SECTION 3

The Applicant

This section is for the applicant: the owner, builder or developer who applies for a building permit, an occupancy permit or an electrical permit. It starts with an overview of the Dashboard, the sidebar and the top bar, then shows how to apply for a building permit.

In this section

- 3.1 The Dashboard
- 3.2 The sidebar
  - Building Permit
  - Permit List
  - Permit For Payment
  - Occupancy Permit
  - Electrical Permit
  - Using the sidebar on a small screen
- 3.3 The top bar
  - Settings
  - Account menu
- 3.4 Account settings
  - General
  - Security
- 3.5 New building permit application
  - Permit Request
    - Moving between steps
    - Required fields
    - Step 1. Owner/Applicant Details
    - Step 2. Structure Profile
    - Step 3. Full Time Inspectors
    - Step 4. Summary
  - Requirements
    - Forms
    - Plans
    - Technical Documents
    - PRC IDs & PTRs
    - Personal Documents
    - Certifications
    - Uploading a requirement
    - Sending the requirements
  - Application Review
  - Sent to Building Official
  - Approved
    - Reading the remarks
    - Viewing the permit
- 3.6 Your building permit requests

View Permit

Apply For Electrical

3.1 The Dashboard

The Dashboard is the first page after you sign in. In the middle, it shows the logo of the Municipality, the **Contact Details** of the office (**Email** and **Contact Number**) and a **How to** line with the link to the FAQs.

Below are three cards. Click a card to open the list of your requests of that kind:

- **Building Permit:** your building permit requests.
- **Electrical Permit:** your electrical permit requests.
- **Occupancy Permit:** your occupancy permit requests.

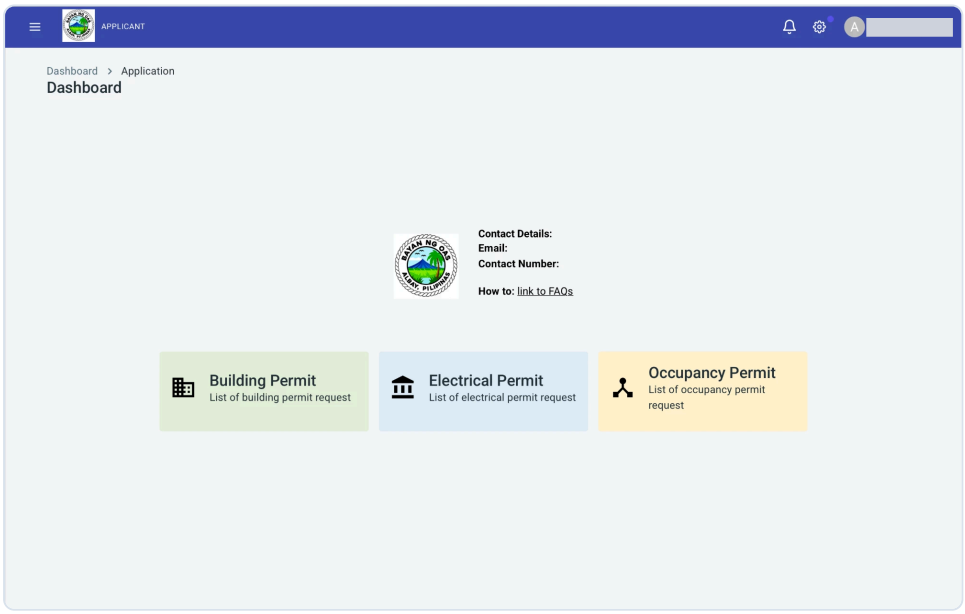

Figure 3.1. The applicant Dashboard.

3.2 The sidebar

The sidebar is on the left of every page. It shows your name and the menu, which has the **Dashboard** and, under **Sub Menu**, the items below. Click an item to open its page. An item with an arrow opens or closes a list of pages.

Building Permit

Click **Building Permit** to start a new building permit request. The page **Building Permit Request** has four steps: **Owner/Applicant Details**, **Structure Profile**, **Full Time Inspectors** and **Summary**. See Section 3.5.

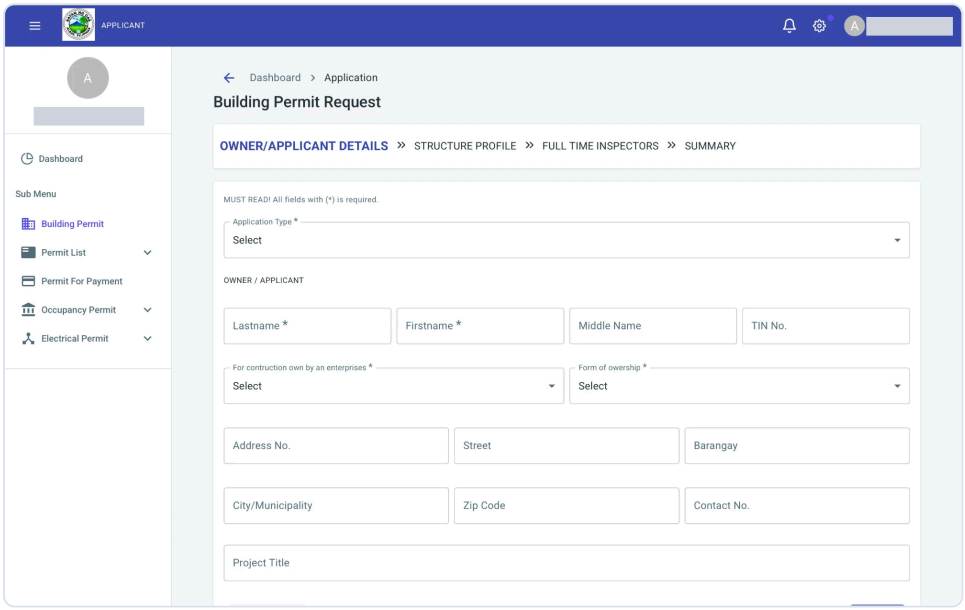

Figure 3.2. Building Permit opens the Building Permit Request page.

Permit List

Click **Permit List** to show two pages:

- **List:** your building permit requests. See Section 3.6.
- **Draft:** requests you started and saved but did not send.

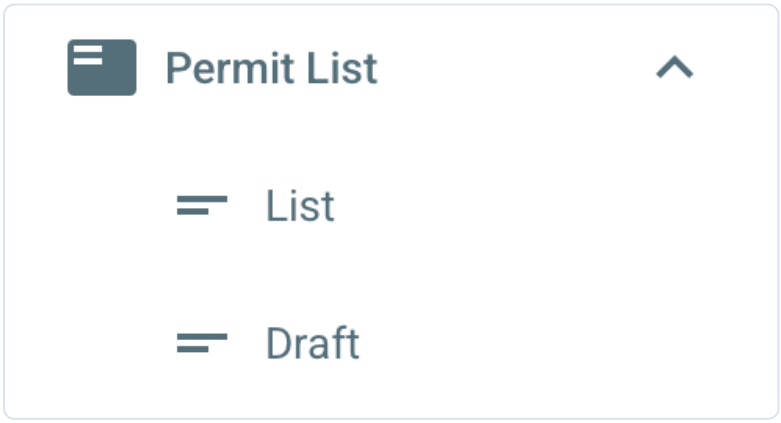

Figure 3.3. Permit List opens List and Draft.

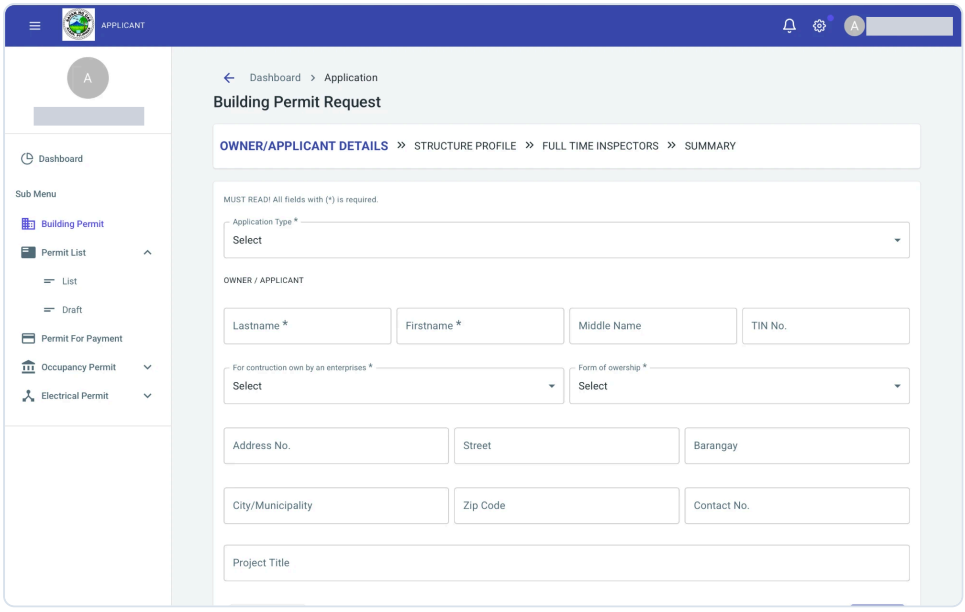

Figure 3.4. The sidebar with Permit List open.

Permit For Payment

Click **Permit For Payment** to open the page **Building Permit For Payment**. It lists the permits that are ready for payment. The table has the columns **Date**, **Application No.**, **Application Type**, **Area No.**, **Status** and **Action**. Type a number or a type in the search box to find a request. The bottom of the table shows the rows per page and the page count. When there is nothing to show, the table says *No record found.*

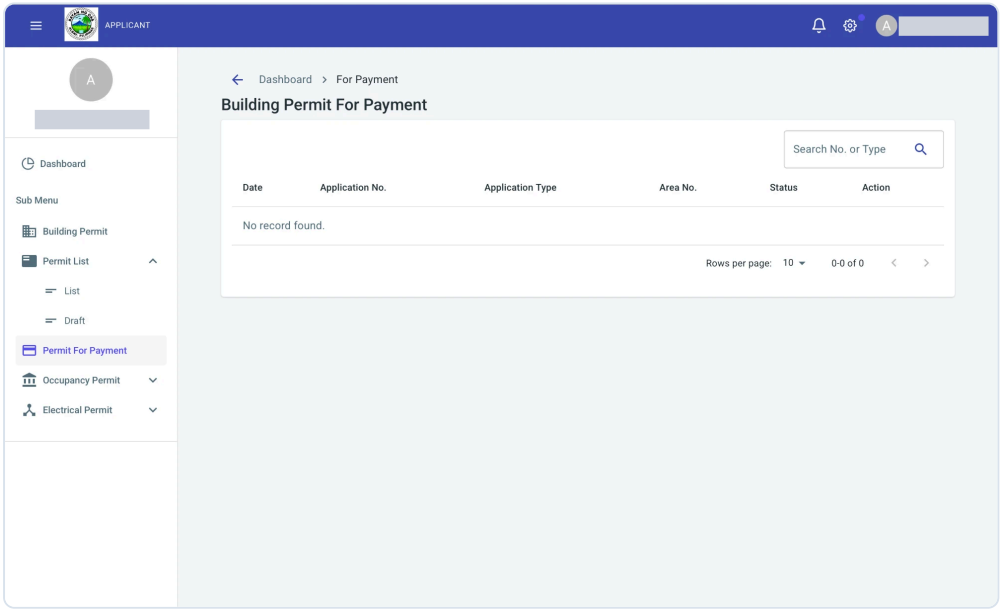

Figure 3.5. The Building Permit For Payment page.

Occupancy Permit

Click **Occupancy Permit** to show two pages:

- **New:** the page **Building Permit For Occupancy**. It lists the building permits for which you can request an occupancy permit. The columns are **Date**, **Application No.**, **Application Type**, **Area No.**, **Status** and **Action**.
- **List:** the page **Permit For Occupancy List**. It lists your occupancy permit requests. The columns are **Date**, **Application No.**, **Project Title**, **Completion Date**, **Status** and **Action**. Type a number or a title in the search box to find a request.

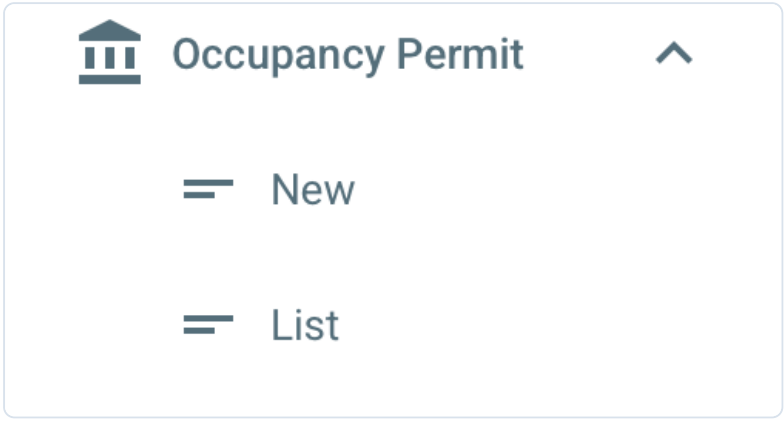

Figure 3.6. Occupancy Permit opens New and List.

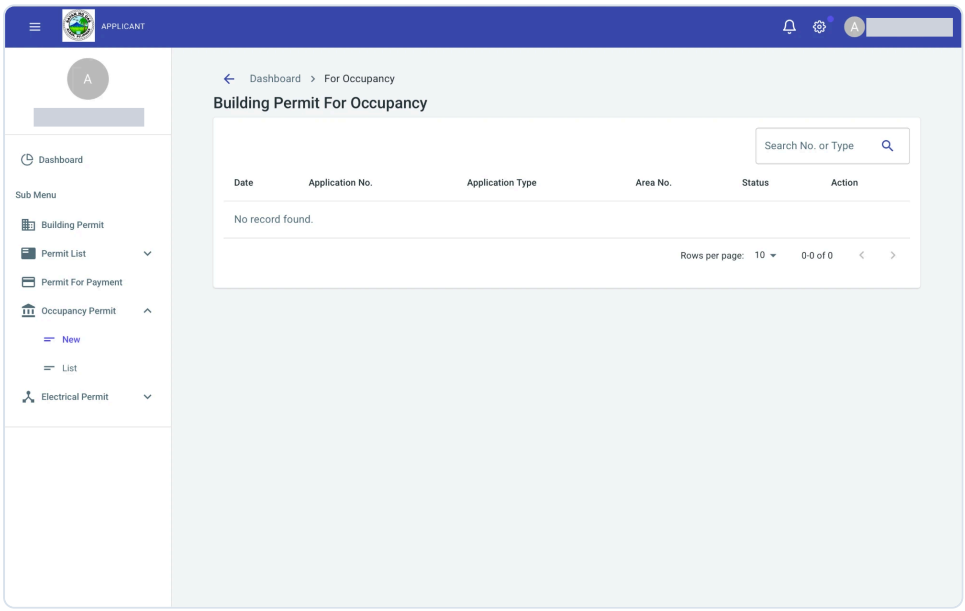

Figure 3.7. The New page of Occupancy Permit.

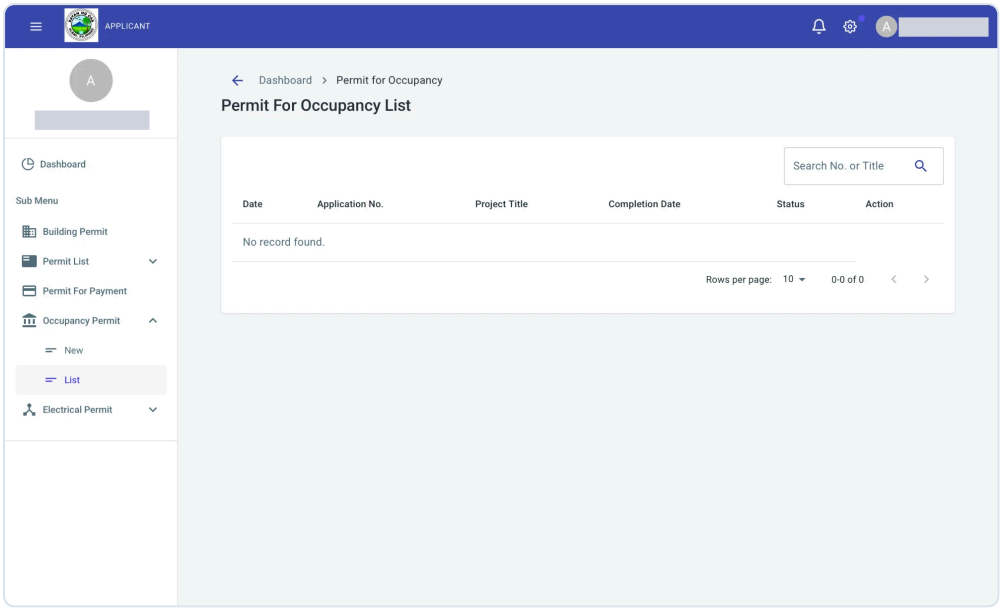

Figure 3.8. The List page of Occupancy Permit.

Electrical Permit

Click **Electrical Permit** to show **List**. The page **Electrical Permit Request List** shows your electrical permit requests. The columns are **Date**, **Application No.**, **Owner**, **Completion Date**, **Start Of Installation**, **Request Status** and **Action**.

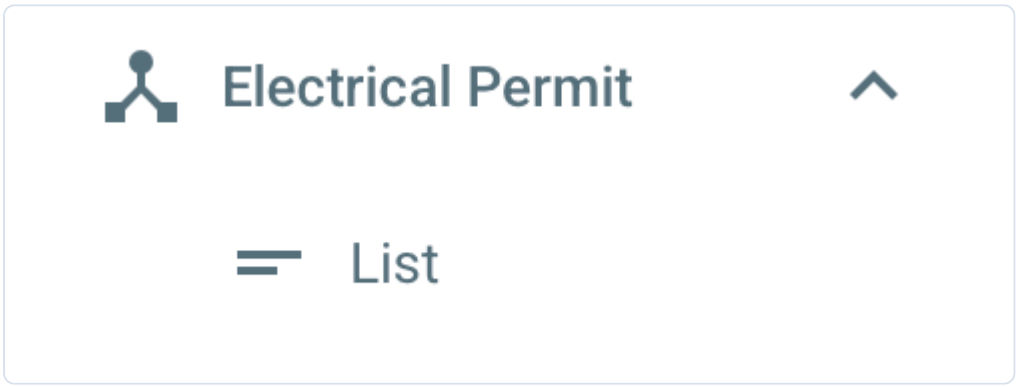

Figure 3.9. Electrical Permit opens List.

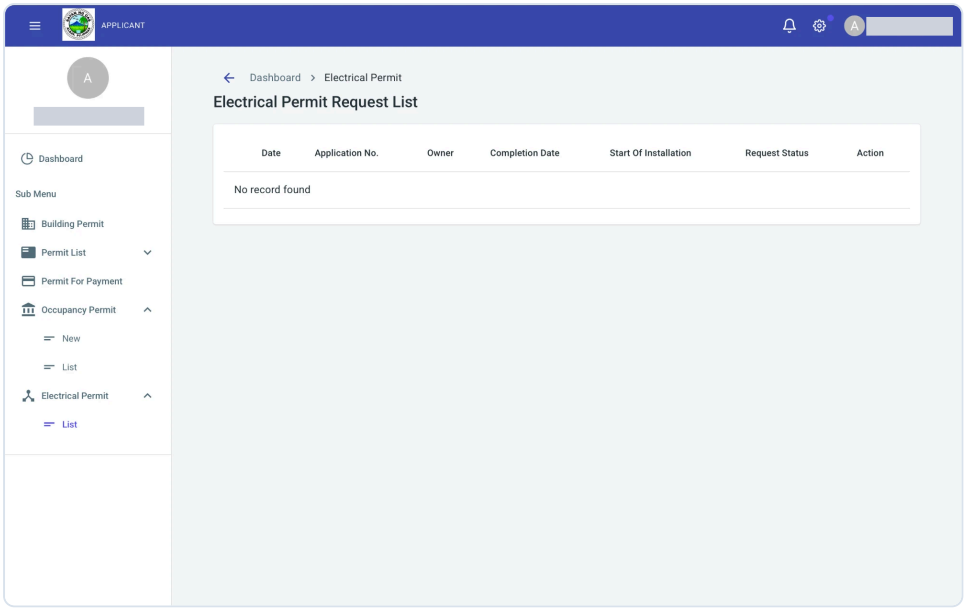

Figure 3.10. The Electrical Permit Request List page.

Using the sidebar on a small screen

On a narrow screen, such as a phone, the sidebar is hidden. Click the menu icon (three lines) at the top left to show or hide it.

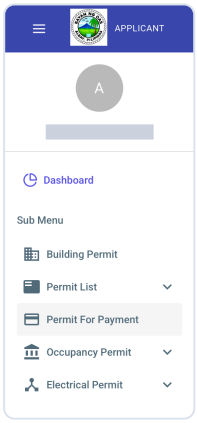

Figure 3.11. The sidebar on a small screen.

3.3 The top bar

The top bar is at the top of every page. At the left are the menu icon, the logo of the Municipality and the label **APPLICANT**, which tells you the role of your account. At the right are the notification bell, the settings icon and your name.

Figure 3.12. The left side of the top bar.

Settings

Click the gear icon to open **Settings**. It has these options:

- **RTL:** switches the page to a right-to-left layout.
- **Responsive font sizes:** adjusts the text size to the screen.
- **Theme:** the color theme, for example **Light**.

Click **Save Settings** to keep your choices.

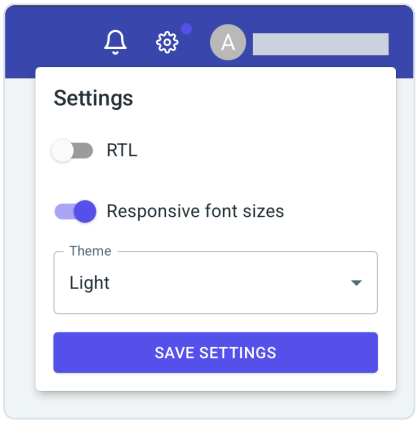

Figure 3.13. The Settings window.

Account menu

Click your name to open the account menu. It has two items:

- **Account:** opens your account settings.
- **Logout:** signs you out.

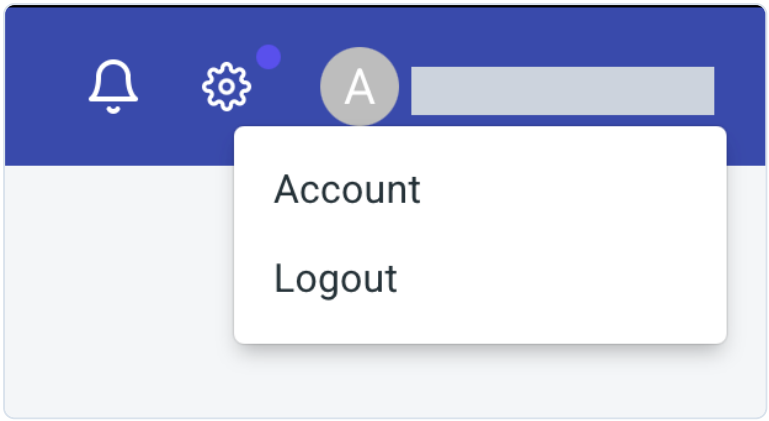

Figure 3.14. The account menu.

3.4 Account settings

The page **Account Settings** has two tabs, **General** and **Security**.

General

The **Profile** form has these fields. Fields with an asterisk (*) are required.

- **First Name** and **Last Name**
- **Phone Number**
- **Select State** and **Country**
- **Make Contact Info Public:** when on, anyone viewing your profile can see your contact details.
- **Available to hire:** lets your teammates know that you are available for new projects.

Click **Upload Profile** to add a profile picture. Click **Save Changes** to keep your changes.

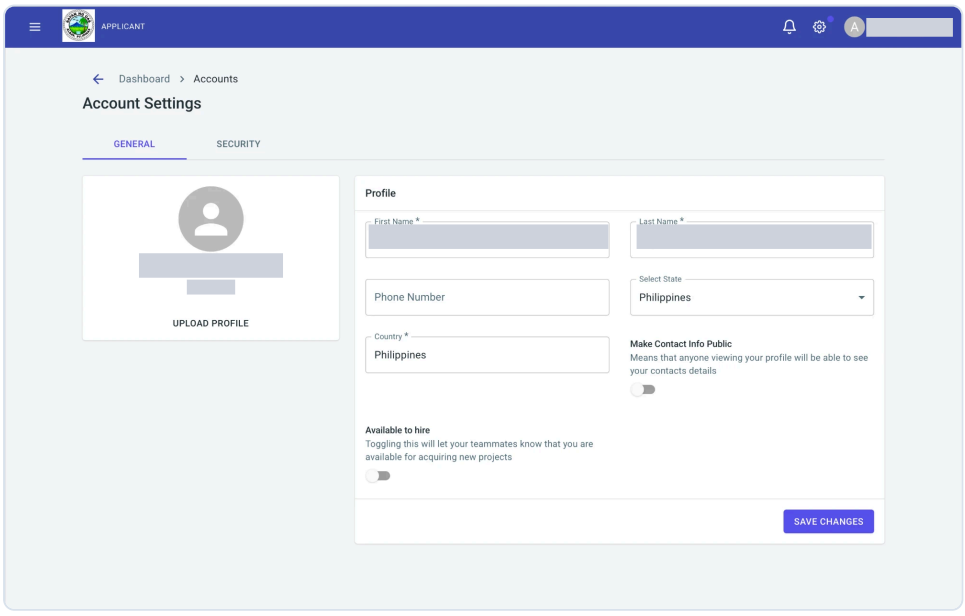

Figure 3.15. The General tab of Account Settings.

Security

Click the **Security** tab to change your password. Type the new password in **Password**, type it again in **Password Confirmation**, then click **Change Password**.

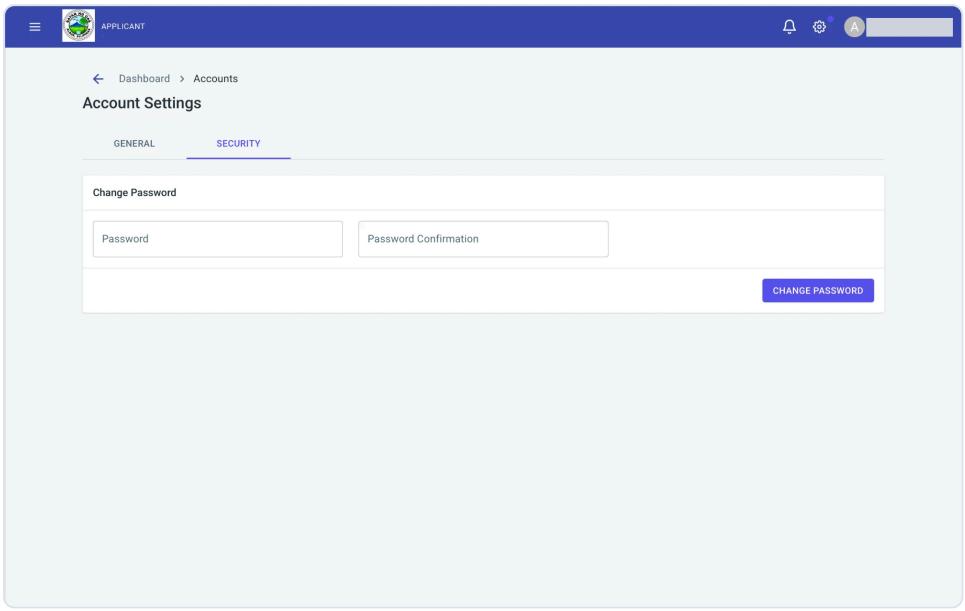

Figure 3.16. The Security tab of Account Settings.

3.5 New building permit application

A building permit application has four parts: Permit Request, Requirements, Application Review, Sent to Building Official and Approved.

Permit Request

You can start a building permit request in two ways.

From the sidebar. Click **Building Permit** in the sidebar. The page **Building Permit Request** opens.

From the Dashboard.

1. On the Dashboard, click the **Building Permit** card. The page **List of Building Permits** opens. A new account has no request yet, so the table says *No record found.*
2. Click **New Application** at the top right. The page **Building Permit Request** opens.

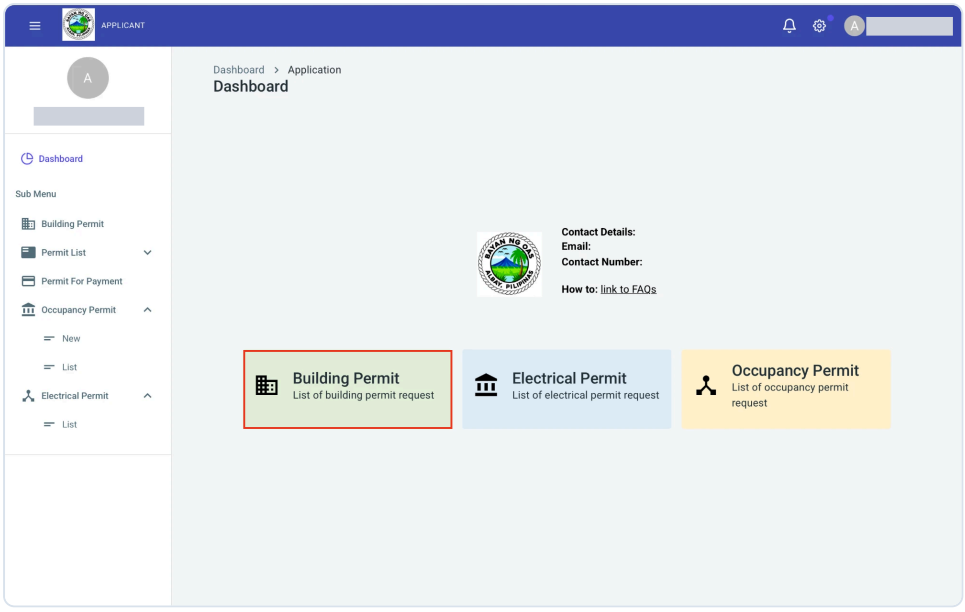

Figure 3.17. Click the Building Permit card on the Dashboard.

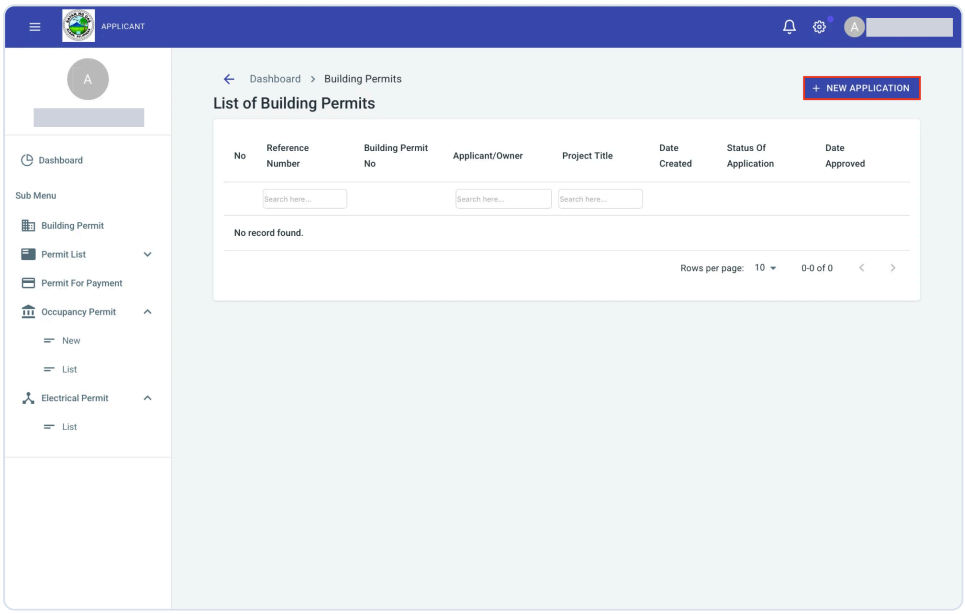

Figure 3.18. Click New Application on the List of Building Permits.

The request is a form with four steps. The step bar at the top of the form names them, and the step you are on is shown in bold blue:

1. **Owner/Applicant Details**
2. **Structure Profile**
3. **Full Time Inspectors**
4. **Summary**

Moving between steps

The buttons at the bottom of every step are the navigation controls:

- **Next:** goes to the next step. The system first checks the required fields of the step. If one is empty, the form stays on the step and shows a red message.
- **Previous:** goes back to the step before, so you can check or change what you typed. It is dimmed on step 1.
- The four dots between the buttons show which step you are on. The filled dot is the current step.

On the last step, **Next** is replaced by **Save As Draft**. See Step 4.

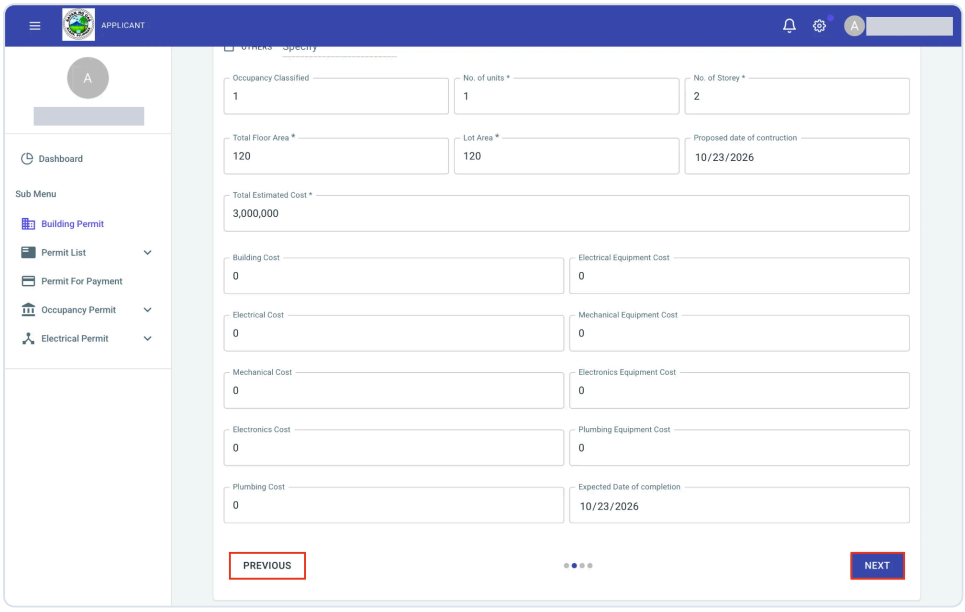

Figure 3.19. Previous and Next (boxed) at the bottom of a step. The dots show the current step.

Required fields

> **Important.** A field with an asterisk (*) in its name is required. The page reminds you: *MUST READ! All fields with (*) is required.* Click **Next** only after you fill in all of them.

When a required field is empty, a red message appears under it and the field is outlined in red. Fill it in, then click **Next** again. Messages you may see:

- **Select at least one scope of work.** (step 2)
- **Use or Character of occupancy is required.** (step 2)
- **No. of units is a required field.** (step 2, and the same wording for the other required fields)

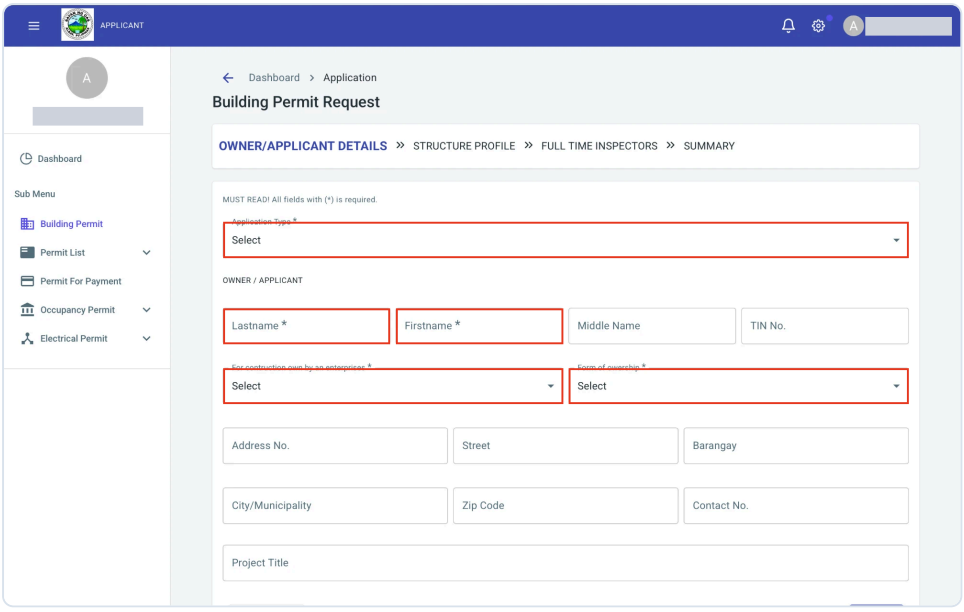

Figure 3.20. Step 1. The required fields are boxed in red.

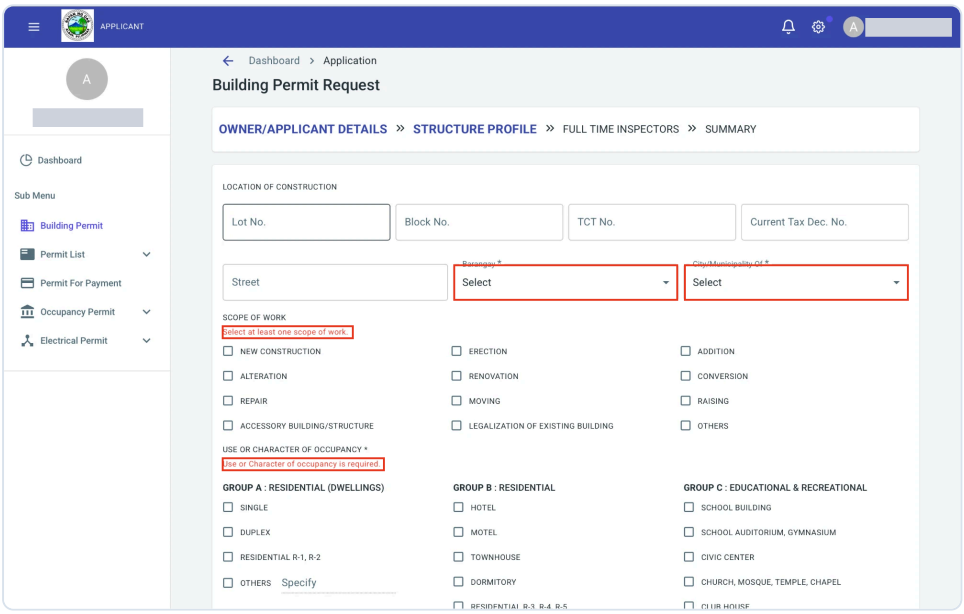

Figure 3.21. Step 2. The required fields and messages are boxed in red.

Step 1. Owner/Applicant Details

This step is about the applicant and the project. Fill in these fields. The first five are required.

- **Application Type *:** click the box and choose one of the types below.
- **Lastname ***, **Firstname ***, **Middle Name** and **TIN No.**
- **For construction owned by an enterprise *:** choose **Yes** or **No**.
- **Form of ownership *:** for example **Private**.
- **Address No.**, **Street**, **Barangay**, **City/Municipality** and **Zip Code** of the owner.
- **Contact No.**

- **Project Title:** the name of the project, for example a two-storey residential home.

The types of **Application Type** are: Fire Safety Evaluation Clearance, Amendatory, Complex, Renewal, Locational Clearance, New and Simple.

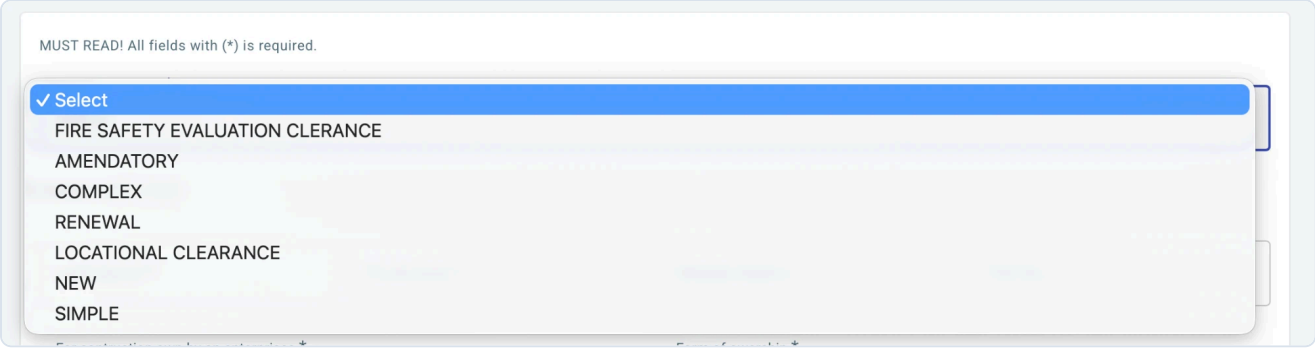

Figure 3.22. The choices of Application Type.

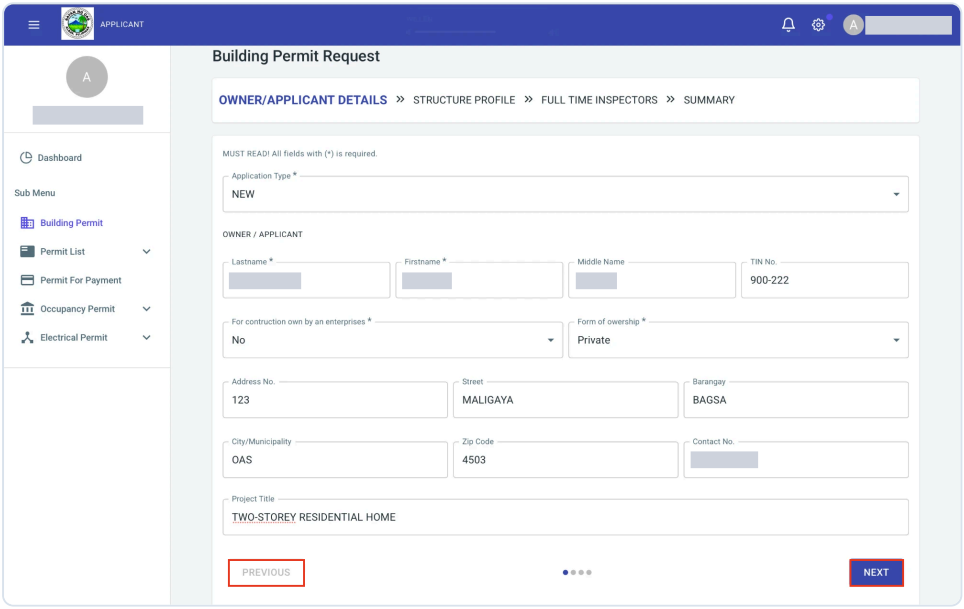

Figure 3.23. Step 1 filled in. Click Next to go to step 2.

Step 2. Structure Profile

This step describes the building and where it will be built. It has four parts.

Location of Construction

- **Lot No.**, **Block No.**, **TCT No.** and **Current Tax Dec. No.**
- **Street**
- **Barangay *** and **City/Municipality Of *:** click each box and choose from the list.

Scope of Work

Check **at least one** of: New Construction, Erection, Addition, Alteration, Renovation, Conversion, Repair, Moving, Raising, Accessory Building/Structure, Legalization of Existing Building, Others. If

you check **Others**, type the work in the **Specify** box.

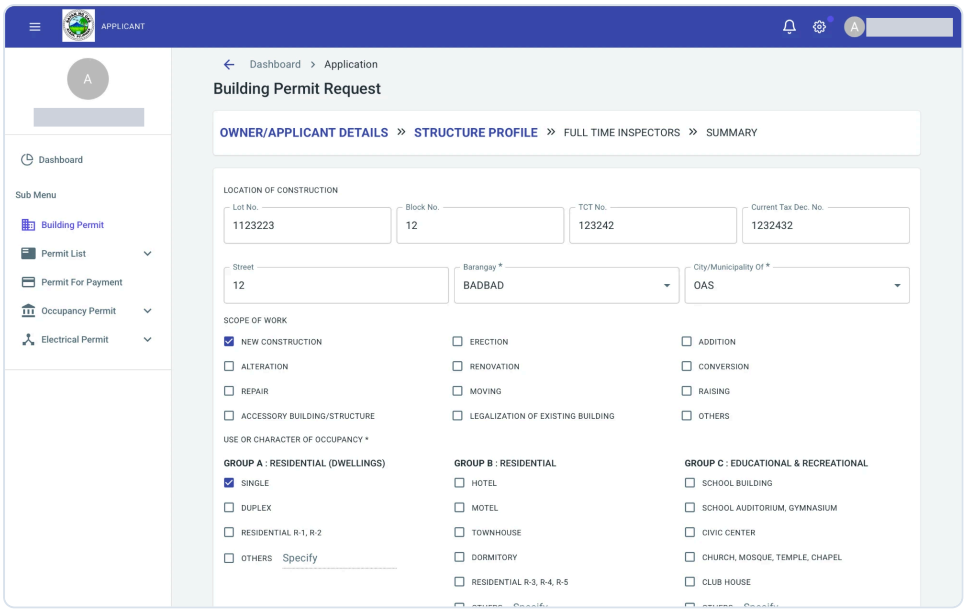

Figure 3.24. Location of Construction and Scope of Work filled in.

Use or Character of Occupancy *

Check the box that matches how the building will be used. This part is required. The choices are grouped:

- **Group A, Residential (Dwellings):** Single, Duplex, Residential R-1, R-2.
- **Group B, Residential:** Hotel, Motel, Townhouse, Dormitory, Residential R-3, R-4, R-5, Boarding House or Lodging House.
- **Group C, Educational and Recreational:** School Building, School Auditorium or Gymnasium, Civic Center, Church, Mosque, Temple or Chapel, Club House.
- **Group D, Institutional:** Hospital or Similar Structure, Home for the Aged, Government Office.
- **Group E, Commercial:** Bank, Store, Shopping Center or Mall Establishment, Drinking or Dining, Shop.
- **Group F, Light Industrial:** Factory or Plant using incombustible, non-explosive materials.
- **Group G, Medium Industrial:** Storage or Warehouse, and Factory, for hazardous or highly flammable materials.
- **Group H, Assembly (occupant load less than 1,000):** Theater, Auditorium, Conventional Hall, Grandstand or Bleacher.
- **Group I, Assembly (occupant load 1,000 or more):** Coliseum, Sports Complex, Convention Center and similar structure.
- **Group J-1, Agricultural:** Barn, Granary, Poultry House, Piggery, Grain Meal, Grain Silo.
- **Group J-2, Accessories:** Private Carport, Garage, Tower, Swimming Pool, Fence over 1.8 m, Steel, Concrete or Tank.

Each group also has an **Others** box with a **Specify** line for a use that is not listed.

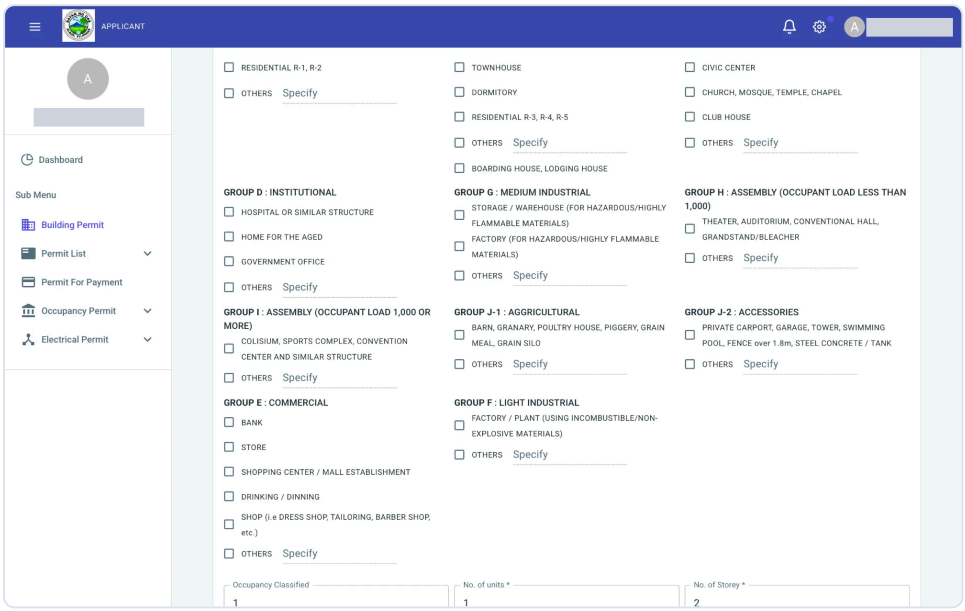

Figure 3.25. The groups of Use or Character of Occupancy.

Size, dates and costs

- **Occupancy Classified**
- **No. of units *** and **No. of Storey ***
- **Total Floor Area *** and **Lot Area ***
- **Proposed date of construction**
- **Total Estimated Cost ***
- The costs of the parts: **Building Cost**, **Electrical Cost**, **Mechanical Cost**, **Electronics Cost** and **Plumbing Cost**.
- The costs of the equipment installed: **Electrical Equipment Cost**, **Mechanical Equipment Cost**, **Electronics Equipment Cost** and **Plumbing Equipment Cost**.
- **Expected Date of completion**

If a required field here is empty, for example **No. of units**, it turns red and shows a message.

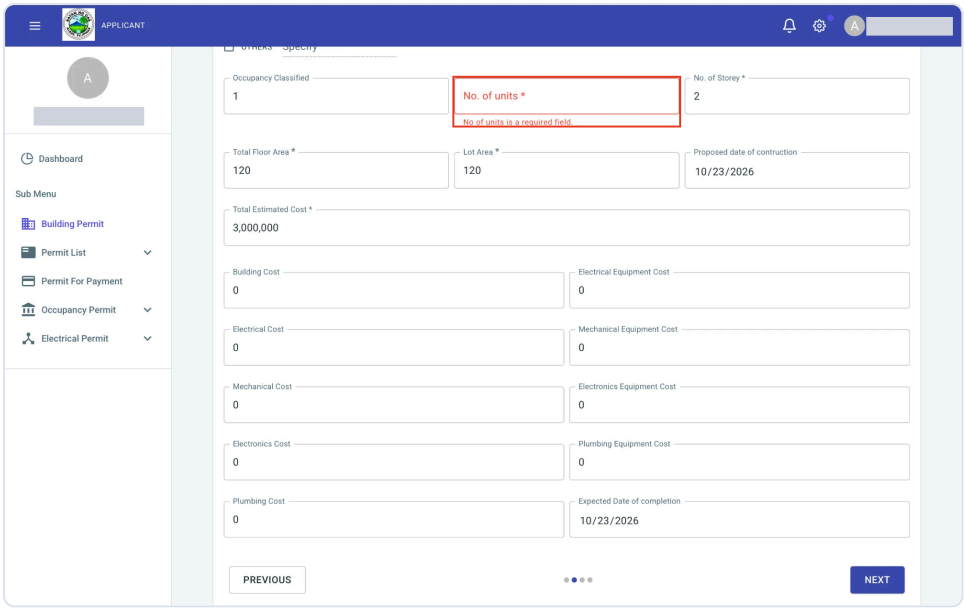

Figure 3.26. A required field left empty is outlined in red with a message.

Step 3. Full Time Inspectors

This step names the full time inspector and supervisor of the construction works, who represents the owner, and signs for the applicant.

- **Architect or Civil Engineer *:** the name of the architect or civil engineer. This is required. The note under the box says the engineer signs and seals over the printed name.
- **Address**, **PRC No.**, **Validity**, **PTR No.**, **Date Issued**, **Issued At** and **TIN** of the engineer.
- **Applicant:** the name of the applicant is filled in from step 1 and cannot be changed here. Set the **Date**.
- **With my consent: lot owner or authorized representative:** type the name in **Lot Owner Or Representative** and set the **Date**.
- For the applicant and for the lot owner or representative: **Address**, **Gov't Issued ID No.**, **Date Issued** and **Place Issued**.

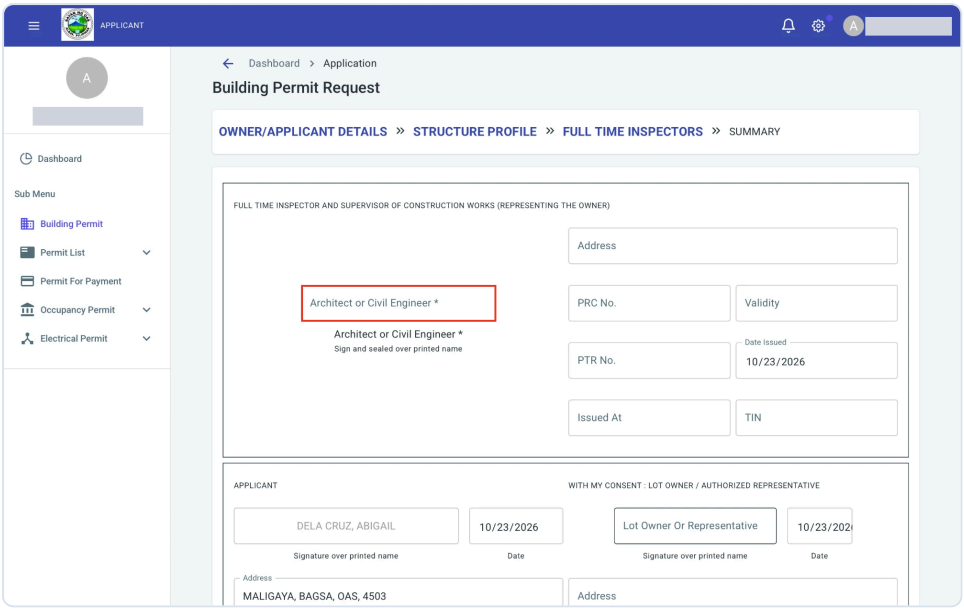

Figure 3.27. Step 3. The Architect or Civil Engineer field is required.

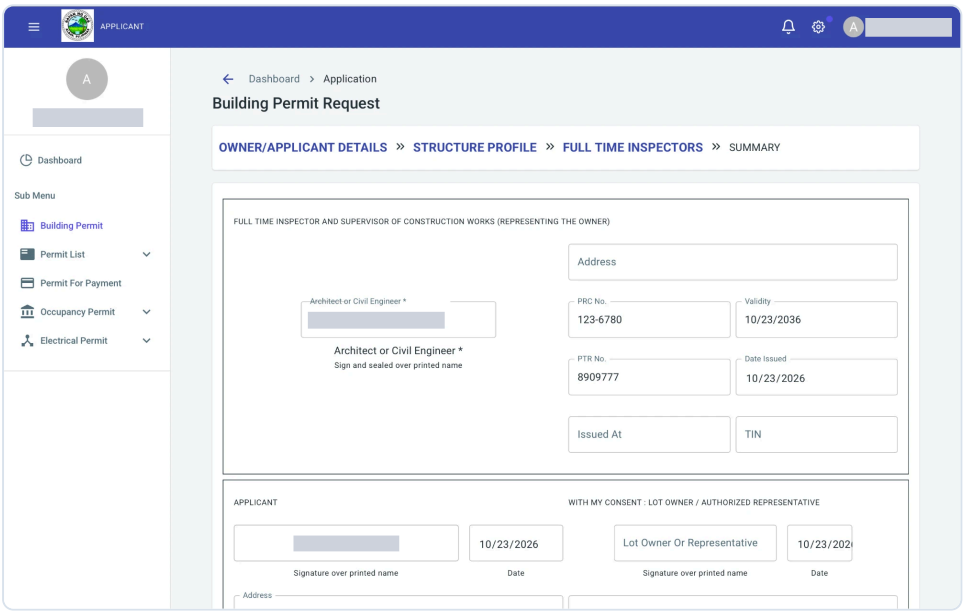

Figure 3.28. Step 3 filled in.

Step 4. Summary

The Summary shows everything you typed on the **Unified Application Form for Building Permit**, as it will be printed. Read it carefully. To change something, click **Previous** until you reach the step, change it, then click **Next** again. The form is made of boxes:

- **Box 1:** the owner or applicant, the location of construction, the scope of work and the use or character of occupancy, with the size and the costs.
- **Box 2:** the full time inspector and supervisor of construction works.
- **Box 3:** the applicant. **Box 4:** the lot owner or authorized representative.

- **Box 5:** the notary section. The line *This portion is need to be notarize* tells you that this part is signed before a notary public.

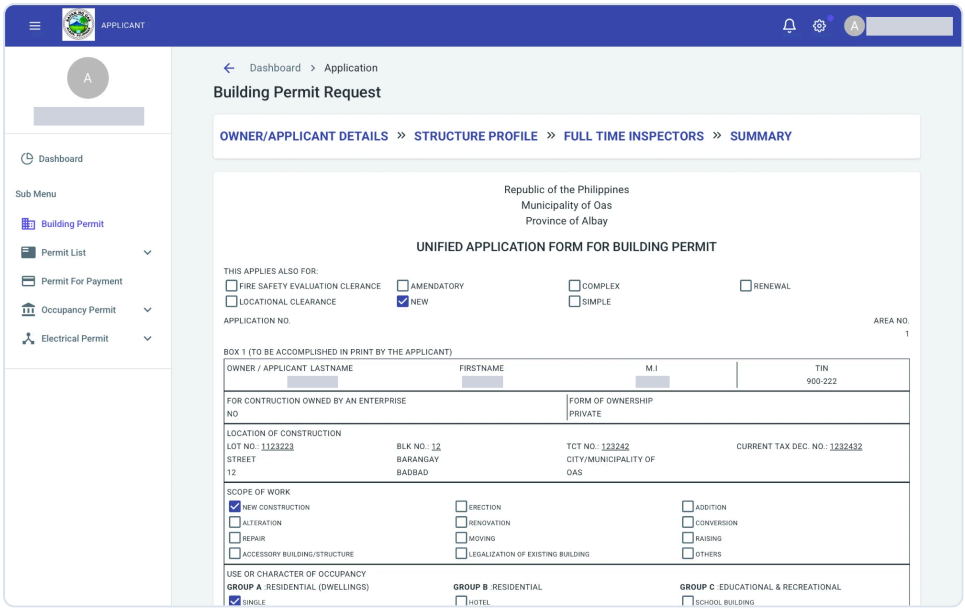

Figure 3.29. The top of the Summary, Box 1.

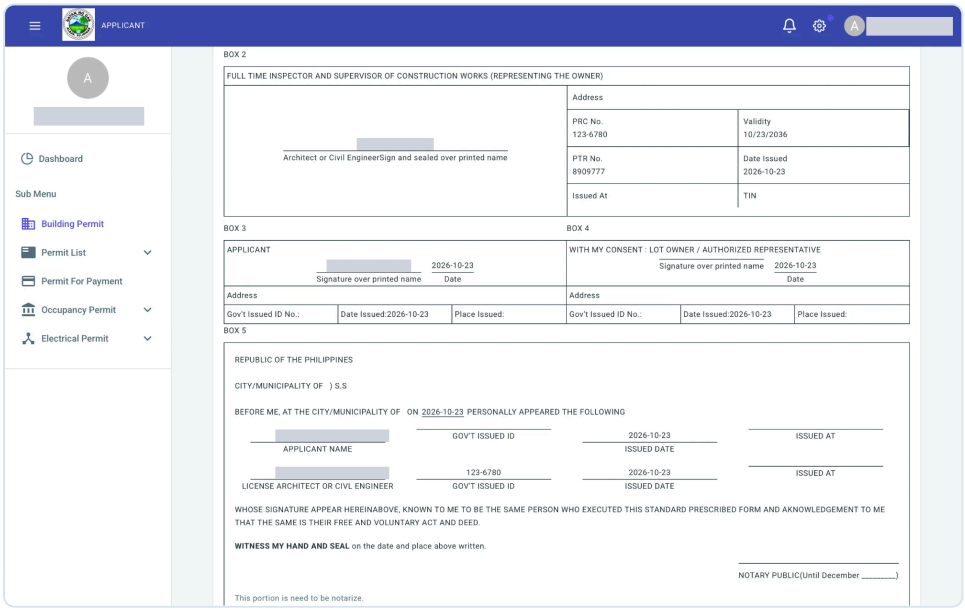

Figure 3.30. Boxes 2 to 5 of the Summary.

At the bottom of the Summary:

- **Print:** prints the form, so that you can sign it and have Box 5 notarized.
- **Previous:** goes back to step 3.
- **Save As Draft:** saves the application. The message *Request successfully sent.* appears and the Requirements List opens.

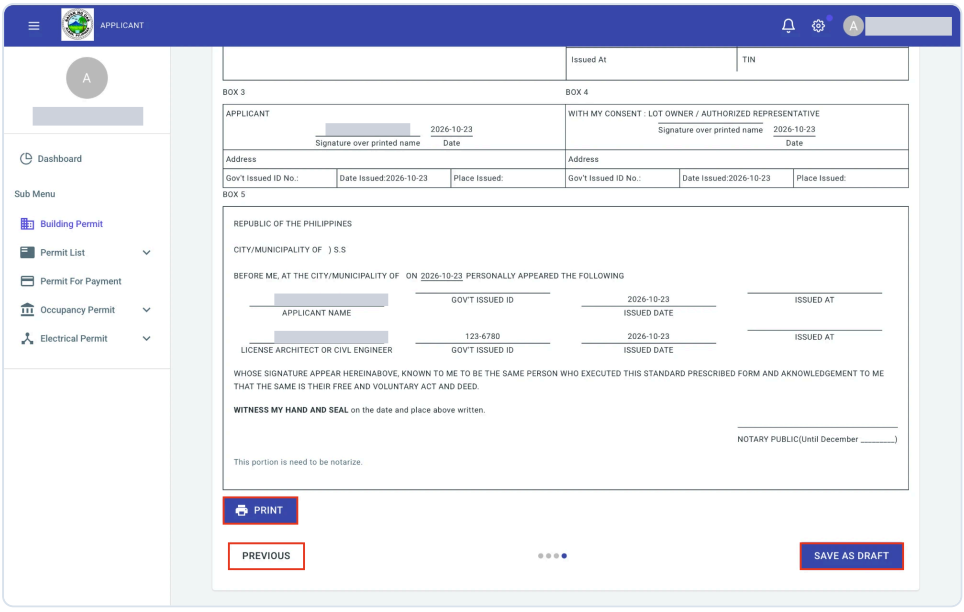

Figure 3.31. Print, Previous and Save As Draft (boxed) at the bottom of the Summary.

Requirements

The page **Requirements List** opens after you click **Save As Draft** on the Summary. It is where you attach the documents that support your application. You can also open it later: in the List of Building Permits, click the three dots of the application, then **Requirements**.

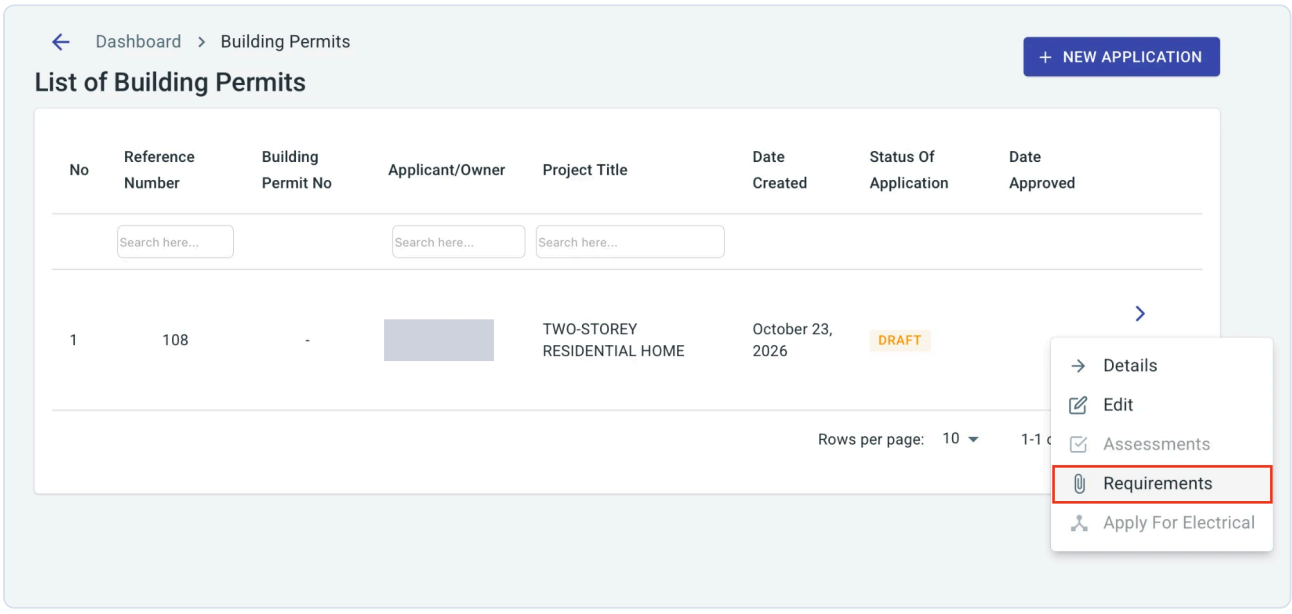

Figure 3.32. Opening the Requirements from the list of building permits.

The box **Attach Documents** lists six groups of documents. Click a group to show its requirements at the right. Three buttons are at the top of the page:

- **Update Details:** goes back to the application form, so you can change what you typed.
- **Save As Draft:** keeps the application as a draft and opens the Permit List. You can finish it later.

- **Proceed to Permitting:** sends the application for review. It can be clicked only after all the required files are attached.

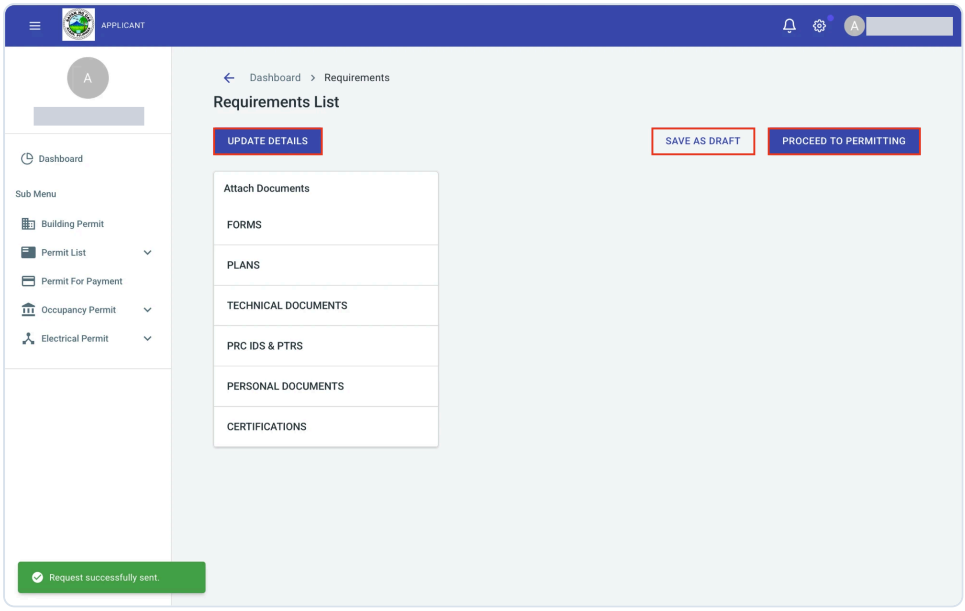

Figure 3.33. The Requirements List. The three buttons are boxed.

Each requirement shows two tags. **NO FILES** means that you have not attached a file yet. **OPTIONAL** means that the requirement may be skipped. A requirement that is not optional must have a file before you can click **Proceed to Permitting**. Click **More** beside a requirement to attach its file.

Forms

The page says *Fill out forms & sign then upload scanned copy.* Fill in and sign each form, scan it, then upload the scan. The Unified Application Form is the Summary of step 4: print it, sign it and have Box 5 notarized. The requirements are: Unified Application Form for Building Permit with Notary, Plumbing/Sanitary Permit, Application for Electrical Permit, Mechanical Form, Electronics Form and Excavation Form.

Plans

Upload the plans of the building: Architectural, Structural, Plumbing, Electrical, Mechanical, Electronics and Excavation.

Technical Documents

Upload the supporting technical documents: Lot Plan, Vicinity Map, Specifications, Bill of Materials, Electrical Design Analysis, Structural Design Analysis and Soil Investigation/Testing Analysis.

PRC IDs & PTRs

Upload the PRC ID and the PTR of each professional who signs the plans and documents: Civil Engineer, Architect, Professional Electrical Engineer, Registered Electrical Engineer, Sanitary Engineer, Master Plumber, Professional Mechanical Engineer, Geodetic Engineer and Professional Electronics Engineer.

Personal Documents

Upload the documents about the land and the people involved: TCT, Tax Declaration (Updated), Current Real Property Tax Receipt, Barangay Clearance, Home Owners Association (for a structure inside a village or subdivision), Authorization Letter, and the Valid ID of the Applicant, of the Representative and of the Land Owner.

Certifications

Upload the clearances: Fire Safety Evaluation Clearance, Zoning/Locational Clearance, DPWH Clearance (if along a national highway) and CSHP (DOLE).

Uploading a requirement

1. Click **More** beside the requirement, then click **Upload**.
2. For the plans, the **Upload Guide** appears first. It says that a plan of several pages must be uploaded as a PDF, and that a plan of one page may be uploaded as an image. Click **OK, Continue**.
3. In the window **Upload Requirement**, drop the file into the box, or click **browse** to choose it from your computer. The tab **Capture Image** lets you take a photo of the document with the camera instead.
4. Type your note in **Remarks**. This box is required.
5. Click **Save**. Click **Cancel** to leave without uploading.

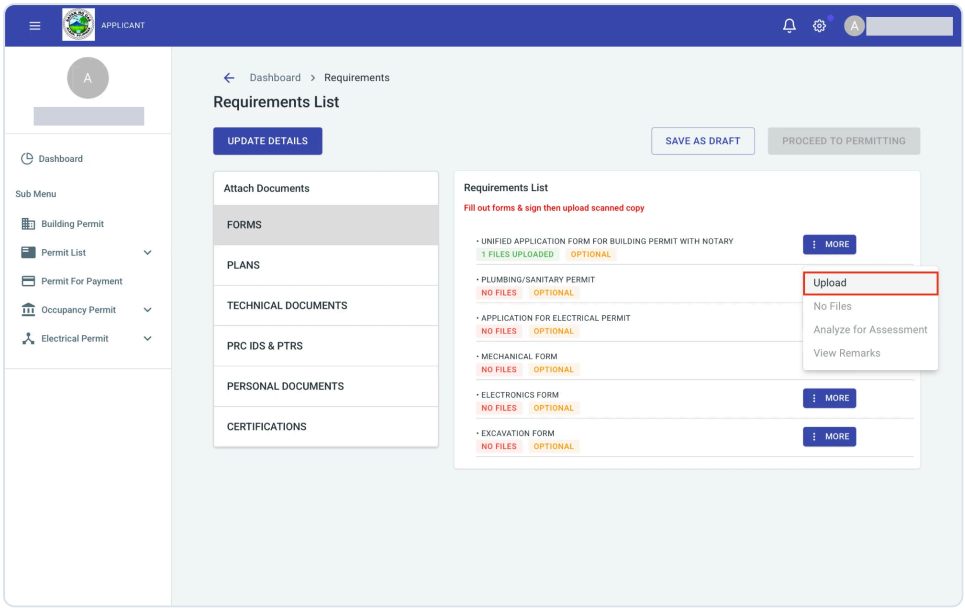

Figure 3.34. The menu of More. Upload is boxed.

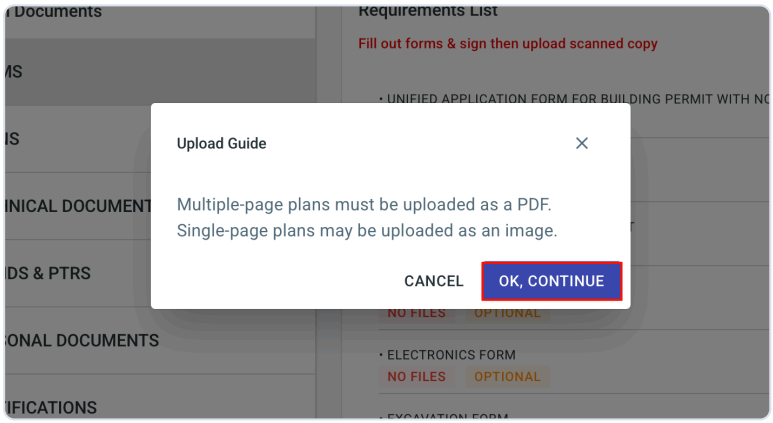

Figure 3.35. The Upload Guide.

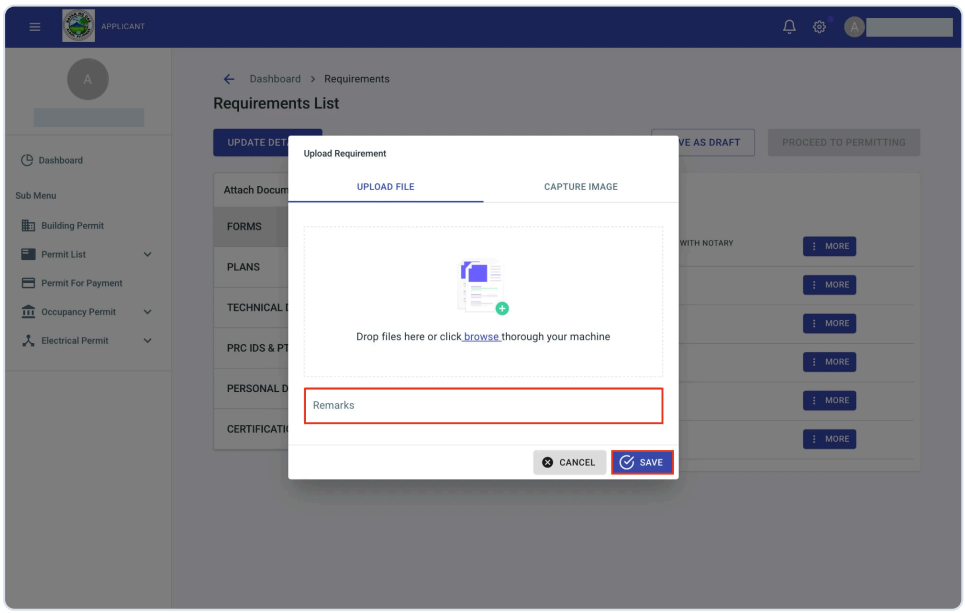

Figure 3.36. The Upload Requirement window. Remarks and Save are boxed.

After you save, the message *Uploaded requirements has been sent. Assessment analysis is processing in the background.* appears, and the tag of the requirement changes from **NO FILES** to **1 FILES UPLOADED**. The number is the count of the files of that requirement.

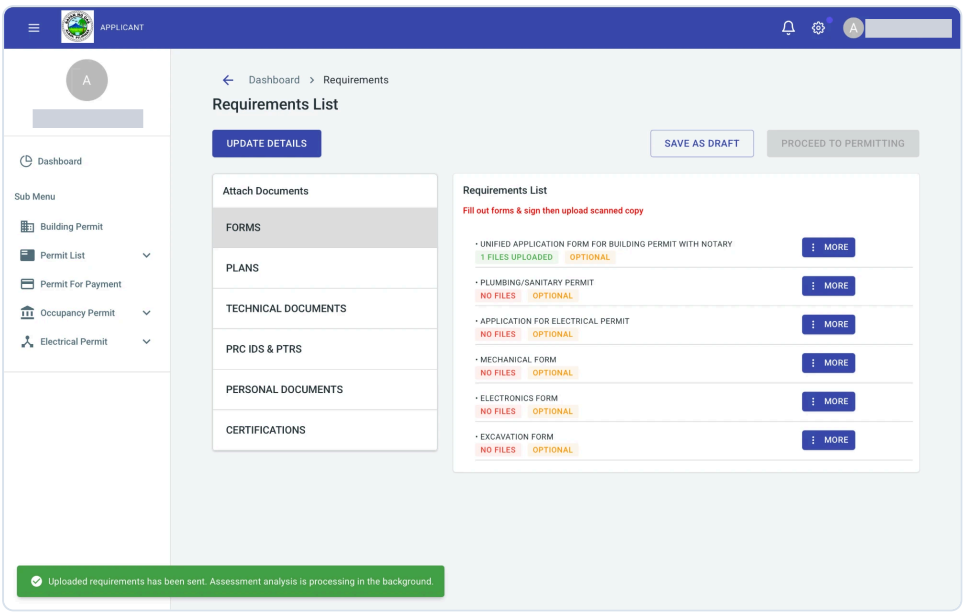

Figure 3.37. A requirement with its file uploaded.

The menu of **More** then has these options. An option that is not available is dimmed.

- **Upload:** adds a file.
- **View Files:** shows the files of the requirement, with their number in brackets. It reads **No Files** and is dimmed while nothing is uploaded.
- **Analyze for Assessment:** reads an uploaded plan and suggests the fees to be assessed, which are then sent to the engineering office for review. It is dimmed when the requirement has no file that can be analyzed.
- **View Remarks:** shows the remarks that the reviewer of the requirement wrote. It is dimmed until the reviewer writes one.

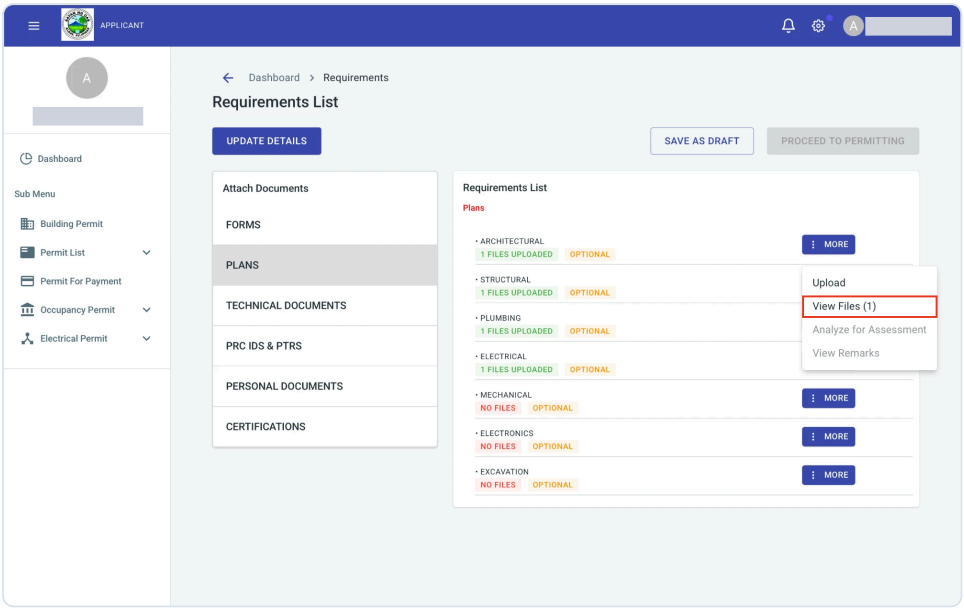

Figure 3.38. The menu of More after files are uploaded. View Files is boxed.

Sending the requirements

When every requirement that is not optional has a file, click **Proceed to Permitting**. The application is sent for review, and its status in the List of Building Permits changes to **SENT TO OBO**. The next two parts explain who reviews it: first the Reviewer, then the Building Official.

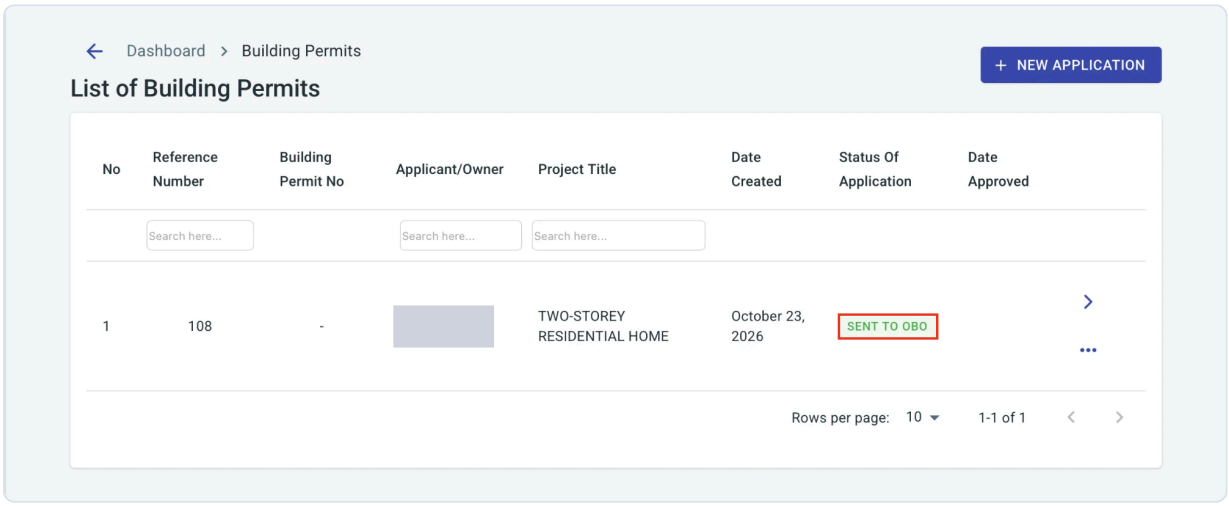

Figure 3.39. The status after the requirements are sent.

Application Review

After you click **Proceed to Permitting**, the application is sent to the Reviewer. The Reviewer is an office of the Municipality that reviews the requirements you submitted. The Reviewer opens the files of each requirement, checks them, and then sets the application as review started. The pages of the Reviewer are in Section 4.

You do not need to do anything while the application is under review. The only change that you see is the status of the application in the List of Building Permits: it changes to **SENT TO OBO**.

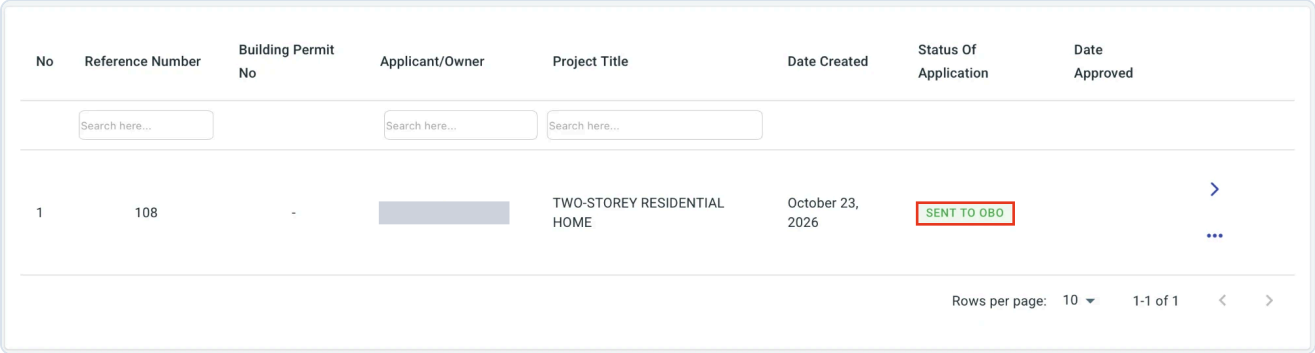

Figure 3.40. The status of the application is SENT TO OBO.

Sent to Building Official

The status **SENT TO OBO** means that the application is with the Office of the Building Official (OBO), the engineering office of the Municipality. This status is the only change that you see on your side while the application is with the OBO. The OBO decides on the application. It does these things:

- **Receives the application.** The application appears in the Building Permit list of the Building Official, with its remarks and its attachments, so the Building Official can read what you submitted and what the Reviewer wrote.
- **Assesses the fees.** The Building Official prepares the assessment of the fees that you must pay for the permit.
- **Approves or declines the application.** The Building Official gives the decision and writes the reason in the remarks.
- **Prints the permit.** When the fees are paid, the Building Official prints the building permit.

The pages of the Building Official are in Section 5.

Approved

When the Building Official approves the permit, the status of your application in the List of Building Permits changes from **SENT TO OBO** to **APPROVED**, and the **Building Permit No** that the Building Official typed is shown in its column. The bell at the top of the page also shows a notification. The pages of the Building Official are in Section 5.5.

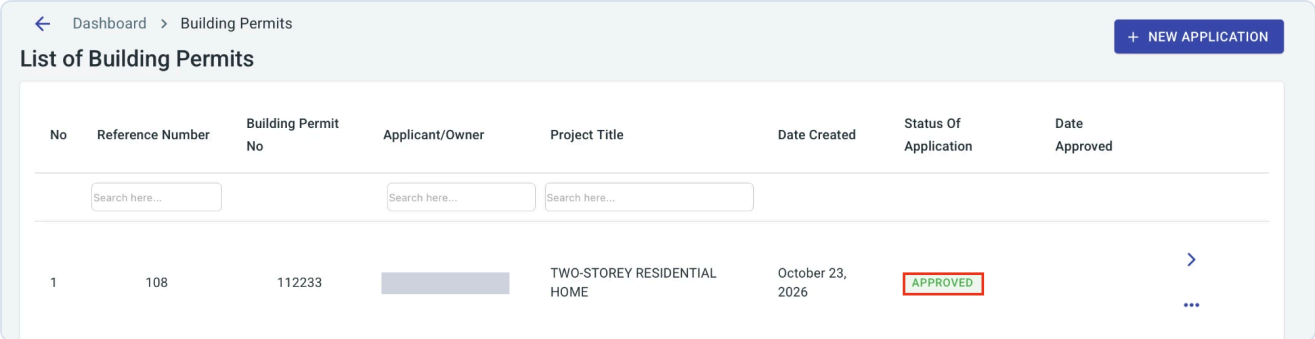

Figure 3.41. The status of the application is APPROVED, with its Building Permit No.

Reading the remarks

Click the arrow icon of the application to read the remarks of the Building Official. Each remark has its date, the office in **Process From**, which is **Approver**, and the **Remarks**. After approval, you can see the note of the approval and a second note, *Approved For Printing*, which tells you that the permit was sent for printing.

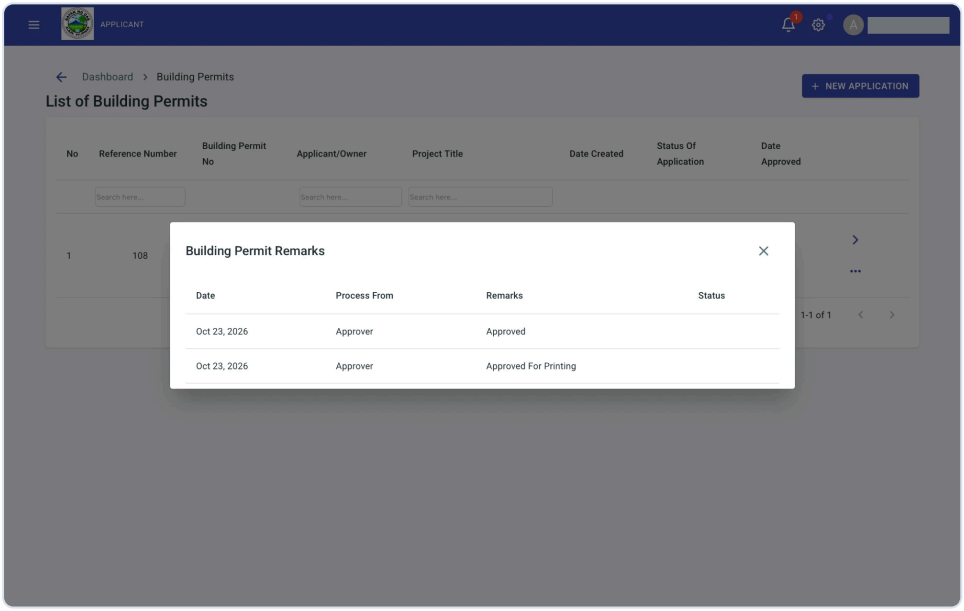

Figure 3.42. The remarks of the approved application.

Viewing the permit

After approval, more options are available in the menu of the three dots. **Assessments** shows the fees of the application, and **View Permit** appears. **Edit** and **Apply For Electrical** stay dimmed. Click **View Permit**.

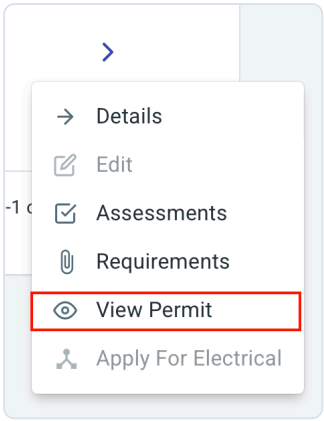

Figure 3.43. The menu of an approved application. View Permit is boxed.

The page shows the **Building Permit** of the Office of the Building Official. It has the type of application, the **Building Permit No.**, the date issued and the FSEC number, then the owner, the project title, the location, the use of the building, the scope of work, the total project cost and the professional in charge of the construction. At the bottom is the name and the signature of the Building Official who issued it. **Official Receipt No.** and **Date Paid** show *N/A* until the fees are paid. Click **Print Permit** to print the permit. Click **Cancel** to go back.

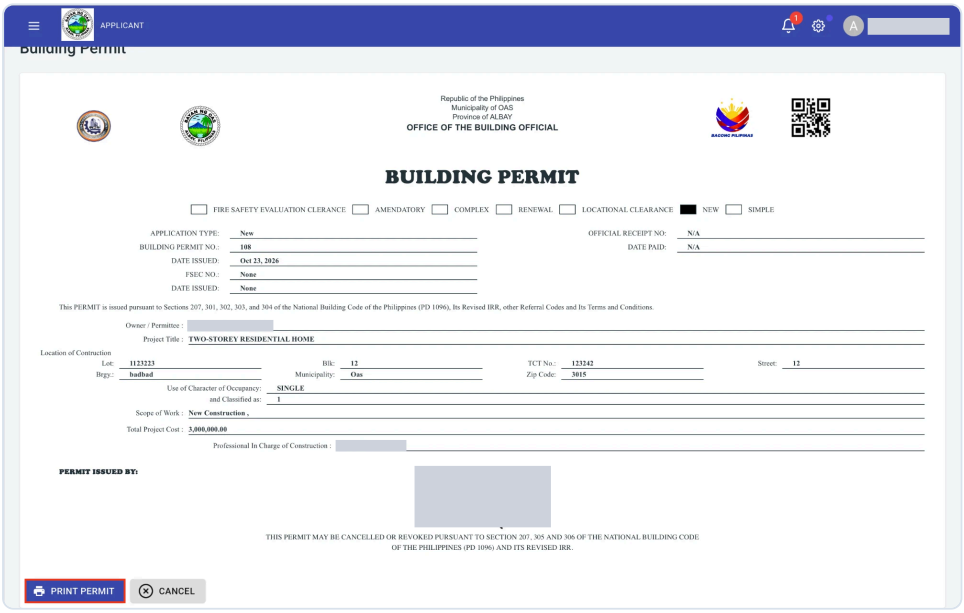

Figure 3.44. The Building Permit. Print Permit is boxed.

3.6 Your building permit requests

Click **Permit List** in the sidebar, then **List**, to open the page **List of Building Permits**. It shows every building permit application you have started. A new application appears here right after you click **Save As Draft** on the Summary.

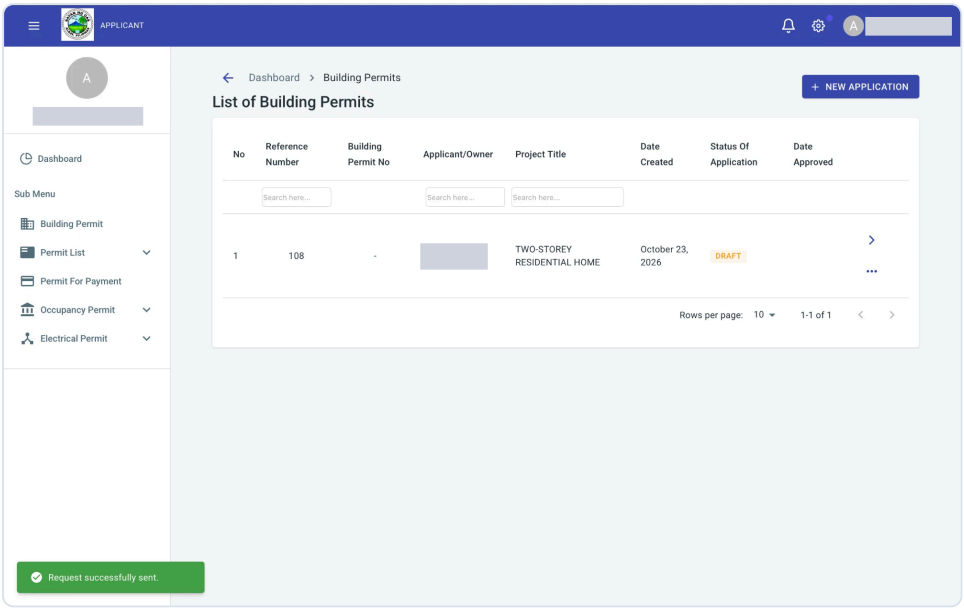

Figure 3.45. The List of Building Permits page.

The list

Click **New Application** at the top right to start another request. See Section 3.5. The table has these columns:

- **No**: the row number.
- **Reference Number**: the number of the application. Type in its **Search here...** box to find one.
- **Building Permit No**: shows a dash until the permit is issued.
- **Applicant/Owner** and **Project Title**: each has a **Search here...** box.
- **Date Created**
- **Status Of Application**: a new application is **DRAFT**.
- **Date Approved**: filled in when the application is approved.

At the right of each row are two icons: the arrow and the three dots. The bottom of the table has **Rows per page** and the page count.

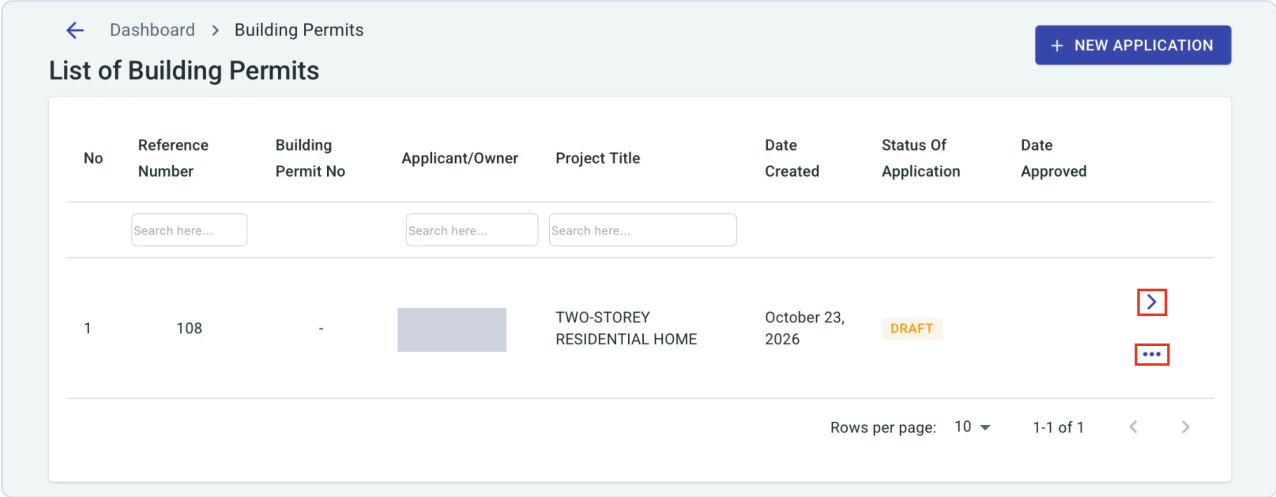

Figure 3.46. The arrow (top) and the three dots (bottom) at the right of a row.

Application remarks

Click the arrow to open **Building Permit Remarks**. The offices that process your application write their remarks here. The table has the columns **Date**, **Process From**, **Remarks** and **Status**. A new application has no remarks yet, so the table says *No remarks found.* Click the X to close the window.

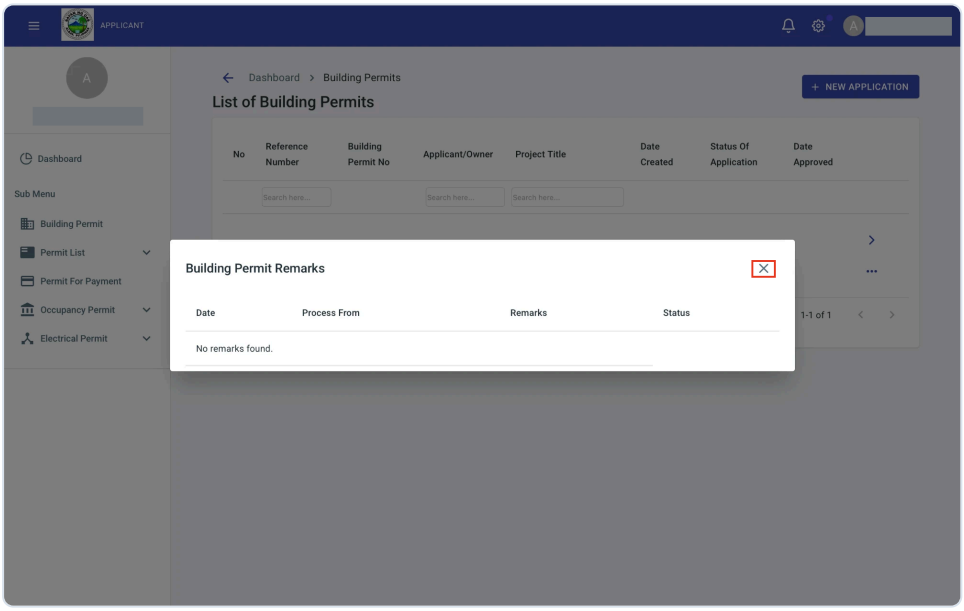

Figure 3.47. The Building Permit Remarks window.

More options

Click the three dots to open a menu of what you can do with the application. An option that is not available for the current status is dimmed.

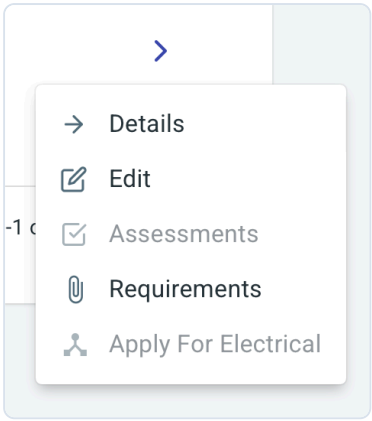

Figure 3.48. The menu of the three dots.

Details

Click **Details** to read the application as the Unified Application Form for Building Permit. Besides Boxes 1 to 5, it has **Box 6**, to be accomplished by the Processing and Evaluation Division, with the table **Assessed Fees**, **Account Code**, **Amount Due** and **Assessed By**. Until the fees are assessed, it says *No assessment found.* The buttons are:

- **Close:** goes back to the list.
- **Update Details:** dimmed in this view. To change the application, use **Edit**.
- **Print:** prints the form.

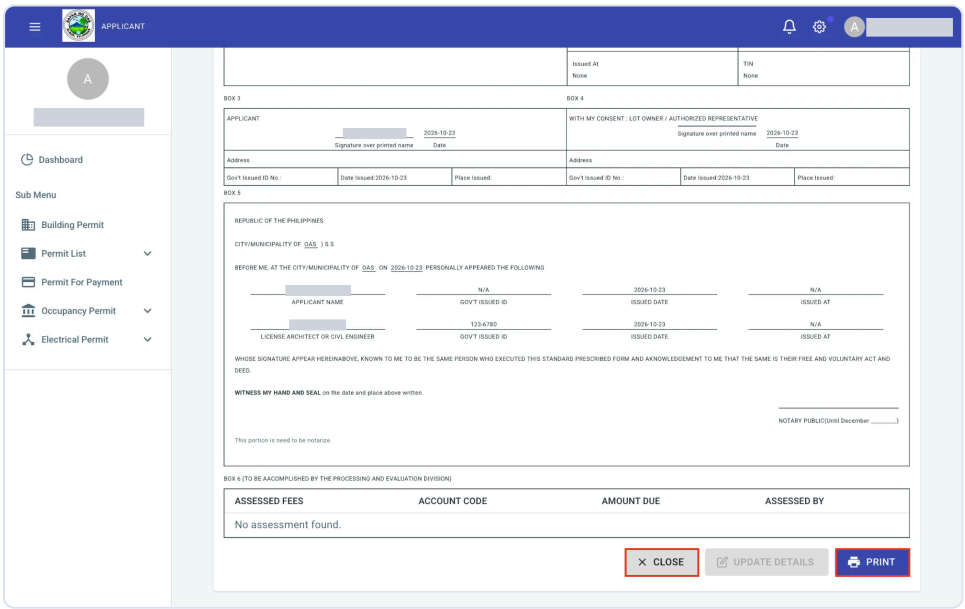

Figure 3.49. The Details of an application, with Close and Print boxed.

Edit

Click **Edit** to change an application. It is available only while the application is a **DRAFT**. The page **Update Building Permit Request** shows the whole form with your answers, so you can change them. Fields with an asterisk (*) are required.

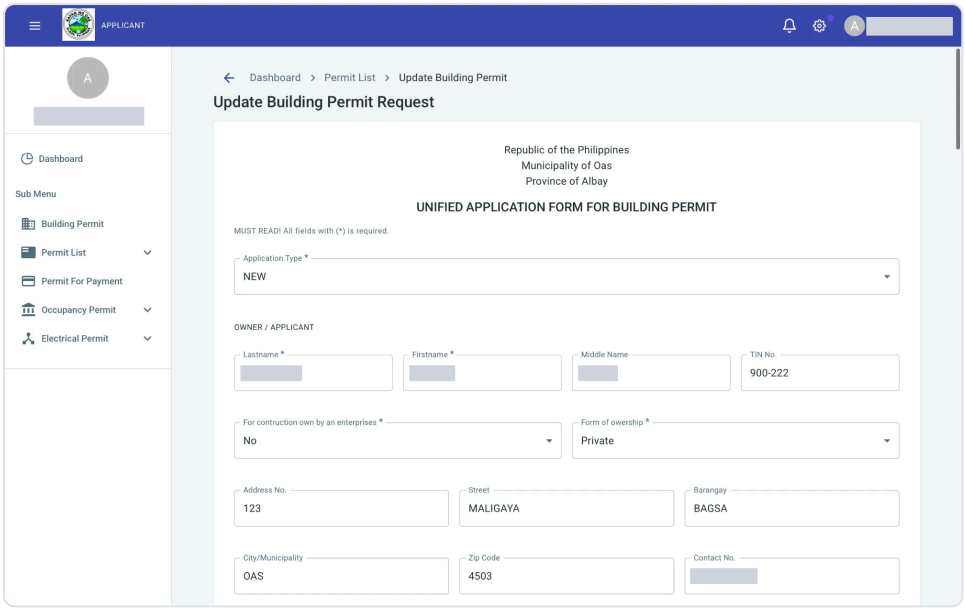

Figure 3.50. The top of the Update Building Permit Request page.

At the bottom of the page, click **Update Request** to save your changes, or **Cancel** to leave without saving.

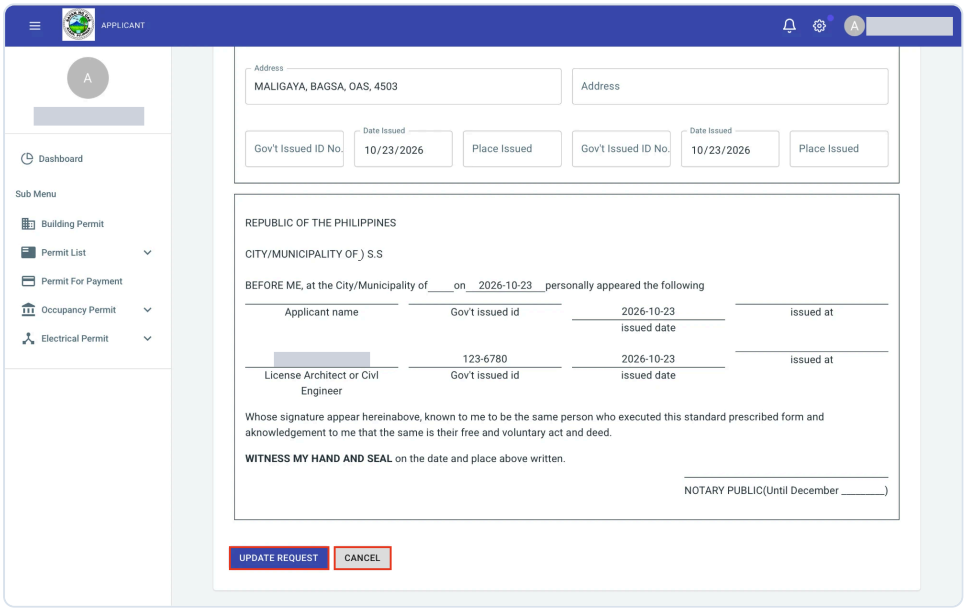

Figure 3.51. Update Request and Cancel at the bottom of the page.

Assessments

Click **Assessments** to see the fees assessed for the application. It is dimmed while the application is a draft, because nothing is assessed yet.

Screenshot of the Assessments page once an application is assessed.

Requirements

Click **Requirements** to open the Requirements List of the application, where you attach the documents and send the application for review.

View Permit

The option **View Permit** appears in the menu only after the application is approved. It opens the permit.

> *Screenshot of View Permit for an approved application.*

Apply For Electrical

Click **Apply For Electrical** to request an electrical permit for the building. It is dimmed until the application reaches the stage that allows it, and after you have applied once.

> *The status at which Apply For Electrical becomes available, and the electrical permit request form.*
