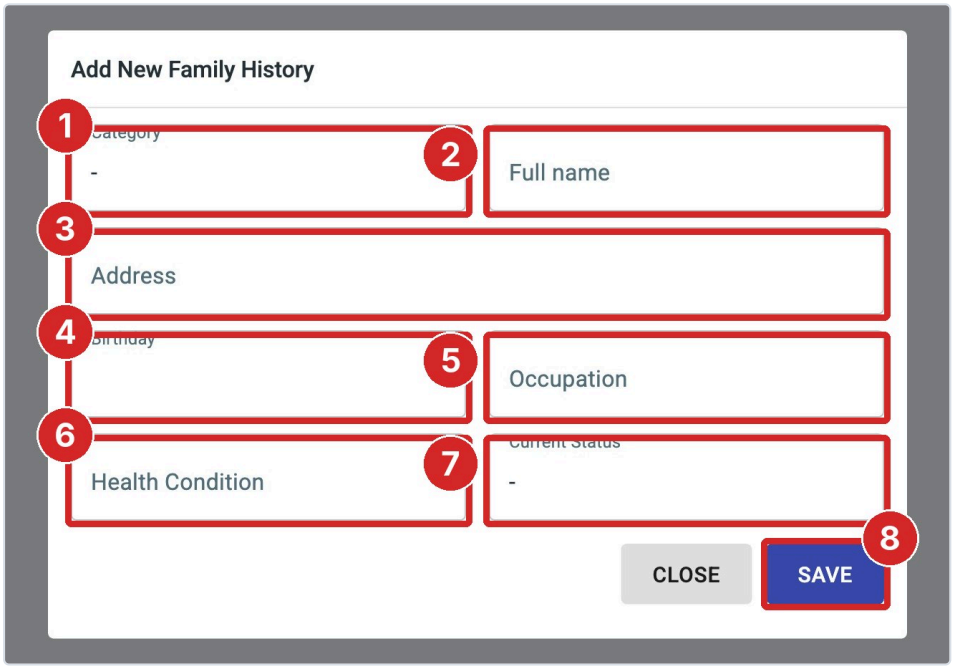

Figure 3.7. The Add New Family History window.

1 Category 2 Full name 3 Address 4 Birthday 5 Occupation 6 Health Condition 7 Current Status 8 SAVE

SECTION 4

Laboratory and Imaging

The Laboratory and Imaging pages hold your test result files. You, the clinic and the laboratory or imaging staff can add files.

In this section

4.1 Viewing your files

4.2 Uploading a file

4.1 Viewing your files

Click **Laboratory** or **Imaging**. Each row shows the description, the date and who added it (for example *patient*, *secretary* or *imaging*). Click the arrow on a row to show or hide its images.

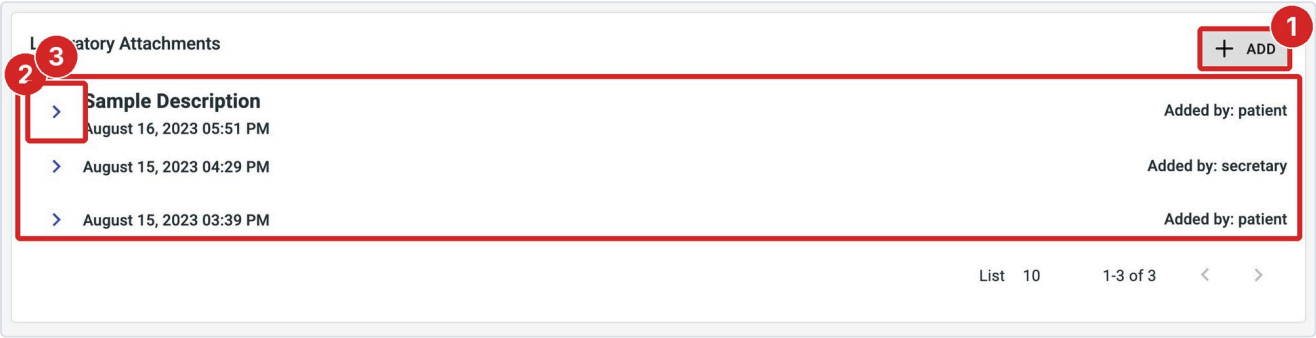

Figure 4.1. Laboratory attachments.

1 ADD 2 Attachments 3 Show or hide the images

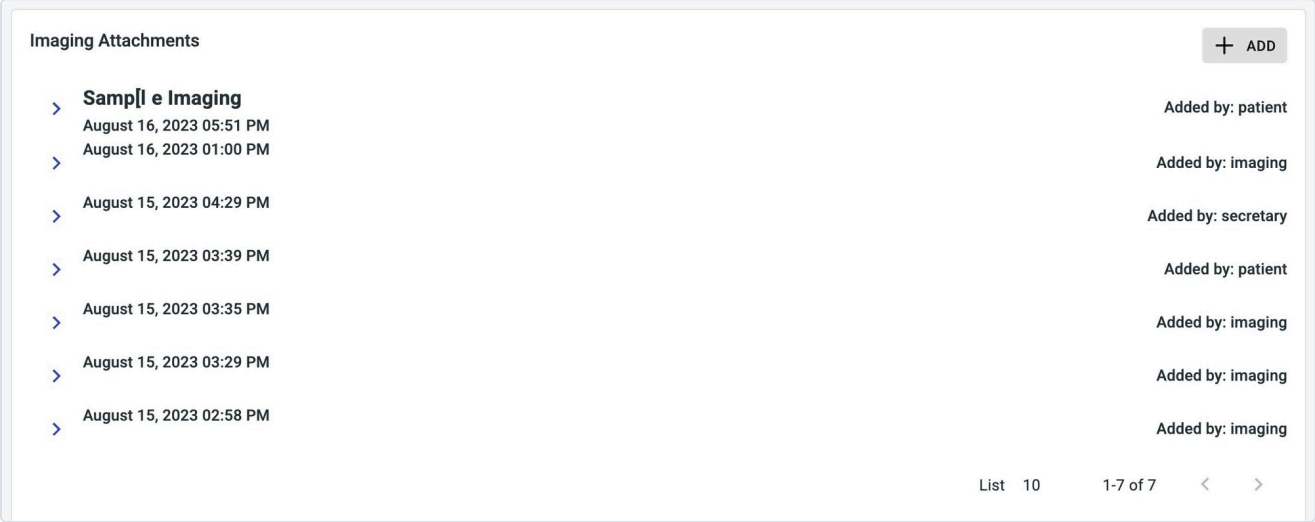

Figure 4.2. Imaging attachments.

4.2 Uploading a file

1. Click **ADD**. The **Upload images** panel opens.

2. Type a **Description**, for example the test name and date.
3. Drag your file onto the box, or click **browse** and choose it.
4. Click **UPLOAD**.

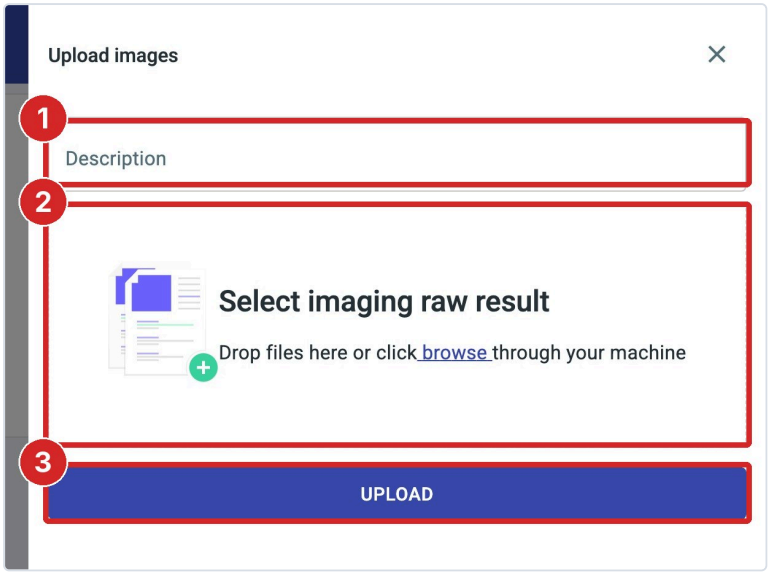

Figure 4.3. The Upload images panel.

1 Description 2 File drop area 3 UPLOAD

> **NOTE** When this manual was prepared, opened rows showed broken image icons, and the panel says *Select imaging raw result* on the Laboratory page too.

SECTION 5

Health Graph

The Health Graph turns your readings into charts so you and your doctor can see how they change over time.

In this section

5.1 Choosing a reading

5.2 Reading a chart

5.1 Choosing a reading

Click **Health Graph**. Each card explains one reading: Pain, Respiratory, Uric Acid, HDL, Potassium, Temperature, Weight, Calcium, LDL, Protein, Blood Pressure, Glucose, Chloride, Lithium, Sodium, Pulse, Cholesterol, Creatinine and Magnesium. Click **DETAILS** on a card to open its chart.

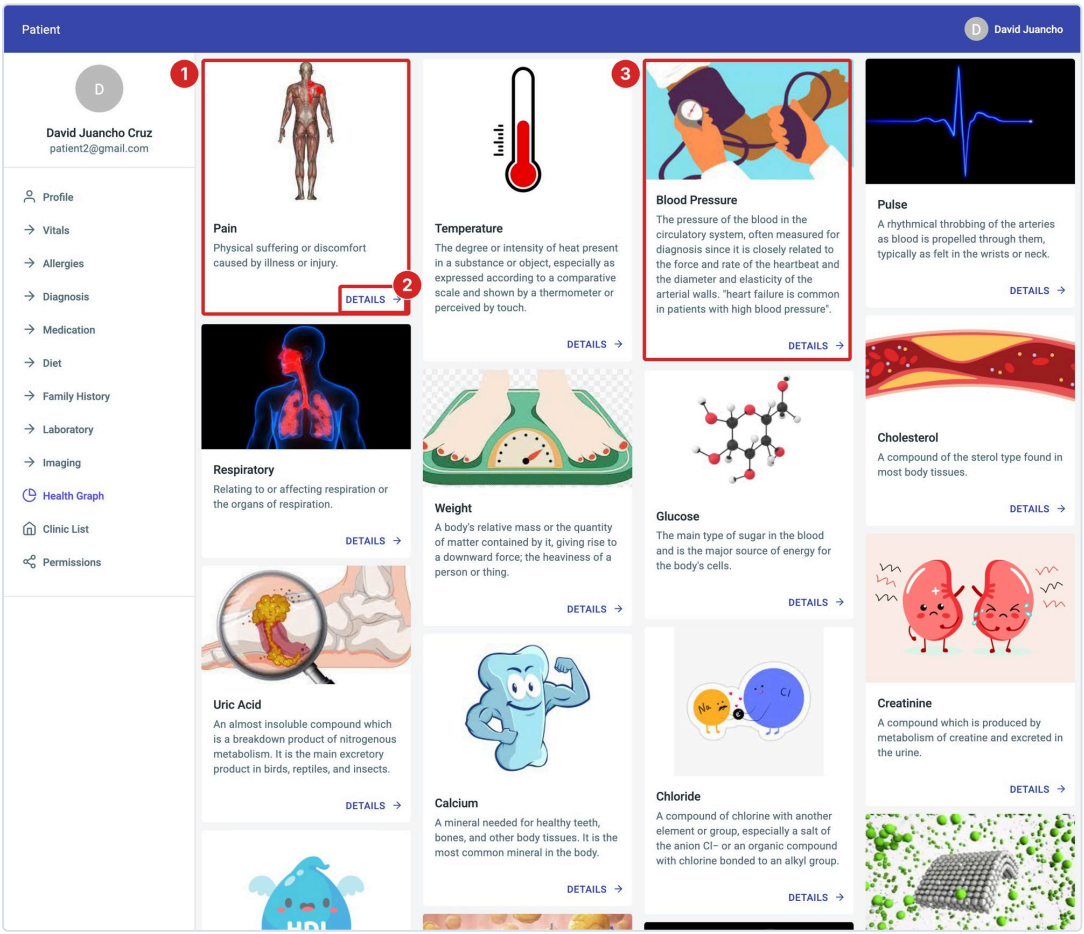

Figure 5.1. The Health Graph.

1 A reading card 2 DETAILS 3 Blood Pressure card

5.2 Reading a chart

The chart plots your recorded values over time. *No record* under the chart means no values have been saved for that reading yet. Use your browser's Back button to return to the cards.

Figure 5.2. The Blood Pressure chart.

1 Chart

SECTION 6

Clinics and Permissions

Find a clinic and its doctors, and see which doctors can view your record.

In this section

6.1 Clinic List
6.2 Permissions

6.1 Clinic List

Click **Clinic List**. Type in **Search clinic** to find a clinic, then click its name.

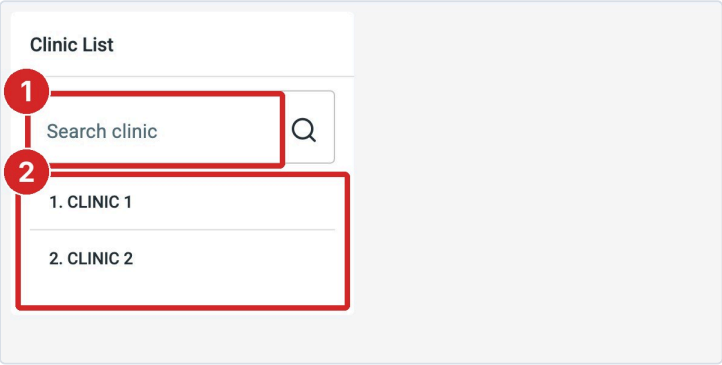

Figure 6.1. The Clinic List.

1 Search clinic 2 Clinics

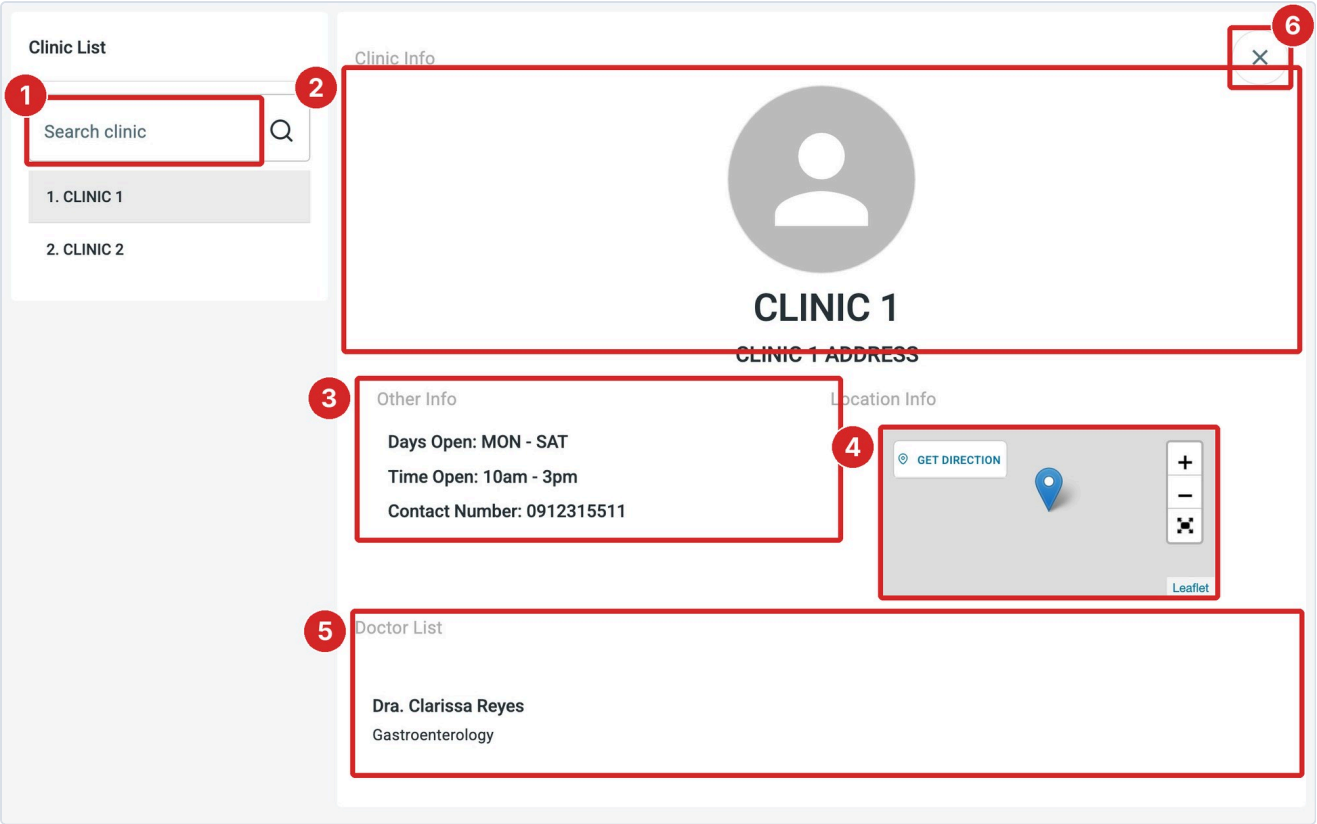

Figure 6.2. Clinic information.

1 Search clinic 2 Clinic name and address 3 Days and time open, contact number
4 Location map and GET DIRECTION 5 Doctors at the clinic 6 Close

- **Other Info** shows the days and hours the clinic is open and its contact number.
- **Location Info** shows the clinic on a map. Use + and – to zoom. **GET DIRECTION** is for directions to the clinic (not tested for this manual).
- **Doctor List** shows the doctors at the clinic and their specialty.
- Click **X** to close the clinic information.

6.2 Permissions

Click **Permissions**. The table lists doctors with the **Date** and **Status** of their permission to view your record. Type in **Search doctor** to find a doctor.

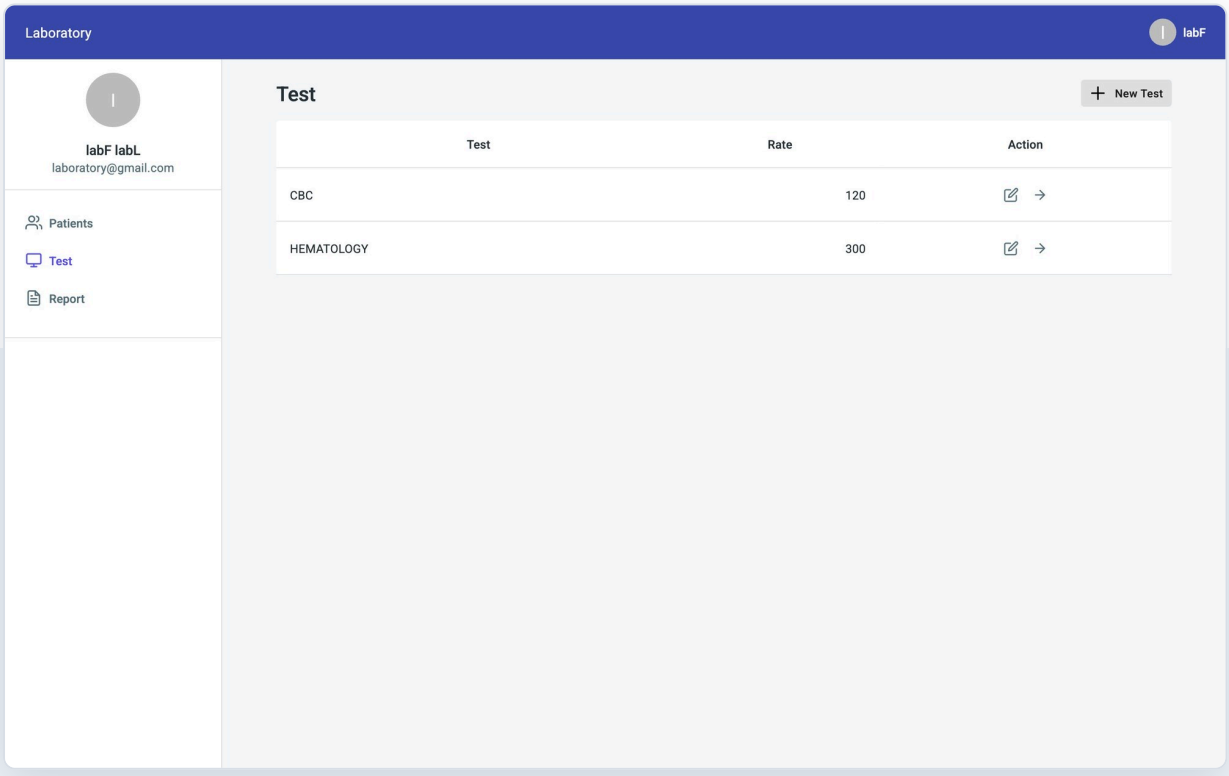
MediLink
Integrated Healthcare System

User Manual for Laboratory Staff

medilink.oas.lguapp.com · Municipality of Oas, Albay



Prepared by iConcept IT Solutions

SECTION 1

Getting Started

This section explains what the Laboratory role does in MediLink, how to sign in, and how the Laboratory screen is laid out.

In this section

1.1 About the Laboratory role
1.2 Signing in
1.3 The Laboratory screen
1.4 Account menu and signing out

1.1 About the Laboratory role

MediLink, the Integrated Healthcare System of the Municipality of Oas, connects patients, doctors and the clinic's service units. The **Laboratory** role is used by the clinic laboratory (for example CBC and hematology tests). As laboratory staff you can:

- find patients with laboratory requests;
- keep the list of laboratory tests and their rates up to date;
- set the items measured in each test and their normal values; and
- view the laboratory transactions, open a result and print it.

> **IMPORTANT** **Sample data only.** All names, tests, rates, results, normal values and contact details shown in this manual are sample data used for training. They are not real records or reference ranges.

1.2 Signing in

1. Open a web browser and go to **medilink.oas.lguapp.com**.
2. On the MediLink home page, click **LOGIN** at the top right (Figure 1.1).
3. Sign in with the laboratory account given to you by the system administrator.
4. MediLink opens the **Patients** page (Section 2).

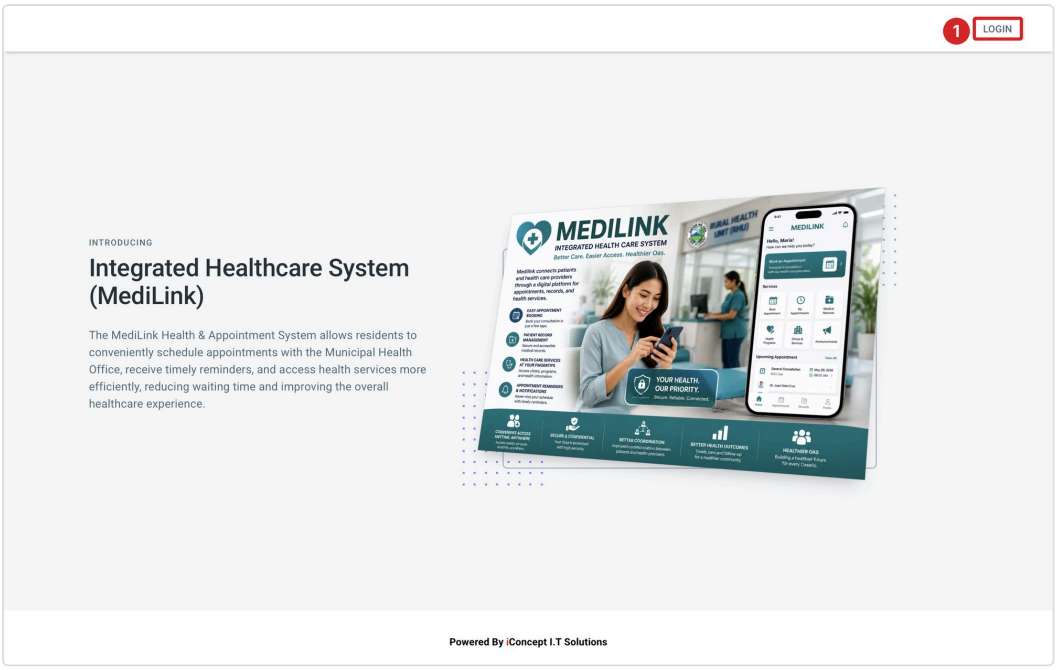


Figure 1.1. The MediLink home page.

1 LOGIN button

1.3 The Laboratory screen

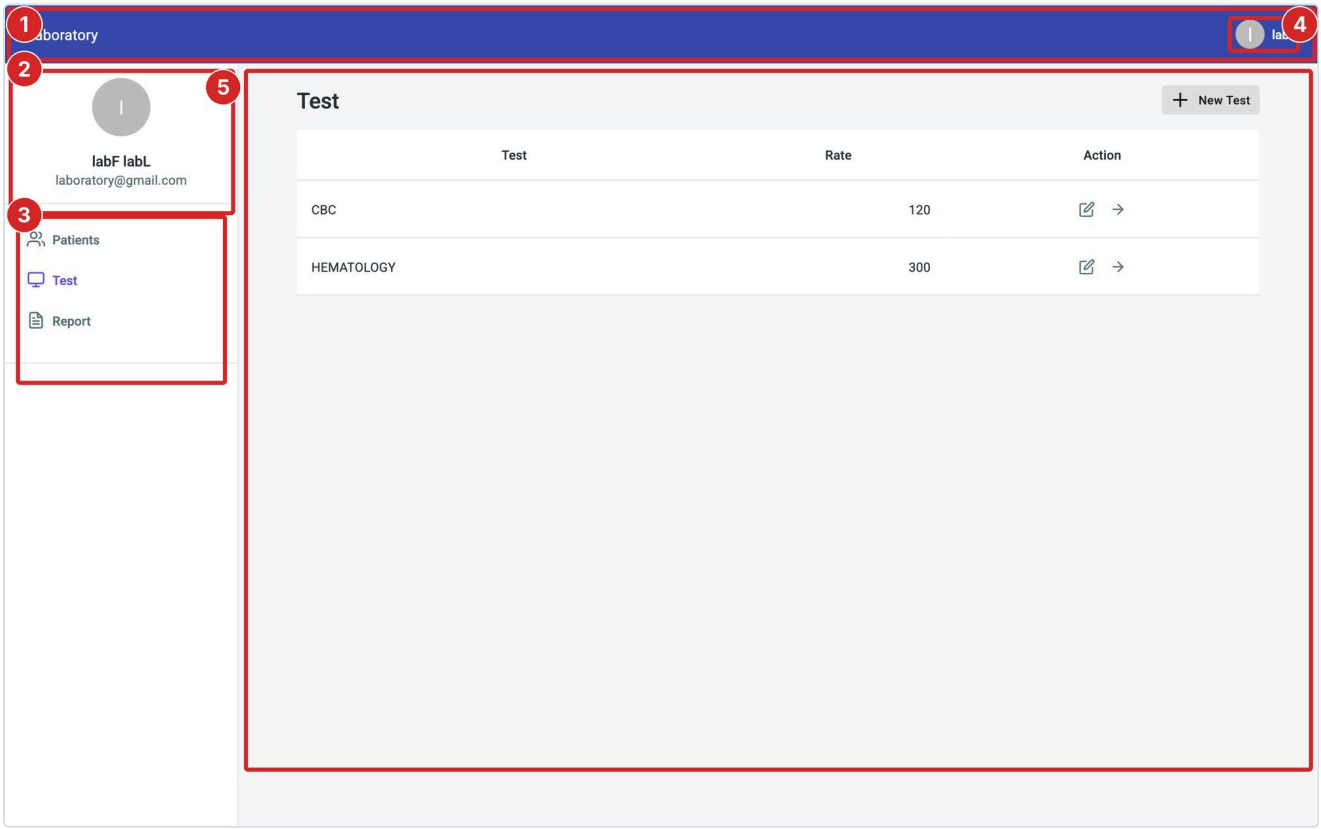

Figure 1.2. The Laboratory screen.

1 Top bar 2 Your photo, name and email 3 Main menu 4 Account menu 5 Work area

Part	What it does
1 Top bar	Shows that you are signed in with the **Laboratory** role.
2 Your profile	Your photo, name and email.
3 Main menu	**Patients** (Section 2), **Test** (Section 3) and **Report** (Section 4). The page you are on is shown in blue.
4 Account menu	Click it for **Account** and **Logout** (1.4).
5 Work area	The content of the page you opened.

1.4 Account menu and signing out

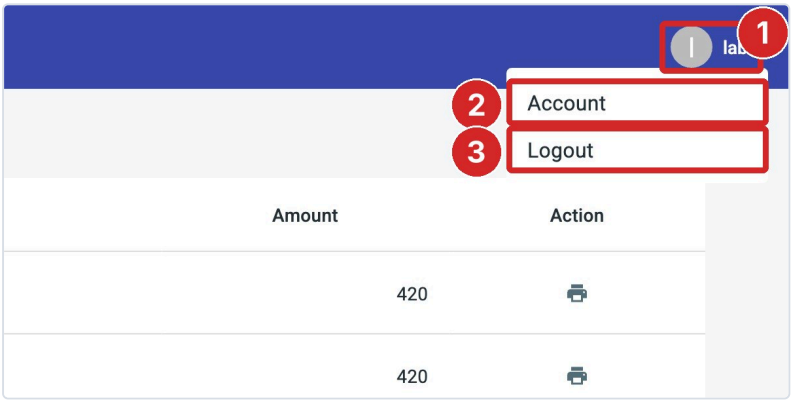

Figure 1.3. The account menu at the top right.

1 Account menu 2 Account 3 Logout

- Click **Account** to change your profile, email or password (Section 5).
- Click **Logout** to sign out. Always sign out when you leave a shared computer.

SECTION 2

Patients

The Patients page is where laboratory staff find the patients they need to serve.

In this section

2.1 The patient list

2.1 The patient list

Click **Patients** in the main menu. Type a patient's name in **Search patient** to find the patient in the **Patient List**.

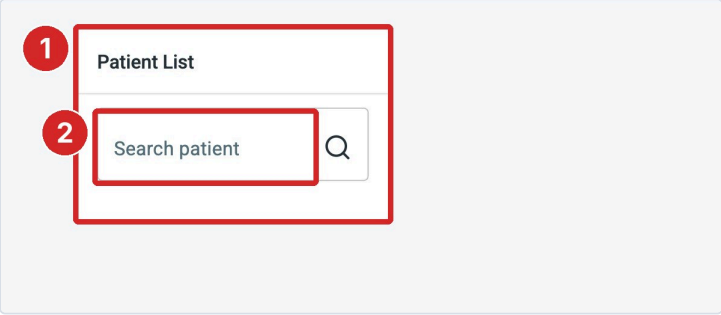

Figure 2.1. The Patient List.

1 Patient List 2 Search patient

SECTION 3

Laboratory Tests

The Test page lists the laboratory tests the clinic offers, their rates, and the normal values for each item a test measures. Doctors choose from this list when they request a test.

In this section

3.1 The test list

3.2 Adding a test

3.3 Changing a test or rate

3.4 Test values and normal ranges

3.5 Adding and changing a value

3.1 The test list

Click **Test** in the main menu. Each row shows the **Test** name and its **Rate** in pesos, for example *CBC* at 120 and *HEMATOLOGY* at 300. Each row has two action icons: **Edit** (3.3) and **Values** (3.4).

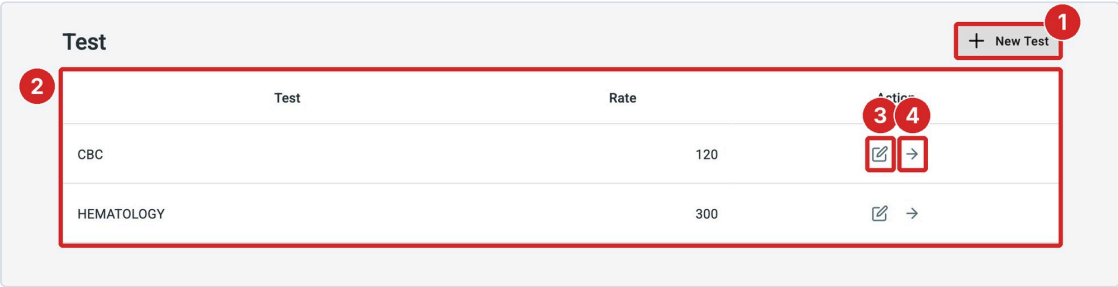

Figure 3.1. The Test page.

1 New Test 2 Tests and rates 3 Edit 4 Values

3.2 Adding a test

1. Click **New Test**. The **Add Lab Test** panel opens on the right.
2. Type the **Test** name.
3. Type the **Rate**.
4. Click **CREATE**, or the **X** to close without saving.

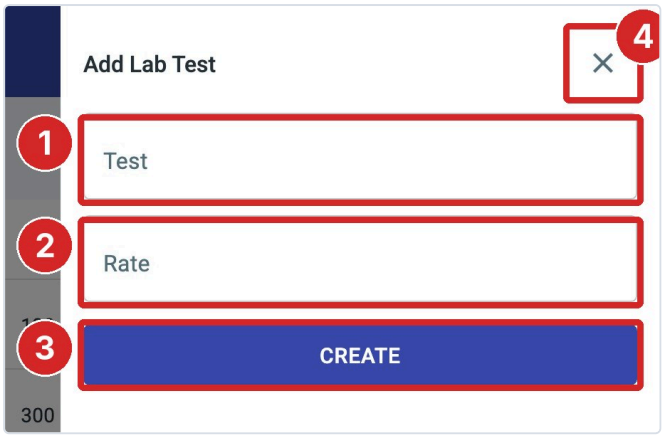

Figure 3.2. The Add Lab Test panel.

1 Test 2 Rate 3 CREATE 4 Close

3.3 Changing a test or rate

1. Click the **Edit** icon on the test's row. The **Update Lab Test** panel opens with the current name and rate.
2. Change the **Test** name or the **Rate**.
3. Click **UPDATE**.

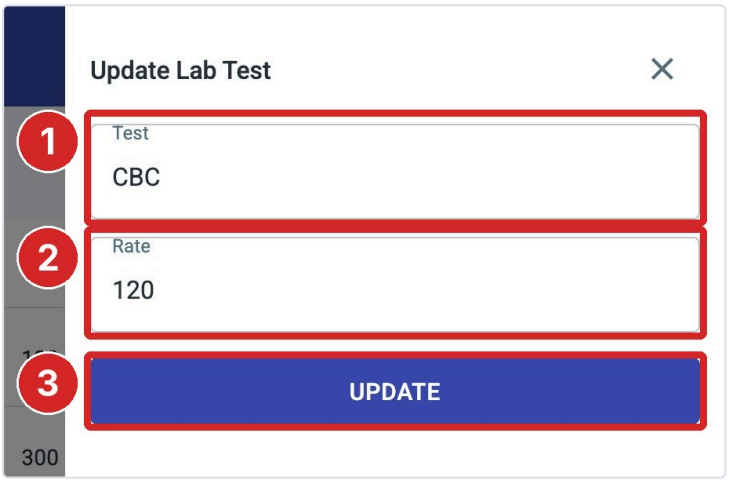

Figure 3.3. The Update Lab Test panel.

1 Test 2 Rate 3 UPDATE

> **IMPORTANT** Doctors see the test name and rate when they request a test, so check new rates with the clinic before saving.

3.4 Test values and normal ranges

A test can measure several items. For each item you record a **Description** and its **Normal Values**. These appear beside the patient's result (4.2), so the reader can compare the result with the normal range.

1. Click the **Values** icon on the test's row. A **Values** table opens below the test list, for example **CBC Values** with *CBC 140 - 160* and *WBC 120 - 123*.
2. Click **ADD NEW** to add an item (3.5), or the edit icon on an item to change it.
3. Click **CLOSE** to hide the table.

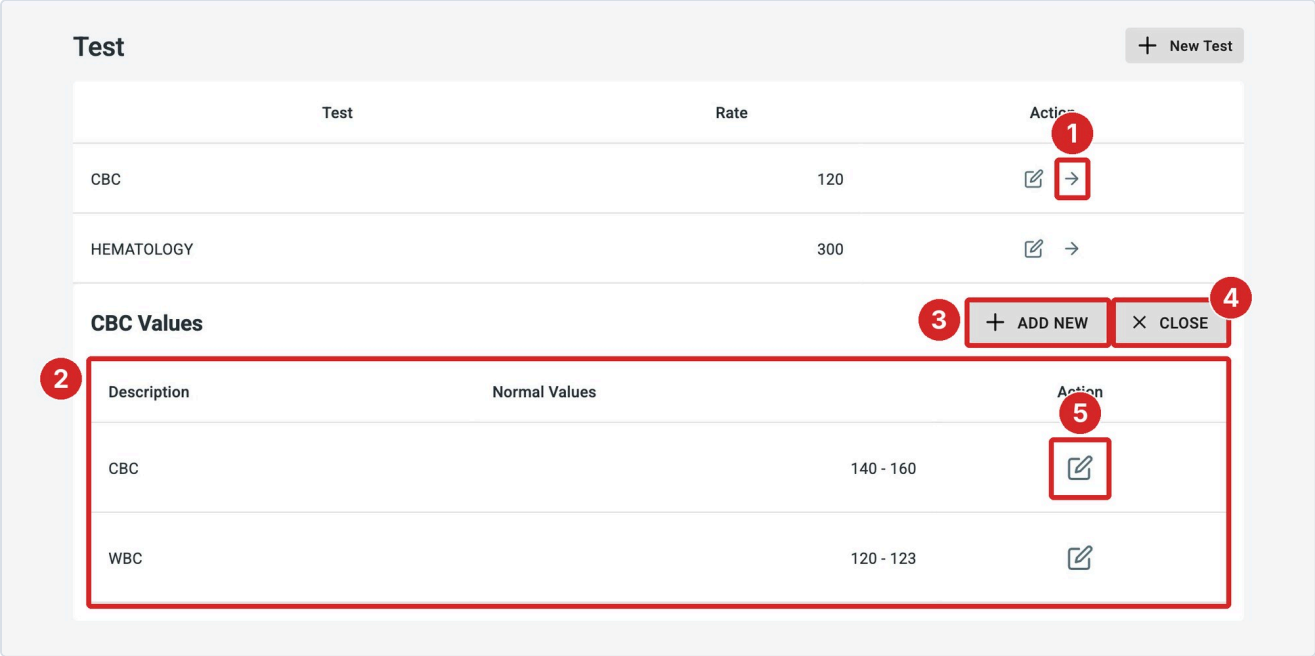

Figure 3.4. The Values table for CBC.

1 Values icon 2 Items and normal values 3 ADD NEW 4 CLOSE 5 Edit value

3.5 Adding and changing a value

To add an item:

1. In the Values table, click **ADD NEW**. The **Add Values** panel opens on the right.
2. Type the **Description** (for example *WBC*).
3. Type the **Normal Values** range (for example *120 - 123*).
4. Click **CREATE**, or the **X** to close without saving.

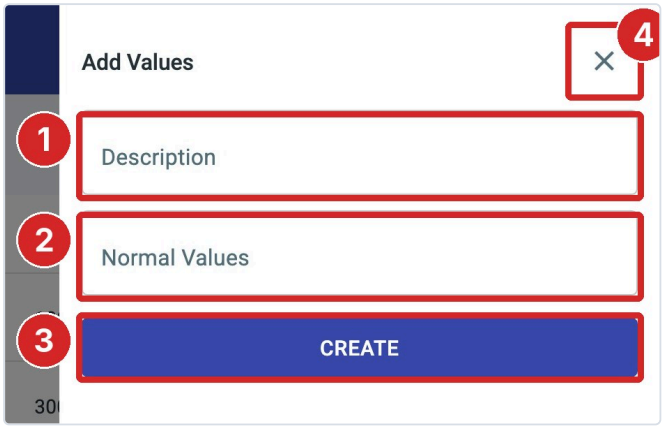

Figure 3.5. The Add Values panel.

1 Description 2 Normal Values 3 CREATE 4 Close

To change an item:

1. Click the edit icon on the item's row. The **Update Lab Value** panel opens with the current description and range.
2. Change the **Description** or **Normal Values**.
3. Click **UPDATE**.

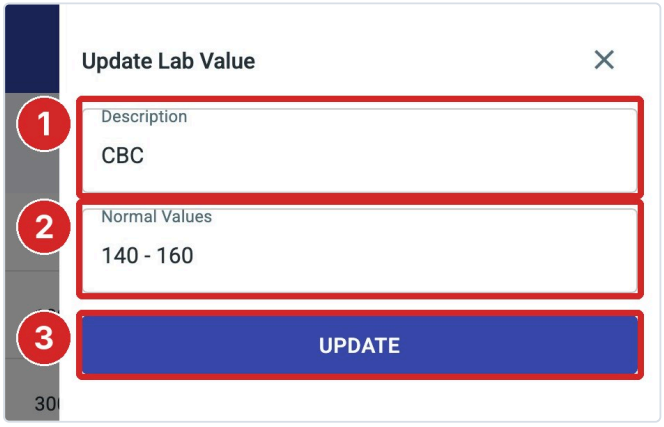

Figure 3.6. The Update Lab Value panel.

1 Description 2 Normal Values 3 UPDATE

SECTION 4

Report

The Report page lists laboratory transactions so you can review collections and reprint results.

In this section

4.1 The transaction list

4.2 Viewing and printing a result

4.1 The transaction list

Click **Report** in the main menu. Each row shows the **Date**, **Transaction ID** and **Amount**. The **Total** of all listed amounts is shown at the bottom (in the sample, four transactions of 420 for a total of 1680).

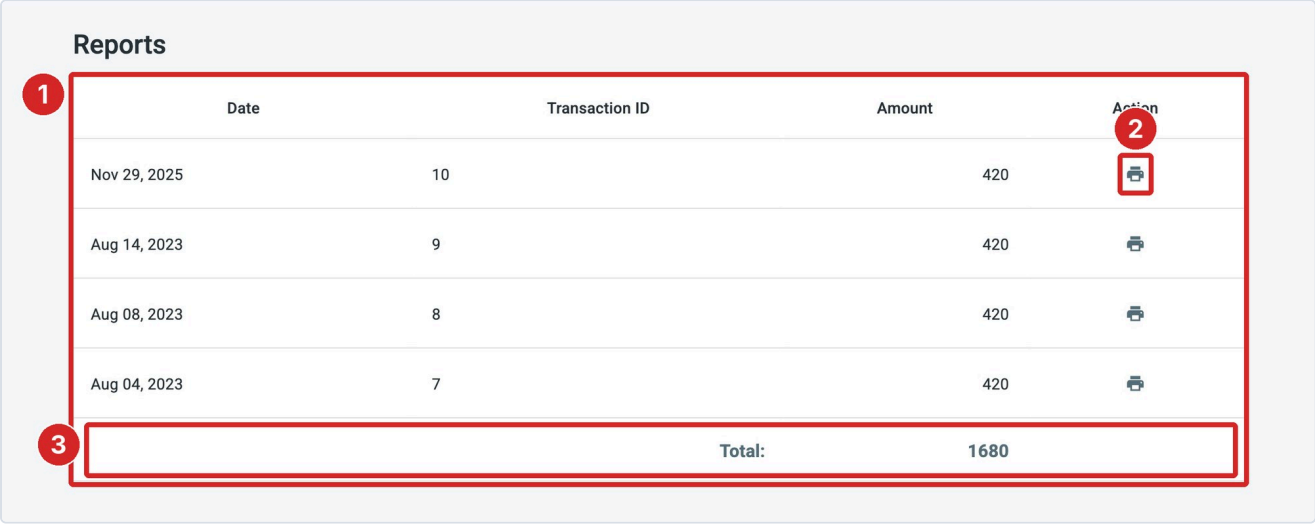

Figure 4.1. The Reports page.

1 Transactions 2 Print (open the result) 3 Total

4.2 Viewing and printing a result

1. Click the printer icon on a transaction. The result opens with one block per test, for example *HEMATOLOGY* and *CBC*. Each block lists the **Description**, the patient's **Result** and the **Normal Values**.
2. Click **DETAILS** under a test to see its printable copy, headed with the clinic's name and address.
3. Click **PRINT** to print it.
4. Press **Esc** or click outside the window to close it.

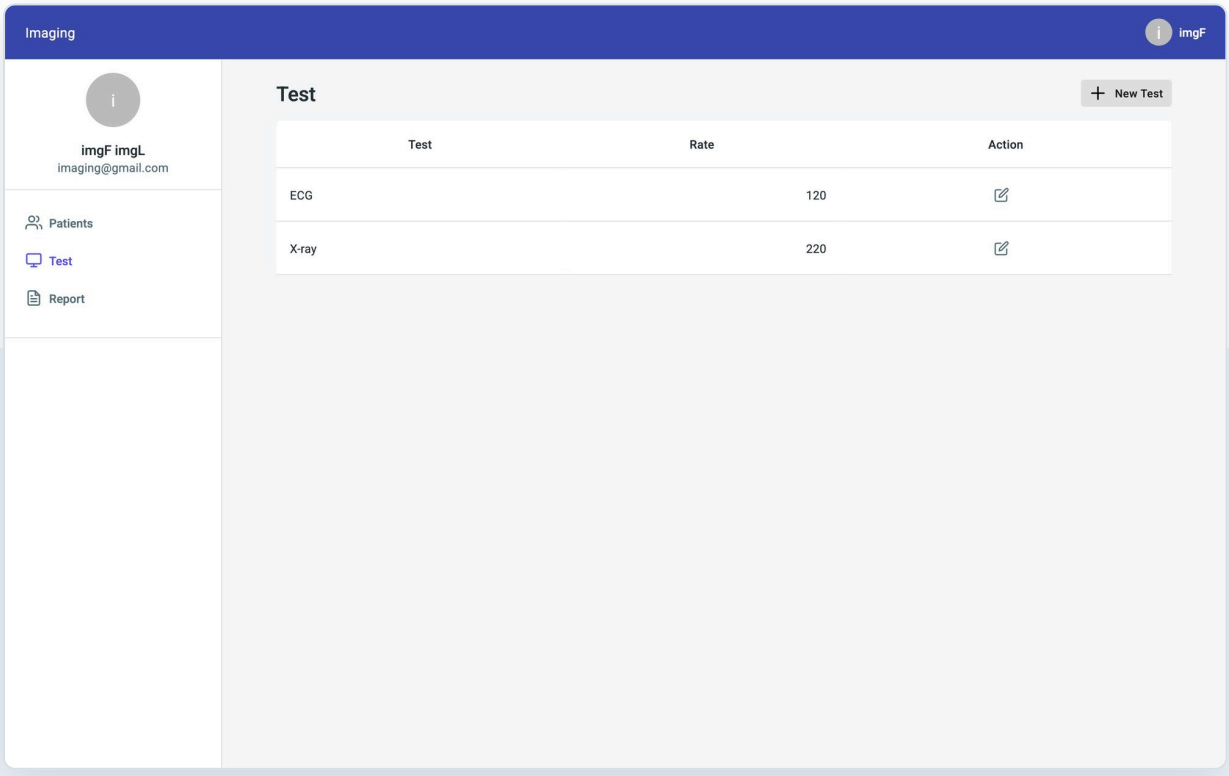
MediLink
Integrated Healthcare System

User Manual for Imaging Staff

medilink.oas.lguapp.com · Municipality of Oas, Albay



Prepared by iConcept IT Solutions

SECTION 1

Getting Started

This section explains what the Imaging role does in MediLink, how to sign in, and how the Imaging screen is laid out.

In this section

1.1 About the Imaging role
1.2 Signing in
1.3 The Imaging screen
1.4 Account menu and signing out

1.1 About the Imaging role

MediLink, the Integrated Healthcare System of the Municipality of Oas, connects patients, doctors and the clinic's service units. The **Imaging** role is used by the imaging unit (for example ECG and X-ray). As Imaging staff you can:

- find patients with imaging requests;
- keep the list of imaging tests and their rates up to date; and
- view the imaging transactions, open a result and print it.

> **IMPORTANT** **Sample data only.** All names, tests, rates, results and contact details shown in this manual are sample data used for training. They are not real records.

> **NOTE** Screens in this manual were captured from the live system on 24 October 2026 with an imaging account.

1.2 Signing in

1. Open a web browser and go to **medilink.oas.lguapp.com**.
2. On the MediLink home page, click **LOGIN** at the top right (Figure 1.1).
3. Sign in with the imaging account given to you by the system administrator.
4. MediLink opens the **Patients** page (Section 2).

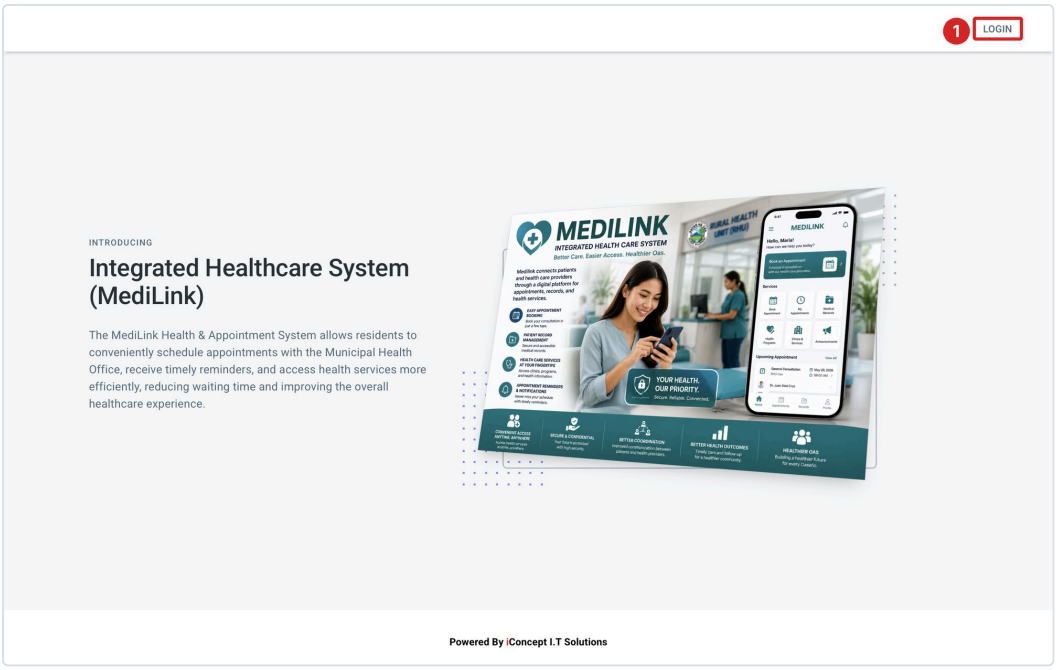


Figure 1.1. The MediLink home page.

1 LOGIN button

1.3 The Imaging screen

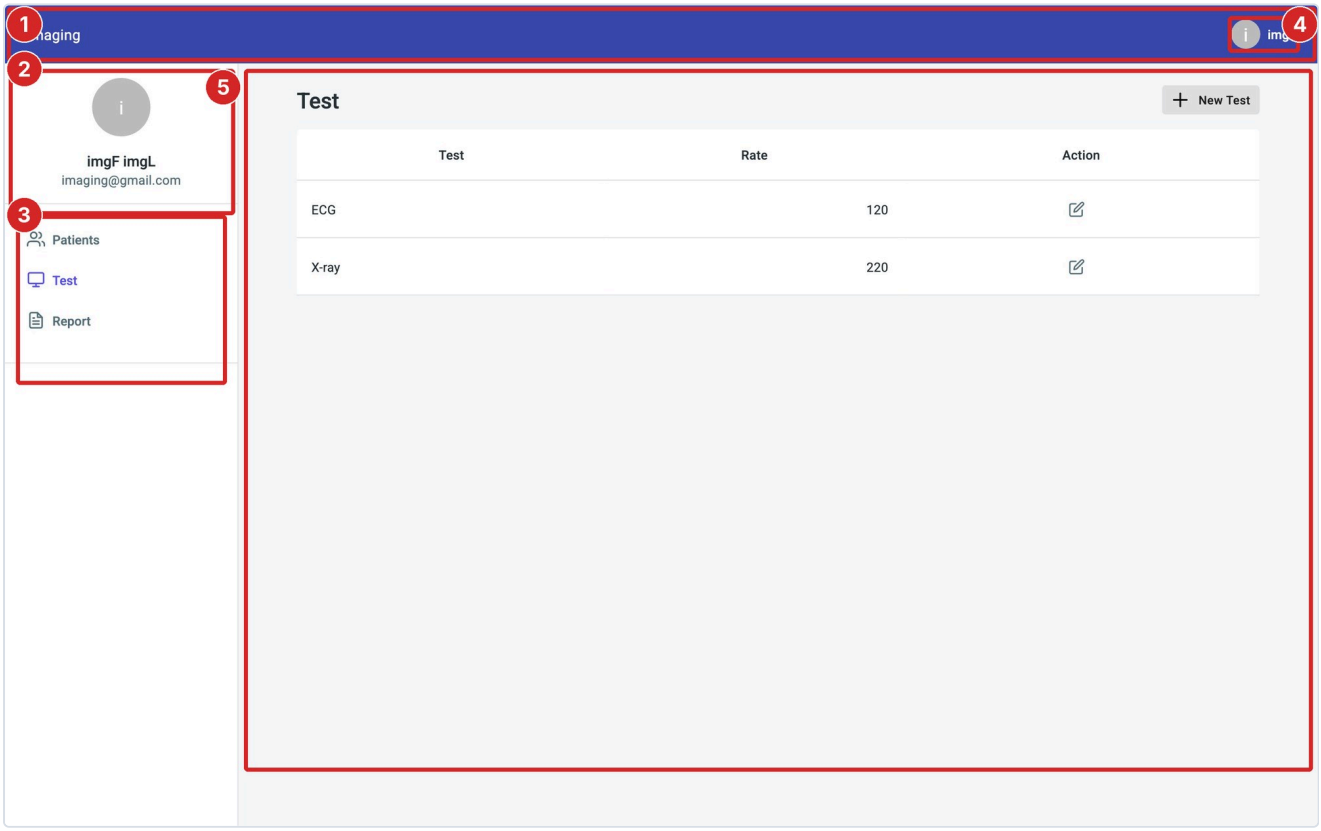

Figure 1.2. The Imaging screen.

1 Top bar 2 Your photo, name and email 3 Main menu 4 Account menu 5 Work area

Part	What it does
1 Top bar	Shows that you are signed in with the **Imaging** role.
2 Your profile	Your photo, name and email.
3 Main menu	**Patients** (Section 2), **Test** (Section 3) and **Report** (Section 4). The page you are on is shown in blue.
4 Account menu	Click it for **Account** and **Logout** (1.4).
5 Work area	The content of the page you opened.

1.4 Account menu and signing out

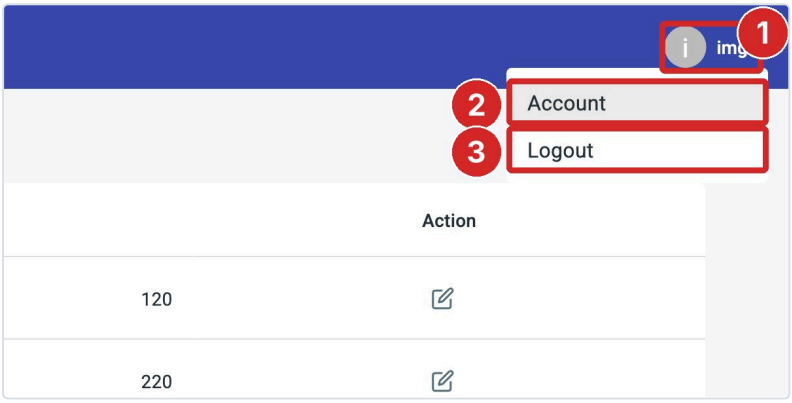

Figure 1.3. The account menu at the top right.

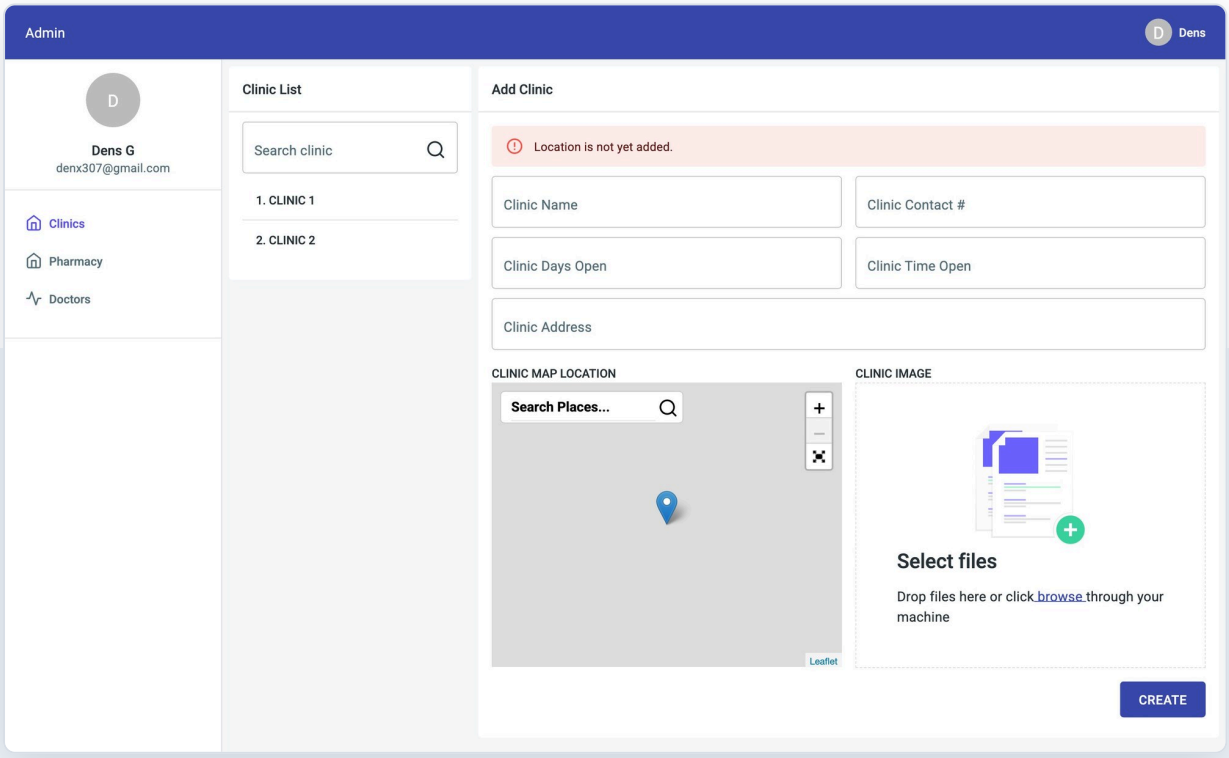
MediLink
Integrated Healthcare System

User Manual for Administrators

medilink.oas.lguapp.com · Municipality of Oas, Albay



Prepared by iConcept IT Solutions

SECTION 1

Getting Started

This section explains what the Admin role does in MediLink, how to sign in, and how the Admin screen is laid out.

In this section

1.1 About the Admin role

1.2 Signing in

1.3 The Admin screen

1.4 Account menu and signing out

1.1 About the Admin role

MediLink, the Integrated Healthcare System of the Municipality of Oas, connects patients, doctors and the clinic's service units. The **Admin** role sets up the system that the other roles work in. As an administrator you can:

- add clinics, record their schedule, contact details, map location and photo;
- assign doctors to a clinic and create the clinic's Secretary, Laboratory and Imaging accounts;
- add pharmacies and create their Admin, Assistant and Pharmacist accounts;
- add doctors with their license numbers, photo and e-signature, and give them a username and password; and
- keep the list of medical specializations up to date.

> **IMPORTANT** **Sample data only.** All clinics, pharmacies, doctors, staff, numbers and contact details shown in this manual are sample data used for training. They are not real records.

> **NOTE** Screens in this manual were captured from the live system on 24 October 2026 with an admin account. Forms were opened for the screenshots and closed without saving, so nothing was created or changed.

1.2 Signing in

1. Open a web browser and go to **medilink.oas.lguapp.com**.
2. On the MediLink home page, click **LOGIN** at the top right (Figure 1.1).
3. Sign in with your administrator account.
4. MediLink opens the **Clinics** page (Section 2).

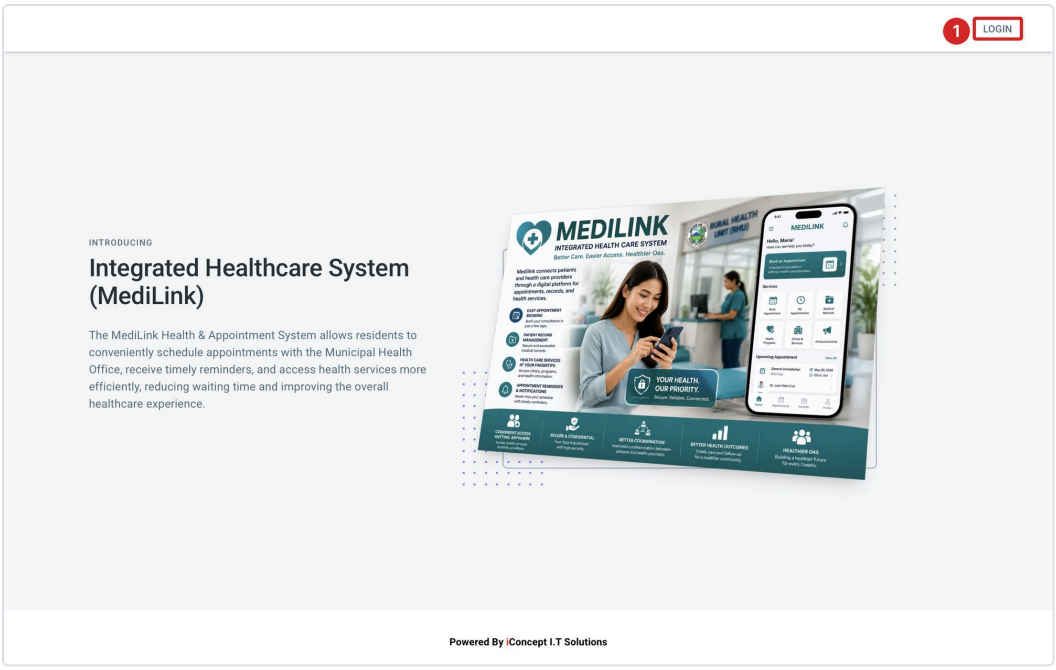


Figure 1.1. The MediLink home page.

1 LOGIN button

1.3 The Admin screen

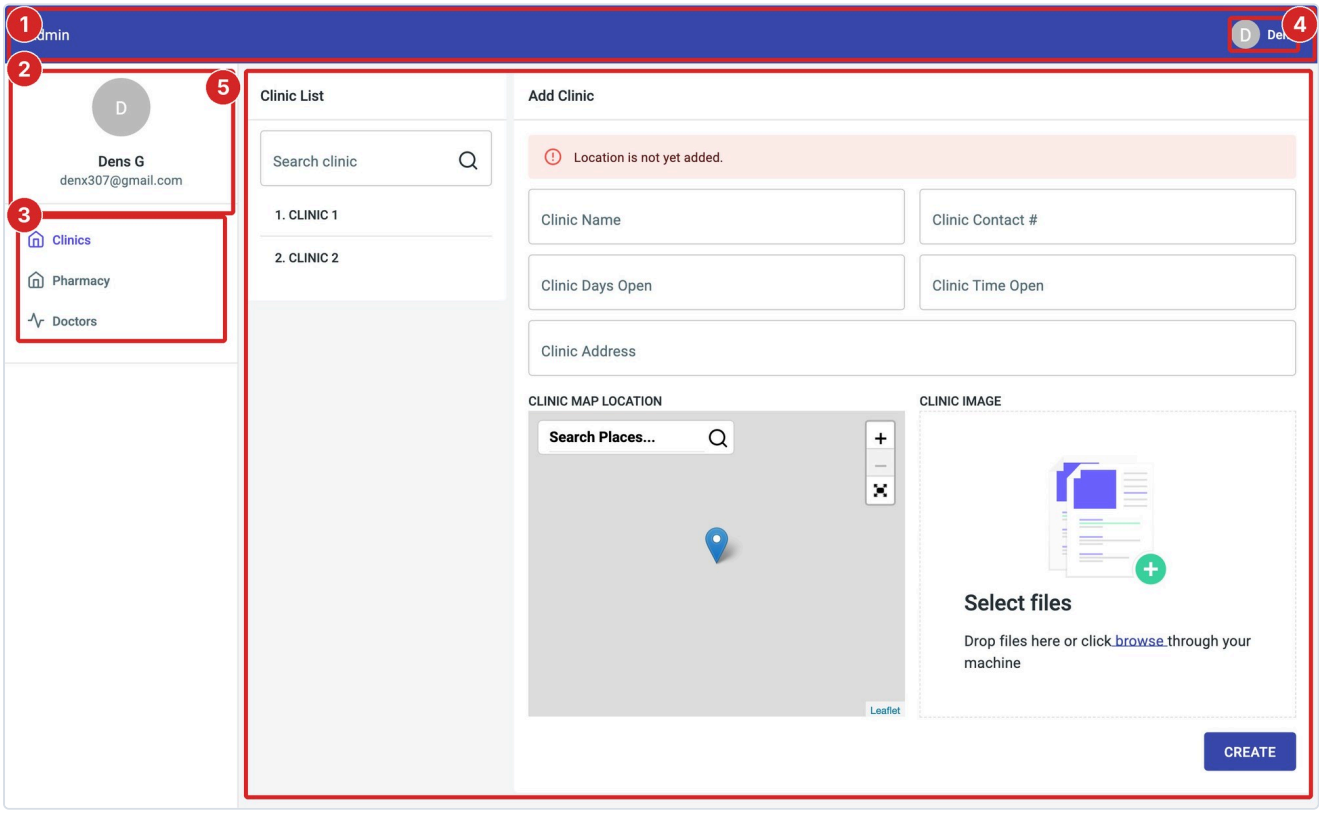

Figure 1.2. The Admin screen.

1 Top bar 2 Your photo, name and email 3 Main menu 4 Account menu 5 Work area

Part	What it does
1 Top bar	Shows that you are signed in with the **Admin** role.
2 Your profile	Your photo, name and email.
3 Main menu	**Clinics** (Section 2), **Pharmacy** (Section 3) and **Doctors** (Section 4). The page you are on is shown in blue.
4 Account menu	Click it for **Account** and **Logout** (1.4).
5 Work area	A list on the left and, on the right, either an **Add** form or the details of the item you clicked.

Every main page works the same way: the list on the left has a search box, the right side starts with an empty **Add** form, and clicking an item in the list shows its details in place of the form.

1.4 Account menu and signing out

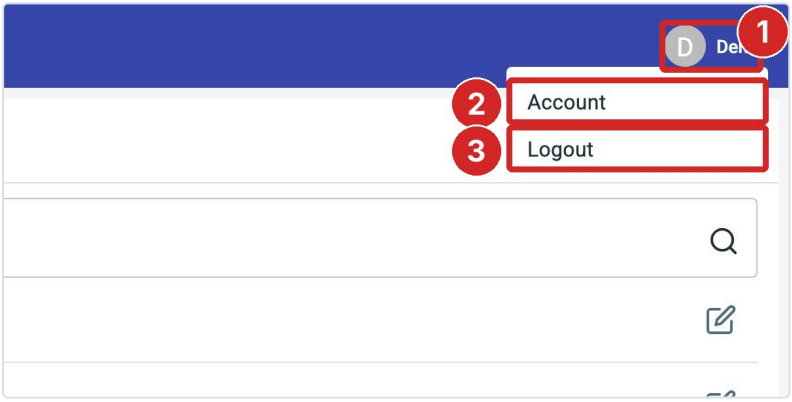

Figure 1.3. The account menu at the top right.

1 Account menu 2 Account 3 Logout

- Click **Account** to change your profile, email or password (Section 5).
- Click **Logout** to sign out. Always sign out when you leave a shared computer.

SECTION 2

Clinics

The Clinics page holds the clinics in MediLink and the staff accounts that work in each one.

In this section

2.1 The clinic list and adding a clinic

2.2 Clinic details

2.3 Editing a clinic

2.4 Assigning a doctor to a clinic

2.5 Adding Secretary, Laboratory and Imaging accounts

2.1 The clinic list and adding a clinic

Click **Clinics** in the main menu. The **Clinic List** on the left shows every clinic (for example *CLINIC 1* and *CLINIC 2*). Type in **Search clinic** to find one. The **Add Clinic** form is on the right.

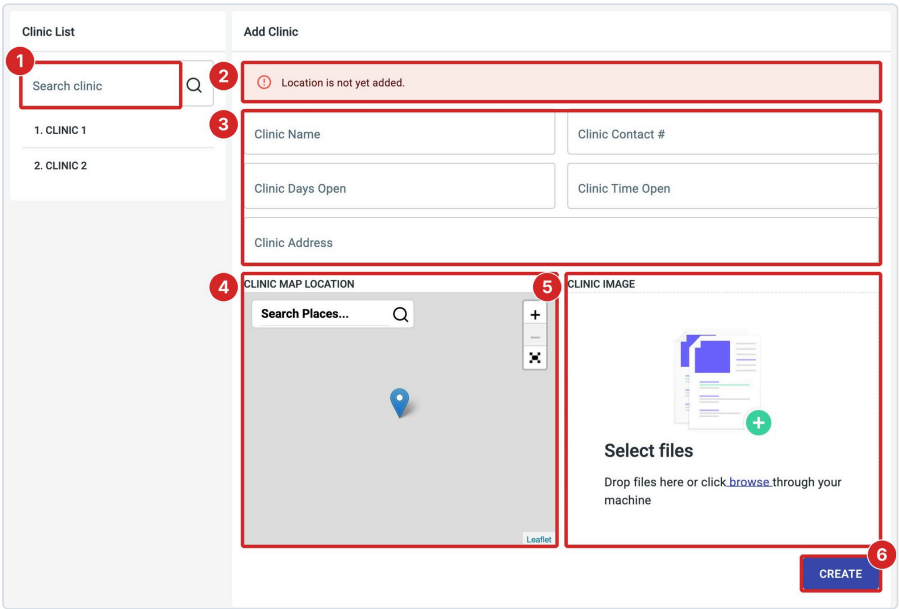

Figure 2.1. The Clinics page with the Add Clinic form.

1 Search clinic 2 Location message 3 Clinic details 4 Clinic Map Location 5 Clinic Image 6 CREATE

1. Type the **Clinic Name**, **Clinic Contact #**, **Clinic Days Open** (for example *MON - SAT*), **Clinic Time Open** (for example *10am - 3pm*) and **Clinic Address**.
2. Under **Clinic Map Location**, type the place in **Search Places...** and pick it, or move the map to the clinic. Use **+** and **–** to zoom. Until a location is chosen, the red message **Location is not yet added** stays at the top of the form.
3. Under **Clinic Image**, drop a photo of the clinic or click **browse** to choose one.
4. Click **CREATE**.

2.2 Clinic details

Click a clinic in the list. Its details open on the right: the clinic photo, name and address, then **Other Info** (days and time open, contact number) and the clinic's place on the map. Below are the lists of people who work in the clinic.

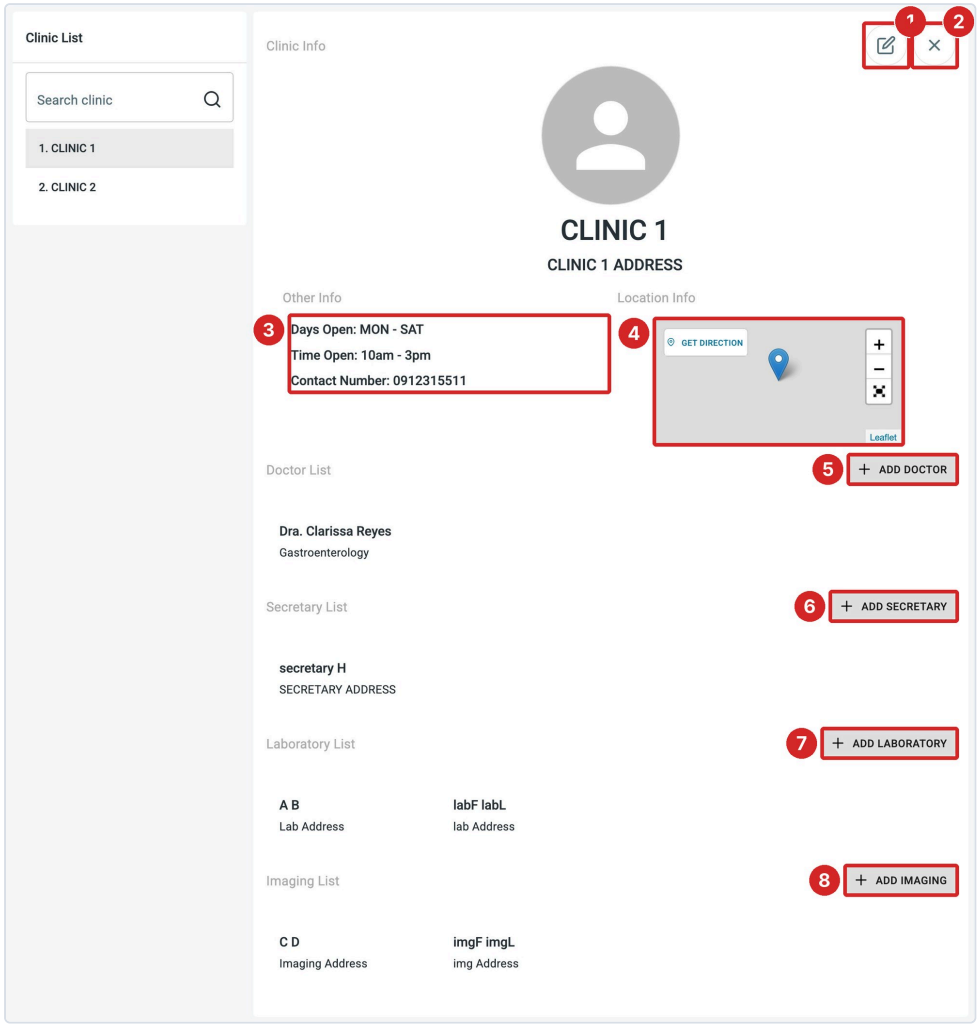

Figure 2.2. Clinic details.

1 Edit 2 Close 3 Other Info 4 Location Info 5 ADD DOCTOR 6 ADD SECRETARY 7 ADD LABORATORY 8 ADD IMAGING

List	What it shows
Doctor List	Doctors assigned to the clinic and their specialization (for example *Dra. Clarissa Reyes, Gastroenterology*). Add with **ADD DOCTOR** (2.4).
Secretary List	Secretary accounts and their addresses. Add with **ADD SECRETARY** (2.5).
Laboratory List	Laboratory accounts. Add with **ADD LABORATORY** (2.5).
Imaging List	Imaging accounts. Add with **ADD IMAGING** (2.5).

The map also has a **GET DIRECTION** button (not tested for this manual). Click the **X** (2) to close the details and return to the Add Clinic form.

2.3 Editing a clinic

1. Open the clinic (2.2) and click the edit icon (1 in Figure 2.2). The **Edit Clinic** window opens.
2. Change the name, contact number, days open, time open or address.
3. To change the map location, click **LOCATION**.
4. To change the photo, drop a new one under **Clinic Image** or click **browse**.
5. Click **UPDATE**.

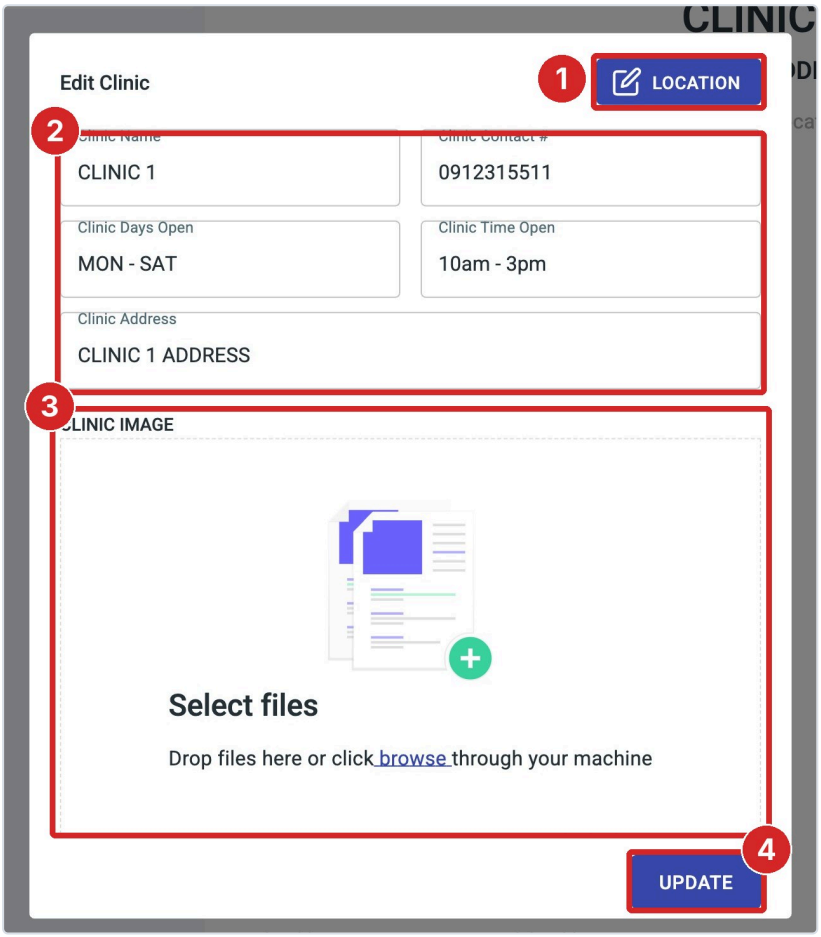

Figure 2.3. The Edit Clinic window.

1 LOCATION 2 Clinic details 3 Clinic Image 4 UPDATE

2.4 Assigning a doctor to a clinic

1. Open the clinic and click **ADD DOCTOR**. The **Add Clinic Doctor** window opens.
2. Choose the doctor in the **Doctor** list. Doctors must first be added on the Doctors page (4.2).
3. Click **SAVE**, or **CLOSE** to cancel.

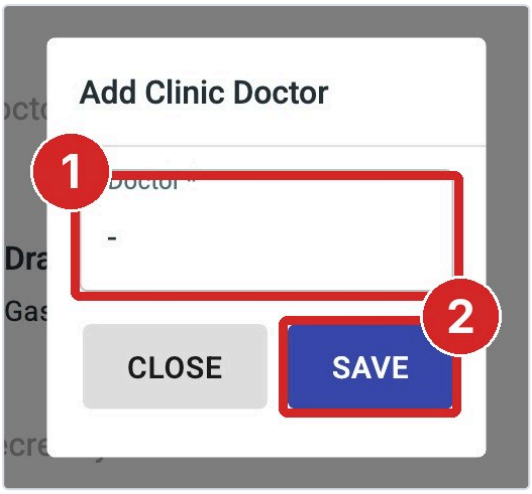

Figure 2.4. The Add Clinic Doctor window.

1 Doctor 2 SAVE

2.5 Adding Secretary, Laboratory and Imaging accounts

Each clinic has its own staff accounts. These are the people who sign in with the Secretary, Laboratory and Imaging roles. The example below is **ADD SECRETARY**; **ADD LABORATORY** and **ADD IMAGING** open the same form with the role in its labels (for example *Laboratory Firstname*, *Imaging Username*).

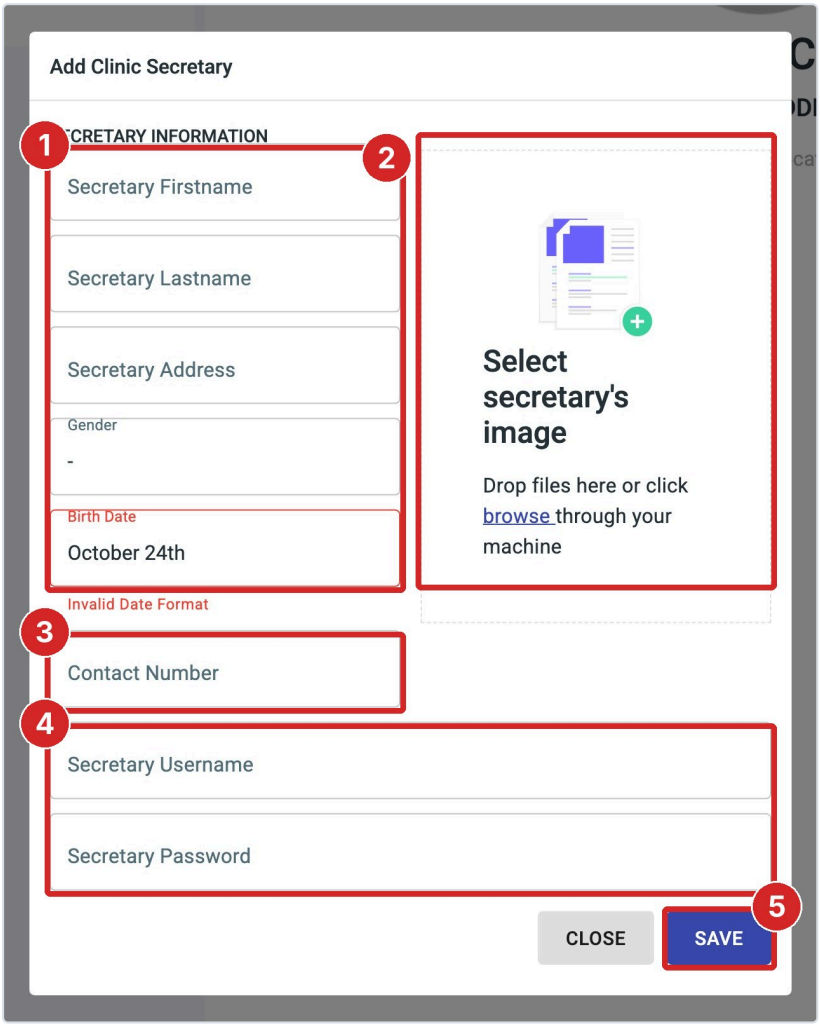

Figure 2.5. The Add Clinic Secretary window.

1 Personal details 2 Photo 3 Contact Number 4 Username and Password 5 SAVE

1. Open the clinic and click **ADD SECRETARY**.
2. Under **Secretary Information**, type the **Firstname**, **Lastname** and **Address**, choose the **Gender** and set the **Birth Date**.
3. Drop a photo in **Select secretary's image** or click **browse**.
4. Type the **Contact Number**.
5. Type a **Username** and **Password** for the new account. Give these to the staff member so they can sign in.
6. Click **SAVE**, or **CLOSE** to cancel.

> **NOTE** The Birth Date field opens with today's date and the red text **Invalid Date Format** is shown under it before anything is typed. Pick the correct birth date before saving.

SECTION 3

Pharmacy

The Pharmacy page holds the partner pharmacies and their staff accounts.

In this section

3.1 The pharmacy list and adding a pharmacy

3.2 Pharmacy details

3.3 Adding Admin, Assistant and Pharmacist accounts

3.1 The pharmacy list and adding a pharmacy

Click **Pharmacy** in the main menu. The **Pharmacy List** on the left shows every pharmacy (for example *TGP* and *Mabini Pharmacy*). Type in **Search pharmacy** to find one.

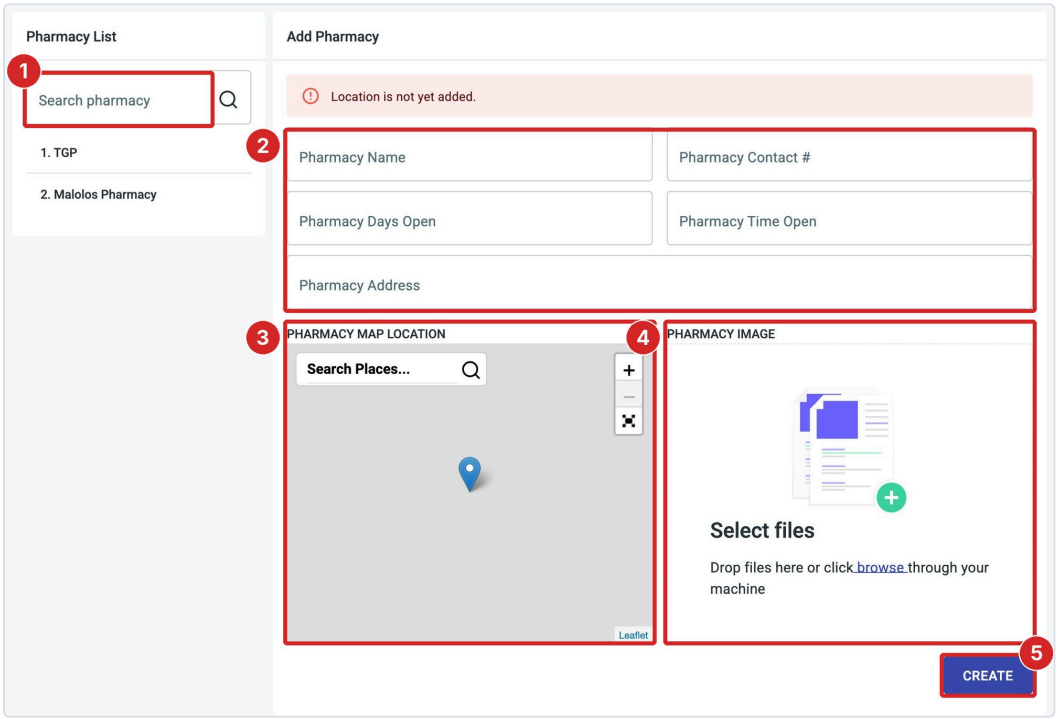

Figure 3.1. The Pharmacy page with the Add Pharmacy form.

1 Search pharmacy 2 Pharmacy details 3 Pharmacy Map Location 4 Pharmacy Image 5 CREATE

1. Type the **Pharmacy Name**, **Pharmacy Contact #**, **Pharmacy Days Open**, **Pharmacy Time Open** and **Pharmacy Address**.
2. Under **Pharmacy Map Location**, search for the place or move the map to it.
3. Under **Pharmacy Image**, drop a photo or click **browse**.
4. Click **CREATE**.

3.2 Pharmacy details

Click a pharmacy in the list. The right side shows its name and address, **Other Info** (for example *Days Open: EVERY DAY*, *Time Open: 24/7* and the contact number), its map location, and three staff lists: **Admin List**, **Assistant List** and **Pharmacist List**.

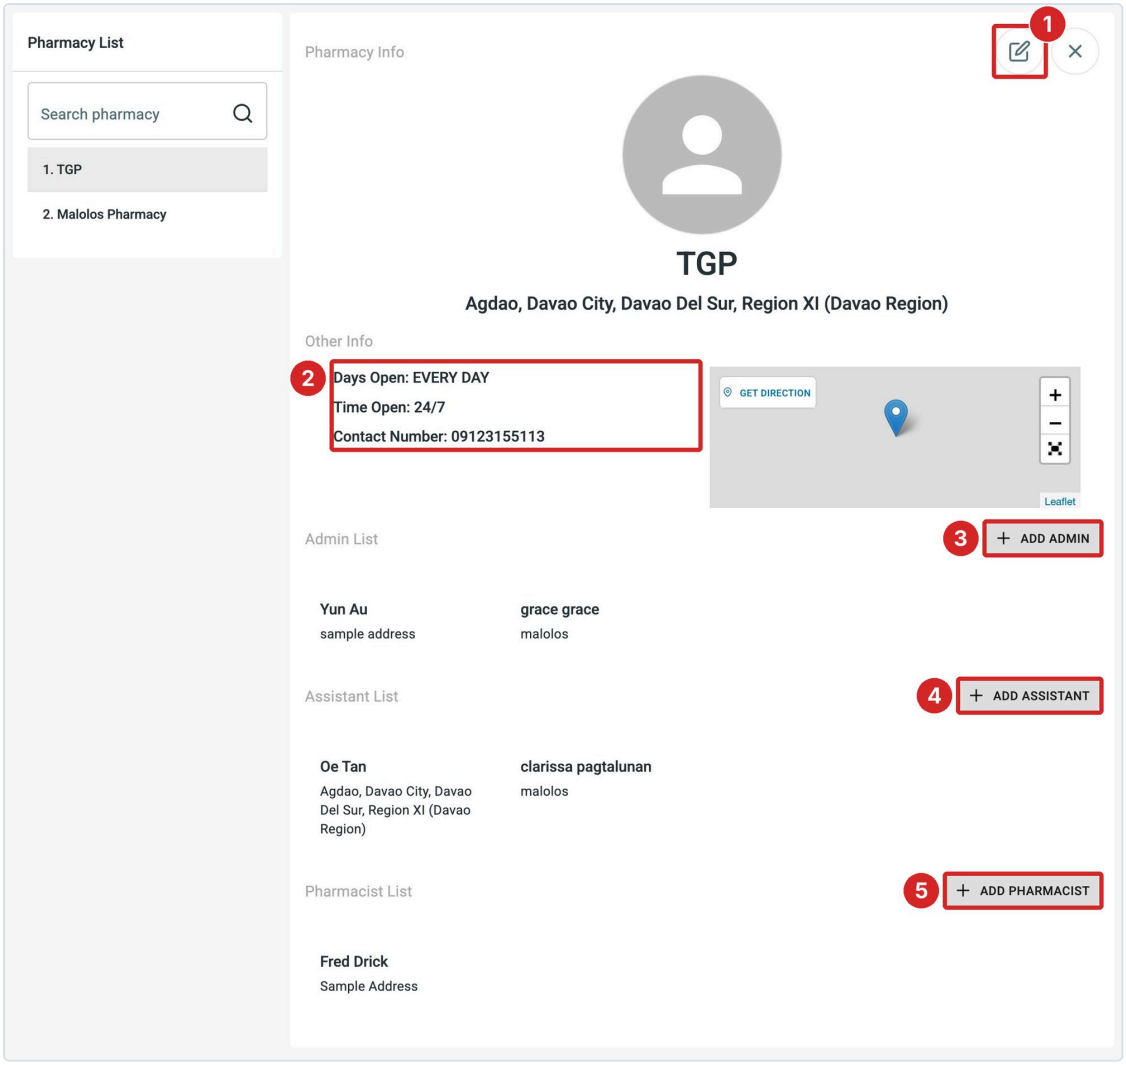

Figure 3.2. Pharmacy details.

1 Edit 2 Other Info 3 ADD ADMIN 4 ADD ASSISTANT 5 ADD PHARMACIST

Click the edit icon (1) to open **Edit Pharmacy**. It works like Edit Clinic (2.3): change the details, use **LOCATION** for the map and **PHARMACY IMAGE** for the photo, then click **UPDATE**.

3.3 Adding Admin, Assistant and Pharmacist accounts

Pharmacy staff accounts are added from the pharmacy's details. The example below is **ADD ADMIN**; **ADD ASSISTANT** and **ADD PHARMACIST** open the same form with the role in its labels (for example *Assistant Firstname*, *Pharmacist Username*).

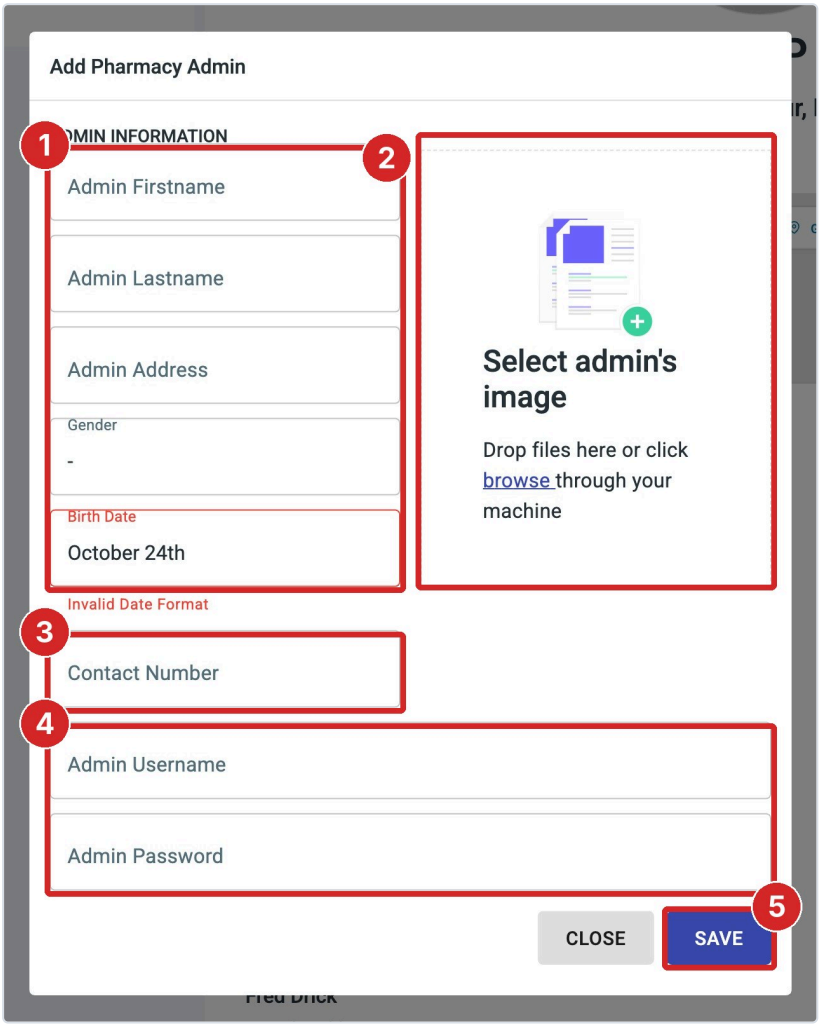

Figure 3.3. The Add Pharmacy Admin window.

1 Personal details 2 Photo 3 Contact Number 4 Username and Password 5 SAVE

1. Open the pharmacy and click **ADD ADMIN**, **ADD ASSISTANT** or **ADD PHARMACIST**.
2. Type the **Firstname**, **Lastname** and **Address**, choose the **Gender** and set the **Birth Date**.
3. Drop a photo or click **browse**.
4. Type the **Contact Number**, then a **Username** and **Password** for the account.
5. Click **SAVE**, or **CLOSE** to cancel.

SECTION 4

Doctors

The Doctors page holds every doctor in MediLink, their professional numbers and e-signature, and the list of specializations.

In this section

4.1 The doctor list

4.2 Adding a doctor

4.3 Doctor details

4.4 Editing a doctor

4.5 Specializations

4.1 The doctor list

Click **Doctors** in the main menu. The **Doctor List** on the left shows every doctor (for example *Dra. Clarissa Reyes* and *Joseph Manahan*). Type in **Search doctor** to find one. The **Add Doctor** form is on the right, and the **SPECIALIZATION** button at the top right opens the specialization list (4.5).

4.2 Adding a doctor

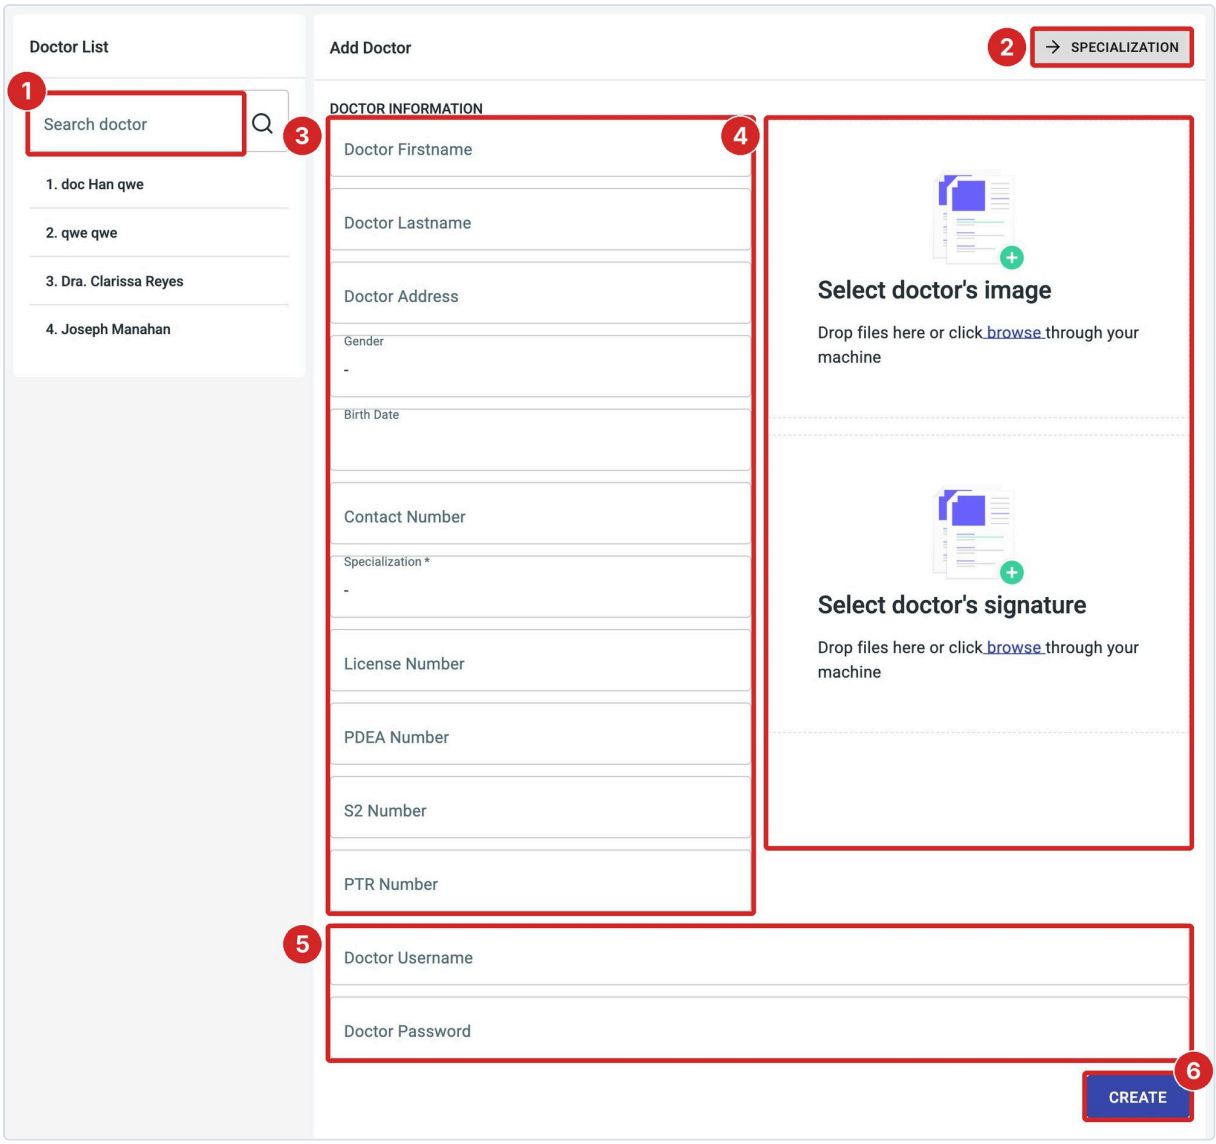

Figure 4.1. The Doctors page with the Add Doctor form.

1 Search doctor 2 SPECIALIZATION 3 Doctor Information 4 Doctor's image and signature 5 Username and Password 6 CREATE

1. Under **Doctor Information**, type the **Firstname**, **Lastname** and **Address**, choose the **Gender**, set the **Birth Date** and type the **Contact Number**.
2. Choose the **Specialization** (required). If it is not in the list, add it first (4.5).
3. Type the **License Number**, **PDEA Number**, **S2 Number** and **PTR Number**. These appear on the doctor's prescriptions.
4. Drop the doctor's photo in **Select doctor's image**, and a picture of the doctor's signature in **Select doctor's signature**.
5. Type the doctor's **Username** and **Password**.
6. Click **CREATE**. To make the doctor available in a clinic, assign them there (2.4).

4.3 Doctor details

Click a doctor in the list. The right side shows the doctor's photo, name, address and contact number, then **Other Info**: gender, birth date and the License, PDEA, PTR and S2 numbers. The doctor's **E-Signature** is shown at the bottom.

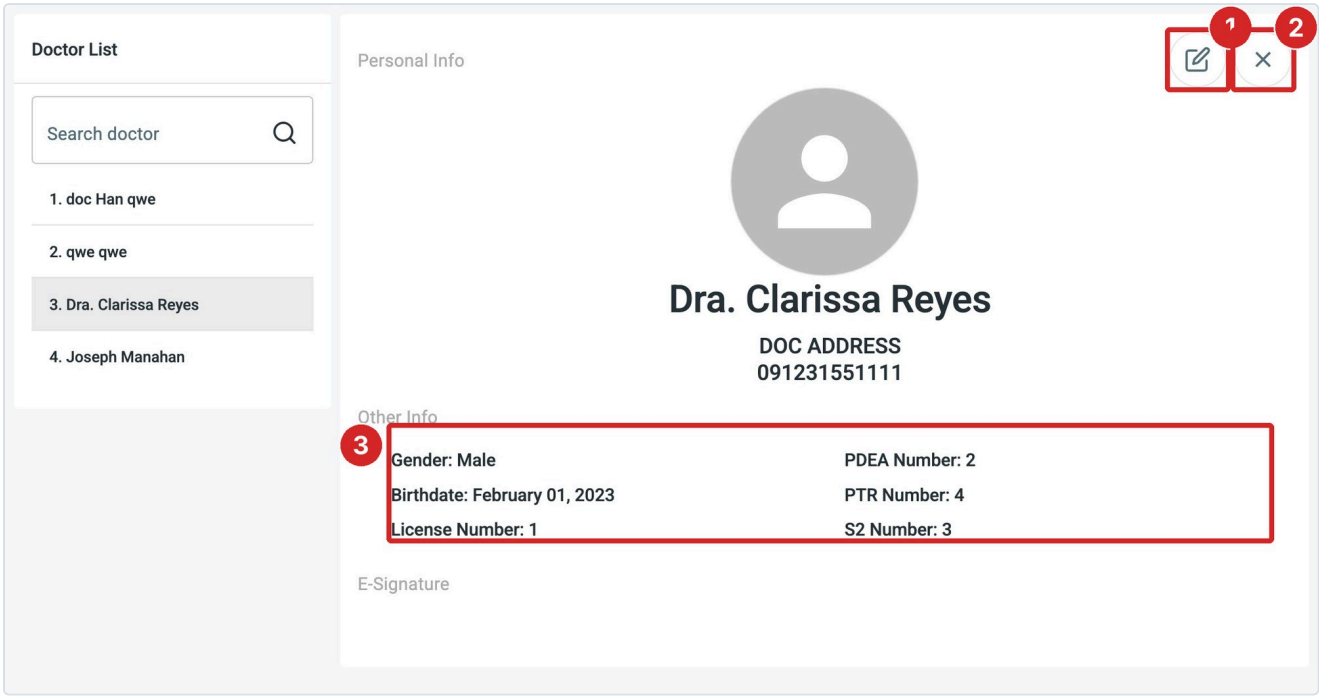

Figure 4.2. Doctor details.

1 Edit 2 Close 3 Other Info

4.4 Editing a doctor

1. Open the doctor (4.3) and click the edit icon. The **Edit Doctor** window opens with the doctor's current details.
2. Change any field, the photo or the e-signature.
3. Scroll to the bottom of the window and click the save button.
